(c) *Knowledge and training requisite for performance of duties.* The minimum amount of training required for the successful performance of the duties described in paragraph (b) of this section is the completion of a 4-year college course leading to a bachelor's degree in a college or university of recognized standing including a minimum of 30 semester hours credit in either geology, mathematics, physics, geophysics, engineering, or closely allied subjects, or any combination thereof. Such college courses include laboratory work (including the use of complex apparatus), lectures, recitations, seminars, and selected reading in various fields all given under competent instruction and guidance. Such curricula are planned and integrated so as to provide a sound and broad training in related scientific fields. Training in the fundamentals of various related scientific fields affords the necessary breadth of knowledge as well as an understanding of the inter-relationships of different fields. New advances in science flow from the combination of new knowledge, sometimes from widely separated fields. The justification for requiring a full 4-year college course for certain positions is that it is the only known method by which a bread understanding of the fundamentals of various related fields may be acquired. Full recognition is also given to the importance of training in verbal facility and the development of facility in logical thinking and expression. The research scientist must be able to present the results of his work clearly and concisely both orally and in written form.

(d) *Method of obtaining basic knowledge and training.* Paragraphs (a)–(c) of this section contain statements of the minimum knowledge and training required to carry on successfully professional complex research work in the field of geophysics. The only method by which such knowledge and training may be acquired is by attending a college or university where competent instruction and guidance is available, where courses are arranged in a systematic progressive schedule and where adequate laboratory facilities and libraries are provided, and where objective evaluations are made of a person's progress in acquiring professional and scientific information.

(e) *Justification.* All people throughout the world today are conscious that they are living in a rapidly moving world and the people of the United States are particularly aware of the urgent need for fundamental research and developmental work in all scientific fields in order to safeguard and improve the nation's security, health, and general welfare. The Congress has given recognition to the vital necessity for such scientific research and developmental work and has authorized, through appropriations, the spending of large sums of money for varied and important programs. These programs are carried on by the various departments and agencies of the Federal government, and have resulted in very notable achievements in scientific research during World War II.

The advances in the various physical sciences, during World War II, have been outstanding and of major importance. This is especially true in the field of geophysics and many of the advances in the allied sciences have been useful in the field of geophysics. Further advances will depend on the number of highly qualified and properly trained geophysicists who are competent to explore the particular phase of the work on which a research problem is centered. Concurrent with these advances in the fields of science is the flow of new scientific knowledge from all fields, so that persons engaged in highly complicated scientific research in geophysics must of necessity possess the fundamental scientific knowledge characteristic of their own field and in addition that of certain allied fields in order that they may successfully attack those complex problems with which they are faced.

§ 24.36 *Junior Professional Assistant*—(a) *Educational requirements*—(1) *Mathematician.* Mathematicians will perform or assist in performing mathematical calculations and computations incident to investigative, developmental and research work in the scientific fields such as engineering, physics, astronomy, etc. These duties include mathematical and statistical analyses of observational data, computation of scientific tables, preparation of graphs and charts, writing scientific reports and practical computations on engineering and scientific problems involving higher mathematics. This work requires a thorough knowledge of basic mathematics such as trigonometric equations, differentiation, integration, solution of differential equations, development and application of formulea, etc. as well as familiarity with other related scientific fields.

Applicants must have successfully completed one of the following:

(i) A full 4-year course, in a college or university of recognized standing, leading to a bachelor's degree in mathematics. This study must have included courses in mathematics consisting of lectures and recitations totaling at least 24 semester hours, and courses in the physical sciences (engineering, physics, geology, astronomy, chemistry, etc.) totaling 12 semester hours.

(ii) Courses in mathematics, in a college, or university of recognized standing, consisting of lectures and recitations totaling at least 24 semester hours; plus additional appropriate experience or education in scientific fields which when combined with the 24 semester hours in mathematics will total 4 years of education and experience and give the applicant the substantial equivalent of the 4-year college course prescribed under (i) above. The following are types of experience which will be accepted in combination with education to complete the 4-year requirement:

Subprofessional or professional experience in the mathematical or statistical analysis of observational data in the physical or biological sciences which provided a working knowledge of the theory and application of mathematical principles.

Research experience in such fields as physics, chemistry, engineering, biology, etc. which involved the evaluation of reports and the organization of experimental data. Subprofessional and higher grade laboratory work, production or manufacturing involving technical duties, and similar types of work which provide a means of obtaining a working knowledge of the theory and application of the scientific principles of a physical or natural science or of engineering.

In either subdivision (i) or (ii) of this subparagraph, the courses must have included analytic geometry, differential calculus, integral calculus and in addition, any four of the following: (*a*) trigonometry, (*b*) theory of equations, (*c*) vector analysis, (*d*) statistics, (*e*) higher algebra (beyond elementary college algebra), (*f*) differential equations, (*g*) advanced differential calculus, (*h*) advanced integral calculus.

(2) *Physicist.* Physicists will conduct or assist in conducting scientific investigative, developmental or fundamental research work in one or more of the specialized fields of physics; and collect, examine, and interpret data relative to any assigned project or specific problem in a specialized field of physics. These duties require a working knowledge of the basic laws, concepts, and terminology of physics which includes the fundamental phenomena of electricity and magnetism; geometrical and physical optics; the thermal properties of matter as related to mechanical applications, molecular motion and radiation; the nature, propagation and detection of sound waves; mechanics; radioactivity and nuclear transformation; and the theory and application of methods of precise measurements in physics.

Applicants must have successfully completed one of the following:

(i) A full 4-year course, in a college or university of recognized standing, leading to a bachelor's degree in physics. This study must have included courses in physics consisting of lectures, recitations, and appropriate practical laboratory work totaling at least 24 semester hours; or

(ii) Courses in physics, in a college or university of recognized standing, consisting of lectures, recitations, and appropriate practical laboratory work totaling at least 24 semester hours; plus additional appropriate experience or education which when combined with the 24 semester hours in physics will total 4 years of education and experience and give the applicant the substantial equivalent of the 4-year college course. The following are types of experience which will be accepted in combination with education to complete the 4-year requirement:

Subprofessional or higher grade laboratory work, production or manufacturing involving technical duties, and similar types of work which provide a means of obtaining a working knowledge of the theory and application of the principles of a physical or natural science or of engineering.

Experience in patent examining, or in abstracting, editing, or translating reports or scientific publications.

Research experience in such fields as physics, chemistry, engineering or biology, which included the analysis of data and the preparation of reports.

Work in physics of a professional grade such as described in the duties of positions to be filled from this examination.

In either subdivision (i) or (ii) of this subparagraph, the courses must have included a fundamental course in general physics and in addition any two of the following: (*a*) electricity and magnetism, (*b*) heat, (*c*) light, (*d*) mechanics, (*e*) modern physics, (*f*) sound.

(3) *Chemist.* Chemists will conduct or assist in conducting scientific investigative developmental or fundamental research work in one or more of the specialized fields of chemistry. This involves highly technical operations, the use of complex apparatus and the application of the scientific principles of the fundamental branches of chemistry and other related scientific fields to the solution of chemical problems. The duties include the collection, examination, and interpretation of scientific data and require a thorough knowledge of the laws, concepts, and theories of chemistry and other related sciences, nomenclature, measurements, methodology and the ability to apply this knowledge in the laboratory.

Applicants must have successfully completed one of the following:

(i) A full 4-year course, in a college or university of recognized standing, leading to a bachelor's degree in chemistry. This study must have included courses in chemistry consisting of lectures, recitations and appropriate practical laboratory work totaling at least 30 semester hours; or

(ii) Courses in chemistry, in a college or university of recognized standing, consisting of lectures, recitations and appropriate practical laboratory work totaling at least 30 semester hours; plus additional appropriate experience or education which, when combined with the 30 semester hours in chemistry, will total 4 years of education and experience and give the applicant the substantial equivalent of the 4-year college course. The following are types of experience which will be accepted in combination with education to complete the 4-year requirement:

Subprofessional and higher grade laboratory work, production or manufacturing involving technical duties, and similar types of work which provide a means of obtaining a working knowledge of the theory and application of the scientific principles of a physical or natural science or of engineering.

Experience in patent examining, or in abstracting, editing, or translating reports or scientific literature.

Research experience in such fields as physics, chemistry, engineering or biology, which included the analysis of data and the preparation of reports.

Chemical work of professional grade, such as that described in the duties of the positions filled from this examination.

In either subdivision (i) or (ii) of this subparagraph, the courses must have included analytical chemistry, both quantitative and qualitative, and in addition, any two of the following: (*a*) advanced inorganic chemistry; (*b*) biochemistry; (*c*) organic chemistry; (*d*) physical chemistry.

(4) *Metallurgist.* Metallurgists will conduct or assist in conducting scientific investigative, developmental or fundamental research work in metallurgy; collect, examine and interpret metallurgical data; design, construct, install or operate metallurgical equipment. These duties require a working knowledge of the basic laws, concepts, techniques, and terminology of recovery or process metallurgy which includes extractive processes such as grinding of ores, sedimentation, roasting, smelting, flotation, leaching, crystallization, precipitation, and electrolysist of metallic salts and physical or adaptive metallurgy which includes adaptive processes such as casting, rolling, hammer forging, drawing, spinning, die-casting, welding, and heat treating. This work requires a knowledge of thermodynamics, stoichiometry, electrochemistry, mineralogy of ores, phase relationships in alloys, the effect of heat and forming processes on crystalline structure, X-ray analysis, microscopic metallography, and methods of testing ores, metals, and metal alloys.

Applicants must have successfully completed one of the following:

(i) A full 4-year course, in a college or university of recognized standing, leading to a bachelor's degree in metallurgy or metallurgical engineering. This study must have included courses in metallurgical subjects consisting of lectures, recitations and appropriate practical laboratory work totaling at least 20 semester hours; or

(ii) Courses in metallurgical subjects, in a college or university of recognized standing, consisting of lectures, recitations, and appropriate practical laboratory work totaling at least 20 semester hours; plus additional appropriate experience or education, which when combined with the 20 semester hours in metallurgical subjects, will total 4 years of education and experience and give the applicant the substantial equivalent of the 4-year college course.

The following are types of experience which will be accepted in combination

with education to complete the 4-year requirement:

Subprofessional and higher grade laboratory work, production or manufacturing involving technical duties, and similar types of work which provide a means of obtaining a working knowledge of the theory and application of the scientific principles of a physical or natural science or of engineering.

Experience in patent examining, or in abstracting, editing, or translating reports or scientific literature dealing with matters closely related to the field of metallurgy.

Research experience in such fields as physics, chemistry or engineering which included the analysis of data and the preparation of reports.

Metallurgical work of professional grade such as that described in the duties of the positions to be filled from the examination, or related work of a subprofessional grade.

In either subdivision (i) or (ii) of this subparagraph the courses must have included at least 3 of the following:

(*a*) Physical metallurgy; (*b*) metallurgy of iron and steel; (*c*) metallurgy of non-ferrous metals; (*d*) metallography; (*e*) mineral dressing; (*f*) electrometallurgy; (*g*) process metallurgy.

(5) *Geographer.* Geographers will perform or assist in performing professional work in the field of geography; perform related cartographic work including the compilation and the analyzing of geographic data; assist in studies and researches relating to industrial and commercial geography, soils, soil erosion and land utilization mapping, climatology, vegetation distribution, and allied fields; prepare reports on the geography (physical, economic, social, and political) of specified areas; and assist in the establishment and use of map collections.

Applicants must have successfully completed one of the following:

(i) A full 4-year course, in a college or university of recognized standing, leading to a bachelor's degree. This study must have included or been supplemented by courses in geography consisting of lectures and recitations totaling at least 24 semester hours. Study in closely allied fields such as geology, archaeology, cartography, etc., may be included in the 24 semester hours of geography provided the applicant shows at least 15 hours in purely geographic subjects; or

(ii) Courses in geography, in a college or university of recognized standing, consisting of lectures and recitations totaling at least 24 semester hours; plus additional appropriate experience or education which when combined with the 24 semester hours in geography will total 4 years of education and experience and give the applicant the substantial equivalent of the 4-year college course. Study in closely allied fields such as geology, archaeology, cartography, etc., may be included in the 24 semester hours of geography, provided the applicant shows at least 15 hours in purely geographic subjects. The following are types of experience which will be accepted in combination with education to complete the 4-year requirement:

Library or field research dealing with the collection and analysis of geographic of closely allied data.

Assisting in editing, abstracting, or translating documents, scientific literature and preparing reports relating to geography, or closely allied fields such as geology, or meteorology, etc.

Experience gained in such positions as geographic aid, scientific aid in geology, air intelligence specialist, or cartographer.

Subprofessional or higher grade experience in the field of oceanography, nautical science, air navigation, and other related fields.

(6) *Textile technologist.* Textile technologists will conduct, or assist in conducting, scientific investigative, developmental, production, or fundamental research work in textile technology. These duties include work in such branches of textile technology as yarn and fabric manufacturing, processing, and utilization; textile chemistry; fiber technology; determination of the physical characteristics of textiles and textile fibers. All of these duties involve the collection, examination, and interpretation of scientific and operating data and require a knowledge of the scientific laws and concepts underlying textile processing, manufacturing, designing, and utilization.

Applicants must have successfully completed one of the following:

(i) A full 4-year course, in a college or university of recognized standing, leading to a bachelor's degree in textile technology. This study must have included courses in textile technology consisting of lectures, recitations and appropriate practical laboratory work totaling at least 20 semester hours; or

(ii) Courses in textile technology, in a college or university of recognized standing, consisting of lectures, recitations and appropriate practical laboratory work totaling at least 20 semester hours; plus additional appropriate experiences or education which, when combined with the 20 semester hours in textile technology, will total 4 years of education and experience and give the applicant the substantial equivalent of the 4-year college course. The following are types of experience which will be accepted in combination with education to complete the 4-year requirement:

Subprofessional and higher grade laboratory work, production or manufacturing involving technical duties, and similar types of work which provide a means of obtaining a working knowledge of the theory and application of the scientific principles of a physical or natural science or of technology or engineering.

Experience in patent examining, or in abstracting, editing, or translating reports or scientific literature dealing with textiles and related matters.

Research experience in such fields as physics, chemistry, engineering, or biology, which included the analysis of data and the preparation of scientific reports.

Technological work of professional grade, such as the duties of the position shown above, or professional and subprofessional work in related duties.

(7) *Archivist.* Archivists will analyze, evaluate, and appraise government records for the purpose of determining which ones are of historical value. They may be responsible for classifying the documents and for preparing index cards containing a brief summary of the contents of the material. Their duties may also include reference and research work to locate information requested by specialists in various fields who are engaged in identifying, classifying and preserving documentary materials.

Applicants must have successfully completed one of the following:

(i) A full 4-year course, in a college or university of recognized standing, including or supplemented by 12 semester hours in U. S. history and 18 semester hours in any one or in any combination of the following: (*a*) history; (*b*) political science; (*c*) sociology; (*d*) economics; (*e*) public administration; or

(ii) Courses in a college or university of recognized standing as described in (i) above; plus additional appropriate education or experience which, when combined with the 12 semester hours in U. S. history and 18 semester hours in the other above-mentioned subjects, will total 4 years of education and experience and give the applicant the substantial equivalent of the 4-year college course. The following are types of experience which will be accepted in combination with education to meet this requirement:

Experience as an archivist in a Federal, State, church, business, or other archives.

Experience as a records analyst engaged in the management and retirement of non-current records in a Government agency.

Responsible experience in the Historical Records Survey.

(8) *Economist.* Economists will conduct elementary professional economic research, including the evaluation and briefing of expository data, the appraisal and compilation of statistical data, and the preparation of tentative economic reports on some phase of a major economic problem.

Applicants must have successfully completed one of the following:

(i) A full 4-year course leading to a bachelor's degree, in a college or university of recognized standing, with 24 semester hours in economics and 3 semester hours in statistics.

(ii) Courses consisting of 24 semester hours in economics and 3 semester hours in statistics, in a college or university of recognized standing; plus additional appropriate experience or education which when combined with these courses, will total 4 years of education and experience and give the applicant the substantial equivalent of a 4-year college course. The following are types of experience which will be accepted in combination with education to complete the 4-year requirement:

Progressively responsible clerical experience in the appraisal of economic data (not of a statistical nature), and the preparation of economic outlines, briefs and reports.

Progressively responsible clerical experience in the appraisal of economic data, both expository and statistical; the compilation of appropriate statistical data; and the preparation of economic outlines, briefs and reports.

(9) *Statistician.* Statisticians will conduct elementary professional statistical research including the use, under guidance, of technical statistical method; the initial appraisal of statistical measures; and the preparation and interpretation of tables, charts and graphs.

Applicants must have successfully completed one of the following:

(i) A full 4-year course, leading to a bachelor's degree, in a college or university of recognized standing, with 20 semester hours in statistics; or 30 semester hours of college work consisting of a combination including 6 semester hours in statistics and 24 semester hours in any one of the following: (*a*) economics; (*b*) agricultural economics; (*c*) sociology; (*d*) political science; (*e*) social service; (*f*) education; (*g*) psychology; (*h*) home economics; (*i*) biology; (*j*) public health; (*k*) agriculture; (*l*) mathematics; (*m*) engineering; (*n*) physics.

(ii) Courses as given under (i) above; plus additional appropriate experience or education which, when combined with these courses, will total 4 years of education and experience and give the applicant the substantial equivalent of a 4-year college course. The following are types of experience which will be accepted in combination with education to complete the 4-year requirement:

Progressively responsible clerical experience in (*a*) use of frequency distributions; (*b*) calculation of measures of central tendency, measures of variation and skewness, or index numbers; (*c*) graphic analysis, time series analysis or correlation analysis under the direction of a professional statistician.

Progressively responsible experience in planning statistical surveys; processing statistical data, including the collection, compilation, verification and appraisal of consistency of numerical data; and analyzing statistical data.

(10) *Agricultural bacteriologist.* Agricultural bacteriologists will assist in performing research or other professional or scientific work in the field of bacteriology, including the study of micro-organisms in agricultural products, such as dairy products, food and foodstuffs, textiles and soils. These duties require a working knowledge of the basic principles, concepts and terminology of bacteriology.

Applicants must have successfully completed one of the following:

(i) A full 4-year course in a college or university of recognized standing, leading to a bachelor's degree with a major in biological science including not less than 6 semester hours in bacteriology.

(ii) Courses in biological science in a college or university of recognized standing consisting of lectures, recitations and laboratory work totaling at least 20 hours of which not less than 6 are in bacteriology; plus additional appropriate experience or education which, when combined with the 20 semester hours prescribed, will total 4 years of education and experience and give the applicant the substantial equivalent of a 4-year college course.

The following are types of experience which will be accepted in combination with education to complete the 4-year requirement:

Technical experience in a biological science laboratory.

Teaching bacteriology courses.

(11) *Agricultural economist.* Agricultural economists will assist in research or other scientific or professional works in the field of agricultural economics, applying basic economic laws and principles in connection with the collection of agricultural data and will assist in the preparation of reports on farm policies and on the production and distribution of agricultural commodities. These duties require a working knowledge of the basic principles, concepts and terminology of agricultural economics and a knowledge of the application of statistics to economic research.

Applicants must have successfully completed one of the following:

(i) A full 4-year course leading to a bachelor's degree in a college or university of recognized standing with a major in agricultural economics. Study leading to a major in the closely allied fields of general economics, political science or sociology may be substituted for a part of the courses usually taken in obtaining a major in agricultural economics provided the applicant shows at least 12 semester hours in agricultural economics and 3 semester hours in statistics.

(ii) Courses in agricultural economics in a college or university of recognized standing, consisting of lectures and recitations totaling 21 semester hours in agricultural economics and 3 semester hours in statistics plus additional appropriate experience or education which when combined with the 21 semester hours in agricultural economics and 3 semester hours in statistics will total 4 years of education and experience and will give the applicant the substantial equivalent of a 4-year college course. Study in the closely allied fields of general economics, political science or sociology may be included in the 21 semester hours in purely agricultural economic subjects and 3 semester hours in statistics.

The following is a type of experience which will be accepted in combination with education to complete the 4-year requirement:

Progressively responsible experience in the collection and preliminary analysis of statistical and narrative economic data in the agricultural fields, such as production, distribution, prices and income.

(12) *Agronomist.* Agronomists will perform research or other scientific or professional work in the field of agronomy. They will assist in crop adaptation surveys; develop field survey reports, identify soil types; advise on use of fertilizer and other soil amendments; assist in developing suitable crop rotations; identify weeds and crop seeds; supervise the production of elite and other types of improved farm crop seeds; assist in research projects such as crop improvement, breeding and disease resistance programs. These duties require a working knowledge of the basic principles, concepts and terminology of agronomy, crop genetics, cultivation, fertilization and rotation.

Applicants must have successfully completed one of the following:

(i) A full 4-year course, in a college or university of recognized standing leading to a bachelor's degree with a major in agronomy, or

(ii) Courses in plant science and agronomy in a college or university of recognized standing consisting of lectures and recitations and laboratory work totaling at least 30 semester hours including 10 semester hours in farm crops, 6 semester hours in soils, and 4 semester hours in animal husbandry; plus additional apropriate experience or education which when combined with the 30 semester hours will total 4 years of education and experience and give the applicant the substantial equivalent of a 4-year college course.

The following are types of experience which will be accepted in combination with education to complete the 4-year requirement:

Responsible technical experience on a farm growing hybrid corn or similar class of seed commercially.

Responsible agronomic experience on a college or other experiment station.

(13) *Animal husbandman.* Animal husbandmen will assist in research or other professional or scientific work in the care, breeding and feeding of domestic animals, other than dairy animals, and in the investigation of the effect of environment on animal products. These duties require a working knowledge of the basic principles, concepts and terminology of animal husbandry, animal nutrition and animal production.

Applications must have successfully completed one of the following:

(i) A full 4-year course in a college or university of recognized standing leading to a bachelor's degree with a major in animal husbandry, or:

(ii) Courses in animal husbandry, in a college or university of recognized standing consisting of lectures, recitations and laboratory work totaling at least 20 semester hours in animal husbandry plus additional appropriate education or experience which when combined with the prescribed courses will total four years of education and experience and give the applicant the substantial equivalent of a four-year college course.

The following are types of experience which will be accepted in combination with education to complete the 4-year requirement:

Responsible experience with an experimental group of farm or ranch animals.

Responsible experience with a large commercial group of farm or ranch animals.

(14) *Aquatic biologist.* Aquatic biologists will assist in research or other scientific, or professional work in the study of life history, habits, classification, and economic relations of aquatic organisms and fish, particularly those forms of importance to industry. These duties require a working knowledge of the basic principles, concepts and terminology of

aquatic biology, economic biology, fish conservation and plant physiology.

Applicants must have successfully completed one of the following:

(i) A full 4-year course, in a college or university of recognized standing leading to a bachelor's degree with a major in biological science including 6 semester hours in the biology of aquatic organisms.

(ii) Courses in biology in a college or university of recognized standing consisting of lectures and recitations totaling 30 semester hours in biology, including at least 6 semester hours in the biology of aquatic organisms; plus additional appropriate experience or education which when combined with the 30 semester hours in biology will total 4 years of education and experience and give the applicant the substantial equivalent of a 4-year college course.

The following are types of experience which will be accepted in combination with education to complete the 4-year requirement:

Subprofessional or professional laboratory work which provided a means of obtaining a working knowledge of the theory and application of the scientific principles of a biological science.

Experience in abstracting, editing or translating reports or scientific literature in aquatic biology or closely related fields.

Research experience in aquatic biology or related fields.

Other work in aquatic biology of a professional nature.

(15) *Biologist (Wildlife).* Wildlife biologists will assist in the performance of research or other scientific or professional work in the investigation of the distribution, habits, life history and classification of birds, mammals and other animal life and their relation to agriculture and other interests. These duties require a working knowledge of the basic principles, concepts and terminology of zoology and botany.

Applicants must have successfully completed one of the following:

(i) A full 4-year course in a college or university of recognized standing, leading to a bachelor's degree with a major in biology including at least 10 semester hours in zoology;

(ii) Courses in biology in a college or university of recognized standing consisting of lectures, recitations and laboratory work, totaling 30 semester hours of which at least 10 must have been in zoology and 10 in botany; plus additional appropriate experience or education which when combined with the 30 semester hours in biology will total 4 years of education and experience and give the applicant the substantial equivalent of a 4-year college course.

The following are types of experience which will be accepted in combination with education to complete the 4-year requirement:

Technical laboratory work in biology dealing with some phase of wildlife.

Responsible experience in the field in making surveys of wildlife habits and foods.

(16) *Botanist.* Botanists will assist the planning and execution of field and laboratory work in botanical research or other scientific or professional work in the field of botany, including the making of observations, and the collection, examination and statistical analysis of data. They will assist in identification and description of plants and seeds, and the investigation of their distribution, habits of growth and economic value. These duties require a working knowledge of the basic principles, concepts and terminology of botany.

Applicants must have successfully completed one of the following:

(i) A full 4-year course in a college or university of recognized standing, leading to a bachelor's degree with a major in botany.

(ii) Courses in botany in a college or university of recognized standing consisting of lectures, recitations and laboratory work totaling at least 20 semester hours; plus additional appropriate experience which when combined with the 20 semester hours in botany will total 4 years of education and experience and give the applicant the substantial equivalent of a 4-year college course.

The following are types of experience which will be accepted in combination with education to complete the 4-year requirement:

Subprofessional or professional laboratory work which provides a means of obtaining a working knowledge of the theory and application of the scientific principles of a botanical science.

Experience in abstracting, editing, or translating reports or scientific literature in botany or closely related fields. Research experience in botany or related fields.

Work in botany of a professional grade, such as described in the typical duties of the positions to be filled from this examination.

Teaching botany.

(17) *Dairy husbandman.* Dairy husbandmen will assist in research or other professional or scientific work in the breeding, nutrition and management of dairy cattle. These duties require a working knowledge of the basic principles, concepts and terminology of dairy husbandry, dairy animal nutrition and animal production.

Applicants must have successfully completed one of the following:

(i) A full 4-year course in a college or university of recognized standing leading to a bachelor's degree with a major in dairy husbandry, or in animal husbandry including at least one course in dairy husbandry.

(ii) Courses in dairy husbandry and animal husbandry in a college or university of recognized standing consisting of lectures, recitations and laboratory work totaling at least 20 semester hours plus additional appropriate experience or education which when combined with the 20 hours in dairy and animal husbandry will total 4 years of education and experience and give the applicant the substantial equivalent of a 4-year college course.

The following are types of experience which will be accepted in combination with education to complete the 4-year requirement:

Responsible experience in the breeding, nutrition and management of a large pure bred or commercial dairy herd.

Responsible experience in the breeding, nutrition and management of a college or experiment station dairy herd.

(18) *Dairy manufacturing specialist.* Dairy manufacturing specialists will assist in performing research or other professional or scientific work in the development and introduction of improved methods in the manufacture or processing of milk and milk products. These duties require a working knowledge of the principles, concepts and terminology of dairy practice, milk testing, the manufacture of dairy products, and dairy economics.

Applicants must have successfully completed one of the following:

(i) A full 4-year course in a college or university of recognized standing leading to a bachelor's degree with a major in dairy manufacturing, or;

(ii) Courses in dairy manufacturing in a college or university of recognized standing consisting of lectures, recitations and laboratory work totaling not less than 20 semester hours plus additional appropriate experience or education which when combined with the 20 semester hours in dairy manufacturing will total 4 years of education and experience and give the applicant the substantial equivalent of a 4-year college course.

The following are types of experience which will be accepted in combination with education to complete the 4-year requirement:

Responsible experience in the following:

Laboratory analysis and research of milk and milk products.

State or municipal inspection of creameries.

Butter maker, cheese maker, ice cream maker or processor of whole milk in a large commercial milk plant.

(19) *Entomologist.* Entomologists will assist in field and laboratory research or other scientific or professional work on the control of insects affecting crops or on the utilization of beneficial insects. They will make field collections and tentative identifications of insects, breed and care for insects under laboratory conditions; test fumigants and other insecticides, apply treatments and assemble and summarize results in report form. These duties require a working knowledge of the basic principles, concepts and terminology of zoology.

Applicants must have successfully completed one of the following:

(i) A full 4-year course in a college or university of recognized standing leading to a bachelor's degree with a major in entomology or in zoology including at least one course in entomology; or

(ii) Courses in entomology or in entomology and zoology combined in a college or university of recognized standing consisting of lectures, recitations and laboratory work totaling at least 20 semester hours; plus additional appropriate education or experience which when combined with the 20 semester hours in entomology or entomology and zoology will total 4 years of education and experience and give the applicant the substantial equivalent of a 4-year college course.

The following are types of experience which will be accepted in combination with education to complete the 4-year requirement:

Subprofessional or professional laboratory work which provided a means of obtaining a working knowledge of the theory and application of the scientific principles of a biological science.

Experience in abstracting, editing or translating reports or scientific literature in entomology and closely related fields.

Research experience in entomology or related fields.

Work in entomology of a professional nature.

(20) *Farm management supervisor.* Farm management supervisors advise on or perform technical or other professional work in the field of farm management involving the extension of credit and the supervision of operators of family type farms. The duties of this position require a practical working knowledge of the basic principles, concepts and terminology of farm management, farm credit, and crop and livestock management.

Applicants must have successfully completed one of the following:

(i) A full 4-year course leading to a bachelor's degree in a college or university of recognized standing with a major in farm management, or in other fields within agricultural economics, or in agronomy, animal husbandry, or agricultural engineering; or

(ii) Courses in farm management or one of the other agricultural sciences acceptable toward a degree in a college or university of recognized standing, consisting of lectures, recitations and laboratory work totaling at least 40 semester hours, including at least one course in each of the following groups: (*a*) farm management, agricultural finance, or other fields within agricultural economics; (*b*) soils; (*c*) crops; (*d*) animal, dairy or poultry husbandry, including feeds and feeding or animal nutrition; (*e*) horticulture or agricultural engineering; plus additional appropriate experience or education which, when combined with the 40 semester hours of course work outlined above, will total 4 years of education and experience and give the applicant the substantial equivalent of a 4-year college course.

The following are types of experience which will be accepted in combination with education to complete the 4-year requirement:

Technical experience in the fields of rural rehabilitation work, vocational agriculture, soil conservation or agricultural extension.

Experience involving responsibility for the operation or management of a farm.

(21) *Geneticist.* Geneticists will assist in research or other scientific or professional work in the field of plant or animal genetics, including breeding programs and investigation of the inheritance of economically important characteristics such as yield and resistance to disease and insects, and other similar activities. They will assist in related cytogenetical and cytotaxonomic studies. These duties require a working knowledge of the basic principles, concepts and terminology of genetics in relation to plant and animal breeding.

Applicants must have successfully completed one of the following:

(i) A full 4-year course, in a college or university of recognized standing, leading to a bachelor's degree with a major in a biological science with six semester hours in genetics including cytogenetics.

(ii) Courses in biological science with a minimum of six semester hours in genetics and cytogenetics in a college or university of recognized standing consisting of lectures, recitations and laboratory work totaling at least 20 semester hours plus additional appropriate experience or education which when combined with the prescribed 20 semester hours will total 4 years of education and experience and give the applicant the substantial equivalent of a 4-year college course.

The following are types of experience which will be accepted in combination with education to complete the 4-year requirement:

Subprofessional or professional laboratory work which provided a means of obtaining a working knowledge of the theory and application of the scientific principles of a biological science.

Experience in abstracting, editing or translating reports or scientific literature in genetics or closely related fields.

Research experiences in genetics or related fields.

Work in genetics of a professional nature.

(22) *Home economist.* Home economists perform research or other scientific or professional work in the field of home economics. They will provide homemaking education and guidance to farm families; perform laboratory research in one or more specialized areas of home economics; carry on statistical or economic studies of family economics, food consumption, or nutritional status. These duties require a working knowledge of the principles, concept and terminology of home economics, home management, family economic problems, foods and nutrition, textiles and clothing, economics, sociology and statistics.

Applicants must have successfully completed one of the following:

(i) A full 4-year course in a college or university of recognized standing leading to a degree with a major in home economics; or

(ii) Courses in home economics in a college or university of recognized standing consisting of lectures, recitations and laboratory work totaling at least 24 semester hours plus additional appropriate education or experience which when combined with the 24 semester hours in home economics will total 4 years of education and experience and give the applicant the substantial equivalent of a 4-year college course.

The following are types of experience which will be accepted as meeting the 4-year requirement:

Teaching home economics.

Experience as a laboratory assistant in a research laboratory engaged in research related to the field of home economics.

Experience as the supervisor of a quantity food service.

Participation in statistical or economic research related to the field of home economics.

Technical experience in home demonstration work with farm families.

(23) *Horticulturist.* Horticulturists will assist in the performance of research or other scientific or professional work in horticulture, including the collection examinations and statistical analysis of data and the introduction and testing of fruits, vegetables and ornamental plants. The duties of this position require a working knowledge of the basic principles, concepts and terminology of horticulture, plant science and plant physiology.

Applicants must have successfully completed one of the following:

(i) A full 4-year course in a college or university of recognized standing leading to a bachelor's degree with a major in horticulture (olericulture, pomology or floriculture).

(ii) Courses in horticulture, in a college or university of recognized standing consisting of lectures, recitations and laboratory work totaling at least 10 semester hours and at least 10 semester hours in plant sciences including plant physiology; plus additional appropriate education or experience which when combined with the 20 semester hours in horticulture and plant science will total 4 years of education and experience and give the applicant the substantial equivalent of a 4-year college course.

The following are types of experience which will be accepted in combination with education to complete the 4-year requirement:

Subprofessional or professional laboratory or field work which provided a means of obtaining a working knowledge of the theory and application of the scientific principles of a natural science.

Experience in abstracting, editing or translating reports or scientific literature in horticulture or closely related fields.

Research experience in horticulture or related fields.

Work in horticulture of a professional nature.

(24) *Plant pathologist.* Plant pathologists will assist in the performance of research or other scientific or professional work in the field of plant pathology, including investigations of the cause, characteristics, and control, or prevalence and distribution of specific plant diseases and their relation to planting, cultivation, transportation, and storage methods. The duties of this position require a working knowledge of the basic principles, concepts and terminology of botany, plant science, and plant pathology.

Applicants must have successfully completed one of the following:

(i) A full 4-year course, in a college or university of recognized standing, leading to a bachelor's degree with a major in botany or plant science including at least 10 semester hours in plant pathology.

(ii) Courses in botany or plant science totaling at least 20 semester hours with a minimum of 10 semester hours of plant pathology in a college or university of recognized standing consisting of lectures, recitations and laboratory work plus additional appropriate experience or education which when combined with the 20 semester hours prescribed will total 4 years of education and experience and give the applicant the substantial equivalent of a 4-year college course.

The following are types of experience which will be accepted in combination with education to complete the 4-year requirement:

Subprofessional or professional laboratory work which provided a means of obtaining a working knowledge of the theory and application of the scientific principles of a natural science.

Experience in abstracting, editing or translating reports or scientific literature in plant pathology or closely related fields.

Research experience in plant pathology or related fields.

Work in plant pathology of a professional grade, such as described in the duties of the positions to be filled from this examination.

(25) *Plant physiologist.* Plant physiologists will assist in the performance of research or other scientific or professional work in plant physiology, including studies of the effect of toxic substances, soil and nutritional conditions upon plant growth and maturity and of conditions affecting the storage life of fruits and vegetables. The duties of this position require a working knowledge of the principles, concepts and terminology of botany, plant science and plant physiology.

Applicants must have successfully completed one of the following:

(i) A full 4-year course, in a college or university of recognized standing leading to a bachelor's degree with a major in botany or plant science with a minimum of 10 semester hours of plant physiology.

(ii) Courses in plant science totaling at least 20 semester hours including at least 10 semester hours of plant physiology in a college or university of recognized standing consisting of lectures, recitations and laboratory work; plus additional appropriate education or experience which when combined with the 20 semester hours in plant science will total 4 years of education or experience and give the applicant the substantial equivalent of a 4-year college course.

The following are types of experience which will be accepted in combination with education to complete the 4-year requirement:

Subprofessional or professional laboratory work which provided a means of obtaining a working knowledge of the theory and application of the scientific principles of a natural science.

Experience in abstracting, editing or translating reports or scientific literature in plant physiology or closely related fields.

Research experience in plant physiology or related fields.

Work in plant physiology of a professional grade, such as described in the duties of the positions to be filled from this examination.

(26) *Poultry husbandman.* Poultry husbandmen will assist in research or other professional or scientific work in the care, breeding and feeding of poultry and in the investigation of the effect of environment on poultry products. The duties of this position require a working knowledge of the principles, concepts and terminology of animal husbandry, poultry husbandry, animal nutrition, and animal breeding.

Applicants must have successfully completed one of the following:

(i) A full 4-year course in a college or university of recognized standing leading to a degree with a major in poultry husbandry or in animal husbandry including at least one course in poultry husbandry; or,

(ii) Courses in poultry husbandry or poultry husbandry and animal husbandry combined, in a college or university of recognized standing consisting of lectures, recitations and laboratory work totaling 20 semester hours plus additional appropriate education or experience which when combined with the prescribed courses will total 4 years of education and experience and give the applicant the substantial equivalent of a 4-year college course.

The following are types of experience which will be accepted in combination with education to complete the 4-year requirement:

Responsible experience with an experimental poultry flock.

Responsible experience with a large commercial poultry flock or hatchery.

(27) *Soil conservationist.* Soil conservationists advise on or perform technical or other professional and scientific work in the field of soil conservation, involving farm planning and soil or water conservation practices. The duties of this position require a practical working knowledge of the basic principles, concepts and terminology of water conservation, sound land use, and control and prevention of soil erosion.

Applicants must have successfully completed one of the following:

(i) A full 4-year course, in a college or university of recognized standing, leading to a bachelor's degree with a major in soil conservation or one of the other agricultural sciences; or,

(ii) Courses in soil conservation or one of the other related agricultural sciences acceptable toward a degree in a college or university of recognized standing, consisting of lectures, recitations and laboratory work totaling at least 40 semester hours, including at least one course in each of the following groups: (*a*) soils or soil conservation; (*b*) woodland management, plant ecology or economic biology; (*c*) farm crops and pasture management; (*d*) feeds and feeding or animal nutrition; (*e*) farm or range management or agricultural economics; (*f*) farm drainage, hydraulics, hydrology or plane surveying; plus additional appropriate experience or education which when combined with the 40 semester hours will total 4 years of education or experience and give the applicant the substantial equivalent of a 4-year college course in agricultural science.

Applicants for positions in range country must show at least one course in range management.

The following are types of experience which will be accepted in combination with education to complete the 4-year requirement:

Technical experience in the fields of soil conservation, agricultural extension or rural rehabilitation work.

(28) *Soil scientist.* Soil scientists will assist in research or other scientific or professional work in the field of soil science including making soil classification surveys, recommending soil management treatments; assuming major responsibility for elementary soil tests and analyses. The duties of this position require a working knowledge of the basic principles, concepts and terminology of soil science.

Applicants must have successfully completed one of the following:

(i) A full 4-year course in a college or university of recognized standing leading to a bachelor's degree with a major in soils or closely related subjects (agronomy, physical geography, geology (not economic)); or,

(ii) Courses in soils or closely related subjects (agronomy, physical geography, geology (not economic)), in a college or university of recognized standing consisting of lectures, recitations and laboratory work totaling at least 20 semester hours; plus additional appropriate experience or education which when combined with the 20 semester hours will total 4 years of education and experience and give the applicant the substantial equivalent of a 4-year course.

The following are types of qualifying experience which will be acceptable in combination with education to complete the 4-year requirement:

Responsible experience with a soil survey crew.

Responsible experience in a soils laboratory.

Teaching experience in soils.

(29) *Zoologist (Parasitology).* Zoologists will assist in performing research or other professional or scientific work in the field or laboratory relating to parasites and parasitic diseases of domestic animals, fur-bearing animals and poultry. The duties of this position require a working knowledge of the basic principles, concepts and terminology of zoology.

Applicants must have successfully completed one of the following:

(i) A full 4-year course, in a college or university of recognized standing, leading to a bachelor's degree with a major in zoology including at least one course in parasitology; or,

(ii) Courses in zoology and parasitology, in a college or university of recognized standing, consisting of lectures, recitations and laboratory work totaling at least 20 semester hours plus additional appropriate experience or education which when combined with the prescribed 20 semester hours will total 4 years of education and experience and give the applicant the substantial equivalent of a 4-year college course.

Applicants must show at least one course in parasitology or 6 months' technical experience working with animal parasites.

The following are types of experience which will be accepted in combination with education to complete the 4-year requirement:

Subprofessional or professional grade laboratory work which provided a means of obtaining a working knowledge of the theory and application of the scientific principles involved in operations of a zoological laboratory.

Research or technical experience in parasitology or closely related fields.

(b) *Restriction of certification for highly technical positions.* For positions involving highly technical research, design or development, or similar functions, certification may be restricted to eligibles who show the successful completion of a full college course in the appropriate option.

(c) *Duties.* The options selected for the current Junior Professional Assistant examination are of highly specialized nature, having to do with original research, design or development or other functions of comparable scope or difficulty.

Appointees perform professional work in the appropriate specialized field or option in connection with (1) the study, collection, investigation, classification, analysis, preservation and interpretation of data, documents, exhibits or publications in one or more of the social or physical sciences, or (2) a wide variety of projects requiring the use or development of technical equipment, laboratory apparatus, chemical compounds and solutions, other scientific instruments, or research methods and devices.

(d) *Knowledge and training requisite for performance of duties.* The Junior Professional Assistant positions are at the entrance level to a career in the scientific and professional service. Appointees must have an understanding of the fundamental important basic principles, methods and skills required in the appropriate scientific or professional field, and they must be equipped with considerable specialized knowledge if they are to deal in an effective manner with the varied and diversified problems to be encountered. This may only be obtained through instruction and training where an adequate comprehensive and preferably an exceptional background and foundation in the appropriate scientific or professional field is furnished. A thorough knowledge of the literature of the scientific or professional field is essential together with the ability to understand and make use of that which has been written. Incumbents must, to a marked degree, be fitted to advance into more responsible, more technical and more exacting positions.

(e) *Method of obtaining basic knowledge and training.* The professional and scientific knowledge and training, of the level and extent required for the proper performance of these duties, can be obtained only by attending and completing major study in the appropriate option at a college or university of recognized standing, where a full staff of competent instructors and adequate library, laboratory and other research facilities are available and where suitable standards regarding completeness of program and attainment of proficiency may be enforced.

§ 24.37 *Occupational Therapist, P–1 and above*—(a) *Educational requirement.* Applicants must show graduation from schools of occupational therapy approved by the American Medical Association.

(b) *Duties.* Occupational therapists work under medical supervision administering occupational therapy treatments to patients in Government hospitals involving programs in functional treatment for physical disabilities such as orthopedic conditions, fractures, lacerations, amputations, nerve injuries, plastic surgery and neuro-psychosis disabilities; keeping daily records of treatments, work and progress of each patient under treatment, planning and executing projects in trades, industries, agriculture, crafts, habit, training, etc. In the higher grades, occupational therapists, in addition to administering occupational therapy, direct the work of occupational therapists of lower grades. The duties performed and the responsibilities assumed vary with and are proportionate to the grade of the position.

(c) *Knowledge and training requisite for performance of duties.* The field of occupational therapy has developed to such an extent that the scope which it now encompasses is very dissimilar to that after World War I. Occupational Therapy has progressed to such an extent that detailed study is necessary to learn the application of arts and crafts and trades and industries in the treatment of injured and disabled patients. These occupations are utilized not to amuse the patients or to give recreation, but are to be used as a means of treatment. As directed by the Medical Officer, the occupational therapist instructs the patient in occupations in order to regain, for example, flexion of the fingers, or to loosen adhesions in a stiff joint such as the knee joint.

Occupational Therapists must learn anatomy, kinesiology, physiology, normal and abnormal psychology, and basic arts and crafts. They must be instructed how to apply the occupations in the treatment of patients. They must learn thoroughly what treatments may be given and how to give them; they must learn what they must not do. They must fully understand the indications and contra-indications for occupational therapy treatment to a particular patient. The Occupational Therapists must be trained to recognize symptoms of over-exercise or fatigue or certain functional difficulties which may be developed in a patient under treatment. This knowledge can only be obtained in properly equipped schools with capable instructors.

The teaching of arts and crafts and trades and industries under occupation therapy programs differs from the manner in which such things are taught to enable persons to learn a trade. The emphasis on the type of work done for this and the type of work assigned to a particular individual is different, that is, the objective is fundamentally therapy for the patient.

(d) *Method of obtaining basic knowledge and training.* The Administrator of Veterans Affairs, acting under authority vested in him by 59 Stat. 675; 38 U. S. C., Sup., 15–15n, has prescribed the educational requirements set forth in paragraphs (a)–(c) of this section for occupational therapists in the Veterans' Administration. The desirability of having uniform requirements for occupational therapist positions for all Government agencies plus the fact that the technical knowledge required for the performance of the duties listed in paragraphs (a)–(c) of this section can be obtained only by attending and completing a full course in an approved school of occupational therapy justify the prescribed educational requirements.

§ 24.38 *Physical Therapist, P–1 and above* — (a) *Educational requirement.* Applicants must show graduation from schools of physical therapy approved by the American Medical Association, or, if graduation was prior to 1936, graduation from schools of physical therapy approved by the American Physical Therapy Association.

(b) *Duties.* Physical therapists administer under medical supervision physical therapy in its special branches including massage, electrotherapy, actinotherapy, hydrotherapy, and remedial exercise; keep a daily work record of the progress of the patients under treatment.

As examples of work performed as Physical Therapists: Give general and local massage; give or supervise active, passive, or resistive exercise; administer ultraviolet ray and electrotherapy; give thermotherapy, hydrotherapy, and mechanotherapy; watch temperature and length of treatment and take the necessary precautions to protect the patient from heat, prolonged cold, etc.; keep clinic in order; make daily, weekly, and monthly reports of progress of patients; keep apparatus in order. In the higher grades, physical therapists, in addition to administering physical therapy, direct the work of physical therapists of lower grades. The duties performed and the responsibilities assumed vary with and are proportionate to the grade of the position.

(c) *Knowledge and training requisite for performance of duties.* During the last twenty years, the field of Physical Therapy has progressed to such an extent that the Physical Therapy duties, as now required, cannot compare to those of World War I and the years immediately following that time. Physical Therapy treatments are exacting and also dangerous if not performed by persons with adequate knowledge of the indications and contra-indication for such treatments and the symptoms of patients under treatment. The equipment is varied and consists of a large number of different types of more or less intricate apparatus which must be thoroughly understood in order to give adequate treatments safely. Improper treatment, in extreme cases, can result in the death of the patient, or, when using heat through water or electrical apparatus, it can result in stubborn burns which are

very difficult to heal and which may seriously handicap the patient in the endeavor to bring him back to health.

(d) *Method of obtaining basic knowledge and training.* The Administrator of Veterans' Affairs, acting under authority vested in him by 59 Stat. 675; 38 U. S. C., Sup., 15–15n has prescribed the above educational reqquirements for physical therapists in the Veterans' Administration. The desirability of having uniform requirements for physical therapist positions for all Government agencies plus the fact that the technical knowledge required for the performance of the duties listed above can be obtained only by attending and completing a full course in an approved school of physical therapy justify the prescribed educational requirements.

§ 24.39 *Mathematician P–2 through P–8 where the duties involve highly complicated or fundamental scientific research or similar difficult scientific duties*—(a) *Educational requirement.* The successful completion of a four-year course in a college or university of recognized standing leading to a bachelor's have included courses in mathematics degree in mathematics. This study must consisting of lectures and recitations totaling at least 24 semester hours and in addition courses in the physical sciences (engineering, physics, geology, astronomy, chemistry, etc.) totaling 12 semester hours. The courses must have included analytical geometry, differential calculus, integral calculus and in addition any 3 of the following: Theory of Equations, Vector Analysis, Statistics, Higher Algebra (beyond elementary college algebra), Differential Equations, Advanced Differential Calculus, Advanced Integral Calculus.

(b) *Duties.* The duties of the P–2 to P–8 mathematician are: performing, conducting, planning, or directing mathematical work involving calculations and computations incident to investigative, developmental and research work in the scientific fields such as engineering, physics, astronomy, etc.; collecting, examining and interpreting scientific data; coordinating assignments and programs; planning mathematical procedures for scientific field trips; preparing reports and manuals, and editing or preparing articles for publication.

Those positions requiring the successful completion of four years of college or university training are characterized as follows:

Critical investigative work requiring a sound knowledge of the fundamental laws, theories, principles and terminology of mathematics and related sciences and having for its objective the development of new or improved methods of analysis, the development or extension of new theories or principles, or a new interpretation of known facts, leading to a revision of accepted theories and laws.

The application in new ways of known complex mathematical laws and facts to the development of new techniques or devices.

The coordination of a broad research program requiring the combined efforts of several specialists in different scientific fields. The leader of such a program must have an understanding of the mathematical principles, procedures and potentialities of the scientific fields involved, and the ability to coordinate the activities of the various specialists.

(c) *Knowledge and training requisite for performance of duties.* The urgent need for fundamental research and developmental work in all scientific fields in order to safeguard and improve the nation's security, and general welfare is apparent. The Congress of the United States has recognized the vital necessity for such scientific research and developmental work and has authorized through appropriations the spending of large sums of money for varied and important research programs. These programs are carried on by the various departments and agencies of the Federal government and have resulted in very notable achievements in scientific research during World War II.

The advances in the various sciences during World War II have been outstanding and of major importance. Especially in the fields of physical science and of engineering have these advances been dependent upon and interrelated to mathematics in all its branches. Mathematics is an indispensable tool in expressing basic laws and concepts in these fields, in interpreting experimental data, in extending old or establishing new concepts of matter and energy, and in establishing basic hypotheses for experimental work in new fields. Further advances in the physical sciences and in engineering will depend on the number of highly qualified and properly trained mathematicians who are competent to explore from a mathematical standpoint the particular field in which a research problem is centered. Concurrent with these advances in the fields of science is the flow of new scientific knowledge, so that persons engaged in highly complicated mathematical computations in a specialized field must of necessity possess the fundamental knowledge characteristic of mathematics and in addition that of pertinent allied fields in order that they may successfully attack complex problems.

Private industry requiring mathematicians for research positions has long recognized the necessity for broadly trained men for professional mathematics positions who are well grounded in the fundamentals of the sciences involved. They are required to have education represented by at least the attainment of a bachelor's degree in mathematics and, in many cases, a higher degree with specialization in a particular field is demanded.

(d) *Method of obtaining the basic knowledge and training.* Paragraphs (a)–(c) of this section contain statements of the minimum knowledge and training required to carry on successfully professional research work in the field of mathematics. The only method by which such knowledge and training may be acquired is by attending a college or university where competent instruction and guidance are available, where courses are arranged in a systematic progressive schedule and where adequate laboratory facilities and libraries are provided, and where objective evaluations are made of a person's progress in acquiring professional and scientific information.

§ 24.40 *Instructor, Meteorology P–2 through P–5*—(a) *Educational requirement.* All applicants must have successfully completed a resident course of study in Weather Forecasting Theory at a military school or college, or a curriculum of study which included or has been supplemented by at least 20 semester hours of study consisting of laboratory work in synoptic meteorology and forecasting, and fundamental courses in synoptic and dynamic meteorology at a college or university of recognized standing.

(b) *Duties.* With varying degrees of responsibility commensurate with the grades indicated, to instruct military personnel in one or more of the following subjects: Surface Charts and Weather Forecasting, Auxiliary Charts and Diagrams, Air Mass Analysis, Synoptic Meteorology, Dynamic Meteorology, Limited Data Analysis, World Geography and Climatology, Extended and Long Range Forecasting, Weather Station Operation, Staff Weather Subjects, Oceanography, Applied Micro-Meteorology, Tropical Meteorology, Anomalous Radar Propagation, In-Flight Weather Observation, and other related subjects, in accordance with a definite instructional program, or prescribed course of study; to prepare or assist in preparing material for instruction; and to perform related duties as assigned.

(c) *Knowledge and training requisite for performance of duties.* The advances in the field of meteorology have been largely the result of the application of the laws and concepts of the physical sciences to the solution of the problems of meteorology. A knowledge of the pertinent physical sciences is indispensable in interpreting observational data, in designing and improving the instruments used in making scientific observations, and in extending old or developing new concepts and theories used in forecasting weather. Further advances in meteorology must depend on the number of highly qualified and properly trained meteorologists who are competent to explore the field and make further applications of the new developments in the physical sciences to the science of meteorology. Instructors, therefore, must be fully qualified to teach such technical subjects to those who will be engaged in gathering and interpreting meteorological data.

In order to perform successfully these Instructor duties the applicant must have a knowledge and training in weather forecasting at the full professional level. This knowledge and training can be obtained in either of the following ways: (1) Through four years of experience in meteorology at either a professional or subprofessional level supplemented by the successful completion of a resident course in Weather Forecasting Theory, or (2) Through the successful completion of a four year college course with a major in the physical sciences such as physics, meteorology, mathematics, chemistry, or engineering, including or supplemented by the successful completion of a course of training in Weather Forecasting Theory.

It is not believed that a knowledge of weather forecasting at the full professional level can be acquired without at least some formal training at the professional level. In order to complete a course in Weather Forecasting Theory a knowledge of physics and mathematics is necessary. The necessary background to weather forecasting cannot be obtained without at least some formal educational training in these subjects.

(d) *Method of obtaining basic knowledge and training.* Paragraphs (a)–(c) of this section contain statements of the minimum knowledge and training required to carry on successfully professional work in the field of meteorology. The only method by which such professional knowledge and training may be acquired is by attending a college or military school or university where competent instruction and guidance are available, where courses are arranged in a systematic progressive schedule and where adequate laboratory facilities and libraries are provided, and where objective evaluations are made of a person's progress in acquiring professional and scientific information.

§ 24.41 *Human Biologist, P–7*—(a) *Educational requirement.* Applicants must show the successful completion of a full college course in a college or university of recognized standing with courses totaling at least 20 semester hours credit in either (1) physiology or, (2) a combination of biophysics, biochemistry and physiology which includes at least 10 semester hours credit in physiology.

(b) *Duties.* The human biologist plans, directs and coordinates research programs in environmental biology to determine the kind and degree of man's physiological responses to all variations of environmental stresses to which he may be subjected upon a world wide scale, as these responses are related to his protection against or adaptation to such stresses. Directs the activities of scientists, working principally in research in biophysics, biochemistry, physiology and anthropology to determine man's physiological responses to varying kinds and degrees of environment and how these are modified by such factors as occupation, racial background, anthropological type, age, preconditioning to extreme environmental changes, mental attitudes, etc., to determine the capacities and limitations of the human body in coping with adverse environments, the causes and effects of the environment upon man and possible compensations. Coordinates research programs under his direction with those being conducted elsewhere within the organization to determine the clothing, clothing assemblies, and other specialized types of equipment which will provide maximum protection against and resistance to destructive environmental forces and to analyze and evaluate the elements of environment and develop formula for their correlation with the physical and human biological problems being studied.

(c) *Knowledge and training requisite for performance of duties.* The duties of this position call for research in environmental effects on a much greater scale than has been done previously. The incumbent of the position must have a broad, extensive background in physiology or in a combination of physiology, biology, bichemistry and biophysics. The training must have been such as to demonstrate ability to develop and direct research programs of sound, practical scope.

(d) *Method of obtaining basic knowledge and training.* Paragraphs (a)–(c) of this section contain statements of the minimum knowledge and training required to carry on successfully the duties of the position. The only method by which such knowledge and training may be acquired is by attending a college or university where competent instruction and guidance is available, where courses are arranged in a systematic progressive schedule and where adequate laboratory facilities and libraries are provided and where objective evaluations are made of a person's progress in acquiring professional and scientific information.

§ 24.42 *U. S. Coast Guard Academy*—(a) *Instructor of Electrical Engineering, P–4*—(1) *Educational requirement.* Applicants must have successfully completed a 4-year course of study leading to a bachelor's degree in engineering or physics in a college or university of recognized standing.

(2) *Duties.* The appointee to this position will instruct cadets at the U. S. Coast Guard Academy in electrical engineering including alternating and direct current machines and circuits and engineering electronics. Under the supervision of the head of the engineering department he will prepare daily assignments, using as guides the assigned textbook, reference texts, Coast Guard instructions and manufacturers' and other technical publications. He will give classroom and laboratory instruction and prepare and grade examinations. He will be required to keep himself informed of the latest developments in his technical field and in education methods so that cadets may receive a knowledge of fundamental concepts and techniques in electrical engineering and develop analytical ability which will enable them to perform the duties of commissioned officers of the Coast Guard.

(3) *Justification of educational requirement.*

NOTE: Justification for Instructor of Electrical Engineering P–4 is the same as the justification for Teacher, All Grades (see § 24.12).

(b) *Instructor of Mathematics, P–4*—(1)—*Educational requirement.* Applicants must have successfully completed a 4-year course of study leading to a bachelor's degree with study in mathematics or civil engineering in a college or university of recognized standing.

(2) *Duties.* The appointee to this position will instruct cadets at the U. S. Coast Guard Academy in mathematics and surveying and related subjects including plane and spherical trigonometry, analytical geometry, plane and hydrographic surveying, differential and integral calculus and analytical mechanics. Under the supervision of the heads of the departments of mathematics and civil engineering he will prepare daily assignments using as guides the assigned textbook, reference texts, Coast Guard instructions and manufacturers' and other technical publications. He will give classroom instruction and prepare and grade examinations. He will be required to keep himself informed of the latest developments in his technical field and in educational methods so that cadets may receive a knowledge of fundamental concepts and techniques and develop analytical ability which will enable them to perform the duties of commissioned officers in the Coast Guard.

(3) *Justification of educational requirement.*

NOTE: Justification for Instructor of Mathematics, P–4 is the same as the justification for Teacher, All Grades (see § 24.12).

SUBPART A—OVERTIME PAY REGULATIONS

EXTENT OF REGULATIONS

§ 25.101 *Employees to whom this subpart applies.* This subpart applies to all civilian officers and employees in or under the executive branch of the United States Government, including Government-owned or controlled corporations, except those specified in § 25.102.

§ 25.102 *Employees to whom this subpart does not apply.* This subpart does not apply to:

(a) Elected officials;

(b) Heads of departments or independent establishments or agencies, including Government-owned or controlled corporations; i. e., heads of governmental establishments in the executive branch which are not component parts of any other such establishments;

(c) Officers and employees in or under the field service of the Post Office Department;

(d) Employees whose basic compensation is fixed and adjusted from time to time in accordance with prevailing rates by wage boards or similar administrative authority serving the same purpose, except that § 25.143 (d) shall be applicable to such employees whose basic rate of compensation is fixed on an annual or monthly basis;

(e) Employees outside the continental limits of the United States, including those in Alaska, who are paid in accordance with local prevailing native wage rates for the area in which employed;

(f) Officers and employees of the Inland Waterways Corporation;

(g) Officers and employees of the Tennessee Valley Authority;

(h) Individuals to whom the provisions of section 1 (a) of the act entitled "An act to amend and clarify certain provisions of law relating to functions of the War Shipping Administration, and for other purposes", approved March 24, 1943 (57 Stat. 45, 50 U. S. C., App., Sup., 1291), are applicable;

(i) Officers and members of the United States Park Police and the White House Police, and

(j) Employees of the Transportation Corps of the Army of the United States on vessels operated by the United States, vessel employees of the Coast and Geodetic Survey, vessel employees of the Department of the Interior, and vessel employees of the Panama Railroad Company.

DEFINITIONS

§ 25.121 *Basic workweek for full-time officers and employees.* "Basic workweek" for full-time officers and employees means the forty-hour workweek established pursuant to § 25.131.

§ 25.122 *Administrative workweeks.* (a) "Administrative workweek" means a period of seven consecutive calendar days.

(b) "Regularly scheduled administrative workweek" for full-time officers and employees means the period within an administrative workweek, established pursuant to § 25.131, when such officers and employees are required to be on duty regularly.

§ 25.123 *Basic rate of compensation.* (a) "Basic rate of compensation" means the rate of compensation fixed by law or administrative regulation for the position held by the officer or employee, exclusive of overtime compensation and extra pay for night or holiday work, but inclusive of (1) any salary differential for duty outside the continental United States, or in Alaska, and (2) the value of quarters, subsistence, and other maintenance allowances under section 3 of the act of March 5, 1928, 45 Stat. 193, 5 U. S. C. 75a.

(b) Hereafter for all pay computation purposes basic per annum rates of compensation established by or pursuant to law shall be regarded as payment for employment during fifty-two basic workweeks of forty hours.

§ 25.124 *Irregular or occasional overtime duty.* "Irregular or occasional overtime duty" means hours of employment not scheduled in the regularly scheduled administrative workweek.

REGULATIONS TO BE PRESCRIBED BY HEADS OF DEPARTMENTS AND AGENCIES

§ 25.131 *Establishment of basic workweek and regularly scheduled administrative workweek.* (a) Heads of departments or independent establishments or agencies, including Government-owned or controlled corporations, shall, with respect to each group of full-time employees to whom this subpart applies, establish by regulation:

(1) A basic workweek of forty hours in length which shall not extend over more than six of any seven consecutive days. Except as provided in paragraph (b) of this section, such regulation shall specify the calendar days constituting the basic workweek and, for each of such calendar days, the number of hours of employment included within the basic workweek.

(2) A regularly scheduled administrative workweek which shall consist of the forty-hour basic workweek established in accordance with paragraph (a) (1) of this section, plus such period of overtime work as will be regularly required of each group of employees. Except as provided in paragraph (b) of this section, the periods of time included in such regularly scheduled administrative workweek which do not constitute a part of the basic workweek shall be identified by calendar days and by number of hours per day for purposes of leave and overtime pay administration.

(b) Whenever it is impracticable to prescribe a regular schedule of definite hours of duty for each workday of a regularly scheduled administrative workweek, the first 40 hours of duty performed within a period of not more than 6 days of the administrative workweek may be established as the basic workweek; and all additional hours of officially ordered or approved duty within the administrative workweek shall be treated as overtime.

(c) In the case of employees whose work includes periods during which they are required to remain on duty and render "stand-by service" at or within the confines of their stations, the length of the regularly scheduled administrative workweek, for the purpose of this subpart, shall be the total number of regularly schedules hours of duty per week, including all such "stand-by" time except that allowed for sleep and meals by regulation of the department or independent establishment, agency, or corporation.

§ 25.132 *Compensatory time off for irregular or occasional overtime duty.* Heads of departments or independent establishments or agencies, including Government-owned or controlled corporations, may, with respect to officers and employees to whom this subpart applies, prescribe regulations for the granting of compensatory time off from duty, in lieu of overtime compensation, for irregular or occasional duty in excess of forty hours in any administrative workweek, to those per annum employees requesting such compensatory time off from duty.

OVERTIME WORK AND OVERTIME COMPENSATION

§ 25.141 *Overtime compensation authorized.* (a) Officers or employees to whom this subpart applies shall be paid overtime compensation, computed as provided in § 25.143, for all hours of employment officially ordered or approved in excess of forty hours in any administrative workweek, including irregular or occasional overtime duty.

(b) In accordance with administrative regulations which may be issued pursuant to § 25.132, any per annum employee may request compensatory time off, in lieu of overtime pay, for irregular or occasional duty in excess of forty hours in any administrative workweek. In case no such regulations are issued, or if under such regulations compensatory time off for such irregular or occasional overtime duty is not specifically requested by the employee it shall be paid for in money when due.

(c) Heads of departments or independent establishments or agencies, including Government-owned or controlled corporations, may delegate to any officer or employee authority to order or approve overtime in excess of any that may be included in the regularly scheduled administrative workweek. No such excess overtime shall be ordered or approved except in writing by an officer or employee to whom such authority has been specifically delegated by the head of the department or independent establishment or agency, or Government-owned or controlled corporation.

§ 25.142 *Computation of overtime employment.* The computation of the amount of overtime employment of an officer or employee shall be subject to the following conditions:

(a) *Leave with pay.* Absence from duty on authorized leave with pay under the annual and sick leave acts of March 14, 1936, as amended, during the time when an employee would otherwise have been required to be on duty during the basic workweek (including authorized absence on legal holidays, non-work days established by Executive or administrative order, and days of compensatory time off provided for in §§ 25.132 and 25.141 (b)) shall be considered to be employment and shall not have the effect of reducing the amount of overtime compensation to which the employee may be entitled during an administrative workweek. Leave of absence with pay under the acts cited shall not be charged for any absence which does not occur during the forty hours prescribed as the basic workweek.

(b) *Leave without pay.* For any period of leave-without-pay within an employee's basic 40-hour workweek, an equal period of service performed outside the basic workweek, but during the same administrative workweek, must be substituted and paid for at the rate applicable to his basic workweek, before any remaining periods of service can be paid for at the overtime rate.

(c) *Absence during overtime periods.* Except as expressly authorized by law, as in the case of jury duty under the act of June 29, 1940 (54 Stat. 689), and except to the extent authorized while the employee is in official travel status, no overtime period shall be counted in computing overtime compensation unless the employee performs actual duty during such period or is taking the compensatory time off provided for in §§ 25.131 and 25.141 (b). For employees in official travel status but not performing actual duty, no overtime period shall be paid for at overtime rates unless it falls within the regularly scheduled administrative workweek.

(d) *Night or holiday duty.* Extra holiday compensation paid under Subpart D of this part shall not serve to reduce the amount of overtime compensation to which the officer or employee may be entitled during the administrative workweek in which the holiday occurs. Hours of night or holiday duty shall be included in determining for overtime pay purposes the total number of hours of employment within the same administrative workweek. Any extra compensation for night or holiday duty shall not, however, be included in any basic rate in computing overtime compensation under this part.

(e) *Service subject to other overtime statutes.* Overtime services for which overtime compensation is paid under any of the following statutes shall not form a basis for overtime employment under this part: Act of February 13, 1911, as amended (19 U. S. C. 261, 267) involving inspectors, storekeepers, weighers, and other customs officers and employees; act of July 24, 1919 (41 Stat. 241; 7 U. S. C. 394) involving employees engaged in enforcement of Meat Inspection Act; act of June 17, 1930, as amended (19 U. S. C. 1450, 1451, 1452) involving customs officers and employees; act of March 2, 1931 (46 Stat. 1467; 8 U. S. C. 109a and 109b) involving inspectors and employees, Immigration and Naturalization Service; act of May 27, 1936, as amended (52 Stat. 345; 46 U. S. C. 382b) involving local inspectors of steam vessels and assistants, U. S. shipping commissioners, deputies and assistants, and customs officers and employees; act of March 23, 1941 (55 Stat. 46; 47 U. S. C., Sup. 154 (b) (2)) involving certain inspectors of the Federal Communications Commission; act of June 3, 1944 (58 Stat. 269) involving customs officers and employees.

§ 25.143 *Computation of overtime compensation.* (a) For employees whose basic compensation is at a rate less than $2,980 per annum, the overtime hourly rate shall be one and one-half times the basic hourly rate of compensation: *Provided*, That in computing such overtime compensation for per annum employees, the basic hourly rate of compensation shall be determined by dividing the basic per annum rate by two thousand and eighty (2080).

(b) For employees whose basic compensation is at a rate of $2,980 per annum or more, the overtime hourly rate shall be in accordance with and in proportion to the following schedule, subject to the limitation contained in paragraph (c) of this section:

Basic rate of compensation per annum:	*Overtime rate of compensation per 416 overtime hours*
$2,980.00	$894.000
$3,021.00	890.852
$3,146.40	881.223
$3,271.80	871.595
$3,397.20	861.967
$3,522.60	852.338
$3,648.00	842.710
$3,773.40	833.081
$3,898.80	823.453
$4,024.20	813.624
$4,149.60	804.196
$4,275.00	794.567
$4,400.40	784.939
$4,525.80	775.310
$4,651.20	765.682
$4,776.60	756.053
$4,902.00	746.425
$5,027.40	736.797
$5,152.80	727.168
$5,278.20	717.540
$5,403.60	707.911
$5,654.40	688.654
$5,905.20	669.397
$6,144.60	651.016
$6,384.00	632.634
$6,440.00 and over	628.334

NOTE: In the foregoing schedule the overtime rate for 416 overtime hours for any basic rate of compensation in excess of $2,980 per annum is computed by subtracting from $894, 7.6782 per centum of the amount by which such basic rate is in excess of $2,980 per annum with the condition that the rate for 416 overtime hours for all salaries of $6,440 or more shall be $628.334.

(c) Notwithstanding the provisions of paragraph (b) of this section, the overtime compensation payable to any officer or employee to whom this subpart applies shall, with respect to any pay period, be limited to such rate as will not cause his aggregate compensation for such pay period to exceed a rate of $10,000 per annum: *Provided, however*, That any such officer or employee who was receiving overtime compensation on June 30, 1945, and whose aggregate rate of compensation on such date was in excess of $10,000 per annum may receive overtime compensation at such rate as will not cause his aggregate rate of compensation for any pay period to exceed the aggregate rate of compensation he was receiving on June 30, 1945, until he ceases to occupy the office or position he occupied on such date or until the overtime hours of work in his administrative workweek are reduced by action of the head of his department or independent establishment or agency, or Government-owned or controlled corporation, and when such overtime hours are reduced such rate of overtime compensation shall be reduced proportionately.

(d) Employees whose basic rate of compensation is fixed on an annual or monthly basis and adjusted from time to time in accordance with prevailing rates by wage boards or similar administrative authority serving the same purpose shall be entitled to overtime pay in accordance with the provisions of section 23 of the act of March 28, 1934 (48 Stat. 522, 5 U.S.C. 673c). The rate of compensation for each hour of overtime employment of any such employee shall be computed as follows:

(1) If the basic rate of compensation of the employee is fixed on an annual

basis, divide such basic rate of compensation by two thousand eighty (2080) and multiply the quotient by one and one-half; and

(2) If the basic rate of compensation of the employee is fixed on a monthly basis, multiply such basic rate of compensation by twelve to derive a basic annual rate of compensation, divide such basic annual rate of compensation by two thousand eighty (2080) and multiply the quotient by one and one-half.

(e) Whenever, for the purpose of computing overtime pay under this sub-part it is necessary to convert a basic monthly or annual rate to a basic weekly, daily or hourly rate the following rules shall govern:

(1) A monthly rate shall be multiplied by 12 to derive an annual rate:

(2) An annual rate shall be divided by 52 to derive a weekly rate:

(3) A weekly rate shall be divided by 40 to derive an hourly rate; and

(4) A daily rate shall be derived by multiplying an hourly rate by the number of daily hours of service required.

SUBPART B—PERIODIC WITHIN-GRADE SALARY ADVANCEMENT REGULATIONS

EXTENT OF REGULATIONS

§ 25.201 *Officers and employees to whom this subpart applies.* This subpart applies to all officers and employees, except those who are appointed by the President, by and with the advice and consent of the Senate, who (a) are compensated on a per annum basis, (b) occupy permanent positions within the scope of the compensation schedules fixed by the Classification Act of 1923, as amended, and (c) have not reached the maximum rate of compensation for the grade in which their positions are respectively allocated.

DEFINITIONS

§ 25.221 *Permanent positions.* "Permanent positions" means positions other than those designated as temporary by law and other than those established for definite periods of one year or less. Positions to which appointments were made under the war service regulations for the duration of the war and six months thereafter are permanent positions within the scope of this definition. Positions in which employees are serving definite probationary or trial periods under Civil Service rules, or under regulations issued by the Commission, shall not, for that reason alone, be regarded as being other than permanent positions. Positions filled by temporary appointment under the Temporary Civil Service Regulations are temporary for the purpose of this subpart.

§ 25.222 *Positions within the scope of the compensation schedules fixed by the Classification Act of 1923, as amended.* "Positions within the scope of the compensation schedules fixed by the Classification Act of 1923, as amended", means positions in the departmental and field services, in the executive, legislative, and judicial branches, in Government-owned or Government-controlled corporations, and in the municipal government of the District of Columbia, the compensation of which has been fixed on a per annum basis, pursuant to the allocation of such positions to the appropriate grade either by the Commission or by administrative action of the department, establishment, agency, or corporation concerned, in accordance with the compensation schedules of the Classification Act of 1923, as amended.

§ 25.223 *Equivalent increase in compensation.* (a) "Equivalent increase in compensation" means any increase or increases in basic compensation which in total, at the time such increase or increases are made, are equal to or greater than the smallest compensation increment in the lowest grade in which the employee has served during the time period of twelve or eighteen months, as the case may be.

(b) The following, among others, are not "equivalent increases in compensation":

(1) Increases in basic rates of compensation provided by section 405 of the Federal Employees Pay Act of 1945, or section 2 of the Federal Employees Pay Act of 1946;

(2) Rewards for superior accomplishment as provided in sections 403 and 404 of the Federal Employees Pay Act of 1945;

(3) Increases as the result of the establishment of a new minimum rate for any class of positions in accordance with section 401 of the Federal Employees Pay Act of 1945; or

(4) An increase upon restoration of an employee to the grade and salary from which he was previously reduced or demoted, when the restoration is the result of a decision of a statutory efficiency rating board of review, a reduction-in-force appeal, the reallocation of his position to its former grade on appeal, or an appeal under section 14 of the Veterans' Preference Act of 1944.

§ 25.224 *Current efficiency.* "Current efficiency" means the official efficiency rating on record appropriate for within-grade salary advancement purposes, in accordance with the uniform efficiency-rating system.

§ 25.225 *War transfer.* "War transfer" means any transfer authorized by the Commission under Executive Order Nos. 8973 of December 12, 1941, or 9067 of February 20, 1942, War Manpower Commission Directive No. X, or War Service Regulation IX, under conditions entitling the employee to reemployment in his former position or a position of like seniority, status, and pay; civilian employment in occupied countries subject to the provisions of Executive Order No. 9711 of April 11, 1946; or employment with public international organizations subject to the provisions of Executive Order No. 9721 of May 10, 1946.

§ 25.226 *Satisfactory record on war transfer.* "A satisfactory record on war transfer" means a record or finding that the transferred employee has been furloughed or terminated without cause such as would reflect on his suitability for reemployment in the Federal service, from the position to which transferred; or that his services have been satisfactory and his termination was not the result of delinquency or misconduct.

§ 25.227 *Service in the merchant marine.* "Service in the merchant marine" means service as an officer or member of the crew on or in connection with a vessel documented under the laws of the United States or a vessel owned by, chartered to, or operated by or for the account or use of the Administrator, War Shipping Administration, service as an enrollee in the United States Maritime Service on active duty, and, to such extent as said Administrator shall prescribe, any period awaiting assignment to such service and any period of education or training for such service in any school or institution under the jurisdiction of the Administrator.

§ 25.228 *Certificate of satisfactory service in the merchant marine.* "Certificate of satisfactory service in the merchant marine" means the certificate issued by the War Shipping Administrator pursuant to the act of June 23, 1943, 57 Stat. 162, 50 U. S. C., Sup. 1471–1475, providing reemployment rights for persons who leave their positions to serve in the merchant marine.

COMPUTATION OF PERIODS OF SERVICE

§ 25.231 *Service to be credited.* In computing the periods of service required for within-grade salary advancements there shall be credited to such service:

(a) Continuous civilian employment in any branch (legislative, executive, or judicial), executive department, independent establishment or agency, or corporation of the Federal Government or in the municipal government of the District of Columbia.

(b) Time elapsing on annual, sick, or other leave with pay.

(c) Leave without pay and furlough, not to exceed in total the equivalent of twenty-two eight-hour days in the basic forty-hour workweeks, within the period of service required for one periodic within-grade advancement.

(d) Service rendered prior to absence due to involuntary separation, or due to furlough or leave without pay, where no single period of such absence is in excess of twelve months.

(e) Service rendered prior to absence due to resignation, where no single period of such absence is in excess of thirty calendar days.

(f) Service in the armed forces, in the merchant marine, or on war transfer subject to the following conditions: The employee must have (1) left his position to enter the armed forces or the merchant marine, or to comply with a war transfer, (2) been separated under honorable conditions from active duty in the armed forces, or have received a certificate of satisfactory service in the merchant marine, or have a satisfactory record on war transfer, and (3) been restored, reemployed, or reinstated in any permanent position within the scope of the compensation schedules fixed by the Classification Act of 1923, as amended, under regulations of the Commission which provide for mandatory restoration or reemployment, or the provisions of any law providing for mandatory restoration or reemployment, or any other administrative procedure having a similar purpose with respect to employees not subject to civil service rules and regulations. Any person entitled to be credited with service under this paragraph shall also be entitled to credit not more than twelve, eighteen or thirty months, as the case may be, for civilian employment prior to leaving his position to enter the armed forces or the merchant marine, or to comply with a war transfer.

(g) In the case of an employee whose name appeared on a list of eligibles between May 1, 1940 and March 16, 1942, and who, after meeting necessary conditions, received probational appointment under the provisions of any Executive order or regulations of the Commission covering situations in which an eligible lost his opportunity for probational appointment because of military service in World War II, time elapsing since the earliest date on which an eligible standing lower on the same list of eligibles received a probational appointment therefrom.

(h) In the case of an employee who applied for restoration, reappointment or reemployment within the period, provided by statute or regulation, of 90 calendar days after honorable discharge from the military service or from hospitalization continuing for a period of not more than one year after such discharge, and who has been restored, reappointed or reemployed as a result of such application, the total period of time elapsing between the termination of military service or release from hospitalization continuing thereafter, and entrance on duty in his civilian position if such period does not exceed 120 calendar days. However, if entrance on civilian duty has been delayed so that such period is in excess of 120 calendar days, only the first 120 calendar days of such period may be credited. This paragraph shall be effective December 5, 1946 and shall apply to all computations of within-grade salary increases made after that date.

In the case of an employee exercising reemployment rights under the terms of Executive Order No. 9711, April 11, 1946 (11 F. R. 4081), not to exceed a total period of 120 calendar days of time elapsing between release from military service and acceptance of civilian employment in occupied territories under the Military Government authorities of the United States, and time elapsing between termination of such employment and the exercise of his reemployment rights in accordance with Executive Order No. 9711.

CONDITIONS OF ELIGIBILITY FOR PERIODIC WITHIN-GRADE SALARY ADVANCEMENT

§ 25.241 *Eligibility requirements and effective date.* Officers and employees to whom this subpart applies shall be advanced in compensation successively to the next higher rate within the grade at the beginning of the next pay period (including July 1, 1945) following the completion of (1) each twelve months of service if such officers or employees are in grades in which the compensation increments are less than $200 per annum or (2) each eighteen months of service if such officers or employees are in grades in which the compensation increments are $200 or more, subject to the following conditions:

(a) That no equivalent increase in compensation from any cause was received during such period:

(b) That an officer or employee shall not be advanced unless his current efficiency rating is "Good" or better than "Good";

(c) That the service and conduct of such officer or employee are certified by the head of the department or independent establishment or agency, or Government-owned or controlled corporation, or such official as he may designate, as being otherwise satisfactory.

If at the end of the time period of twelve or eighteen months, an employee's total leave without pay and furlough is in excess of that creditable under § 25.231 (c), he must serve in a pay status an additional number of basic-workweek days and hours equal to such excess, to complete the service required for advancement.

§ 25.242 *Exceptions.* Conditions of § 25.241 (b) and (c) shall not apply upon the return to duty of any officer or employee (a) who, while serving under permanent, war service, temporary, or any other type of appointment, left his position to enter the armed forces or the merchant marine, or to comply with a war transfer, (b) who has been separated under honorable conditions from active duty in the armed forces, or has received a certificate of satisfactory service in the merchant marine, or has a satisfactory record on war transfer, and (c) who, under regulations of the Commission, which provide for mandatory restoration or reemployment, or the provisions of any law providing for mandatory restoration or reemployment, or under any other administrative procedure having a similar purpose with respect to officers and employees not subject to civil service rules and regulations, is restored, reemployed, or reinstated in a permanent position within the scope of the compensation schedules fixed by the Classification Act of 1923, as amended, in which he would otherwise be eligible for within-grade salary advancement under this part.

EFFECT OF EFFICIENCY-RATING CHANGES

§ 25.251 *Effect of efficiency-rating changes.* In the event a change or adjustment is made in an officer's or employee's current efficiency rating, either by administrative action or as the result of a review and determination by a board of review in accordance with the provisions of section 9 of the Classification Act of 1923, as amended, the employee's eligibility for salary advancement shall be determined according to the efficiency rating as changed or adjusted and other conditions of the salary advancement plan, and any periodic within-grade salary advancement to which he may be entitled shall be made effective as of the date he would have received the advancement had no error been made in the original rating.

SUBPART C—NIGHT PAY DIFFERENTIAL REGULATIONS

EXTENT OF REGULATIONS

§ 25.301 *Employees to whom this subpart applies.* This subpart applies to all civilian officers and employees in or under the executive branch of the United States Government, including Government-owned or controlled corporations, except those specified in § 25.302.

§ 25.302 *Employees to whom this subpart does not apply.* This subpart does not apply to:

(a) Elected officials;

(b) Heads of departments or independent establishments or agencies, including Government-owned or controlled corporations; i. e., heads of governmental establishments in the executive branch which are not component parts of any other such establishments;

(c) Officers and employees in or under the field service of the Post Office Department;

(d) Employees whose basic compensation is fixed and adjusted from time to time in accordance with prevailing rates by wage boards or similar administrative authority serving the same purpose;

(e) Employees outside the continental limits of the United States, including those in Alaska, who are paid in accordance with local prevailing native wage rates for the area in which employed;

(f) Officers and employees of the Inland Waterways Corporation;

(g) Officers and employees of the Tennessee Valley Authority;

(h) Individuals to whom the provisions of section 1 (a) of the act entitled "An act to amend and clarify certain provisions of law relating to functions of the War Shipping Administration, and for other purposes", approved March 24, 1943 (57 Stat. 45, 50 U. S. C. App. 1291), are applicable;

(i) Officers and members of the United States Park Police and the White House Police;

(j) Employees of the Transportation Corps of the Army of the United States on vessels operated by the United States, vessel employees of the Coast and Geodetic Survey, vessel employees of the Department of the Interior, and vessel employees of the Panama Railroad Company;

(k) Employees of the Bureau of Engraving and Printing who are entitled to a night pay differential under the act of July 1, 1944 (58 Stat. 648, 31 U. S. C. 180); and

(l) Employees who are entitled to additional compensation for night work under any provision of law other than section 301 of the Federal Employees Pay Act of 1945.

DEFINITIONS

§ 25.321 *Basic rate of compensation.* "Basic rate of compensation" means the rate of compensation fixed by law or administrative regulation for the position held by the officer or employee, exclusive of overtime compensation and extra pay for night or holiday work but inclusive of (a) any salary differential for duty outside the continental United States, or in Alaska, and (b) the value of

quarters, subsistence, and other maintenance allowances under sec. 3 of the act of March 5, 1928, 45 Stat. 193, 5 U. S. C. 75a.

§ 25.322 *Regularly scheduled tour of duty.* "Regularly scheduled tour of duty" means the regularly scheduled administrative workweek for full-time employees prescribed in accordance with § 25.131. For part-time employees, it means the officially prescribed days and hours within an administrative workweek during which such employees are required to be on duty regularly.

§ 25.323 *Night work.* "Night work" means that part of a regularly scheduled tour of duty which falls between 6 o'clock p. m. and 6 o'clock a. m.

§ 25.324 *Night pay differential.* "Night pay differential" means the ten percent increase over the officer's or employee's basic rate of compensation, authorized by section 301 of the Federal Employees Pay Act of 1945, as amended.

NIGHT WORK AND PAYMENT OF NIGHT DIFFERENTIAL

§ 25.331 *Night pay differential authorized.* Any officer or employee to whom this subpart applies shall be entitled to a night pay differential amounting to 10 percent of his basic rate of compensation as additional compensation for all hours of night work, computed in accordance with § 25.332.

§ 25.332 *Computation of night pay differential.*—(a) *Absence on leave or holidays, or in travel status.* Payment of a night pay differential is not authorized during any period when the officer or employee is in a leave status or is excused from duty on a holiday or other non-workday; but it is authorized when compensatory time off "earned" by night work is taken during the night hours of the employee's regularly scheduled tour of duty, and for all night hours of the employee's regularly scheduled tour of duty while he is in official travel status, whether performing actual duty or not.

(b) *Relation to overtime and holiday pay.* Payment of a night pay differential shall be in addition to any extra overtime or holiday compensation paid in accordance with Subpart A or Subpart D. The night pay differential shall not be included in the basic rate or compensation in computing any overtime or holiday compensation to which the officer or employee may be entitled.

(c) *Temporary assignment to different tour of duty.* The payment of the night pay differential is authorized for night work performed when an employee is assigned temporarily to a regularly scheduled tour of duty other than his own regular tour of duty.

(d) *Computation of rate of night pay differential.* Whenever it is necessary to convert a basic monthly or annual rate to a basic weekly, daily, or hourly rate for the purpose of computing the amount of the night pay differential, the following rules shall govern:

(1) A monthly rate shall be multiplied by 12 to derive an annual rate;

(2) An annual rate shall be divided by 52 to derive a weekly rate;

(3) A weekly rate shall be divided by 40 to derive an hourly rate; and

(4) A daily rate shall be derived by multiplying an hourly rate by the number of daily hours of service required.

SUBPART D—REGULATIONS GOVERNING PAY FOR HOLIDAY DUTY

EXTENT OF REGULATIONS

§ 25.401 *Employees to whom this subpart applies.* This subpart shall apply to all civilian officers and employees in or under the executive branch of the United States Government, including Government-owned or controlled corporations, except those specified in § 25.402.

§ 25.402 *Employees to whom this subpart does not apply.* This subpart does not apply to:

(a) Elected officials;

(b) Heads of departments or independent establishments or agencies, including Government-owned or controlled corporations;

(c) Officers and employees in or under the field service of the Post Office Department;

(d) Employees whose basic compensation is fixed and adjusted from time to time in accordance with prevailing rates by wage boards or similar administrative authority serving the same purpose;

(e) Employees outside the continental limits of the United States, including those in Alaska, who are paid in accordance with local prevailing native wage rates for the area in which employed;

(f) Officers and employees of the Inland Waterways Corporation;

(g) Officers and employees of the Tennessee Valley Authority;

(h) Individuals to whom the provisions of section 1 (a) of the act entitled "An act to amend and clarify certain provisions of law relating to functions of the War Shipping Administration, and for other purposes," approved March 24, 1943 (57 Stat. 45, 50 U. S. C., App. Sup., 1291), are applicable;

(i) Officers and members of the United States Park Police and the White House Police; and

(j) Employees of the Transportation Corps of the Army of the United States on vessels operated by the United States, vessel employees of the Coast and Geodetic Survey, vessel employees of the Department of the Interior, and vessel employees of the Panama Railroad Company.

DEFINITIONS

§ 25.421 *Basic rate of compensation.* "Basic rate of compensation" means the rate of compensation fixed by law or administrative regulation for the position held by the officer or employee, exclusive of overtime compensation and extra pay for night or holiday work but inclusive of (a) any salary differential for duty outside the continental United States, or in Alaska, and (b) the value of quarters, subsistence, and other maintenance allowances under section 3 of the act of March 5, 1928 (45 Stat. 193, 5 U. S. C. 75a).

IDENTIFICATION OF HOLIDAYS

§ 25.431 *Holidays.* The following days shall be holidays:

(a) Subject to the provisions of paragraph (b) of this section, the 1st day of January; the 22d day of February; the 30th day of May; the 4th day of July; the first Monday in September; the 11th day of November; the fourth Thursday in November; and Christmas Day.

(b) When any such day falls on a Sunday, Executive Order No. 9586 of October 3, 1945 requires that the following Monday shall be observed as a holiday in lieu thereof subject to the following exceptions:

(1) In the case of employees whose regularly scheduled basic work-week includes both the Sunday and the Monday involved, either day, as determined by the head of the department, agency, or corporation concerned, but not both days, shall be treated as a holiday.

(2) In the case of employees whose regularly scheduled basic work-week includes the Sunday but not the Monday involved, only the Sunday shall be treated as a holiday.

(c) Any day designated as a holiday by Executive order.

EXTRA PAY FOR HOLIDAY DUTY

§ 25.441 *Rate of holiday pay.* (a) Any officer or employee who is assigned to duty on a holiday shall be compensated for such duty at the rate of twice his regular rate of basic compensation, *Provided,*

(1) That such hours of holiday duty fall within his basic workweek of forty hours.

(2) That such doubled rate of compensation shall be paid for not to exceed eight hours of duty on a holiday.

(3) That such doubled rate of compensation shall be in lieu of his regular rate of basic compensation.

(4) That such doubled rate of compensation shall be in addition to any extra compensation for night duty payable under Subpart C; but the night pay differential shall not be included in the basic rate of compensation in computing pay for holiday duty.

(b) An officer or employee who is excused from duty because of a holiday falling within his basic 40-hour workweek shall be entitled to only his basic rate of compensation for that day.

(c) An officer or employee who is assigned to duty on a holiday falling outside of his 40-hour basic workweek (an overtime day) shall be entitled only to the overtime compensation payable in accordance with Subpart A for such duty, plus any extra compensation for night duty payable under Subpart C or other authority.

(d) An officer or employee who is excused from duty because of a holiday falling outside of his 40-hour basic workweek shall not be entitled to any compensation for that day.

§ 25.442 *Computation of holiday pay.* Whenever it is necessary to convert a basic monthly or annual rate to a basic weekly, daily, or hourly rate for the purpose of computing the amount of extra pay for holidays, the following rules shall govern:

(a) A monthly rate shall be multiplied by twelve to derive an annual rate;

(b) An annual rate shall be divided by fifty-two to derive a weekly rate;

(c) A weekly rate shall be divided by forty to derive an hourly rate; and

(d) A daily rate shall be derived by multiplying an hourly rate by the number of daily hours of service required.

§ 25.443 *Overtime.* (a) The extra pay for holidays authorized by § 25.441 shall not be included in the basic rate of compensation in computing any overtime compensation to which the officer or employee may be entitled.

(b) Such extra pay shall not serve to reduce the amount of overtime compensation to which the officer or employee may be entitled during the administrative workweek in which the holiday occurs, and notwithstanding such extra pay, the number of hours of duty on a holiday shall be included in determining for overtime pay purposes the total number of hours of employment performed in the same administrative workweek.

(c) The number of regularly scheduled hours of duty on a holiday falling within the employee's 40-hour basic workweek on which the employee is excused from duty shall be included as a part of the 40-hour basic workweek for overtime pay computation purposes.

SUBPART E—REGULATIONS FOR GRANTING ADDITIONAL WITHIN-GRADE SALARY ADVANCEMENTS AS REWARDS FOR SUPERIOR ACCOMPLISHMENT

§ 25.501 *Extent of regulations; officers and employees to whom this subpart applies.* This subpart applies to any officer or employee, except those in positions required to be filled by appointments by the President, by and with the advice and consent of the Senate who (a) is compensated on a per annum basis; (b) occupies a permanent position within the scope of the compensation schedules fixed by the Classification Act of 1923, as amended; (c) has not reached the maximum rate of compensation for the grade of his position; and (d) who merits consideration for an award as a result of superior accomplishment.

§ 25.502 *Definitions.* (a) "Department" means any executive department or independent establishment or agency, including Government-owned or Government-controlled corporations, and the municipal government of the District of Columbia.

(b) "Permanent positions" means positions other than those designated as temporary by law and other than those established for a definite period of one year or less. Positions to which appointments were made under the war service regulations for the duration of the war and six months thereafter are permanent positions within the scope of this definition. Positions in which employees are serving definite probationary or trial periods under civil service rules, or under regulations issued by the Commission, shall not, for that reason alone, be regarded as being other than permanent positions.

(c) "Positions within the scope of the compensation schedules fixed by the Classification Act of 1923, as amended," means positions in the departmental and field services, in the executive, legislative, and judicial branches, in Government-owned or Government-controlled corporations, and in the municipal government of the District of Columbia, the compensation of which has been fixed on a per annum basis, pursuant to the allocation of such positions to the appropriate grade either by the Civil Service Commission or by administrative action of the department, establishment, agency, or corporation concerned, in accordance with the compensation schedules of the Classification Act of 1923, as amended.

(d) "Superior accomplishment" means sustained work performance of a high degree of efficiency, the initiation and development of a suggestion which increases efficiency or brings about substantial economies in the public service, or a special service of an outstanding nature, which meets the standards of the Commission for recognition as the basis for a reward in the form of an additional salary advancement.

(e) "Additional advancement" means within-grade salary advancement as a reward for superior accomplishment as distinguished from a periodic within-grade salary advancement under section 402 of the Federal Employees Pay Act of 1945.

§ 25.503 *Conditions of eligibility for additional advancements.* The granting of each additional advancement shall be subject to the following conditions:

(a) It must be made within the limit of available appropriations;

(b) It must be based on superior accomplishment which conforms with standards promulgated by the Commission; and

(c) No more than one additional advancement may be made to any officer or employee within each of the time periods prescribed in section 402 of the Federal Employees Pay Act of 1945.

§ 25.504 *Prior approval by the Commission.* Approval of the Commission must be secured prior to making any additional advancement effective, unless approval of such advancement is made under authority delegated in accordance with the regulations in this subpart.

§ 25.505 *Departmental plans for awarding additional advancements.* Each department which desires authority to approve additional advancements as rewards for superior accomplishment shall submit a plan to the Commission (a) providing for a systematic review of the work performance of employees, (b) proposing a simple, orderly procedure for the selection of employees to be awarded additional advancements for superior accomplishment, (c) indicating the representatives of the head of the department proposed to be authorized to approve such advancements, (d) providing procedures for reporting additional advancements to the Commission, and (e) proposing a method of publication of the plan to all employees. Such plans shall not become effective until approved by the Commission, and no approved plan shall be revised or amended without the prior approval of the Commission. Subject to the foregoing provisions, any such departmental plan may be revised or amended from time to time as circumstances may require.

§ 25.506 *Delegation of authority to approve additional advancements.* Effective until November 1, 1945, the Commission hereby delegates authority to the head of each department, or his designated representatives, to approve additional advancements as rewards for superior accomplishment which conforms with standards promulgated for that purpose by the Commission. This authority will terminate on November 1, 1945, if no departmental plan has been approved prior to that date. Upon the approval of a departmental plan as provided in the foregoing section, the Commission hereby delegates authority to the head of the department, and to his designated representatives operating under such plan, to approve additional advancements as rewards for superior accomplishment which conforms with the standards promulgated for that purpose by the Commission.

§ 25.507 *Suspension or withdrawal of authority.* The Commission may suspend or withdraw the authority to approve additional advancements delegated in the regulations in this subpart, whenever, after post-audit of actions taken under such authority, it finds that (a) additional advancements are being approved which do not conform with the Commission's standards, (b) provisions of the departmental plan are not being followed, or (c) adequate statements supporting such additional advancements are not being received by the Commission.

§ 25.508 *Reports to be furnished to the Commission.* Additional within-grade salary advancements as rewards for superior accomplishment shall be reported to the Commission with such supporting information as it may prescribe.

PART 26—TRANSFER OF PERSONNEL TO PUBLIC INTERNATIONAL ORGANIZATIONS IN WHICH THE UNITED STATES GOVERNMENT PARTICIPATES

Sec.
26.1 Persons who may be transferred.
26.2 Definitions.
26.3 Submission of request.
26.4 Approval of transfer.
26.5 Separation from service.
26.6 Filling vacancy.
26.7 Acquisition of status.
26.8 Reemployment.
26.9 Report to the Commission.
26.10 Appeals to the Commission.
26.11 Effective date.

AUTHORITY: §§ 26.1 to 26.11, inclusive, issued under sec. 5, E. O. 9721, 11 F. R. 5209.

§ 26.1 *Persons who may be transferred.* The following persons may be given consideration for transfer under Executive Order 9721;

(a) Employees of any agency or department in the executive branch of the Federal Government who are serving under (1) probational or permanent civil service appointments, or (2) war service indefinite appointments regardless of

whether a trial period has been completed.

(b) Former employees of such an agency or department who (1) are serving in a public international organization, (2) have served continuously in such organization since May 10, 1946, and (3) left war service indefinite or probational or permanent civil service appointments to take their present employment.

§ 26.2 *Definitions.* (a) "Public international organization" is one designated by the President pursuant to the Act of December 29, 1945 (59 Stat. 669).

(b) "Terminated without prejudice" means separation from the public international organization to which transferred under Executive Order 9721, either voluntarily or involuntarily under circumstances which do not reflect on the transferee's suitability for further Federal employment.

NOTE: For list of public international organizations, see Executive Orders 9698, 9751 and 9823.

(c) "Consent of the head of the department or agency concerned" means the specific consent of the head of the department or agency or his designated representative for the employee's or former employee's transfer under Executive Order 9721. A general release for employment elsewhere or a release granted other than for the specific purpose of transfer under Executive Order 9721 shall not be construed as "consent" under Executive Order 9721.

§ 26.3 *Submission of request.* A request for the transfer of an employee or former employee under Executive Order 9721 shall be submitted by the public international organization in writing directly to the agency or department in which such employee is serving or last served.

§ 26.4 *Approval of transfer.* The head of the department or agency concerned or his designated representative shall, if he determines to consent to transfer under Executive Order 9721, give such consent in writing and address it to the requesting public international organization. The letter of consent shall specifically mention that consent is given under Executive Order 9721. A copy of the letter of consent shall be placed in the agency personnel files, and a copy shall be delivered to the transferee. The agency or department concerned may set the date on which the consent becomes valid.

§ 26.5 *Separation from service.* Upon transfer under Executive Order 9721 the employee shall be separated and his "separation by transfer under Executive Order 9721" shall be reported to the Commission on the regular report of personnel changes.

§ 26.6 *Filling vacancy.* The appointment, reassignment, promotion, or transfer of an employee to fill a vacancy created by the transfer of an employee under Executive Order 9721 shall be limited to the return of the specific employee transferred under the order; except that this section shall not apply in any case where the provisions of section 4 of the order are made applicable to a former employee of a Federal agency serving with a public international organization at the time of issuance of the order, and where the position he left in the agency had already been filled prior to the time the provisions of section 4 of the order were made applicable to him.

§ 26.7 *Acquisition of status.* Any employee who is transferred from a war service indefinite appointment under Executive Order 9721 and who meets the other conditions for acquisition of competitive status under section 2 of Executive Order 9721 shall be deemed to have acquired such status provided those conditions are met on or before May 10, 1949. Determination of satus will be made by the Commission on request of a Federal agency or the transferee. Unless all conditions precedent to acquisition of competitive status under section 2 of Executive Order 9721 have been met on or before May 9, 1949, no rights accrue under that section. Determination that such conditions were so met may be made after that date.

§ 26.8 *Reemployment.* An employee transferred under Executive Order 9721 must meet the following conditions in order to have a right to reemployment under that order:

(a) He must have been serving under a probational or permanent civil service appointment prior to such transfer or he must have met the conditions for acquisition of a competitive status under section 2 of the order. When reemployment rights depend on acquisition of status under section 2 of the order, request for such determination shall be presented to the Commission by the agency concerned promptly after receipt of application for reemployment, unless such determination was made theretofore.

(b) He must have been terminated without prejudice by the public international organization to which transferred within three years of the date of his separation for transfer to such international organization or within three years of the date of Executive Order 9721, whichever is later;

(c) He must apply for reemployment to his former agency or department (or its successor) within 90 days of his termination by such international organization.

(d) He must be qualified physically to perform the duties of his former position or one of like seniority, status and pay.

Upon meeting the conditions for reemployment under Executive Order 9721, the transferee's former agency or department (or its successor) shall reemploy him within 30 days of his application for reemployment. Such reemployment shall be in the employee's former position or in a position of like seniority, status and pay.

Upon reemployment under Executive Order 9721, an employee shall be given the seniority and, to the extent consistent with law, the pay to which he would have been entitled had he remained continuously with the agency in his former position. He shall be considered as having competitive status and tenure and shall be given full credit for completion of probation for service in the international organization since acquisition of status. Any sick leave to his credit at the time of his separation for transfer under the order shall be recredited to him.

§ 26.9 *Report to the Commission.* (a) A transfer under Executive Order 9721 shall be reported to the Commission on the regular report of personnel changes. In any case where the provisions of the Executive order are, with the consent of the Federal agency in which he was formerly employed, made applicable to a former employee of the agency, the action shall be reported as a transfer effective as of the date the employee left the Federal agency to take employment with the public international organization.

(b) A reemployment under Executive Order 9721 shall be reported to the Commission on the regular report of personnel changes.

§ 26.10 *Appeals to the Commission.* There shall be no appeal to the Commission from a denial by the head of the agency or department or his designated representative of transfer under the order. The Commission shall make final decision as to the acquisition of status of an employee under section 2 of the order. An employee transferred under the order who has been denied reemployment may appeal to the Commission, and the Commission shall make final determination of his right to reemployment under the order.

§ 26.11 *Effective date.* This part shall be effective as of May 10, 1946.

PART 27—ESTABLISHMENT OF MAXIMUM STIPENDS FOR POSITIONS IN GOVERNMENT HOSPITALS FILLED BY STUDENT OR RESIDENT TRAINEES

Sec.
27.1 Maximum stipends prescribed.
27.2 Stipends under existing agreements with trainees.
27.3 Stipends of trainees assigned to Federal hospitals as affiliates.
27.4 Exclusion of other trainee positions and establishment of maximum stipends.
27.5 Extent of regulations.
27.6 Inquiries.

AUTHORITY: §§ 27.1 to 27.6, inclusive, issued under E. O. 9750, 11 F. R. 7649, 3 CFR, 1946 Supp.

§ 27.1 *Maximum stipends prescribed.* In accordance with the provisions of Executive Order No. 9750 effective at the close of business on July 13, 1946, the following maximum stipends (including overtime pay, maintenance allowances, and other payments in money or kind) for medical and dental interns and residents-in-training, student nurses, student dietitians, student physical therapists, and student occupational therapists, except as otherwise provided in § 27.2, are hereby approved:

Medical and Dental Interns and Residents

Gallinger and Freedmen's Hospitals:	
First year approved post graduate training	$1,600
Second year approved post graduate training	1,900
Third year approved post graduate training	2,200
Fourth year approved post graduate training	2,500
Fifth year approved post graduate training	3,400
Sixth year approved post graduate training	4,150
All other Federal hospitals:	
First year approved post graduate training	2,200
Second year approved post graduate training	2,400
Third year approved post graduate training	2,700
Fourth year approved post graduate training	3,000
Fifth year approved post graduate training	3,400
Sixth year approved post graduate training	4,150

NOTE: Maximum stipends for Panama Canal and Panama Railroad are 25 percent above these rates.

Dietitian interns (student dietitians)—one year approved post graduate training	$1,470
Physical therapy interns (student physical therapists)—one year approved post graduate training	1,470
Student nurses—St. Elizabeth's hospital:	
First year training	775
Second and third year training, maximum total for two years	1,225

NOTE: The maximum total stipend of $1,225 for the second and third years is effective only so long as student nurses at St. Elizabeth's hospital are assigned during these years to affiliated hospitals for one year of training with no compensation other than maintenance.

Freedmen's hospital—Total for three year training	$2,825

NOTE: This maximum stipend is effective only so long as student nurses at Freedmen's hospital pay $200 or more for tuition and related expenses for which they would not be charged at other Federal hospitals.

All other Federal hospitals:	
First year training	$775
Second year training	865
Third year training	985

Occupational therapy interns (student occupational therapists)—approved clinical training in affiliation with an approved school of occupational therapy, $122.50 a month.

§ 27.2 *Stipends under existing agreements with trainees.* Stipends (total amounts paid, including maintenance allowances and other payments in kind) under existing agreements with trainees, which are in excess of maximums in the above schedules, are hereby approved as maximums for the duration of training under such agreements to the extent that the amount of any such maximums does not exceed the basic pay rate under such agreement including the value of maintenance allowance and other payments in kind: *And provided,* That statements of the terms of such agreements, with schedules of stipends and allowances, are filed with the Commission before September 1, 1946.

§ 27.3 *Stipends of trainees assigned to Federal hospitals as affiliates.* Trainees at non-Federal hospitals assigned to Federal hospitals as affiliates for part of their training shall receive no stipend from the Federal hospital other than any maintenance provided.

§ 27.4 *Exclusion of other trainee positions and establishment of maximum stipends.* Requests for approval by the Commission of exclusions from the provisions of the Classification Act of 1923, as amended, of other positions filled by persons employed on a student-training or resident-training basis assigned or attached to a hospital, clinic, or medical or dental laboratories, as provided in section 1 of Executive Order 9750, and for approval of maximum stipends not provided in § 27.1 or § 27.2, should be submitted promptly to the Commission with full supporting information.

§ 27.5 *Extent of regulations.* Maximum stipends provided in § 27.1 or § 27.2 apply to any "hospital, clinic, or medical or dental laboratories, owned or operated by the Federal Government (including any agency or instrumentality of the Federal Government, and including the District of Columbia)", unless rates of compensation are otherwise provided by law.

§ 27.6 *Inquiries.* Inquiries concerning this part may be directed, in Washington, D. C., to the Field Section, Personnel Classification Division, telephone extension 651, and, in the field, to the appropriate regional or branch regional office.

PART 28—OFFICIAL PERSONNEL FOLDER

Sec.
28.1 Designation of agency representative.
28.2 Designation of Official Folder.
28.3 Consolidation and standardization of content of folder.
28.4 Transfer of the Official Personnel Folders between agencies.
28.5 Requests for information about employees whose folders have been transferred to other agencies.
28.6 Official Personnel Folder upon reemployment in Federal service.
28.7 Exceptions.
28.8 How to order the Official Personnel Folder.
28.9 Standard Form No. 63, Request for Personnel Data and Leave Transcripts.
28.10 Requests for further information.
28.11 Specifications for Official Personnel Folder.

AUTHORITY: §§ 28.1 to 28.11, inclusive, issued under sec. 3, E. O. 9784, Sept. 25, 1946, 11 F. R. 10909, 3 CFR, 1946 Supp.

§ 28.1 *Designation of agency representatives.* Each agency will designate one or more representatives to work with the Commission in putting the plan into effect.

The name (or names) of the representative designated by the agency, his location in the organization and telephone number, should be furnished by letter not later than March 3, 1947, to the Personnel Procedures and Records Project Staff, Room 216, U. S. Civil Service Commission, Washington 25, D. C.

§ 28.2 *Designation of official folder.* Only one Official Personnel Folder will be maintained for each active employee, and it will contain the records necessary to comprise his complete service record. The Official Personnel Folder will be maintained at the point of maximum utilization. Designation of this point will be made by the agencies not later than April 1, 1947.

§ 28.3 *Consolidation and standardization of content of folder.* As rapidly as resources permit, steps will be taken to make the personnel folder of each active employee a complete working record in line with the Commission's specifications.

Folders which are transferred to other agencies, and new folders which are established, must conform to the standard specifications.

§ 28.4 *Transfer of the Official Personnel Folders between agencies*—(a) *Manner of transfer.* Beginning April 1, 1947, whenever an employee is transferred to another agency, or to another organization within the same agency (if the Official Personnel Folder is maintained by a different office), the employing agency will, upon the employee's entrance on duty, furnish the appropriate personnel office of the releasing agency with a copy of Standard Form 50, "Notification of Personnel Action," which records the transfer action and indicates the official date on which the transfer became effective. Extra single copies of Standard Form 50 for this purpose can be obtained from the Government Printing Office. The releasing agency or office, within 3 days of receipt of its copy of Standard Form 50, will transmit the Official Personnel Folder to the new agency or office, and arrange for transmittal of the leave record.

(b) *Purging of folder.* Prior to transfer, all material except that listed in the Commission's specifications for material to be filed on the right, or permanent, side of the folder will be removed from the official folder. Duplicate records and material listed as temporary may be disposed of in accordance with regular procedure for disposal of records.

Such material will be removed only by the releasing agency. The receiving agency will retain all papers which have been transmitted in the folder.

(c) *Materials to be transferred.* The material included in the Commission's specifications on the right, or permanent, side of the personnel folder constitutes the employee's official record of service and, as such, is required to be transferred. Agencies may, but are not required to, release or transfer confidential material. In making a decision as to whether confidential material should be transferred, agencies should consider that such material is being transferred to another branch of the Federal Government where it will continue to be maintained as confidential.

(d) *Record of transfer.* Upon transmittal of the Official Personnel Folder to another agency, the releasing agency will record the name of the employee and the name and location of the agency to which the file is being transferred, together with the date of its transfer. Whenever possible, agencies should utilize for this purpose an appropriate existing record such as an employee record card. If such a record is not available, a card may be established recording the transfer.

§ 28.5 *Requests for information about employees whose folders have been transferred to other agencies.* Requests for information regarding an employee who has transferred should be forwarded for reply to the office or agency to which the employee transferred.

§ 28.6 *Official personnel folder upon reemployment in Federal service.* When a former Federal employee is reemployed, the employing agency should request his personnel folder, by letter, from the personnel office of the agency in which he was last employed.

§ 28.7 *Exceptions.* Officers located outside of the continental United States may, in the discretion of the agency, be exempted from the use of the standard Official Personnel Folder and the regulations in this part.

§ 28.8 *How to order the Official Personnel Folder.* The Official Personnel Folder is procurable from the Treasury Department, Procurement Division, in Washington, D. C., and its Regional Supply Centers. In ordering, refer to the Official Personnel Folder, Stock No. 53-F-4643.

§ 28.9 *Standard Form No. 63, Request for Personnel Data and Leave Transcripts.* Effective April 1, 1947, agencies will no longer use Standard Form No. 63 to verify the effective date of transfers and to obtain information for use in determining eligibility for periodic pay increases. This form will be abolished.

The official date on which the transfer has become effective will be obtained from the copy of Standard Form 50 which is sent the employing agency; promotion and other personnel information will be obtained from the Official Personnel Folder when received.

§ 28.10 *Requests for further information.* Inquiries with regard to the Official Personnel Folder should be made in writing to the Personnel Procedures and Records Project Staff, Room 216, U. S. Civil Service Commission, Washington 25, D. C.

§ 28.11 *Specifications for Official Personnel Folder*—(a) *Type of folder.* Letter size, kraft, heavy weight, individual reinforced tab (approximately ⅔ cut right of center), contents secured with built-in metal fasteners at top of back flap and bottom of front flap. Material to be filed on permanent (or right hand) side of folder to be punched and fastened at top of sheet. Material to be filed on temporary (or left hand) side to be punched and fastened at bottom of sheet. White or buff colored labels shall be used for identifying the folder, with the employee's last name first, followed by his first name and middle initials, if any, and date of birth expressed as month, day and year, that is, Oct. 30/26, followed by identfication number, if any. The name on the employee's personnel folder shall correspond to his name on the rolls of the agency. The following information will be printed on the front of the folder: Official Personnel Folder

(b) *Permanent records.* On right side in chronological order, with latest paper on top, file permanent records affecting employee's status: Application for Federal Employment (earliest and latest form completed), Standard Forms 57, 58, 60, Civil Service Form 3821; Notification of Personnel Action, Standard Form 50; Request for Personnel Action, if used as the official appointing document, or as the employee's resignation; Oath of Office, Affidavit and Declaration of Appointee, Standard Form 61; Veterans Preference Forms, Civil Service Forms 2842 and 2842a; Evidence of Satisfactory Military Service (this should not include the certificate of discharge which is returned to the employee); Report of completion of character or loyalty investigation; Official letters of commendation or reprimand; Resignation; Notice of retirement, Standard Form 37; Report of Efficiency Rating, Standard Form 51; Records of completion of training courses; Civil Service Examination papers; Transcript of court order, in case of separation for legal incompetence; Employee's Notice of Injury or Occupational Disease, Bureau of Employees' Compensation Form C. A. 1; Notification of approval of application for disability retirement, Civil Service Form 3170; Official Death Notice. The forms referred to by number include forms superseded by or superseding the forms listed, or agency forms serving the same purpose.

(c) *Temporary records.* On left side in chronological order, with the latest paper on top, file records of temporary value. In general, these are documents leading to a formal action but not constituting a record of it nor making a substantial contribution to the employee's service record. Dispose of these papers on transfer of employee to another agency or upon separation. The list that follows is intended as a guide for current personnel operations and not as a request for the creation of any records not normally used: Request for Personnel Action (except where used as the official appointing document or contains the employee's resignation); Requests for authority and Commission's approval; Required records for employment of minors; Letters of Release; Letters of reference and responses to inquiries; Conduct Reports for Pay Increase (Periodic); Advance Notices of personnel actions for such actions as demotion, pay increase, furlough, reduction in force, termination of appointment, etc.; Notices of proposed retirement; All Personal Debt Correspondence; Deferment and Draft Correspondence; Miscellaneous Correspondence; Application for Reemployment (after Military Service or War Transfer Leave Without Pay); Bureau of Employees' Compensation Forms, except Form C. A. 1.

AUTHORITY: §§ 29.1 to 29.15, inclusive, issued under sec. 17, 46 Stat. 478; 5 U. S. C. 709, §§ 29.101 to 29.108, inclusive, issued under sec. 12 (a), 46 Stat. 476, 5 U. S. C. 724.

§ 29.1 *Administration.* (a) The Commission shall have charge of the adjudication of all claims arising under the retirement laws, and of all matters directly or indirectly concerned with such adjudication.

(b) In the adjudication of claims arising under the retirement laws, the Commission shall consider and take appropriate action on counterclaims filed by the Government as set-offs against amounts in the retirement fund involved, and shall likewise consider and take appropriate action in adjusting illegal salary payments in violation of laws pertaining to dual service, subject to final decision by the Comptroller General.

(c) The Commission shall maintain a control account for each department and independent establishment; for this purpose, departments and establishments shall make reports of appointments and separations and annual summaries of retirement fund transactions.

§ 29.2 *Evidence.* (a) (1) Civil Service Commission Form 2806 (Retirement Account) shall be the basic record for action on all claims for annuity or refund, and those pertaining to decreased employees or annuitants.

(2) Form 2806 shall contain a record of all service creditable under the Retirement Act, civil and military, and a record of all retirement deductions made, showing the beginning and ending dates of each period covered by such deductions. Whenever practicable in certifying service for which deductions were not made, the aggregate basic salary earned and the amount of tontine involved, by fiscal years, shall be shown. Any change of date or salary on the service history side, or in the first three columns of the fiscal side, of Form 2806 shall be certified. Any leave in excess of 6 months in a calendar year shall be noted.

(3) Immediately upon the absolute separation of an employee for any reason (or upon interdepartmental transfer), Form 2806 shall be completed to date, certified as to its correctness, and, after proper entry therefrom has been made on the "Register of Separations", sent to the Civil Service Commission. In no case shall the retirement record card be held in a department or establishment awaiting the receipt of a claim.

(b) When loss or destruction or incompleteness of records in the Government offices concerned is shown, a request shall be made through the Commission to the General Accounting Office for such data as may be deemed necessary for a proper determination of the rights of the claimant. When the required information cannot be developed by any official record, inferior or secondary evidence then becomes admissible and should be requested.

§ 29.3 *Applications.* (a) All applications under the Retirement Act shall be filed with the Commission and shall be made on such forms as may be prescribed by the Commission.

(b) Applications for annuity and for retirement on account of total disability, except disability applications filed by a department or establishment, must be executed before two identifying witnesses.

(c) Applications for the payment of accumulated deductions, or of accrued annuity and/or unexpended balance, must be executed before an officer authorized to administer oaths for general purposes, whose seal must be affixed thereto. If such officer does not have a seal and is not required by law to use one, his official character, signature, and term of office must be certified under the official seal of the proper State, county, or city officer. Administrative officers having authority to administer oaths for administrative purposes only are not qualified to administer oaths to applicants. Applications for refund shall be executed before two identifying witnesses.

§ 29.4 *Time for filing applications.* (a) An application for annuity on account of age may be filed shortly before or at any time after the employee reaches the requisite retirement age, but such application should not be filed more than 30 days in advance of reaching retirement age. In cases of optional retirement, the application must be executed before the actual date of separation.

(b) An application for immediate or deferred annuity on account of voluntary or involuntary separation from the service will not be considered if filed before the employee's separation.

(c) An application for retirement on account of disability must be executed by the employee prior to the applicant's separation from the service or within 6 months thereafter. This time limitation may be waived by the Commission in the cases of employees who are found to have been mentally incompetent at date of separation or within 6 months thereafter, the application in such cases to be filed with the Commission within one year from the date of restoration of any such person to competency or the appointment of a fiduciary, whichever is the earlier.

Request or order by the department or other governmental agency for retirement of an employee for disability must be filed prior to the employee's separation from service. If application for disability retirement is submitted upon an inappropriate form, or upon an appropriate form inadequately or incompletely executed, within 6 months from date of separation from the service, such application may be accepted as an informal claim provided the claimant immediately or within a reasonable time thereafter submits a properly executed application upon the appropriate form.

§ 29.5 *Disability retirement; medical examination.* (a) When an applicant for retirement on account of total disability has established a prima facie case and no legal grounds for rejection exist, such applicant shall be ordered to appear for a medical examination before a medical officer of the United States or a duly qualified physician or surgeon or board of physicians or surgeons designated by the Commission. When the application is accompanied by a report of examination already made by a medical officer of the United States, it may not be necessary to require another examination.

(b) The order for annual examination by the Commission shall direct the annuitant to be medically examined within 30 days from and after the anniversary of the date on which he was retired upon annuity for disability. This provision, however, may be modified so that the annual medical examination may take place within 30 days from and after the expiration of one year from the date of the last medical examination.

(c) When a medical examination made in compliance with the direction of the Commission shows that the annuitant has recovered and has been restored to an earning capacity which would permit him to be appointed to an appropriate position fairly comparable in compensation to the position occupied at the time of retirement, payment of the annuity shall be continued temporarily to afford the annuitant opportunity to seek such available position. In no case shall the continued payment of the annuity exceed one year from the date of the medical examination showing recovery. If the annuitant shall be reemployed in the Government service within the one year, the annuity shall be discontinued at the close of the day preceding the date of such reemployment.

(d) The Commission, where it appears in any particular case that the nature of the disability is such as to warrant the conclusion that it will continue for a certain period, may, in the exercise of its authority, waive the requirement for regular annual examinations for the period during which there is reasonable expectation of continuation of the disability, but in any case a medical or other examination may be ordered at any time to determine the facts relative to the nature and degree of disability of any employee thus retired.

(e) If the evidence shows that the disability is permanent in character, further examination shall not be ordered, unless warranted, and the annuitant shall be notified accordingly.

§ 29.6 *Effective date of retirement.* (a) When an employee reaches retirement age, either on the first day of a month, or on any other day within a month, his annuity shall commence on the first day of the succeeding month. In such cases the employee will not be subject to automatic separation until the end of the month in which such age is attained, and credit for service shall be given for the period between the date of reaching retirement age and the beginning date of annuity.

(b) When an employee retires on account of disability, the annuity shall commence on the first day of the month succeeding the termination of pay status, or on the first day of any subsequent month, as the case may warrant. In such cases, credit for service may be given for the period between the termination of pay status and the beginning date of annuity if the employee is carried on the rolls of the department during such time.

(c) In cases of optional retirement, the annuity shall commence on the first day of the month following separation; in cases of discontinued service retirement, the annuity payments shall begin the first of the month following attainment of age 62, or date of separation, whichever is the later, if the employee resigned from service or was discharged for cause; if the separation was involuntary, not by removal for cause on charges of misconduct or delinquency, the individual may receive an annuity to begin the first of the month following attainment of age 62, or the first day of the month following separation beyond that age, or he may elect to receive a reduced annuity beginning the first of the month following attainment of age 55, or following separation if beyond that age.

§ 29.7 *Computation of interest.* (a) The commercial method, that is, computation on the basis of 30 days to the month, is adopted. Interest will be computed for the actual time involved in each case, but whenever applicable the rule of average will obtain.

(b) In all cases, interest shall be allowed on current deductions, deposits, and redeposits at the rate of 4 percent, compounded annually, through all periods of service. When an officer or employee subject to the Retirement Act is transferred to a position wherein he does not retain his retirement status, and is entitled to refund of deductions with interest, the interest will terminate with the last day of service in the former position; and when an employee becomes absolutely separated from the service before serving five years, interest on deductions will terminate with the last day in service. A fractional part of a month in the total service in any fiscal year shall be disregarded, and no interest shall be allowed unless the service covered by the refund aggregates more than one year. After an employee has completed five years or more of creditable service, interest shall be allowed at the rate of 3 percent, compounded on June 30 of each year, during periods of separation from and after January 24, 1942. No interest will be allowed beyond the date of last separation unless a period of ninety days has elapsed from date of such separation to date of approval of refund claim. If an employee who reaches retirement age at any time during a month is continued in service to the end of the month, interest shall be allowed to the end of the month.

(c) Service credit deposits and redeposits made by potential annuitants separated from service after serving at least five years will draw interest at the rate of 3 percent, compounded annually,

during the separation period until beginning date of annuity.

(d) Interest at the rate of 3 percent, compounded annually, shall be allowed on voluntary deposits during periods of employment, and, after the employee has completed at least five years' service and acquired a retirement status under the act of January 24, 1942, during periods of separation until refunded or beginning date of annuity.

§ 29.8 *Military service.* (a) Periods of honorable service in the Army, Navy, Marine Corps, or Coast Guard of the United States which do not form the basis for pension, retired pay, or compensation under any law shall be included in crediting service under the Retirement Act.

(b) An applicant for annuity who is in receipt of benefits on account of his term of honorable service in the Army, Navy, Marine Corps, or Coast Guard of the United States, may elect to surrender said benefits and to have the service upon which they are based added to his period of civil service for the purpose of obtaining a greater benefit in the form of annuity. Should it appear upon the adjudication of a claim for annuity that the claimant will benefit by the inclusion of military or naval service, and the relinquishment of benefits based thereon, he shall be so advised and permitted to exercise the right of election.

§ 29.9 *Designation of beneficiary.* (a) The designation, change, or revocation of beneficiary shall be in writing on the prescribed Form 2806–1, signed and acknowledged in the presence of two witnesses personally acquainted with the designator, neither of whom shall be named as beneficiary, and must be received in the Commission prior to the death of the designator.

(b) Any person, firm, corporation, or legal entity may be named as beneficiary.

(c) A revocation or change of beneficiary may be made at any time and without the knowledge or consent of the previous beneficiary. Alterations or insertions restricting the right to change or revoke a designation cannot be given any force or effect. No change or revocation of beneficiary in a last will or testament, or in any other document not witnessed and filed as required by the regulations of this part shall have any force or effect.

(d) Where a writing, other than Form 2806–1, signed by the designator and duly witnessed by two persons, is received in the Commission prior to the death of the designator, in which a clear and unambiguous revocation or change of designation of beneficiary is made in substantially the same manner as that provided on Form 2806–1, and the designator dies without confirming the change or revocation by the execution of the prescribed Form 2806–1, the revocation or change shall be given the same effect as if executed on Form 2806–1: *Provided however*, That the Commission shall, upon receipt of said writing, forward a blank Form 2806–1, to the designator at the last address furnished by him for confirmation on that form of the previous writing which shall become null and void if (1) death occurs 60 days after the filing of the first form, and (2) if no confirmation is received on said Form 2806–1 within said period.

(e) A designation of beneficiary or a change or revocation of beneficiary may be made only by an employee subject to the act whose name is borne on the rolls of the department or independent establishment at the time of execution thereof, or by an annuitant, actual or potential.

§ 29.10 *Designation of agent.* In the case of a claim for amount due a deceased employee or annuitant where no beneficiary has been named and no executor or administrator has been appointed, but claim is made by next of kin, and if there be more than one entitled thereto, it shall be permissible for the others to designate the one who makes the claim to act as agent to receive their distributive shares.

§ 29.11 *Disclosure of information.* (a) (1) Files, records, reports, and other papers and documents pertaining to any claim filed with the Civil Service Commission, whether pending or adjudicated, will be deemed confidential and privileged, and no disclosure thereof will be made except as provided herein.

(2) Disclosure of information from the files, records, reports, and other papers and documents shall be made to a claimant or to his duly authorized representative in matters concerning himself alone when such disclosure would not be injurious to the physical or mental health of the claimant or be regarded as a breach of confidence.

Determination as to when disclosure of information would be injurious to the physical or mental welfare of a claimant will be made by the Medical Division.

(3) By "a duly authorized representative of a claimant" is meant any person who has satisfied the Commission of his authority to act.

(4) The name or address of a beneficiary designated by an employee or annuitant will, during the life of the employee or annuitant, be furnished only to the designator when request therefor is made in writing over the signature of the designator.

(5) Such information as may properly be disclosed to a claimant personally shall, in the event of his death, be disclosed upon proper request to the duly appointed representative of his estate, or to such person as may be designated by such representative, or to a duly designated beneficiary. Where no representative of the claimant's estate has been appointed, the claimant's next of kin shall be recognized as the representative of his estate.

(6) Where copies of documents or other records are desired by or in behalf of parties to a suit, whether in a court of the United States or in any other court, such copies shall be furnished to the court only, and on an order of the court or subpoena duces tecum, addressed to the President, U. S. Civil Service Commission, requesting the same.

(7) Where a process of a United States court or other court requires the production of documents or records contained in the retirement files of a claimant, such documents will be produced in the court out of which the process has issued. Where original records are produced, they must remain at all times in the custody of a representative of the Civil Service Commission, and if offered or received in evidence, permission should be obtained to substitute a copy so that the original record may remain intact in the file.

(8) The address of a claimant as shown by the Civil Service Commission records may be furnished to duly constituted police or court officials upon proper request or the submission of a certified copy either of the indictment returned against the claimant or of the warrant for his arrest.

(9) Disclosure of the amount of annuity or refund to any claimant may be made to any National, State, county, municipal or other publicly recognized charitable or social-security administrative agency.

(10) Subject to the limitation regarding name or address of a beneficiary, all records or documents official required by any department or other agency of the United States Government shall be furnished in response to a proper request, and Senators and Representatives of the United States in their capacity as Members of Congress of the United States shall be furnished for their official use with such records, documents or other information as may be requested for such use.

(11) Copies of papers, records, etc., the furnishing of which would be prejudicial to the interest of the Government; copies of reports of examining surgeons; reports from the War Department; or copies of records of other departments and other confidential matters, will not be furnished.

(b) Certificates of discharge, adoption papers, marriage certificates, decrees of divorce, letters testamentary or of administration, birth or baptismal records, family records, personal letters, diaries, and other personal papers or articles which may have been filed in a claim, shall, when no longer needed in the settlement of such claim, be returned to the persons entitled thereto upon written request therefor; and whenever papers so returned constitute part of the material and essential evidence in a claim, photostat or other copies of the same, or of such parts thereof as may appear to possess evidential value, shall be retained in the case.

§ 29.12 *Joint and survivorship annuities.* (a) The option to receive joint and survivorship annuity may be exercised only by employees retiring under the age or optional provisions of the Retirement Act. This applies to annuities purchased by voluntary deposits as well as the regular annuities.

(b) Any natural person may be designated as survivor annuitant under the joint and survivorship option. No more than one person may be named as survivor annuitant. The designation of a contingent survivor annuitant will not be accepted, and any such designation shall be null and void.

(c) Communication of the choice of option shall be made over the signature of the applicant on Form 3001 for use in filing claim for annuity. Receipt of a communication as set forth in this paragraph shall constitute prima facie evidence of the existence of all the elements of an election. Whenever such prima facie evidence becomes conclusive or is confirmed as hereinafter provided, an election shall have been made.

(d) Upon receipt of such communication, the Commission will advise the individual of the nature of the transaction, giving full details with respect thereto, and will solicit his confirmation of the existence of all the elements of an election. Upon receipt of such confirmation on Form 3001–A, an election shall be established as having been made as of the effective date of retirement, provided more than 30 days has elapsed from such effective date, but no such election shall be considered as having been conclusively established prior to final adjudication of the claim by the Commission.

(e) In the event of death of the designated survivor annuitant or for other good cause shown prior to final adjudication of the claim by the Commission, a new survivor annuitant may be substituted or the employee may change his election of the type of annuity selected.

(f) In any case in which an election has been conclusively established pursuant to the regulations under this section, the election, including the designation of survivor annuitant, cannot be revoked or changed.

(g) The death of a designated survivor annuitant subsequent to the final adjudication of the claim, shall not operate to cancel the election, and payments to the former employee shall continue as though the death had not occurred.

(h) Annuity payments to the survivor annuitant shall become effective on the day following the death of the former employee.

(i) The conclusive establishment of an election to receive a joint and survivorship annuity shall cancel any designation of beneficiary previously made by the employee, and any annuity accrued and unpaid at the date of death of the former employee shall be payable to the survivor annuitant named under said election.

(j) Proof of date of birth of the designated survivor annuitant shall be required prior to the adjudication of the annuity claim in all cases of election to receive joint and survivorship annuity.

§ 29.13 *Making of voluntary deposits.* (a) The option to make voluntary contributions to the civil-service retirement and disability fund for the purchase of additional annuity shall be limited to those employees serving within the purview of the Retirement Act and shall be made on the form prescribed by the Commission.

(b) No voluntary contributions shall be accepted from an employee who has failed to redeposit a refund required by section 12 (b) of the act of May 29, 1930, as amended, and/or who is otherwise indebted to the civil-service retirement and disability fund.

(c) Each voluntary contribution shall be made in the amount of $25.00 or multiple thereof, not to exceed 10 per-

cent of aggregate annual basic salary, pay, or compensation received since August 1, 1920, by money-order, draft, or check made payable to the Civil Service Commission, Washington, D. C.

(d) Voluntary contributions may be withdrawn only in case of transfer to a position wherein the member does not retain his status under the Retirement Act, absolute separation from the service prior to becoming eligible for retirement on annuity, or death.

(e) The Retirement Division of the Civil Service Commission shall maintain the record and account of voluntary contributions of each employee exercising the option to make such contributions.

§ 29.14 *Purchase of additional annuity.* (a) Voluntary contributions may be used to purchase only such types of annuity as are specifically defined by the act of May 29, 1930, as amended by the act of August 4, 1939.

(b) Any employee retiring under the provisions of the act of May 29, 1930, as amended, who has made voluntary contributions in the Civil Service Retirement and Disability Fund as authorized by Section 4 of the act of August 4, 1939, may purchase therewith at the time of retirement any one of the following types of annuity:

(1) Life annuity providing for return of unexpended principal; or,

(2) Increased annuity with forfeiture of unexpended principal; or

(3) Reduced annuity of equivalent actuarial value with forfeiture of unexpended principal, payable during the life of the employee and after his death annuity in equal amount to be payable to his duly designated beneficiary during the life of said beneficiary. No election as provided by this subparagraph shall be effective in case an employee dies within thirty days after the effective date of retirement; or,

(4) Reduced annuity of equivalent actuarial value with forfeiture of unexpended principal, payable during the life of the employee and after his death one-half of such reduced annuity to be payable to his duly designated beneficiary during the life of said beneficiary. No election as provided by this subparagraph shall be effective in case an employee dies within thirty days after the effective date of retirement.

(c) Any natural person may be designated as beneficiary under paragraph (b) (3) or (4) of this section.

(d) The annuity values based upon the mortality tables submitted by the Board of Actuaries on November 24, 1939, are hereby approved for use in computing annuities based on voluntary contributions made under the provisions of the act of August 4, 1939, in the same way and manner as they are used in computing regular annuities.

NOTE: Information concerning the mortality tables referred to in paragraph (d) of this section may be obtained from the Retirement Division, Civil Service Commission, Washington, D. C.

§ 29.15 *Appeals.* (a) An appeal may be taken to the Civil Service Commission, from the final action or order of the Retirement Division affecting the rights or interest of any person or of the United States under the civil-service retirement law, except as provided in this section.

(b) Appeals must be filed by a claimant or a duly accredited representative, but no appeal shall lie to the Commission's Board of Appeals and Review until action has been completed by the Retirement Division. An appeal taken in behalf of a claimant by or through a representative who is not recognized by the Commission, or whose recognition has been canceled, shall not be entertained.

(c) (1) Except as hereinafter ordered, the time for filing an appeal shall be not later than six months from the date of mailing notice of the final action or order of which complaint is made.

(2) In applications for disability retirement made by a department or establishment of the Government the time for filing an appeal shall be not later than 30 days from date of receipt of notice of final action or order.

(3) In cases of disability annuitants who are found upon medical examination to have recovered, the time allowed for filing an appeal shall be no later than 90 days from the date of final notice of proposed discontinuance of annuity.

(4) In simultaneously contested claims, where one is allowed and one rejected, the time allowed for the filing of an appeal shall be not later than 60 days from the date of receipt of the notice of the Commission's action by the claimant to whom the action is adverse. Upon the filing of an appeal all parties, other than the appellant, whose interests may be adversely affected by the decision shall be notified by registered letter of the filing of the appeal and of the substance thereof and allowed 30 days from the date of the receipt of such notice within which to file brief or argument in answer thereto before the papers are forwarded to the Board of Appeals and Review. The return of a registered letter unclaimed, containing notice, addressed to the last known post-office address, shall constitute sufficient evidence of notice.

(d) Each appeal shall show the name and post-office address of appellant, his retirement claim number, the date and substance of the action from which the appeal is taken, and full reasons for the appeal.

(e) In proceedings before the Commission in which it shall be decided that a party has no right to appeal or that said appeal may not be entertained under the provisions of this section, such party may apply to the Commissioners for an order directing the Retirement Division to forward the record to the Board of Appeals and Review. Such application shall be in writing and shall fully and specifically set forth the grounds upon which the request is based. If upon consideration the application is granted, jurisdiction shall vest in the Board of Appeals and Review to dispose properly of the case.

(f) The mandate of the decision by the Board of Appeals and Review shall be carried into effect within 60 days from the date of the receipt of notice of the decision by the Retirement Division (except as hereinafter provided), unless the decision shall sooner be recalled. A

proper explanation of the decision rendered shall be mailed to the appellant and/or his duly authorized representative by the Board of Appeals and Review.

(g) In any case involving conflicting claims of two or more parties wherein the time allowed for appeal is limited to 60 days, there shall be a stay of execution of the decision of the Board of Appeals and Review until the expiration of the period of 30 days within which a motion for reconsideration may be filed.

(h) No appeal will be considered by the Civil Service Commission to review the decisions of the Secretary of the Interior prior to July 21, 1930, or of the Administrator of Veterans' Affairs prior to September 1, 1934, on civil-service retirement cases except where upon the basis of newly discovered material evidence, the case has been reconsidered by the Retirement Division. In the latter event, the provisions of this section shall apply.

§ 29.101 *Basic records*—(a) *Records to be kept.* The administrative offices of the departments and independent agencies shall initiate and maintain as hereinafter provided a retirement record system which will furnish all required information for each employee subject to the provisions of the Civil Service Retirement Act, and which shall form the basic record for all retirement purposes. The basic record shall consist of an individual retirement account for each employee and an annual summary of retirement fund transactions. (Supported by an adjustment register when necessary.)

(b) *Individual account.* The individual retirement account, Civil Service Commission Form 2806, shall be established for each employee in the Government service who is subject to the provisions of the Civil Service Retirement Act, and shall be maintained by the employing department or agency. The retirement account (supplemented by the designation of beneficiary, Form 2806–1, maintained in the Retirement Division of the Civil Service Commission) shall be the basic record from which the rights of individuals under the Retirement Act shall be determined, and shall be used to support all payments from the Civil Service Retirement and Disability Fund. Each retirement account shall contain the following detailed information and such other data as may from time to time be deemed essential by the Civil Service Commission to a proper determination of rights under the Retirement Act:

(1) Present name of employee and reference to any other name under which service was rendered.

(2) Date of birth.

(3) Sex.

(4) Race. ("W"—white, "C"—colored and "O"—other) (If available.)

(5) All periods of employment. (For the duration of the present emergency, due to the inability of most war agencies to maintain currently, and to supply completed retirement account cards (Form 2806), all known periods of Federal employment will be posted. Prior government employment may be noted as "Not Verified". Employment within the agency shall be certified as to completeness and accuracy.)

(6) Reference to all periods of military or naval service claimed.

(7) All periods of leave in excess of six months in the aggregate in any calendar year—in computing excess leave, all periods of annual and sick leave, leave without pay and furloughs shall be included.

(8) A complete accumulative record of retirement deductions covering service in the agency by fiscal years, including deposits and redeposits for service credit.

(9) Citation as to vouchers and appropriations involved in any adjustment of illegal dual service.

§ 29.102 *Maintenance of individual retirement account*—(a) *Standard abbreviations.* All appointments, separations and changes in status, etc., shall be recorded on the retirement account in accordance with the standard abbreviations for personnel changes as outlined in Civil Service Form No. 2822, Revised.

(b) *Posting retirement deductions, deposits and redeposits.* At the end of each fiscal year the total retirement deductions taken from the salary or compensation, the amount of tontine included therein (see § 29.105), and the resulting net credit for the year, shall be posted from the payroll posting media for each employee to the appropriate columns on the fiscal side of his retirement account, the previous year's balance brought forward and the total credit entered.

In like manner there shall be entered on a separate line any deposit or redeposit made for the purchase of service credit or any collection of retirement deductions not currently withheld in prior fiscal years. Where the collection for service credit is made through the Civil Service Commission notice thereof on Form No. 3055 will be furnished to the department or agency concerned, which shall record the collection in accordance with the instructions contained in the notice.

The beginning date of deductions for each period of service shall be shown in the "remarks" column on the fiscal side of the retirement account card. Example: "Ded. began 9–1–38."

In no case shall voluntary deposits made under the provisions of section 4 of the Act of August 4, 1939, be entered on Form 2806. The record and account of voluntary deposits under that Act shall be maintained by the Retirement Division of the Civil Service Commission.

(c) *Posting service record.* Those agencies which maintain the service history side of the retirement account shall record all appointments, changes in status, changes in salary or rate of pay, and any other pertinent information on the service history side of the card in the appropriate columns. Those agencies which maintain only the fiscal record will record the date and kind of appointment, the designation and office of employment in the space provided in the upper right hand corner on the fiscal side of the card. In either type of record there shall also be shown any leave of absence in excess of six months in the aggregate in any calendar year, it being borne in mind that the provisions of section 5 of the Retirement Act with regard to exclusion of leave in excess of six months in computing annuitable service applies to the calendar year and not to the fiscal year. Example: "Excess leave 1938; annual 26 days, sick 30 days, without pay 150 days."

When establishing a record the agency shall also enter on the card whatever information is available within the agency—for example, information in the employee's application for employment—as to prior unverified service in other agencies. This statement of prior service in other agencies shall be noted "not verified."

When furnishing the record of an employee compensated on a w. a. e. (when actually employed) basis, the total number of days on which he was in a pay status shall be clearly indicated by calendar years. Where employment was on a regular per diem or per hour basis it shall be shown whether the service was on the basis of a 365-day year; 313-day year; 261-day year, or other period.

(d) *Use of margins.* All entries shall be kept within the lines ruled on the card if possible, and nothing written in the margins, particularly the right and left margins. If necessary a second line shall be used instead of the margins. (In using the record it is frequently perforated in the margin to be bound in the file, which may obliterate any entry in the margin or cause it to be obscured from view.)

(e) *Changes and erasures.* Any change or erasure of date, salary or cause of separation on the service history side of Form 2806, or any change or erasure of date in column 1 or of amount in columns 2 or 3 on the fiscal side shall be noted and initialed by the countersigning or certifying officer, or person designated by him, as near as possible to the item corrected. Certification shall occupy as little space as possible, and shall show the date, salary amount, or cause of separation to which changed. Small rubber stamps are desirable. The following or similar forms shall be used: "Date changed to 4–16–38." "Amt. changed to $1860." "Cause of separation changed to Res."

(f) (1) *Completion and furnishing of record upon separation.* Immediately upon the separation of an employee from the service of any department or agency the retirement account shall be completed to date, and the cause and date of separation recorded. The account shall then be certified as to its correctness, proper entry therefrom made on the register of separations as provided in paragraph (c) of § 29.107, and forwarded at once to the Civil Service Commission, together with any claim that may be on file at that time. In no case shall the retirement account be held in a department or agency awaiting the receipt of a claim.

(2) In recording a separation the facts in each individual case shall be given briefly, but in sufficient detail for the Commission to determine whether the separation was voluntary or involuntary, and if involuntary, whether for misconduct or delinquency within the meaning and intent of the Retirement Act. In any case where separation occurs for reasons other than voluntary (resignation) a brief but clear statement of the facts shall be recorded on the retirement account, or a written statement in appropriate form attached thereto when forwarded to the Commission. (It is necessary to consider not merely the form in which the separation was accomplished, but the conditions which induced the result. As generally used for retirement purposes the term "voluntary" denotes a separation from the service at the desire and for the convenience of the employee, while the term "involuntary" contemplates a separation for administrative reasons, such as lack of work, reduction of force, or a separation against the will or without the consent of the employee.)

(3) Not less than six months preceding eligibility for retirement (age), or whenever an employee requests optional retirement, a letter shall be directed to the Civil Service Commission, Retirement Division, listing the employee's unverified prior service in other agencies. The Commission will then obtain verification of this service and forward it to the requesting agency. An application for disability retirement, when submitted to the Retirement Division of the Civil Service Commission, must be accompanied by a letter listing the employee's unverified prior service in other agencies.

(4) When an employee is dropped for retirement on account of disability the date on which pay ceased shall be shown under "remarks" on the fiscal side of his retirement account card.

(5) When an employee is separated by death the 5% of salary to date of death shall be included in his retirement account in accordance with General Accounting Office Regulation No. 54, Supplement No. 9, dated May 27, 1936. No retirement deductions shall be withheld from lump sum payments in lieu of accumulated or accrued annual leave under the act of December 21, 1944 (Public Law 525). If the employee was in a non-pay status at the time of death the period involved shall be stated. The claim for refundment of retirement deductions is separate and distinct from the claim for residue of salary, and shall not be held pending settlement of the claim for residue of salary unless there is some question as to the amount due.

(g) *Certification of record.* Certification shall be made on the line next following the last entry on the fiscal side of the card, but it shall also cover the data shown on the service history side as indicated in the following form of certification:

Deductions and service certified correct.

(Signature and title of designated official.
Date)

(See § 29.103.)

(h) *Accounts with various funds maintained separately.* Accounts for the Civil Service Retirement and Disability Fund, the Canal Zone Retirement and Disability Fund and the Alaska Railroad Retirement and Disability Fund are maintained separately. Amounts deducted for the different funds shall not be consolidated on the employee's retirement account. When an employee goes from a position within the purview of one law to a position within the purview of another law the second office shall not take up in its accounts the amount of retirement deductions to the employee's credit when he left the former position. In such cases the employee concerned should obtain a refund of the retirement deductions taken while in the first position, and if he so desires, he may make application for the purchase of service credit under the act covering his new position.

§ 29.103 *Certifying officers; signature cards.* Certification as to the correctness of retirement records shall be made by officials regularly designated by the head of the department or agency. The Retirement Division of the Civil Service Commission shall be furnished with duly authenticated signature cards in triplicate on Retirement Form 3420 for each designated official. The heads of the various departments and agencies shall promptly advise the Commission of any change in certifying officers.

§ 29.104 *Retirement deductions*—(a) *Coverage.* The Retirement Act requires that retirement deductions shall be taken currently from the compensation of each employee coming within the purview thereof.

Retirement deductions shall be taken from the basic salary, pay or compensation of all appointive officers and employees in or under the executive, judicial, and legislative[1] branches of the United States Government who are not subject to another retirement system for such personnel, except heads of executive departments and agencies and employees excluded by Executive order. The same is true with respect to all officers and employees of the municipal government of the District of Columbia not subject to another retirement system for such persons.

(b) *Employees excluded by Executive order with certain exceptions.* Employees given temporary appointments for 1 year or less, certain employees paid on a when-actually-employed basis without regular tour of duty, contract and fee-basis employees, etc., were excluded by Executive Order 9154 dated May 1, 1942. This order as amended by Executive Order 9824, January 28, 1947, reads as follows:

(1) Employees in the following classifications of Federal personnel in the Executive branch of the Government are hereby excluded from the operation of the said Retirement Act, unless eligible for retirement benefits by continuity of service, by reinstatement, or otherwise:

(a) Employees whose expected service will be for brief periods but not to exceed one year.

(b) Employees paid by the hour, day, month, or year when actually employed, whose employment is periodic, part-time, or recurrent and for whom a regular tour of duty is not contemplated.

(c) Employees and consultants paid on a contract or fee basis.

(d) Employees paid on a piece-work basis, except when serving under regular or permanent appointment.

(e) Cooperative employees not wholly under the control of the Federal Government and not otherwise subject to the Civil Service Retirement Act.

(f) Officers and employees without compensation or with nominal compensation of $12.00 or less per annum.

(g) Intermittent alien employees engaged on work outside the continental limits of the United States.

(h) Member and patient employees in Government hospitals or homes.

(i) Employees serving under temporary appointments pending final determination of their eligibility for permanent or indefinite appointment.

(j) Acting postmasters, clerks in fourth-class post offices, substitute rural carriers, and special-delivery messengers at second-, third-, and fourth-class post offices.

(k) Consular agents appointed under authority of section 551 of the Foreign Service Act of 1946, approved August 13, 1946, Public Law 724, 79th Congress (added by E. O. 9824).

(2) The Civil Service Commission is authorized to determine the applicability of the above classifications to specific officers and employees or groups of officers and employees in the Executive branch of the Government.

(3) This order shall be effective as of January 24, 1942, except that it shall not be so construed as to defeat any retirement rights of officers and employees acquired before the date of this order.

By the terms of the order, employees in any of the categories listed therein have a retirement status if they are eligible for retirement benefits by continuity of service, by reinstatement, or otherwise. Such employees continue under the system until they become absolutely separated from the Government service or are transferred to a position under another Federal retirement system.

§ 29.105 *Tontine; based on pay status in calendar month.* The phrase "major fraction thereof" as used in section 12 (a) of the Retirement Act has reference to the major fraction of the calendar month. The retention of $1 is predicated upon the receipt of salary, pay or compensation, from which retirement deductions have been withheld, and tontine during a calendar month is determined on a pay status when making and accounting for retirement deductions.

There is no separate tontine fund. The total deductions for the calendar month less the sum of $1 shall be credited to the employee's individual account whenever the employee is in a pay status for more than one-half of such month. If an employee is in a pay status for the major fraction of a calendar month and the total retirement deductions covering such month amount to less than $1, the total amount deducted shall be recorded as a credit to the retirement fund without any credit to the employees' individual account. An employee who is on the rolls in a pay status for one-half month or less shall receive credit in his individual account for the full amount of retirement deductions taken for such period.

[1] Certain legislative employees have the right of election to come under the system. (50 Stat. 512; 56 Stat. 13)

§ 29.106 *Reemployed annuitants.* When an annuitant receiving annuity under any provision of the Retirement Act is reemployed, the Commission shall be immediately informed of that fact, and advised as to the date of reemployment and whether such reemployment is of a permanent or temporary nature. This is imperative in order to prevent concurrent payment of annuity and salary.

§ 29.107 *Reports of retirement fund transactions*—(a) *Reports to be submitted.* In addition to the individual retirement account, each department or independent agency shall maintain a register of employees appointed thereunder, a register of employees separated therefrom, and a register of adjustments, and shall submit annually a summary of retirement fund transactions. The annual summary of retirement fund transactions, Form 2807–2, shall be submitted as soon as possible after the close of each fiscal year, accompanied by a register of adjustments on Form 2807–1, where adjustments of prior reports are necessary. Such records shall be made in duplicate, the original forwarded to the Commission and the carbon retained by the office maintaining the record. In the event a department finds it expedient to maintain its individual retirement accounts in the various bureaus and submit its reports accordingly, the procedures prescribed shall apply to such bureaus in the same manner as to a department or independent agency.

(b) *Register of appointments.* A register of appointments shall be maintained on Form 2807, or acceptable substitute, recording the unrefunded deductions to the credit of the employees appointed during the year as shown on any individual retirement accounts (Form 2806) received for such employee. (If no individual retirement account is received, no entry on the appointment register is necessary.) If Form 2807 is used no entry shall be made in columns 2, 3, and 4. The name of the employee shall be entered in column 1 and the amount of unrefunded retirement deductions to his credit at the time of appointment as shown by his individual account shall be entered in column 5. The total of all entries in column 5 for the fiscal year shall be used to support the entry "Register of Appointments" on the annual summary and must be in agreement therewith.

(c) *Register of separations.* A register shall be maintained on Form 2807, or acceptable substitute, of all separations during the fiscal year. When Form 2807 is used as a register of separations the name of the employee separated shall be entered in column 1 and the total deductions remaining to the credit of the employee at separation as shown by the last entry on his individual account shall be entered in column 5. (Columns 2, 3, and 4 may be used by those offices which desire to so record the information regarding current deductions.) In no case shall tontine be included in the net credit of the employee, either on his retirement account or on the register of separations, regardless of the cause of separation. The final total of column 5 shall be used to support the entry "Register of separations" on the annual summary, and must be in agreement therewith. In case of transfer from one bureau to another in the same department no entry shall be made on either the appointment or separation register unless the accounts are maintained and reports submitted by bureaus as specified in paragraph (a) of this section.

(d) *Register of adjustments.* The register of adjustments (Form 2807–1) is prescribed to provide an adequate medium for posting in the control accounts any corrections of prior reports. Any correction of individual retirement accounts necessitating a change in any of the amounts shown on a previous annual summary of retirement fund transactions shall be noted on the register of adjustments so as to show the name of the employee concerned, any increase or decrease in gross deductions or tontine and the resulting net increase or decrease in the net balance of the employee's individual account in each case, together with a citation as to the fiscal year in which the error occurred. The character of the error in each case shall be recorded in the explanation column of the register in sufficient detail to afford a basis for the proper bookkeeping entry. When an adjustment of the account is occasioned by an adjustment of the retirement fund, the explanation shall include citations of the appropriation symbols of the accounts affected, and the dates and numbers of vouchers or other documents used as posting media. It is preferable that increases be shown in black and decreases in red, but any other distinct method will be acceptable. The final result of the net deductions column shall be used to support the fourth item on the annual summary, and shall be in agreement therewith.

(e) *Annual summary of retirement fund transactions.* The annual summary of retirement fund transactions (Form 2807–2) has been prescribed to provide a uniform method of summarizing retirement fund transactions. For the present the first and second columns will be used only in reporting items 6, 7, and 8.

The summary for each fiscal year shall bring forward in the third column the balance at the close of the preceding fiscal year as shown by the last entry on the summary submitted for that year. Item 2, "Register of appointments" shall be posted from the register of appointments and shall agree therewith. The total adjustments of prior fiscal year reports shall be posted in the third column under item 4. Under item 6 "Current fiscal year payroll deductions" there shall be entered in the first column all deductions taken on the payroll during the fiscal year for credit to the retirement fund; the amount of tontine included therein shall be entered in column 2, and the net credit extended to column 3. Under item 7 there shall be entered in the first column the sum of all amounts submitted by employees for the purchase of service credit, including items posted to the employees' individual retirement accounts from information furnished by the Commission on Form 3055, for the current year. The amount of tontine included therein shall be entered in the second column and the net amount extended to the third column. Items 6 and 7 shall be totaled for all three columns under item 8. These totals shall agree with the total current year's postings to the individual retirement accounts of employees, including the accounts of employees separated during the year.

Any adjustment for the current fiscal year which cannot be properly taken care of under some fiscal year item may be entered under item 9, in which event a separate adjustment register shall be submitted to cover this item. The total as shown on the register of separations shall be entered under item 12 as a deduction from the total to be accounted for, and the balance brought down under item 13, which item shall agree with the aggregate of balances on the individual accounts of employees still on the rolls at the close of the fiscal year for which the report is submitted.

§ 29.108 *Set-off on account of indebtedness to the Government.* It is incumbent upon the Civil Service Commission when adjudicating claims for retirement credits due former employees to make proper set-offs from the total amounts due, for repayment to the appropriation or appropriations involved, of any unliquidated amounts chargeable to such employees on account of advance payments for unearned annual or sick leave, overpayment of salary, or other indebtedness to the Government.

In filing claims for reimbursement on account of overdrawn leave the agencies concerned shall execute Form 3037 (Statement of Account of Overdrawn Annual and/or Sick Leave) in duplicate. In all cases involving withholding tax the amount of tax deductions included in the overpayment shall be entered directly below the space provided for gross indebtedness so that the form will show the total amount due the appropriation, the amount of tax reductions, and the balance for recovery from the retirement fund. The report shall show whether the amount of tax deductions has been taken up as Internal Revenue Collections or is being held in a special deposit account, in which case the special deposit account shall be fully identified. In each case involving withholding tax one copy of Form 3037 shall be forwarded to the General Accounting Office, Claims Division, at the same time the claim against the retirement fund is forwarded to the Commission. In all other cases both copies shall be forwarded to the Commission. Claims forwarded to the Commission should be attached to Form 2806 whenever possible.

Claims for set-off on account of indebtedness to the Government for reasons other than overdrawn leave shall be submitted to the Commission in letter form, in duplicate, setting forth all pertinent facts in the case, including the amount to be recovered and the symbol and title of the appropriation to be credited.

AUTHORITY: §§ 30.101 to 30.602, inclusive, issued under sec. 7.1, E. O. 9414, 3 CFR 1944 Supp.

SUBPART A—DEFINITIONS

§ 30.101 *Definitions.* (a) "Employee" and "employees" include officer and officers, respectively.

(b) "Permanent employees" are those appointed without limitation as to length of service, or for definite periods in excess of one year, or for the "duration of the job," or for the duration of the present war and for six months thereafter; and those who, although paid only when actually employed, are continuously employed or required to be available for duty for a period of not less than one month, as distinguished from part-time or intermittent employees.

(c) "Temporary employees" are those appointed for definite periods of time not exceeding 1 year.

(d) "Accumulated leave" means the unused leave remaining to the credit of the employee at the close of any calendar year.

(e) "Court leave" means leave for attending court as a witness on behalf of the United States or the government of the District of Columbia, or for jury duty.

(f) "Medical certificate" means a written statement signed by a registered practicing physician or other practitioner, certifying to the period of disability of the patient while he was undergoing professional treatment.

(g) "Month of service" means a period in a pay status covering a full calendar month or beginning on any date of a calendar month and ending at the close of business of the preceding date in the next calendar month.

(h) "Contagious disease" means a disease ruled as subject to quarantine as defined by the health authorities having jurisdiction.

SUBPART B—ANNUAL LEAVE

§ 30.201 *Accrual of annual leave.* Annual leave shall be credited to employees as follows:

(a) Permanent employees shall be credited with leave at the rate of 1 day per bi-weekly pay period; or, the total credit for any calendar year may be given at the beginning of the calendar year in which it accrues. The minimum credit for leave shall be 4 hours, and additional credits shall be in multiples thereof.

(b) Temporary employees shall be credited with leave of 2½ days for each month of service.

(c) Because of the difference in crediting leave to temporary and permanent employees the following method shall be followed in crediting leave when a temporary appointment is converted to a permanent appointment prior to the end of the service month: Service as a permanent employee shall be counted as temporary service for the purpose of completing the month of service. Leave shall thereafter be credited as a permanent employee.

§ 30.202 *Accumulated annual leave.* Accumulated annual leave may be carried forward for use in succeeding years until it totals not exceeding 60 days: *Provided*, That during the period of the present emergency 30 days additional leave may be accumulated: *Provided further*, That when accumulated leave equals or exceeds 60 days, further increase in accumulated leave shall be limited to 15 days in any succeeding years.

§ 30.203 *Grant of annual leave.* Annual leave shall be granted to an employee at such times as the heads of the departments and agencies may prescribe: *Provided*, That an employee who is to be placed on furlough in contemplation of separation by reduction of force shall be granted immediately prior to furlough, upon his request, any annual leave to which he is entitled. Permanent employees during the first year of service shall not be granted leave in excess of the amount accrued to their credit. Temporary employees shall not be granted leave until immediately prior to the end of the month in which it is earned. The minimum charge for annual leave shall be one hour, and additional leave shall be charged in multiples of one hour.

§ 30.204 *Court leave.* When an employee is absent from duty and in attendance in court as a witness in behalf of the United States or the Government of the District of Columbia, or for jury duty in any State court or court of the United States, the absence from duty shall not be charged against annual leave but should be recorded as "court leave."

SUBPART C—SICK LEAVE

§ 30.301 *Accrual of sick leave.* (a) Permanent employees shall be credited with sick leave at the rate of 1¼ days per month, which may be credited at the beginning of the calendar month, or at the beginning of the first pay period following the first day of the calendar month. The minimum credit for sick leave shall be one hour, and additional credits shall be in multiples thereof.

(b) Temporary employees shall be credited with 1¼ days of sick leave for each month of service.

(c) Sick leave accruing during any month of service shall be available at any time during that or any subsequent month.

§ 30.302 *Accumulated sick leave.* Unused sick leave shall be cumulative and available for future use: *Provided*, That the balance to the credit of the employee at the end of any month shall not exceed 90 days.

§ 30.303 *Grant of sick leave.* Sick leave shall be granted to employees when they are incapacitated for the performance of their duties by sickness, injury, or pregnancy and confinement, or for medical, dental or optical examination or treatment, or when a member of the immediate family of the employee is afflicted with a contagious disease and requires the care and attendance of the employee, or when, through exposure to contagious disease, the presence of the employee at his post of duty would jeopardize the health of others. The minimum charge for sick leave shall be 1 hour, and additional leave shall be charged in multiples of 1 hour.

§ 30.304 *Notification of superior.* An employee who is absent on account of sickness shall notify his supervisor as early as practicable on the first day of such absence, or as soon thereafter as possible. Failure to give such notice may result in the absence being charged to annual leave or leave without pay, as the circumstances may justify. Requests for sick leave for medical, dental, or optical examination or treatment shall be submitted for approval prior to the beginning of the leave.

§ 30.305 *Application for sick leave.* Written application on the prescribed form for grant of sick leave shall be filed within 2 days after the employee returns to duty. In no case shall a medical certificate be required to support the application for periods of absence of 3 days or less. For periods of absence in excess of 3 work days the application must be supported by a medical certificate, or other evidence administratively acceptable, which must be filed within 15 days after return to duty: *Provided*, That in lieu of a medical certificate, a signed statement of the employee indicating the nature of the illness and the reason why a medical certificate is not furnished may be accepted whenever it is unreasonable to obtain such certificate because of a shortage of physicians, remoteness of locality, or because the circumstances surrounding the employee's illness do not require the services of a physician. The

agency shall determine administratively whether the statement of the employee in lieu of a medical certificate shall be considered sufficient evidence to support the request for sick leave. All applications for sick leave for medical, dental, or optical examination or treatment shall be supported by a certificate of the employee that he has received such examination or treatment and shall include the name and address of the physician, dentist, or other practitioner visited and the date and hour of visit.

§ 30.306 *Sickness during annual leave.* When sickness occurs within a period of annual leave and lasts 5 or more consecutive work days, the period of illness may be charged as sick leave and the charge against annual leave reduced accordingly. Application for such substitution of sick leave for annual leave shall be made within 2 days after return to duty and shall be supported by a medical certificate, or other evidence administratively acceptable to the same extent as provided in § 30.305.

§ 30.307 *Sick leave advanced.* In cases of serious disability or ailments, and when the exigencies of the situation so require, sick leave may be advanced to permanent employees not in excess of 30 days: *Provided*, That no advances of sick leave shall be made to any employee unless the absence from duty on account of illness is for a period, or periods, of 5 or more consecutive work days; that every application for advance leave shall be supported by a medical certificate; that the total of such advances shall be charged against sick leave subsequently credited. Sick leave may be advanced irrespective of whether the employee has annual leave to his credit.

§ 30.308 *Sick leave not advanced.* Sick leave shall not be advanced to an employee holding a limited appointment, or one expiring on a specified date, in excess of the total sick leave that would accrue during the remaining period of such appointment.

SUBPART D—GENERAL PROVISIONS

§ 30.401 *Change in hours of duty.* Whenever the number of hours of duty in an employee's work day is permanently changed the leave standing to his credit shall be converted to the proper number of hours based upon the new work day.

§ 30.402 *Leave-with-pay status.* (a) Leave shall accrue to an employee while in a leave-with-pay status, provided he returns to duty, or provided that failure to return to duty is due to death, disability (evidence of which shall be supported by an acceptable medical certificate), retirement for disability, or reduction in force.

(b) Employees who entered military, naval or merchant marine service between January 13 and December 21, 1944, and who are restored in accordance with statutory provisions after such service may be credited with leave accrued during the period of terminal leave granted immediately prior to entry into active military, naval, or merchant marine service.

§ 30.403 *Nonpay status.* Whenever a permanent employee's absence in a nonpay status totals the equivalent of the base-pay hours in 1 bi-weekly pay period, the credits for annual leave shall be reduced 1 day and for sick leave ⅝ day for each such period. The total deductions in sick leave credits on account of nonpay status in any one calendar year shall not exceed 15 days: *Provided*, That when an employee absent because of injury received in line of duty requests to be carried on leave-without-pay, he shall, upon his return to duty, receive credit for accrued leave covering the period for which he was paid disability compensation by the Employees' Compensation Commission.

§ 30.404 *Days for which leave charged.* Leave shall be charged only for absence upon days which an employee would otherwise work and receive pay and shall be exclusive of Sundays which do not occur within a regular tour of duty, holidays, and all nonwork days established by Federal statute or by Executive or administrative order: *Provided*, That when a holiday is declared by general administrative orders to be a work day, an employee who absents himself from work without permission that day shall be subject to a deduction of 1 day's pay.

§ 30.405 *Absences of less than 30 minutes.* Under ordinary circumstances unavoidable or necessary absence from duty not in excess of 30 minutes, and tardiness, shall be excused for adequate reasons, or handled administratively by requiring additional work, or by a charge against any compensatory time which the employee may have to his credit as a result of overtime previously worked. In the event that this privilege is abused such absences, and tardiness, shall be handled administratively by a charge against annual leave, or by disciplinary action.

§ 30.406 *Separation of employees indebted for unearned leave.* In case of the separation of an employee who is indebted for unearned leave, the employee shall refund the amount paid him for the period of such excess, or deduction therefor shall be made from any salary due him. This section shall not apply in cases of death, retirement for disability, or reduction of force, or in case an employee is unable to return to duty because of disability, evidence of which shall be supported by an acceptable medical certificate.

§ 30.407 *Leave without pay.* Leave without pay may be granted to an employee for a period not exceeding 12 months regardless of whether he has leave standing to his credit: *Provided*: That an employee absent because of injuries received in line of duty may be carried on leave without pay for the period for which he is paid disability compensation by the Employees' Compensation Commission.

§ 30.408 *Transfer from permanent to permanent position.* When a permanent employee is appointed, reappointed, or transferred to another position as a permanent employee, with no break in service or a break of less than 90 days, his leave account shall be disposed of as follows:

(a) If the position is within the purview of the leave acts of March 14, 1936, the leave account shall be certified to the employing agency for credit or charge to the employee.

(b) If the position to which he is appointed, reappointed, or transferred is not within the purview of the leave acts of March 14, 1936, the employee shall be furnished with a statement of his sick leave account and if he is subsequently appointed, reappointed, or transferred to a position within the purview of such acts, with no break in service or a break of less than 90 days, the leave shown to be due shall be credited to his account.

(c) Any person who was appointed, reappointed, or transferred prior to January 1, 1945, to a position not within the purview of the leave acts of March 14, 1936, who is or has been appointed, reappointed, or transferred to a position within the purview of such acts with no break in service, or with a break of less than 30 days if the reappointment occurred between December 31, 1944, and March 1, 1946, or less than 90 days if the reappointment occurred on or after March 1, 1946, shall be credited with leave shown to be due.

§ 30.409 *Transfer from permanent to temporary position.* When a permanent employee is appointed, reappointed, or transferred to a temporary position with no break in service, or a break of less than 90 days, his leave account shall be disposed of as follows:

(a) If the position is in the same agency he shall be credited with such leave as may be due him or charged with any unliquidated leave which may have been advanced.

(b) If the position is in a different agency he shall be furnished with a statement of his leave account and if subsequently he becomes a permanent employee of the same or a different agency with no break in service, or a break of less than 90 days, the leave shown to be due shall be credited to his account: *Provided*, That in the discretion of the agency to which transferred, the leave shown to be due him may be credited to him in the temporary position.

§ 30.410 *Temporary employees who become permanent.* Temporary employees who subsequently become permanent employees either in the same or a different agency, with no break in service or a break of less than 90 days, shall be credited with such leave as may be due them.

§ 30.411 *Restoration of veterans.* (a) Any permanent employee who leaves or has left a position to enter military, naval, or merchant marine service, and is or has been reemployed as a permanent employee within 120 days after his release from military, naval, or merchant marine service, shall be entitled to such leave as remained to his credit.

(b) Any permanent employee who is or has been restored to a position as a result of appeal under section 14 of the Veterans' Preference Act of 1944, or as a result of formal appeal under any other authority or procedure; shall be entitled to any annual or sick leave which remained to his credit upon separation.

SUBPART E—ADMINISTRATION

§ 30.501 *Responsibility for administration.* The heads or governing bodies of the various governmental agencies to which this part applies shall be responsible for the proper administration of this part so far as they pertain to employees under their respective jurisdictions, and they shall maintain an account of leave for each employee in accordance with methods prescribed by the General Accounting Office.

§ 30.502 *Employees who have uncommon tours of duty.* The head or governing body of any governmental agency which has employees who work 24-hour shifts, or other uncommon tours of duty, is authorized to promulgate supplemental regulations consistent with the regulations in this part for administering leave for such employees.

§ 30.503 *Employees outside the continental United States.* Nothing in this part shall be construed to prevent the continuance of any leave differential existing prior to January 1, 1936, for the benefit of employees of the Federal Government stationed without the continental limits of the United States. However, any department may, if it so desires, apply the regulations in this part to employees' stationed without the continental limits of the United States, subject to the continuance of such leave differential.

SUBPART F—EMPLOYEES EXCEPTED

§ 30.601 *Employees excepted.* (a) Teachers and Librarians of the public schools of the District of Columbia.

(b) Officers and employees of the Panama Canal and the Panama Railroad Co. on the Isthmus of Panama.

(c) Temporary employees engaged on construction work at hourly rates.

(d) The Postmaster General and officers and employees in or under the Post Office Department, except those serving in the departmental service and in the Mail Equipment Shops.

(e) Employees not required to be continuously employed during regular tour of duty, such as (1) per diem or per hour employees engaged in an emergency who may be employed for more than one 7- or 8-hour shift within 24 hours during the emergency; (2) part-time or intermittent employees; (3) persons engaged under contract; (4) employees engaged temporarily for less than a month on a piece-price basis; (5) employees who are paid at hourly rates but who are not engaged on construction work, such as mechanics, skilled laborers, and others engaged in various services on maintenance, repair, clean-up work, etc., where employment is more or less intermittent and not on a regular and continuous basis; (6) consultants employed and paid on the basis of "when actually employed"; and (7) employees paid on a fee basis, such as physicians, surgeons, and other consultants.

(f) Alien and native labor employed outside the continental limits of the United States: *Provided*, That the head or governing body of any governmental agency which employs alien and native labor outside the continental limits of the United States may promulgate regulations governing the granting of leave to such employees.

§ 30.602 *D. C. Police and Fire Departments.* The regulations in this part relating to sick leave shall not apply to officers and members of the Police and Fire Departments of the District of Columbia other than civilian personnel.

PART 31—EFFICIENCY RATINGS BOARDS OF REVIEW

Sec.
31.1 Establishment.
31.2 Jurisdiction and number.
31.3 Members.
31.4 Appeals.
31.5 Appeal period when efficiency rating is "unsatisfactory."
31.6 Hearings.
31.7 Decisions.
31.8 Extent of regulations.
31.9 Effective date of regulations.

AUTHORITY: §§ 31.1 to 31.9, inclusive, issued under 42 Stat. 1490, as amended; 5 U. S. C. 669.

§ 31.1 *Establishment.* There shall be established in each department and independent establishment having positions and employees subject to section 9 of the Classification Act of 1923, as amended, one or more boards of review for the purpose of considering and passing upon the merits of efficiency ratings assigned to such employees.

§ 31.2 *Jurisdiction and number.* The head of each department or independent establishment shall determine the number and jurisdiction of boards of review to be established within his department or establishment, subject to the approval of the Civil Service Commission. The jurisdiction of each board of review shall be specific and shall be exclusive of that of any other such board.

§ 31.3 *Members.* (a) Each board of review shall be composed of three members, and there shall be an alternate member provided for each principal member who shall serve during the absence of such principal member or when the principal member is unable to serve for any other reason and who shall succeed the principal member in the event that he is unable to serve to the end of his term of office. Where necessary in the interest of good administration, and in order to expedite the consideration of cases, an additional alternate member may be designated for each principal member. Members of boards of review and alternate members shall be appointed or designated for terms expiring June 30 subsequent to their appointment or designation: *Provided*, That they may continue to serve until their successors are appointed or designated.

(b) One member of each board of review and alternates to such member (to be known as department member and alternate department members) shall be designated by the head of the department or establishment served by such board.

(c) Another member of each board of review and alternates to such member (to be known as employee member and alternate employee members) shall be designated by election, to be held between April 1 and July 1 of each calendar year for the term beginning on July 1 of such year, by the employees whose efficiency ratings are under the jurisdiction of the board in such manner as shall be determined by the Civil Service Commission. Upon the request of the head of a department or establishment or of ten percent of the employees whose efficiency ratings are subject to review by a board of review, the Civil Service Commission may order an election for employee members and alternate employee members at a different time or may authorize the definite or indefinite postponement of the regular annual election.

(d) Chairmen and alternate chairmen for the boards of review shall be designated by the Civil Service Commission.

(e) All members of boards of review and all alternate members shall be officers or employees of the executive branch of the Federal government: *Provided, however*, That in the case of boards of review serving agencies not in the executive branch, such members and alternate members (except chairmen and alternate chairmen) shall be appointed or elected from the branch of government to which such agencies respectively belong.

§ 31.4 *Appeals.* Each appeal from an efficiency rating shall be submitted in writing to the chairman of the appropriate board of review within ninety days of the date that notice of such rating was delivered to the employee. Boards of review may waive this requirement for good and sufficient reasons, as in cases (a) where it appears that appellants were not in a position to make an appeal within the ninety-day period, (b) where employees elected to avail themselves of the grievance procedures in their own departments or establishments before proceeding with appeals under these regulations, or (c) where new evidence is discovered after the close of the ninety-day period which would have a bearing on the decision concerning the appeal. On the request of the Civil Service Commission, certified in writing, efficiency ratings which require the dismissal, demotion, or reduction in salary of employees subject to the approval of the Civil Service Commission under section 9 of the Classification Act of 1923 as amended shall be considered by boards of review in the same manner as if appealed by such employees.

§ 31.5 *Appeal period when efficiency rating is "unsatisfactory".* When an employee who has completed his probational or trial period and whose efficiency rating is "unsatisfactory" appeals his rating to the appropriate Board of Review, created under the provisions of section 9 of the Classification Act of 1923, as amended, within 15 days after receiving notice of the rating, action based on the efficiency rating shall be withheld pending the outcome of the appeal.

§ 31.6 *Hearings.* Hearings conducted on efficiency-rating appeals and certified cases shall be on as informal a basis as possible and yet permit the presentation of all information necessary to ascertain the correctness of the rating in question or the rating which should be as-

signed the employee. An oral hearing may be waived by the appellant, or employee whose rating is certified for review, and the board of review may thereupon proceed to a consideration of the case on the basis of written evidence submitted by the parties. Stenographic reports of oral hearings shall be required only when it is determined by the unanimous vote of the board that they are necessary to the best interests of the Government and employee. In all proceedings before boards of review, each employee whose efficiency rating is under consideration shall be entitled to have a representative of his own selection; and at oral hearings each appellant or employee whose rating is certified for review shall be entitled to appear with his representative. The appellant, or employee whose rating is certified for review, and his representative, and such representatives of the department or establishment as are designated by the head thereof, shall be afforded an opportunity to submit orally or in writing any information deemed by the board of review to be pertinent to the case, and shall be afforded an opportunity to hear or examine, and to reply to, information submitted to such board by other parties.

§ 31.7 *Decisions.* After ascertaining the pertinent facts in each case, the board of review shall proceed to determine such adjustment in the efficiency rating as it deems proper, or sustain the efficiency rating appealed from without change. Decisions shall be made by a majority vote. Notices of decisions of boards of review shall be communicated to the heads of the departments or independent establishments and to the appellants, and employees whose ratings are certified for review, in writing and shall contain summary statements of the facts on which the decisions are based. Copies of the decisions of the boards shall also be forwarded to the Civil Service Commision.

§ 31.8 *Extent of regulations.* The regulations in this part apply with full force and effect to the administration of efficiency rating boards of review in the departmental service. Until such time as the Civil Service Commission, after consultation with heads of departments and independent establishments, decides that it is practicable to extend the foregoing provisions in their full force and effect to the field services, efficiency-rating appeals from employees in the field services may be made to boards of review established in and for the departmental headquarters of said field services for adjudication on the basis of evidence submitted in writing.

§ 31.9 *Effective date of regulations.* The regulations in this part supersede the regulations in Executive Order No. 8748 of May 1, 1941, and in Executive Order No. 9155 of May 1, 1942, and shall be effective immediately, except that the provision in § 31.3 authorizing members of boards of review to serve until their successors are appointed or designated shall be effective retroactively to July 1, 1941.

PART 32—AWARDS TO FEDERAL EMPLOYEES FOR MERITORIOUS SUGGESTIONS AND FOR EXCEPTIONAL OR MERITORIOUS SERVICE

Sec.
32.1 Eligibility for awards.
32.2 Amount of awards.
32.3 Determination of awards; dissemination of suggestions.
32.4 Reports to Bureau of the Budget.
32.5 Awards of certificates, medals or other emblems.
32.6 Time limitations.
32.7 Suggestions which represent part of normal duties.
32.8 Limitation of awards.
32.9 Waiver of further claim by recipient.
32.10 Effective date.

AUTHORITY: §§ 32.1 to 32.10, inclusive, issued under sec. 14, Pub. Law 600, 79th Cong.

§ 32.1 *Eligibility for awards.* Any civilian officer or employee of a department (as the word "department" is defined in section 18 of the said act of August 2, 1946) who makes a suggestion, in such form and manner as his department shall require, which is adopted for use in the department on or after August 2, 1946, and, in the judgment of the department head or other duly authorized authority in the department, has resulted or will result in improvement or economy in the operations of the department by way of monetary savings, increased efficiency, conservation of property, improved employee-working conditions, better service to the public, or otherwise, shall be eligible for consideration for a cash award. A former civilian officer or employee (or his estate) shall be similarly eligible for awards for such suggestions made while in the service of the department.

§ 32.2 *Amount of awards.* Whenever a suggestion is determined to be meritorious and is adopted solely or primarily because it will result or has resulted in the saving of money, the amount of the award shall be based on the amount of the annual estimated saving in the first year of operation in accordance with the following table, unless for special reasons the head of the department shall determine, subject to the limitations prescribed in the said act, that a different amount is justified:

Savings	*Awards*
$1–$1,000	$10 for each $200 of savings with a minimum of $10 for any adopted suggestion.
$1,000–$10,000	$50 for the first $1,000 of savings, and $25 for each additional $1,000 of savings.
$10,000–$100,000	$275 for the first $10,000 of savings, and $50 for each additional $10,000 of savings.
$100,000 or more	$725 for the first $100,000 of savings, and $100 for each additional $100,000 of savings; provided that (with the exception of the War and Navy Departments) the maximum award for any one suggestion shall not exceed $1,000.

§ 32.3 *Determination of awards; dissemination of suggestions.* When a suggestion is adopted primarily upon the basis of improvement in the operations or services of the department, the department shall determine the amount of the award commensurate with the benefits anticipated from the suggestion. Whenever the head of a department believes that a suggestion he has adopted would benefit the Government service generally, he may report it to the Director of the Bureau of the Budget for dissemination to all departments.

§ 32.4 *Reports to Bureau of Budget.* At the end of each fiscal year each department shall report to the Director of the Bureau of the Budget the number of employee suggestions submitted, the number of such suggestions adopted, the total amount of cash awards, and the total amount of estimated annual savings.

§ 32.5 *Awards of certificates, medals or other emblems.* A department may provide for the purchase and award of appropriate certificates, medals, or other emblems, in honorary recognition of service which is determined by the head of the department to be exceptional or meritorious.

§ 32.6 *Time limitations.* No award shall be paid for any suggestion which is not adopted for use within five years from the date the suggestion is received by the department. Any department may, in its discretion, change the designated period of five years to a less period of time.

§ 32.7 *Suggestions which represent part of normal duties.* No award shall be paid to any officer or employee for any suggestion which represents a part of the normal requirements of the duties of his position.

§ 32.8 *Limitation of awards.* The total of cash awards paid during any fiscal year in any department (except the War and Navy Departments) shall not exceed $25,000. Cash awards and expenses for honorary recognition for exceptional or meritorious service may be paid from the appropriation for the activity primarily benefiting or may be distributed among appropriations for activities benefiting as the head of the department determines.

§ 32.9 *Waiver of further claim by recipient.* A cash award shall be in addition to the regular compensation of the recipient, and the acceptance of such cash award shall constitute an agreement that the use by the United States of the suggestion for which the award is made shall not form the basis of a further claim of any nature upon the United States by him, his heirs, or assigns.

§ 32.10 *Effective date.* This part shall be effective as of August 2, 1946.

NOTE: Part 32 was previously issued as Executive Order 9817, dated December 31, 1946, 12 F. R. 57.

PART 1468—GRAIN

USE OF GRAIN BY DISTILLERS, BREWERS, AND MIXED FEED MANUFACTURERS

War Food Order No. 141, as amended (11 F. R. 2217, 3997, 14065), is hereby further amended to read as follows:

§ 1468.11 *Use of grain for beverage spirits, malt beverages, and mixed feed*—(a) *Definitions.* (1) "Distiller" means any person engaged in the business of manufacturing alcohol or alcoholic beverages or spirits by any process which includes distillation.

(2) "Brewer" means any person engaged in the business of manufacturing malt beverages.

(3) "Mixed feed manufacturer" means any person engaged in the commercial manufacture of mixed feed.

(4) "Ethyl alcohol" means that substance known as ethyl alcohol, hydrated oxide of ethyl or spirits of wine, from whatever source or process produced, having a proof of 160 degrees or more; but does not include those substances commonly known as whisky, brandy, rum or gin, or other spirits produced at registered distilleries or fruit distilleries operated under Bureau of Internal Revenue Regulations 4 and 5.

(5) "Butyl alcohol" means that substance known as butyl alcohol or hydrated oxide of butyl, derived by fermentation.

(6) "Malt beverages" means beer, ale, stout, porter, near-beer, and similar beverages produced by alcoholic fermentation of malted grain with hops or hop products, and with or without other food products.

(7) "Wheat" means all classes of wheat and includes whole grain, grits, flakes, and starch material derived from wheat.

(8) "Wheat products" means sugars and sirups derived in whole or in part from wheat.

(9) "Milling quality wheat" means wheat of all classes, except Red Durum, which grades number 3 or better, or which grades number 4 or number 5 on test weight only.

(10) "Rice" means all classes of rice including whole grain, grits, flakes, and starch material derived from rice.

(11) "Rice products" means sugars and sirups derived in whole or in part from rice.

(12) "Screenings milled rice (class XIV)," or "brewers milled rice (class XV)" means those classes of rice as defined in the "United States Standards for Milled Rice" (11 F. R. 9840), as now in effect or hereafter amended.

(13) "Use," with respect to the use of wheat or rice by a brewer, means to infuse into a mash, and with respect to the use of wheat products or rice products by a brewer, to introduce into a brew.

(14) "Quota period" means any 3-month period beginning March 1, June 1, September 1, or December 1.

(15) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons whether incorporated or not.

(16) "Administrator" means the Administrator, Production and Marketing Administration, United States Department of Agriculture.

(b) *Use of grain by distillers.* (1) No distiller shall use wheat or wheat products in the manufacture of distilled spirits for beverage purposes or in the manufacture of ethyl alcohol or butyl alcohol.

(2) No distiller shall use rye in the manufacture of ethyl alcohol or butyl alcohol.

(3) No distiller shall, during any calendar month, use rye in the manufacture of distilled spirits for beverage purposes in excess of the greatest quantity computed under either subdivisions (i) or (ii) of this subparagraph:

(i) Ninety percent of the average monthly amount of rye used by such distiller during December 1946 and January 1947: *Provided, however,* That no distiller shall use rye in excess of fifteen percent of the total quantity of grain and grain products used in the manufacture of distilled spirits for beverage purposes during any month; or

(ii) Six percent of the total quantity of grain and grain products used in the manufacture of distilled spirits for beverage purposes during such month by each distilling plant operated by such distiller: *Provided, however,* That the minimum monthly allocation of rye for each distilling plant operated by such distiller shall be 2,000 bushels; *Provided, further,* That such minimum monthly allocation shall in no case exceed fifteen percent of the total quantity of grain and grain products used in the manufacture of distilled spirits for beverage purposes by such distilling plant during such month.

Each distiller's total allocation of rye, or any part of such allocation, computed in accordance with either of the above formulae, may, during the month for which such allocation is in effect, be used in any distilling plant operated by such distiller.

(c) *Use of grain by brewers.* (1) No brewer shall use wheat or wheat products in the manufacture of malt beverages.

(2) No brewer shall use rice or rice products in the manufacture of malt beverages: *Provided,* That any brewer may, during any quota period, use screenings milled rice (class XIV), and products thereof, and brewers milled rice (class XV), and products thereof, in a total quantity not in excess of 100 percent of the quantity of rice and rice products used by such brewer in the manufacture of malt beverages during the quota period commencing with that month in 1945 which corresponds with the first month of the particular current quota period.

(d) *Use of wheat for mixed feed or grain mixtures.* (1) No mixed feed manufacturer shall use milling quality wheat in the manufacture of mixed feed: *Provided, however,* That any mixed feed manufacturer located in the States of Arizona, California, Idaho, Nevada, New Mexico, Oregon, Utah, or Washington, or in that part of the State of Montana which is on or south of the main line of the Chicago, Milwaukee, St. Paul & Pacific Railroad or west of the Continental Divide may, during any calendar quarter, use milling quality wheat in the manufacture of mixed feed in a quantity not in excess of 40 percent of the quantity of grain so used by such manufacturer during the corresponding calendar quarter of 1945.

(2) No person shall use milling quality wheat for making any mixture of grains for sale as an ingredient in the manufacture of mixed feed.

(e) *Records and reports.* (1) Every distiller shall, within ten (10) days after the close of each calendar month, mail to the Order Administrator a report showing (i) amounts and kinds of grain used for the distillation of spirits for beverage purposes, and (ii) amounts and kinds of grain used for other purposes.

(2) Every person subject to this section shall, for at least two years or for such period of time as the Administrator may designate, maintain an accurate record of his transactions in grain, grain products, malted grain, malt sirup, and mixed feed.

(3) The Administrator shall be entitled to obtain such information from, and require such reports and the keeping of such records by, any person, as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this section, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(f) *Audits and inspections.* The Administrator shall be entitled to make such audits or inspections of the books, records, and other writings, premises, or stocks of grain, grain products, malted grain, malt sirup, alcoholic beverages, malt beverages, and mixed feed of any person, and to make such investigations as may be necessary or appropriate, in his discretion, to the enforcement or ad-

ministration of the provisions of this section.

(g) *Petition for relief from hardship.* Any person affected by this section who considers that compliance herewith would work an exceptional or unreasonable hardship on him may file a petition for relief with the Order Administrator. Petitions shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. The Order Administrator may take any action with reference to such petition which is consistent with the authority delegated to him by the Administrator. If the petitioner is dissatisfied with the action taken by the Order Administrator, he may, by request addressed to the Order Administrator obtain a review of such action by the Administrator. After said review, the Administrator may take such action as he deems appropriate, which action shall be final.

(h) *Violations.* Any person who violates any provision of this section may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using grain, grain products, malted grain, malt sirup, alcohol, alcoholic beverages or spirits, malt beverages, or mixed feed. Any person who wilfully violates any provision of this section is guilty of a crime and may be prosecuted under any and all applicable laws. Civil action may also be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this section.

(i) *Delegation of authority.* The administration of this section and the powers vested in the Secretary of Agriculture, insofar as such powers relate to the administration of this section, are hereby delegated to the Administrator. The Administrator is authorized to redelegate to any employee of the United States Department of Agriculture any or all of the authority vested in him by this section.

(j) *Communications.* All reports required to be filed hereunder and all communications concerning this section shall, unless otherwise provided, be addressed to the Order Administrator, War Food Order No. 141, Grain Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C.

(k) *Territorial scope.* This section shall apply within the forty-eight (48) States and the District of Columbia.

(l) *Effective date; War Food Orders 66 and 144 terminated.* This amendment shall become effective at 12:01 a. m., e. s. t., March 1, 1947, and shall supersede in all respects War Food Order No. 66 and War Food Order No. 144, which are hereby terminated. With respect to violations, rights accrued, liabilities incurred, or appeals taken, prior to said date, under War Food Order No. 66, War Food Order No. 141, or War Food Order No. 144, all provisions of said orders shall be deemed to remain in full force for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(E. O. 9280, Dec. 5, 1942, 3 CFR Cum. Supp., E. O. 9577, June 29, 1943, 3 CFR, 1945 Supp.)

TITLE 10—ARMY: WAR DEPARTMENT

Chapter VII—Personnel

PART 708—DECORATIONS, MEDALS, RIBBONS AND SIMILAR DEVICES

TIME LIMITS

Rescind § 708.4 and substitute the following:

§ 708.4 *Time limits.* (a) Except as provided in § 708.2 (h) (2) (iii), and in paragraph (b) of this section, no decoration shall be issued to any person after more than 3 years from the date of the act or service justifying the award thereof nor unless a recommendation was submitted through official channels at the time of the distinguished act or service or within 2 years thereafter.

(b) Decorations may be awarded as an exception to the general provisions of paragraph (a) of this section, when the acts or services justifying the award were performed between 7 December 1941 and 31 December 1946, both dates inclusive, providing, a recommendation is submitted through official channels prior to 1 July 1947. [AR 600-45, 22 Sep. 1943 as amended by WD Cir. 19, 21 Jan. 1947] (40 Stat. 871, 10 U. S. C. 1409)

Chapter IX—Transport

PART 903—TRANSPORTATION OF INDIVIDUALS

MISCELLANEOUS AMENDMENTS

Part 903 is amended in the following respects:

1. Section 903.4 is rescinded and the following substituted therefor:

§ 903.4 *Enlisted persons upon retirement*—(a) *Transportation.* There is no authority of law for issuing a transportation request to an enlisted person upon retirement for any distance for which the law provides that such person receive travel pay at the rate of 5 cents per mile. For sea travel involved in travel between place of retirement and place to which travel is authorized, only transportation in kind shall be allowed for such sea travel, subject to paragraph (b) of this section; *Provided,* That such person may not select as a residence a foreign country and receive transportation thereto.

(b) *Time limit*—(1) *General.* Except as provided in subparagraph (2) of this paragraph, a period ending 1 year after the termination of the wars in which the United States is now engaged or 1 year after the effective date of retirement, whichever is later, is fixed for military reasons as the time during which transportation in kind authorized in paragraph (a) of this section, may be furnished for the commencing of sea travel of retired enlisted persons.

(2) *Exception; hospitalization.* If the individual is confined in a hospital undergoing medical treatment on the effective date of retirement and continuously therefrom in hospitals during the fixed period specified in subparagraph (1) of this paragraph, or beyond, the transportation in kind for sea travel may be furnished for such travel commencing within 60 days from the date of discharge from such medical treatment: *Provided,* That the application for transportation in kind is supported by a statement of the responsible medical officer certifying as to said extent of medical treatment. If transportation in kind is furnished by commercial vessel the original statement, annotated with the serial numbers of the transportation requests issued, will be sent by the transportation officer to the disbursing officer designated to pay the carrier's bill. A copy of the statement will be retained with the transportation officer's copy of the transportation request. No other copies of the statement are necessary.

2. Section 903.5a is added as follows:

§ 903.5a *Cadets discharged from the United States Military Academy.* Cadets of the United States Military Academy upon being discharged from the service are not entitled to mileage, but are entitled to transportation in kind from the academy to their home, except that a cadet discharged for physical disability while in a hospital under orders is entitled to transportation in kind from the hospital to his home (1 Comp. Gen. 356), and that a cadet who is in a status of leave of absence from the United States Military Academy awaiting the result of a re-examination, and who is found deficient upon re-examination and ordered to be discharged, may be furnished transportation in kind from the point at which he receives notice of discharge to his home; *Provided,* That the cost of such transportation in kind is no greater than that from West Point, New York to his home. PART 1010—SUSPENSION ORDERS

[Suspension Order S-1097]

HOFFMAN LITHOGRAPHING CO.

Melvin V. Hoffman, d/b/a Hoffman Lithographing Company, Buffalo, N. Y., a veteran, on December 10, 1946, pursuant to Direction 20, PR 28, applied for and received on Form CPA-541A, Case Number 105037, a CC Rating for the purchase of a Harris Offset Press at a cost of $20,000. This authorization was given in reliance on the statements in the application and accompanying letter indicating to the Civilian Production Administration that the returned veteran had been formerly in the printing business and was acquiring equipment for a new business but did not disclose that the veteran had returned in May 1944, and had thereafter become and now is a partner, with a 30% interest, in the family printing business, a going concern. The consequences of the misleading statements contained in the application and accompanying letter caused the issuance of the authorization by mistake. In view of the foregoing, it is hereby ordered that:

§ 1010.1097 *Suspension Order No. S-1097.* (a) Authorization to apply a CC Rating for a Harris Offset Press at a cost of $20,000, granted on Form CPA 541A, Case Number 105037, to Melvin V. Hoffman is hereby revoked.

Issued this 24th day of February 1947.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1098]

ALVIN PFISTER AND S. J. GRIMMER

Alvin Pfister, who resides at 2917 Greer Avenue, St. Louis, Missouri, and S. J. Grimmer, who resides at Breese, Illinois, on October 12, 1946, without authorization from the Civilian Production Administration, as partners and owners began the construction of a building to be used as a night club and tavern, size 32 feet by 80 feet, to cost in excess of $10,000 located on U. S. Highway 50 immediately west of the town of Fairview, Illinois. This construction was in violation of Veterans' Housing Program Order No. 1 and has diverted scarce materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1098 *Suspension Order No. S-1098.* (a) Neither Alvin Pfister nor S. J. Grimmer, their successors or assigns, nor any other person, shall do any construction on the premises owned by them on U. S. Highway 50 immediately west of the town of Fairview, Illinois, including completing, putting up, or altering any structure located thereon unless hereafter specifically authorized in writing by the Civilian Production Administration.

(b) Alvin Pfister and S. J. Grimmer shall refer to this order in any application which they may file with the Civilian Production Administration for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Alvin Pfister and S. J. Grimmer, their successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 24th day of February 1947.

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice of issuance of special certificates for the employment of learners under the Fair Labor Standards Act of 1938.

Notice is hereby given that special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rate applicable under section 6 of the act have been issued to the firms hereinafter mentioned under section 14 of the act, Part 522 of the regulations issued thereunder (August 16, 1940, 5 F. R. 2862, and as amended June 25, 1942, 7 F. R. 4725), and the determinations, orders and/or regulations hereinafter mentioned. The names and addresses of the firms to which certificates were issued, industry, products, number of learners, learner occupations, wage rates, learning periods, and effective and expiration dates of the certificates are as follows:

Independent Telephone Learner Regulations, July 17, 1944 (9 F. R. 7125):

The special learner certificate(s) issued to the following company(ies) under the above regulations provide for the employment of learners in the occupation of commercial switchboard operator for a period not in excess of 480 hours at not less than 30 cents per hour for the first 320 hours and 35 cents per hour for the remaining 160 hours of the learning period. The number of learners authorized to be employed depends on the number of operators in the exchange, i. e., 1 learner if the exchange employs 8 operators or less, 2 learners if the exchange employs from 9 to 18 operators, etc. See regulations, Part 522, § 522.083.

Iowa Telephone Company, West Bend, Iowa; effective February 10, 1947, expiring February 9, 1948.

Southland Telephone Company, Atmore, Alabama; effective February 13, 1947, expiring February 12, 1948.

West Iowa Telephone Company, Anita, Iowa; effective February 11, 1947, expiring February 10, 1948.

Regulations, Part 522—Regulations Applicable to the Employment of Learners:

Puerto Rico Mills, Inc., Puerta de Tierra, Puerto Rico; full-fashioned hosiery, forty-seven (47) learners in the following operations:

a. (4 learners) seaming; at not less than 15 cents an hour for the first 480 hours, not less than 22½ cents an hour for the second 480 hours, and for every hour thereafter not less than the minimum established by any applicable wage order that may be in effect at the termination of the learning period;

b. (8 learners) legging, (2 learners) looping, (16 learners) topping, (3 learners) footing; at not less than 15 cents an hour for the first 480 hours, not less than 18¾ cents an hour for the second 480 hours, not less than 22½ cents an hour for the third 480 hours, and for every hour thereafter not less than the minimum established by any applicable wage order that may be in effect at the termination of the learning period;

c. (1 learner) winding, (3 learners) final inspection, (1 learner) foot inspection, (1 learner) leg inspection, (8 learners) mending; at not less than 15 cents an hour for the first 240 hours, not less than 22½ cents an hour for the second 240 hours, and for every hour thereafter not less than the minimum established by any applicable wage order that may be in effect at the termination of the learning period;

effective February 6, 1947, expiring February 5, 1948.

The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of the applicable determinations, orders and/or regulations cited above. These certificates have been issued upon the employers' representations that experienced workers for the learner occupations are not available for employment and that they are actually in need of learners at subminimum rates in order to prevent curtailment of opportunities for employment. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of regulations, Part 522.

Signed at New York, New York, this 17th day of February 1947.

CHESAPEAKE AND POTOMAC TELEPHONE CO. OF VIRGINIA

ORDER INSTITUTING INVESTIGATION AND SETTING FORTH HEARING DATE

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 14th day of February 1947;

It appearing, that on January 20, 1947 and on February 11, 1947, The Chesapeake and Potomac Telephone Company of Virginia filed revised tariff schedules effective February 20, 1947 and March 13, 1947 respectively, resulting in increased charges for interstate message telephone service in the Washington Metropolitan Area, between certain points in the State of Virginia and certain points in the State of Maryland; said tariff schedules being designated as follows:

THE CHESAPEAKE AND POTOMAC TELEPHONE COMPANY OF VIRGINIA

Tariff F. C. C. No. 15

4th Revised Page No. 5.
5th Revised Page No. 5.
11th Revised Page No. 7.
12th Revised Page No. 7.

It further appearing, that said tariff schedules effect new increased charges for telephone communications in interstate commerce; that no evidence in justification of such increased charges has been presented to this Commission; that the rights and interests of the public may be injuriously affected thereby; and it being the opinion of the Commission that the effective date of such schedules, insofar as they result in new increased charges for interstate message telephone service in the Washington Metropolitan Area should be postponed pending hearing and decision on the lawfulness of such new charges, or regulations and practices resulting in such increased charges;

It is ordered, That, pursuant to sections 204 and 205 of the Communications Act of 1934, as amended, the Commission, upon its own motion and without formal pleading, shall enter upon a hearing concerning the lawfulness of the above-cited tariff schedules, insofar as they provide for increased charges for the telephone service above described;

It is further ordered, That, pursuant to section 204 of the Communications Act of 1934, as amended, the operation of the above-cited tariff schedules, insofar as they effect increased charges for interstate message telephone service in the Washington Metropolitan Area

be, and they are hereby, suspended until May 20, 1947, unless otherwise ordered by the Commission; and that during said period of suspension, no changes shall be made in said tariff schedules, or in the regulations, charges, or practices sought to be altered thereby, unless authorized by special permission of the Commission;

It is further ordered, That, pursuant to section 204 of the Communications Act of 1934, as amended, an investigation be, and the same is hereby, instituted, into the lawfulness of the rates, charges, regulations, practices and services of The Chesapeake and Potomac Telephone Company of Virginia, The Chesapeake and Potomac Telephone Company of Baltimore City and The Chesapeake and Potomac Telephone Company (operating in the District of Columbia) for and in connection with interstate message telephone service in the Washington Metropolitan Area;

It is further ordered, That in the event a decision as to the lawfulness of the charges and regulations herein suspended has not been made during the suspension period and said charges and regulations go into effect, The Chesapeake and Potomac Telephone Company of Virginia shall, until further order of the Commission, keep account of all amounts charged, collected or received by reason of such increased charges and regulations; that said carrier shall specify in such accounts by whom and in whose behalf such amounts are paid; and shall file with this Commission a report on or before the 10th day of each calendar month, commencing June 10, 1947, showing the amounts accounted for as aforesaid during the previous calendar month;

It is further ordered, That a copy of this order be filed in the offices of the Commission with said tariff schedules herein suspended; that The Chesapeake and Potomac Telephone Company of Virginia, The Chesapeake and Potomac Telephone Company of Baltimore City and The Chesapeake and Potomac Telephone Company be, and they are hereby, made parties respondent to this proceeding; and that copies hereof be served thereon;

It is further ordered, That a copy of this order shall also be served upon the State Corporation Commission of the Commonwealth of Virginia, the Public Service Commission of Maryland, the Public Utilities Commission of the District of Columbia and the National Association of Railroad and Utilities Commissioners and these agencies be, and they are hereby given leave to intervene and participate fully in the proceedings herein.

It is further ordered, That this proceeding be, and the same is hereby, assigned for hearing on the 25th day of March 1947 beginning at 10:00 a. m. at the offices of the Federal Communications Commission in Washington, D. C.; and that the Commission's Telephone Committee, consisting of Commissioners Paul A. Walker, Ray C. Wakefield, and C. J. Durr, or any member or members thereof, are hereby authorized to preside at the hearings, and otherwise to conduct the proceedings herein; and said Committee shall prepare an initial decision as described in subsection (c) of § 1.851 of the Commission's rules and regulations;

It is further ordered, That the proceeding herein be, and it is hereby consolidated with the proceeding in Docket No. 8112.

Notice is hereby given, that § 1.857 of the Commission's rules and regulations is not applicable to these proceedings.

[Docket No. G-838]

MANUFACTURERS LIGHT AND HEAT CO.

NOTICE OF APPLICATION

FEBRUARY 18, 1947.

Notice is hereby given that on February 3, 1947, The Manufacturers Light and Heat Company (Applicant), a Pennsylvania corporation, having its principal place of business in Pittsburgh, Pennsylvania, filed an application with the Federal Power Commission for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing Applicant to construct and operate certain natural gas facilities and to sell natural gas to the Westmoreland Gas Company, all subject to the jurisdiction of the Commission, described as follows:

Approximately 120 feet of 2- and 3-inch pipe together with metering and regulating facilities at a point on Applicant's system in Paruco Park Realty Company Plan, Jeannette, Westmoreland County, Pennsylvania.

Applicant states it proposes to sell gas to the Westmoreland Gas Company, serving approximately 190 domestic customers in a small section of Jeannette, Pennsylvania, in an area adjoining Applicant's territory; that the Westmoreland Gas Company has three gas wells, ordinarily producing sufficient gas for that company's needs, being insufficient however to meet the requirements of the company in excessive cold spells.

Applicant states that during such times the Westmoreland Gas Company is unable to take care of the service requirements of its customers. The Applicant will sell to it at prevailing domestic rates for that area which are on file with the Commission.

Applicant further states that gross revenues from the sale of gas to the Westmoreland Gas Company will be $424.45 per year and its total operating expenses for the facilities constructed before income taxes will be $392.71 per year.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and if so, to advise the Federal Power Commission as to the nature of its interest in the matter, and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

The application of The Manufacturers Light and Heat Company is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of the rules of practice and procedure (effective September 11, 1946), and shall set out clearly and concisely the facts from which the nature of the petitioner or protestant's alleged right or interest can be determined. Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contentions of the petitioner in the proceeding, so as to advise the parties and the Commission as to the issues of fact or law to be raised or controverted, by admitting, denying, or explaining specifically and in detail, each material allegation of fact or law asserted with respect to the application.

[Docket No. G-854]

ATLANTIC SEABOARD CORP. AND VIRGINIA GAS TRANSMISSION CORP.

NOTICE OF APPLICATION

FEBRUARY 18, 1947.

Notice is hereby given that on January 27, 1947, Atlantic Seaboard Corporation (Applicant or Atlantic), a Delaware corporation, having its principal place of business in Charleston, West Virginia, and Virginia Gas Transmission Corporation (Applicant or Virginia Gas), a Virginia corporation, having its principal place of business in Charleston, West Virginia, filed a joint application with the Federal Power Commission for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing Applicants to construct and operate certain natural gas facilities, subject to the jurisdiction of the Federal Power Commission, and described as follows:

Construction by the Atlantic Seaboard Corporation. (1) A 3200 HP Compressor Station in the vicinity of Flat Top, Mercer County, West Virginia, on the main 20-inch transmission pipe line of Atlantic Seaboard Corporation;

(2) Approximately 185 miles of 24-inch O. D. gas transmission line extending from the Cobb Compressor Station of United Fuel Gas Company near Clendenin, West Virginia, to the Virginia-West Virginia state line at which point connection will be made with the portion of the 24-inch O. D. gas transmission line for which authorization is sought herein by Virginia Gas Transmission Corporation;

(3) Approximately 8 miles of 24-inch O. D. gas transmission line commencing at the point of juncture with that portion of pipe line sought to be certificated herein by Virginia Gas Transmission Corporation on the Maryland-Virginia State line and extending to Rockville, Maryland, at a point of connection with an existing 20-inch gas transmission line of Atlantic Seaboard Corporation;

(4) A quintuple river crossing of approximately 2,371 feet over the Potomac River, near Rockville, Maryland;

(5) A measuring station at the West Virginia-Virginia State line;

(6) Installation of additional measuring and regulating equipment at the Rockville Measuring Station.

Construction by Virginia Gas Transmission Corporation. (1) Installation of two additional 800 hp. gas engine compressing units at Bickers Compressor Station on its existing main 20-inch transmission line;

(2) Approximately 75 miles of 24-inch o. d. gas transmission line extending from West Virginia-Virginia State line through Frederick, Shenandoah, Clarke, Loudon and Fairfax Counties, Virginia, to the Virginia-Maryland State line;

(3) A measuring and regulating station in Fairfax County, Virginia, near the Virginia-Maryland State line.

Applicants in support of their application state these facilities are necessary to maintain adequate and continuous service to Applicants' present markets, including the increased requirements of Washington Gas Light Company, and to furnish a part of the requirements of

The Manufacturers Light and Heat Company (Manufacturers) and Home Gas Company (Home); that the present capacity of Atlantic's existing 20-inch transmission line at Rockville, Maryland, after supplying Applicants' customers in West Virginia and Virginia, is 68,400 Mcf per day, sufficient to supply the estimated requirements of Washington Gas Light Company and the Lukens Steel Company (the latter on a curtailed basis) during the winter of 1946–47, with no excess capacity to meet any increases in peak-day requirements for such customers. Further, it is stated that Manufacturers has notified Atlantic that it is unable to return the amount of gas which it has taken from Atlantic during the past six months pursuant to an exchange agreement (Atlantic FPC Rate Schedule No. 25), under which emergency requirements of either company could be secured from the other, but it desires to purchase such natural gas from Atlantic, and to continue receiving gas under the exchange agreement at rates approved by the Federal Power Commission. In this connection Atlantic avers it is unable to supply any natural gas to Manufacturers on Atlantic's peak days, but is able to deliver varying amounts on other days.

The application states Manufacturers and Home have advised Atlantic that they are concurrently filing with the Federal Power Commission an application for authorization to construct a transmission line from a point near Coatesville, Pennsylvania, to Port Jervis, New York, and that Home desires to purchase gas from Atlantic at the Maryland-Pennsylvania state line, which gas will be transported through such proposed line. Atlantic states that it has advised Home that due to inadequate transmission facilities it would not be able to deliver gas to Home at such point during Atlantic's peak days in the winters of 1946–47 or 1947–48, but could deliver varying amounts on other days, and could deliver peak-day gas requirements upon the completion of the construction of facilities made the subject of this application.

The application recites that the proposed facilities in conjunction with Applicants' present facilities would enable them to supply the increased estimated requirements of Washington Gas Light Company, Manufacturers, and Home, and assure an added safety factor to the supply of gas to the Washington area as well as to the Applicants' other markets.

The estimated over-all capital cost of the proposed facilities will be $18,629,000, of which $13,570,000 is estimated to be the cost of facilities to be constructed by Atlantic, and $5,059,000 is estimated to be the cost of facilities to be constructed by Virginia Gas. To complete the project it is estimated that Atlantic will require $450,000 of additional cash in 1947 and Virginia Gas will require $380,000 of additional cash, and for that part of the project to be completed in 1948, Atlantic will require approximately $12,000,000 and Virginia Gas will require approximately $4,400,000, all of which will be furnished or caused to be furnished by Columbia Gas and Electric Corporation under a financing arrangement, the nature and terms of which will be subject to the approval of the Securities and Exchange Commission.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter, and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

The application of Atlantic Seaboard Corporation and Virginia Gas Transmission Corporation is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of the rules of practice and procedure (effective September 11, 1946), and shall set out clearly and concisely the facts from which the nature of the petitioner or protestant's alleged right or interest can be determined. Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contentions of the petitioner in the proceedings, so as to advise the parties and the Commission as to the issues of fact or law to be raised or controverted, by admitting, denying, or explaining specifically and in detail, each material allegation of fact or law asserted with respect to the application.

[S. O. 687]

UNLOADING OF CARS AT SEATTLE, WASH.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 18th day of February A. D. 1947.

It appearing, that 2 cars, containing pipe and boilers, at Seattle, Washington, on the Northern Pacific Railway Company, have been on hand for an unreasonable length of time and that the delay in unloading said cars is impeding their use; in the opinion of the Commission an emergency exists requiring immediate action. It is ordered that:

(a) *Cars at Seattle, Wash., be unloaded.* The Northern Pacific Railway Company, its agents or employees, shall unload immediately cars Erie 14157 and P&LE 43484, containing pipe and boilers, respectively, on hand at Seattle, Washington, consigned care of Alaskan Steamship Company.

(b) *Demurrage.* No common carrier by railroad subject to the Interstate Commerce Act shall charge or demand or collect or receive any demurrage or storage charges, for the detention under load of any car specified in paragraph (a) of this order, for the detention period commencing at 7:00 a. m., February 21, 1947, and continuing until the actual unloading of said car or cars is completed.

(c) *Provisions suspended.* The operation of any or all rules, regulations, or practices, insofar as they conflict with the provisions of this order, is hereby suspended.

(d) *Notice and expiration.* Said carrier shall notify V. C. Clinger, Director, Bureau of Service, Interstate Commerce Commission, Washington, D. C., when it has completed the unloading required by paragraph (a) hereof, and such notice shall specify when, where, and by whom such unloading was performed. Upon receipt of that notice this order shall expire.

It is further ordered, that this order shall become effective immediately; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission, at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 54-43, 70-1176, 70-1177]

GREAT LAKES UTILITIES CO. ET AL.

ORDER APPROVING PLAN GRANTING APPLICATIONS AND PERMITTING DECLARATIONS TO BECOME EFFECTIVE SUBJECT TO RESERVATION OF JURISDICTION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa. on the 19th day of February A. D. 1947.

In the matter of Great Lakes Utilities Company, File No. 54-43; Great Lakes Utilities Company, Ohio Gas, Light & Coke Company, File No. 70-1176; Great Lakes Utilities Company, Paxton Gas Company, and Allied Gas Company, File No. 70-1177.

The Commission having instituted proceedings under sections 11 (b) (1) and 11 (b) (2) of the Public Utility Holding Company Act of 1935 with respect to Great Lakes Utilities Company ("Great Lakes"), a registered holding company, and its subsidiaries; and said proceedings having been consolidated with those relating to a plan and amendments thereto filed by Great Lakes pursuant to section 11 (e) of the act for compliance with sections 11 (b) (1) and 11 (b) (2) of the act (Holding Company Act Release No. 3243) and with proceedings related thereto (Holding Company Act Release No. 6235);

The plan filed by Great Lakes having provided, among other things, for the extension of the maturity date of Great Lakes' outstanding First Lien Collateral Trust Gold Bonds, 5½% Series, due 1942, for the sale of assets of Great Lakes and for the application of the proceeds of the sale to the payment of principal and interest on Great Lakes' bonds and necessary expenses and the distribution of the remaining assets of Great Lakes, if any, to Great Lakes' stockholders and for the subsequent dissolution of Great Lakes;

The Commission and the District Court of the United States for the Eastern District of Pennsylvania having approved the section 11 (e) plan and amendments thereto; Great Lakes having sold substantially all of its assets and, in accordance with the plan heretofore approved by the Commission and the District Court, having deposited with the Trustee under the indenture securing Great Lakes' bonds sufficient funds to satisfy the claim of the bondholders for principal and interest in full; the remaining assets of Great Lakes now consisting principally of cash and of the common stock of Allied Gas Company ("Allied"), formerly Rochelle Gas Company, which pursuant to the approval of this Commission, acquired the physical properties and assets of a former and now dissolved subsidiary of Great Lakes, Paxton Gas Company;

Great Lakes having filed in the consolidated proceedings pursuant to section 11 (e) a plan dated as of August 1, 1946 (hereinafter referred to as the "amendment") which is designed to implement its plan of dissolution heretofore approved by the Commission and the District Court and to effectuate compliance with section 11 (b); such amendment proposing, among other things, the payment by Great Lakes of its current liabilities, the distribution of all of the common stock of Allied pro rata to the holders of the outstanding Voting Trust Certificates for common stock of Great Lakes, the contribution by Great Lakes of its remaining assets to the capital of Allied and for the subsequent dissolution of Great Lakes;

Great Lakes having requested the Commission, upon its approval of the amendment, to apply to the District Court of the United States for the Eastern District of Pennsylvania for an order approving and enforcing said amendment;

Public hearings having been held on the amendment in the consolidated proceedings after appropriate notice thereof and the Commission having considered the record and having issued its findings and opinion, and having found that said amendment is necessary to effectuate the provisions of secton 11 (b) of the act and is fair and equitable to the persons affected thereby:

It is ordered, Pursuant to the applicable provisions of the act and the rules and regulations thereunder that said amendment be, and the same hereby is, approved and that the applications and declarations regarding the various transactions involved in said amendment be, and the same hereby are, granted and permitted to become effective, respectively, subject to the reservation of jurisdiction to take such action as the Commission may deem necessary or appropriate in connection with the amendment and to secure compliance by Great Lakes' system with section 11 (b) of the act in the event the amendment is not enforced as provided therein;

It is further ordered, That this order shall not be operative to authorize any of the proposed transactions involved in the amendment nor the consummation of the amendment in any respect until an appropriate District Court of the United States shall have entered an order enforcing said amendment pursuant to an application duly made by the Commission for that purpose.

Great Lakes having requested that the Commission's order shall conform to the requirements of sections 371 (a), 373 (a), and 1808 (f) of the Internal Revenue Code, as amended and contain the recitals, specifications and itemizations described in sections 371 (f) and 1808 (f) thereof;

It is ordered and recited, That the transactions proposed in the aforesaid amendment to be effected by Great Lakes and Allied, including those hereinafter described and recited, are necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935:

(a) The distribution and exchange by Great Lakes (to the holders of the outstanding Voting Trust Certificates representing the entire outstanding 150,780 shares of Common stock of Great Lakes of the par value of $1.00 each) of the entire issued and outstanding 10,052 shares of Common Stock of Allied of the par value of $10 each on the basis of one share of said Common Stock of Allied in respect of each 15 shares of Common Stock of Great Lakes (represented by Voting Trust Certificates as aforesaid), such distribution, transfer and exchange to be made against the surrender, for cancellation, of the aforesaid Voting Trust Certificates representing shares of Common Stock of Great Lakes;

(b) The exchange, delivery, and surrender for cancellation of (1) the outstanding Voting Trust Certificates representing the entire outstanding shares of Common Stock of Great Lakes referred to in (a) above, and (2) said outstanding shares of Common Stock of Great Lakes; and

(c) The issuance, distribution, delivery, exchange and subsequent surrender of scrip certificates representing fractional shares of Common Stock of Allied; such scrip to be issued and distributed to the holders of the Voting Trust Certificates (representing Common Stock of Great Lakes) entitled thereto, pursuant to the terms and provisions of the Plan.

By the Commission.

ELECTRIC BOND AND SHARE CO. ET AL.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania, on the 17th day of February A. D. 1947.

In the matter of Electric Bond and Share Company, File No. 54-127; Electric Bond and Share Company and its subsidiary companies, respondents, File No. 59-3; and Electric Bond and Share Company, American Power & Light Company, National Power & Light Company, Electric Power & Light Corporation, et al., respondents, File No. 59-12.

Electric Bond and Share Company (Bond and Share), a registered holding company, having filed a declaration pursuant to the provisions of section 6 (a) and 7 of the Public Utility Holding Company Act of 1935 regarding the following transactions:

Bond and Share proposes to issue and sell to thirteen banks promissory notes in an aggregate principal amount not to exceed $30,000,000, bearing interest at the rate of 1¾% per annum and maturing two years after the date of issue. The proceeds of such notes together with treasury cash and cash realized by Bond and Share from the sale of common stock of American Gas and Electric Company and Pennsylvania Power & Light Company will be used for the payment of $70 per share to Bond and Share's preferred stockholders in accordance with the provisions of Bond and Share's Plan II-A, as amended.

Bond and Share requests that the order of the Commission approving the proposed transactions contain findings and recitations conforming to the provisions and requirements of section 1808 (f) of the Internal Revenue Code, as amended.

Said declaration having been filed on February 5, 1947 and notice of filing having been duly given in the form and manner prescribed by Rule U-23 under said act, and the Commission not having

received a request for hearing with respect to said declaration within the period specified in such notice or otherwise, and not having ordered a hearing thereon; and

The declarant having requested that the Commission's order permitting the declaration to become effective be issued as soon as possible and become effective forthwith so that the company may be in a position to expedite the consummation of its Plan II–A, as amended; and

The Commission finding that the requirements of section 7 of the act are satisfied and that no adverse findings are necessary therein and deeming it appropriate in the public interest and in the interest of investors or consumers that said declaration be permitted to become effective immediately:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, and subject to the terms and conditions prescribed in Rule U-24, that the aforesaid declaration be, and the same hereby is, permitted to become effective forthwith.

It is further ordered, That the transactions proposed in said declaration, including, but without limitation, the issuance by Bond and Share of the said promissory notes aggregating not to exceed $30,000,000 in principal amount, are necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935.

By the Commission.

NORTHERN NATURAL GAS CO. AND KANSAS POWER AND LIGHT CO.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 17th day of February 1947.

In the matter of Northern Natural Gas Company, File No. 70–1404; The Kansas Power and Light Company, File No. 70–1408.

Northern Natural Gas Company ("Northern Natural"), a public utility company and a registered holding company, having filed an application and amendments thereto, pursuant to sections 9 and 10 of the Public Utility Holding Company Act of 1935 ("the Act"), and The Kansas Power and Light Company ("Kansas Power"), a public utility company (both companies being subsidiaries of North American Light & Power Company, a registered holding company, and of The North American Company, also a registered holding company), having filed a declaration and amendment thereto pursuant to sections 12 (f) and 12 (g) of the act and Rules U-43 and U-44 thereunder with respect to the following transactions:

Northern Natural proposes to acquire from Kansas Power for a price of $88,138.32, less adjustments and depreciation from December 31, 1945 to the date of conveyance, certain transmission facilities consisting of branch pipe lines, town border stations and measuring stations used in the transmission of gas to Kansas Power's distribution system under an existing exchange agreement, all of which facilities are located in the State of Kansas. Kansas Power will deposit the proceeds from the sale with the Harris Trust and Savings Bank, Trustee, to be held or used in accordance with the terms of a Mortgage and Deed of Trust dated July 1, 1939 and a Supplemental Indenture thereto of the same date.

This acquisition and sale is part of a plan whereby it is proposed to terminate the existing gas exchange agreement between Northern Natural and Kansas Power. In lieu of such gas exchange agreement, Kansas Power proposes to purchase gas, under Northern Natural's standard town border gas sales contract, for retail sale in the towns of Ashland, Belpre, Beverly, Bushton, Claflin, Coldwater, Delphos, Englewood, Greensburg, Holyrood, Lorraine, Macksville, Miltonvale, Protection and Tescott, Kansas. The other towns now served by Kansas Power with gas received from Northern Natural under the existing exchange agreement will be served by Kansas Power from its own pipe line facilities. The proposed agreement further provides that Northern Natural will sell to Kansas Power a volume of gas not to exceed 200,000,000 cubic feet annually to be delivered at the Ellinwood, Kansas tap line connection with Northern Natural.

The State Corporation Commission of the State of Kansas entered its order on September 4, 1946 approving the application of Kansas Power concerning the disconnection of facilities and the discontinuance of delivery of gas by Kansas Power to Northern Natural. The application of Northern Natural states that no state commission has jurisdiction over the proposed transaction with respect to Northern Natural. Kansas Power has submitted an application to the Federal Power Commission for authority to abandon and remove certain facilities under consideration herein. An application for a certification of public convenience and necessity with respect to the acquisition of facilities and the abandonment of certain metering facilities herein discussed has been filed by Northern Natural with the Federal Power Commission. The Federal Power Commission has not yet entered its order in connection with either of these applications and nothing herein contained shall be construed in any way as binding upon or limiting the authority of that Commission.

Said application and said declaration, as amended, having been duly filed and notice of said filings having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act and the Commission not having received a request for hearing with respect to said filings, as amended, within the period specified in said notice or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said application and said declaration, as amended, that the requirements of the applicable provisions of the act and rules promulgated thereunder are satisfied and that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers that said application and said declaration, as amended, be granted and permitted to become effective:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act, and subject to the terms and conditions prescribed in Rule U-24, that said application, as amended, be, and hereby is, granted forthwith and said declaration, as amended, be, and hereby is, permitted to become effective forthwith.

By the Commission.

EXECUTIVE ORDER 9832

PRESCRIBING PROCEDURES FOR THE ADMINISTRATION OF THE RECIPROCAL TRADE AGREEMENTS PROGRAM

By virtue of the authority vested in me by the Constitution and statutes, including section 332 of the Tariff Act of 1930 (46 Stat. 698) and the Trade Agreements Act approved June 12, 1934, as amended (48 Stat. 943; 59 Stat. 410), in the interest of the foreign affairs functions of the United States and in order that the interests of the various branches of American production shall be effectively safeguarded in the administration of the trade-agreements program, it is hereby ordered as follows:

PART I

1. There shall be included in every trade agreement hereafter entered into under the authority of said act of June 12, 1934, as amended, a clause providing in effect that if, as a result of unforeseen developments and of the concession granted by the United States on any article in the trade agreement, such article is being imported in such increased quantities and under such conditions as to cause, or threaten, serious injury to domestic producers of like or similar articles, the United States shall be free to withdraw the concession, in whole or in part, or to modify it, to the extent and for such time as may be necessary to prevent such injury.

2. The United States Tariff Commission, upon the request of the President, upon its own motion, or upon application of any interested party when in the judgment of the Tariff Commission there is good and sufficient reason therefor, shall make an investigation to determine whether, as a result of unforeseen developments and of the concession granted on any article by the United States in a trade agreement containing such a clause, such article is being imported in such increased quantities and under such conditions as to cause or threaten serious injury to domestic producers of like or similar articles. Should the Tariff Commission find, as a result of its investigation, that such injury is being caused or threatened, the Tariff Commission shall recommend to the President, for his consideration in the light of the public interest, the withdrawal of the concession, in whole or in part, or the modification of the concession, to the extent and for such time as the Tariff Commission finds would be necessary to prevent such injury.

3. In the course of any investigation under the preceding paragraph, the Tariff Commission shall hold public hearings, giving reasonable public notice thereof, and shall afford reasonable opportunity for parties interested to be present, to produce evidence, and to be heard at such hearings. vestigations and hearings shall from time to time be prescribed by the Tariff Commission.

4. The Tariff Commission shall at all times keep informed concerning the operation and effect of provisions relating to duties or other import restrictions of the United States contained in trade agreements heretofore or hereafter entered into by the President under the authority of said act of June 12, 1934, as amended. The Tariff Commission, at least once a year, shall submit to the President and to the Congress a factual report on the operation of the trade-agreements program.

PART II

5. An Interdepartmental Committee on Trade Agreements (hereinafter referred to as the Interdepartmental Committee) shall act as the agency through which the President shall, in accordance with section 4 of said act of June 12, 1934, as amended, seek information and advice before concluding a trade agreement. In order that the interests of American industry, labor, and farmers, and American military, financial, and foreign policy, shall be appropriately represented, the Interdepartmental Committee shall consist of a Commissioner of the Tariff Commission and of persons designated from their respective agencies by the Secretary of State, the Secretary of the Treasury, the Secretary of War, the Secretary of the Navy, the Secretary of Agriculture, the Secretary of Commerce, and the Secretary of Labor. The chairman of the Interdepartmental Committee shall be the representative from the Department of State. The Interdepartmental Committee may designate such subcommittees as it may deem necessary.

6. With respect to each dutiable import item which is considered by the Interdepartmental Committee for inclusion in a trade agreement, the Tariff Commission shall make an analysis of the facts relative to the production, trade, and consumption of the article involved, to the probable effect of granting a concession thereon, and to the competitive factors involved. Such analysis shall be submitted in digest form to the Interdepartmental Committee. The digests, excepting confidential material, shall be published by the Tariff Commission.

7. With respect to each export item which is considered by the Interdepartmental Committee for inclusion in a trade agreement, the Department of Commerce shall make an analysis of the facts relative to the production, trade, and consumption of the article involved, to the probable effect of obtaining a concession thereon, and to the competitive factors involved. Such analysis shall be submitted in digest form to the Interdepartmental Committee.

8. After analysis and consideration of the studies of the Tariff Commission and the Department of Commerce provided for in paragraphs 6 and 7 hereof, of the views of interested persons presented to the Committee for Reciprocity Information (established by Executive Order 6750, dated June 27, 1934, as amended by Executive Order 9647, dated October 25, 1945), and of any other information available to the Interdepartmental Committee, the Interdepartmental Committee shall make such recommendations to the President relative to the conclusion of trade agreements, and to the provisions to be included therein, as are considered appropriate to carry out the purposes set forth in said act of June 12, 1934, as amended. If any such recommendation to the President with respect to the inclusion of a concession in any trade agreement is not unanimous, the President shall be provided with a full report by the dissenting member or members of the Interdepartmental Committee giving the reasons for their dissent and specifying the point beyond which they consider any reduction or concession involved cannot be made without injury to the domestic economy.

PART III

9. There shall also be included in every trade agreement hereafter entered into under the authority of said act of June 12, 1934, as amended, a most-favored-nation provision securing for the exports of the United States the benefits of all tariff concessions and other tariff advantages hereafter accorded by the other party or parties to the agreement to any third country. This provision shall be subject to the minimum of necessary exceptions and shall be designed to obtain the greatest possible benefits for exports from the United States. The Interdepartmental Committee shall keep informed of discriminations by any country against the trade of the United States which cannot be removed by normal diplomatic representations and, if the public interest will be served thereby, shall recommend to the President the withholding from such country of the benefit of concessions granted under said act.

TITLE 6—AGRICULTURAL CREDIT

Chapter I—Farm Credit Administration, Department of Agriculture

PART 5—SURPLUS PROPERTY DISPOSAL

MISCELLANEOUS AMENDMENTS

Sections 5.103–02, 5.303–01, 5.307–10, 5.501–03, 5.502–03, 5.504–04, 5.506–03, 5.507–04, 5.508–04, 5.602–02, 5.604–05, 5.607–01 and 5.608–02 of Chapter I, Title 6, Code of Federal Regulations are hereby amended, and a new § 5.602–023 is hereby added to Chapter I, Title 6, Code of Federal Regulations so that said amended and added sections will read as follows:

§ 5.103–02 *Definitions; regulations of War Assets Administrator.* The following definitions are contained in WAA revised Regulation 5 and are adopted for the purposes of the regulations in this part:

(a) "Administration" means the War Assets Administration.

(b) "Administrator" means the War Assets Administrator.

(c) "Continental United States" means the 48 States and the District of Columbia.

(d) "Former owner" means the person from whom the real property was acquired by the Government.

(e) "Nonprofit institution" means any scientific, literary, educational, public-health, public-welfare, charitable, or eleemosynary institution, any hospital or similar institution, and any volunteer fire company, (1) which is supported in whole or in part through the use of funds derived from taxation by the United States, its territories or possessions, or by any State or political subdivision thereof, or (2) which is exempt from taxation under section 101 (6) of the Internal Revenue Code.

(f) "Educational institution" means any school, school system, library, college, university, or other similar institution, organization, or association, which is organized for the primary purpose of carrying on instruction or research in the public interest, and which is a nonprofit institution.

(g) "Offer" means a written offer to purchase surplus real property or a written application by a Government agency or a State or local government requesting that such property be held for disposal to it.

(h) "Owner-operator" means a person who will personally operate and cultivate agricultural land to earn a livelihood rather than lease it to a tenant.

(i) "Priority" means the right of a person, subject to stated conditions and limitations, to purchase surplus real property to the exclusion of other persons.

(j) "Public-health institution" means any hospital, board, agency, institution, organization, or association, which is organized for the primary purpose of carrying on medical, public health, or sanitational services in the public interest, or research to extend the knowledge in these fields, and which is a nonprofit institution.

(k) "Real property" means any interest, owned by the United States or any Government agency, in real property, of any kind, wherever located, but does not include the public domain, or such lands withdrawn or reserved from the public domain as the War Assets Administration determines are suitable for return to the public domain for disposition under the general land laws. It is not limited to the definition thereof as contained in section 23 of the act.

(l) "Section 23 real property" means property consisting of land, together with any fixtures and improvements thereon (including hotels, apartment houses, hospitals, office buildings, stores, and other commercial structures) located outside the District of Columbia, but does not include (1) commercial structures constructed by, at the direction of, or on behalf of any Government agency, (2) commercial structures which the Administrator determines have been made an integral part of a functional or economic unit which should be disposed of as a whole, and (3) war housing, industrial plants, factories, airports, airport facilities, or similar structures and facilities, or the sites thereof, or land which the Administrator determines essential to the use of any of the foregoing.

(m) "State or local government" means any State, territory, or possession of the United States, the District of Columbia, and any political subdivision or instrumentality thereof.

(n) "Veteran" means any person who served in the active military or naval service of the United States during the present war, or any person who served in the active military or naval service of the United States on or after September 16, 1940, and prior to the termination of the present war, and who has been discharged or released therefrom under honorable conditions. "Veterans released" from military or naval service shall include persons on terminal leave or final furlough and those whose status has been changed from "active" to "inactive."

(o) "War housing" means real properties improved with housing structures, acquired or constructed by the Government subsequent to September 8, 1939, either (1) for the purpose of housing servicemen, war workers, and their families, or (2) by the use of funds earmarked or appropriated for the housing of persons engaged in national defense activities, and their families.

(p) "Own" business enterprise of a veteran means one of which more than fifty (50) percent of the invested capital thereof is beneficially, and not merely nominally or formally, owned by a veteran or veterans, or one of which more than fifty (50) percent of the net income thereof beneficially, and not merely nominally or formally, accrues to a veteran or veterans.

(q) "Small business" as used herein with respect to a veteran, means a veteran's own small business and may include any commercial, agricultural, or industrial enterprise or group of enterprises under common ownership or control, which does not at the date of purchase of surplus real property hereunder have more than five hundred (500) employees, or any such enterprise which, by reason of its relative size and position in its industry, is determined by the disposal agency to be a small business. The disposal agency may in its discretion apply either or both criteria in determining whether or not the applicant is a small business.

§ 5.303–01 *Assumption of custody and control of property.* Upon the filing of a declaration of surplus real property, the War Assets Administration shall work out with the owning agency mutually satisfactory arrangements for the as-

sumption by the Administration of the custody and control of, and accountability for, the property covered by such declaration. After assumption of custody and control of the property, the Administration shall be responsible for the care and handling of such property pending its disposition or pending its assignment, in whole or in part to another disposal agency. When surplus real property is assigned to the Farm Credit Administration as disposal agency, the district supervisor shall promptly work out by agreement with the appropriate regional office of the WAA mutually satisfactory arrangements for the disposal agency's assumption of the physical custody and control of, and accountability for, the property covered by the declaration of assignment. This acceptance of accountability should be signed by the district vice president of the Federal Farm Mortgage Corporation.

§ 5.307–10 *Additional notice.* If the disposal agency decides to permit priority holders who have not exercised their priorities during the priority period to submit offers after such period has expired, such additional notice may be given to priority holders as the disposal agency shall deem proper.

§ 5.501–03 *Time and method of exercise of priority by Government agencies.* Government agencies shall have a period of ten (10) days in which to exercise their priorities after the date notice of availability is first published, as provided in § 5.307–02, or the date on which notice of availability is mailed to them, as provided in § 5.307–08. Within such period the priority holder shall indicate an intention to exercise the priority by submitting to the disposal agency a written offer to purchase. When, however, an offer cannot be made because a disposal agency lacks necessary information on price, units, or other matters, it shall be sufficient if the priority holder files a written statement of its desire to acquire the property or one or more appropriate units thereof. As soon as the necessary information becomes available (whether during or after the priority period or any extension thereof), those that have filed such statements shall be so advised in writing and given fifteen (15) days within which to make an offer. The offer of a Government agency shall be in the form of a written application in duplicate requesting that the property be held for disposal to it. Such application shall state the price applicant would be willing to pay (or that a transfer without reimbursement or transfer of funds is authorized by law), the length of time, if any, needed to acquire funds to purchase the property, all pertinent facts pertaining to the needs of applicant for the property and that the property is being acquired for its own use and not for transfer or disposition. If the applicant shall require time to obtain funds, or authority to take the property without reimbursement or transfer of funds, it shall so state and indicate the length of time needed for that purpose. Upon receipt of such an application containing such a statement, the disposal agency shall forward a copy of the same to the WAA. The Administrator will review the application and determine what time, if any, shall be allowed applicant to obtain such funds and conclude such purchase and will advise the disposal agency and the applicant of such determination. During the time thus allowed, the property may not be disposed of except where the priority period has expired and applicant's price is less than the fair value and either a higher price has been offered by another person or another priority holder has offered the maximum price which he may be charged.

§ 5.502–03 *Time and method of exercise of State and local government priorities.* State and local governments shall have a period of ten (10) days in which to exercise their priority after the date notice of availability is first published, as provided in § 5.307–02. Within such period the priority holder shall indicate an intention to exercise the priority by submitting to the disposal agency a written offer to purchase, accompanied by an appropriate deposit if funds are available at the time for this purpose, it being in the discretion of the district office to determine the amount and whether funds are available. When, however, an offer cannot be made because a disposal agency lacks necessary information on price, units, or other matters, it shall be sufficient if the State or local government files a written statement of its desire to acquire the property on one or more appropriate units thereof. As soon as the necessary information becomes available (whether during or after the priority period or any extension thereof), those who have filed such statements shall be so advised in writing and given fifteen (15) days within which to make an offer. The offer of a State or local government shall be in the form of a written application in duplicate requesting that the property be held for disposal to it. Such application shall state the price applicant would be willing to pay for the property, and the length of time, if any, needed to acquire funds to purchase the property. The application shall show in detail the contemplated use of the property and set forth that the property is being acquired to fulfill, in the public interest, its legitimate needs. If the applicant shall require time to obtain funds, it shall so state and indicate the length of time needed for that purpose. Upon receipt of such application containing such a statement the disposal agency shall forward a copy of the same to the WAA. The Administrator will review the application and determine what time, if any, shall be allowed applicant to obtain such funds and conclude the purchase and will advise the disposal agency and the applicant of such determination. During the time thus allowed, the property may not be disposed of except when the priority period has expired and applicant's price is less than the current market value and a higher price has been offered by another person or another priority holder has offered the maximum price which he may be charged.

§ 5.504–04 *Extent of tenant's priority.* The priority of a tenant not exercised during the priority period shall expire upon the termination of such period; provided the disposal agency may, in its discretion, permit a tenant to make an offer after the priority period has ended, as set forth in § 5.602–023. The priority of a tenant is limited to the particular property as described in 32 CFR Supps. 8305.11 (a) (4), and no assignment or transfer of a tenant's priority shall be recognized. The provisions of 32 CFR 8305.11 (c) shall apply to the exercise of a tenant's priority.

§ 5.506–03 *Time and method of exercise of veteran's priority.* To exercise this priority a veteran or the spouse and children of a deceased serviceman must within the ninety (90) days after publication of the notice required by the regulations in this part or any extension thereof file a written offer to purchase or statement of desire to acquire the property or an appropriate unit thereof: *Provided*, That the disposal agency may in its discretion permit veterans, or the spouse and children of deceased servicemen, to make offers after the priority period and be considered on the same basis as if they had exercised their priority during the priority period as set forth in § 5.602–023. An offer or statement filed within the priority period, even if restricted by its terms to a specifically identified tract, shall preserve the veteran's priority with respect to any and all tracts of the project. Where an offer cannot be made because the disposal agency lacks the necessary information on the price, units, or other matters, it shall be sufficient if a veteran files a written statement of his desire to acquire the property. As soon as the necessary information becomes available, a veteran who has filed such an offer or statement shall be notified in writing and given fifteen (15) days or the remainder of the priority period, whichever is longer, within which to make an offer.

§ 5.507–04 *Time and method of exercise of owner-operators' priority.* To exercise this priority, an owner-operator must within the ninety (90) days after publication of the notice required by the regulations in this part or any extension thereof file a written offer to purchase or statement of desire to acquire the property or an appropriate unit thereof, *Provided*, That the disposal agency may in its discretion permit owner-operators to make offers after the priority period and be considered on the same basis as if they had exercised their priority during the priority period as set forth in § 5.602–023. An offer or statement filed within the priority period, even if restricted by its terms to a specifically identified tract, shall preserve the owner-operator's priority with respect to any and all tracts of the project. Where an offer cannot be made because the disposal agency lacks the necessary information on the price, units, or other matters, it shall be sufficient if an owner-operator files a written statement of his desire to acquire the property. As soon as the necessary information becomes available, an owner-operator who has filed such an offer or statement shall be notified in writing and given fifteen (15) days or the remainder of the priority period, whichever is longer, within which to make an offer.

§ 5.508–04 *Time and method of exercise of nonprofit institutions' priority.* Nonprofit institutions shall have a period of ten (10) days after notice of availability is first published in which to exercise their priority with respect to other than section 23 real property and shall have a period of ninety (90) days from the date notice of availability is first published in which to exercise their priority with respect to section 23 real property. Within the applicable period, a nonprofit institution shall file a written offer to purchase or statement of desire to acquire the property, accompanied by such deposit as the disposal agency may require. The written offer or statement shall show in detail the contemplated use of the property, and set forth that the property is being acquired to fulfill, in the public interest, the legitimate needs of the offeror. Such an offer or statement, even if restricted by its terms to a specifically identified tract, shall preserve the nonprofit institution's priority with respect to any and all tracts of the project. When an offer cannot be made because the disposal agency lacks the necessary information on the price, units, or other matters, it shall be sufficient if a nonprofit institution files a written statement of its desire to acquire the property. As soon as the necessary information becomes available, a nonprofit institution which has filed such a statement shall be notified in writing and given fifteen (15) days or, in the case of section 23 real property, the remainder of the priority period if that is longer, within which to make an offer.

§ 5.602–02 *Offers to purchase.* (a) During the applicable priority period, the project manager shall receive offers from priority and nonpriority prospective buyers. However, no offer shall be accepted during any priority period except in the following cases:

(1) Where an immediate transfer is requested by one of the armed forces for national defense purposes prior to the conclusion of peace, or

(2) Where an immediate transfer is requested by the National Housing Administrator pursuant to Public Law 292, 79th Congress, and no application has been received from another Government agency offering the maximum priority price and showing a greater need for the property, or

(3) Where surplus section 23 real property is to be advertised for 90 days and a Government agency or State or local government exercises its priority within the prescribed 10-day period, the offer of the Government agency or State or local government may be accepted after the 10-day period and before the termination of the 90-day period, or

(4) Where a former owner exercises his priority to acquire surplus section 23 real property and no offer has been submitted by a Government agency or State or local government at its maximum price within the prescribed 10-day period of priority for such claimants.

(b) Offers by Government agencies, and offers by State and local governments where funds are not available, shall be made as provided in §§ 5.501–03 and 5.502–03. All other offers shall be made on the "Offer to Purchase" form accompanied by a reasonable earnest money deposit ordinarily not less than 10 percent of the purchase price, in the form of cash, certified check, or post office money order payable to the Treasurer of the United States. Submission of offers to purchase by anyone entitled to priority shall not preclude any other party from submitting an offer.

§ 5.602–023 *Failure to exercise priority in time.* The disposal agency may, in its discretion, permit priority holders to make offers after the priority period has ended, and offers may be considered on the same basis as if they had been submitted during the priority period. Such action by the disposal agency, however, shall not be construed as extending the priority period and such offers may not be accepted to the prejudice of a timely and acceptable offer from another priority offeror. Notice shall be given as provided in § 5.307–10.

§ 5.604–05 *Veteran's affidavit of eligibility.* When the district office is ready to accept a veteran's offer, but before the acceptance is executed, the veteran shall be required to submit an affidavit to the effect that he served in the active military or naval services of the United States on or after September 16, 1940, and prior to the termination of World War II, and has been discharged or released from such service under honorable conditions; that he has not prior to the date of the affidavit purchased under a right of priority a tract or unit of surplus real property pursuant to section 23 of the Surplus Property Act of 1944; that in exercising his right of priority as a veteran, he is acting in his own right and behalf and not on behalf of, or as agent, attorney in fact, or trustee of, or in any representative or fiduciary capacity for, another, and that the property applied for is for the applicant's own personal use for agricultural or residential purposes or to enable him to establish or maintain his own small business enterprise, indicating the particular contemplated use. If the intended use is for his own small business enterprise, it will be necessary to obtain additional factual information in order that the disposal agency may determine if the applicant's own small business comes within the definitions set forth in § 5.103–02 (p) and (q). Before the affidavit is accepted from the veteran, he shall be informed of the substance of the provisions of section 26 of the Surplus Property Act of 1944.

§ 5.607–01 *Obtaining offers and acceptance of offers.* After all offers from priority holders have been processed, a list of remaining properties shall be prepared and sales negotiated by the project manager in the manner and upon the basis determined to be to the best interest of the Government. At the discretion of the district office additional notices may be published at this time in newspapers or such other publicity given to the availability of property as may be deemed advisable. Notice should be sent to individuals who have expressed a desire to purchase or who have submitted an offer at some period. Depending upon circumstances, sales may be made on the basis of sealed bids, auctions, or private negotiations. In any event offers must be accepted on the basis of the highest obtainable bid provided that no sale shall be made at a price which is less than 75 percent of the current market value as established by appraisal until such offer has been reviewed and approved by the WAA unless the price offered is the maximum price which may be charged the purchaser. At this time sales may be made to the general public, including any former priority holders. The offers to purchase will be processed and handled in the same manner as indicated in previous sections of these regulations relating to offers from priority holders. If equal acceptable offers are received from two or more nonpriority offerors, selection shall be made by lot unless otherwise authorized by the Administrator.

§ 5.608–02 *Notices in cases of nonperformance by successful bidders.* If performance of the contract of a successful bidder is not completed or if the Government agency or State or local government fails to complete its acquisition of the property after having it held for the time allotted by the WAA all those who made unsuccessful offers during the priority period or any time allowed thereafter shall be notified by mail that if they renew their offers within fifteen (15) days from the date of mailing the notice, they will be reconsidered on the same basis on which they would have been considered had the offer accepted not been received in the first instance; *Provided*, That any case in which, after acceptance of an offer by the disposal agency, the offeror requests more time for completion of the purchase then the disposal agency is willing to grant shall be submitted to the central office for transmittal to the War Assets Administration.

The foregoing amendments have been approved by the Secretary of Agriculture.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 51632]

PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADES

WAIVERS OF CERTAIN NAVIGATION LAWS RESCINDED

FEBRUARY 19, 1947.

Treasury decision 51296 and 51303 dated August 11 and August 31, 1945,

respectively, waiving compliance with certain navigation laws, rescinded.

Upon the written recommendation of the Secretary of the Navy and pursuant to the authority vested in me by the provisions of section 501 of the Second War Powers Act, 1942 (50 U. S. C. App., Supp. 635), as extended by the Act of June 29, 1946 (Public Law 475, 79th Congress), I hereby rescind:

(a) The order of the Acting Secretary of the Treasury dated August 11, 1945 (T. D. 51296), waiving compliance with the provisions of section 434 of the Tariff Act of 1930, as amended (19 U. S. C. 1434), to the extent necessary to exempt United States Navy transports carrying commercial passengers from the requirement for making entry upon arrival in ports of the United States from foreign ports upon certain conditions specified in that order; and

(b) The order of the Acting Secretary of the Treasury dated August 31, 1945 (T. D. 51303), waiving compliance with the provisions of section 4197 of the Revised Statutes, as amended, and the act of April 29, 1902, as amended (46 U. S. C. 91, 95), to the extent necessary to permit vessels of the United States Navy when transporting commercial cargo or commercial passengers to depart from ports in the United States for foreign ports or ports in noncontiguous territory of the United States without delivering to the collector of customs of the district from which such vessels are about to depart a manifest of all the cargo on board the vessel and without obtaining from the collector a clearance for the vessel and her cargo.

This order shall become effective at midnight, March 22, 1947.

(Sec. 501, 56 Stat. 180, as amended; 50 U. S. C. App. Sup. 635)

[SEAL] E. H. FOLEY, Jr.,
Acting Secretary of the Treasury.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-976, Reinstatement and Amdt.]

R. G. ROBBINS LUMBER CO., INC.

R. G. Robbins Lumber Company, Inc., a corporation with offices located at 319 Southwest Washington Street, Portland, Oregon, engaged in business as an office wholesaler, was suspended on October 7, 1946 by Suspension Order No. S-976. It appealed from the provisions of the suspension order and, pending determination of the appeal, the suspension order was stayed by the Chief Compliance Commissioner on October 22, 1946. The appeal has been considered by the Chief Compliance Commissioner who has denied the appeal, directed that the stay be terminated, and the suspension order reinstated and amended. In view of the foregoing: *It is hereby ordered*, That:

Section 1010.976, Suspension Order No. S-976, issued September 27, 1946 and effective October 7, 1946, be and hereby is reinstated as of February 25, 1947; the stay of execution directed by the Chief Compliance Commissioner on October 22, 1946, be and hereby is revoked as of February 24, 1947; and the suspension order be and hereby is amended by substituting the following paragraphs (a) and (h) for the present paragraphs (a) and (h):

(a) For a period beginning February 25, 1947 and extending to and including May 10, 1947, R. G. Robbins Lumber Company, Inc., shall not place certified orders or extend rated orders for housing construction lumber, regardless of the delivery date named in any purchase order on which certification may be used or to which ratings may be extended.

(h) This order shall take effect on the 25th day of February 1947.

Issued this 14th day of February 1947.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-2000]

JOSEPH SANTOSUOSSO

Joseph Santosuosso, 3346 Fulton Road, Cleveland, Ohio, on or about November 1, 1946, without authorization of the Civilian Production Administration, began and thereafter carried on construction involving the alteration and remodeling of a commercial storeroom used as a bar and restaurant, located at 3346 Fulton Road, Cleveland, Ohio, the estimated cost of which construction was in excess of $1,000.00. The beginning of construction and the carrying on of construction as aforesaid constituted a grossly negligent violation of Veterans' Housing Program Order No. 1. This violation has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.2000 *Suspension Order No. S-2000.* (a) Neither Joseph Santosuosso, his successors or assigns, nor any other person shall do any further construction on the alteration and remodeling of the structure used as a bar and restaurant and located at 3346 Fulton Road, Cleveland, Ohio, including completing or altering the structure, unless hereafter authorized in writing by the Civilian Production Administration.

(b) Joseph Santosuosso shall refer to this order in any application or appeal which he may file with the Civilian Production Administration for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Joseph Santosuosso, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 25th day of February 1947.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-2001]

EDOUARD E. AND KATHLEEN M. ROBERT

Edouard E. and Kathleen M. Robert, husband and wife, as owners, on March 1, 1946, were assigned Preference Rating HH by the Federal Housing Administration on Form CPA-4386, Project Serial No. 6-125-75, for acquisition of material under the provisions of PR-33, to construct a five-room single family dwelling at Brockway, Lake Tahoe, California. On April 8, 1946, authorization was granted them by the Civilian Production Administration, but without priorities assistance, to construct at the same location three one and a half story structures consisting of two apartments each. Instead of construction of the five-room single family dwelling as authorized, the owners began and are continuing construction of a story and a half building containing two apartments and a service station without authorization of the Civilian Production Administration in violation of Veterans' Housing Program Order No. 1. Lumber in the amount of 74,000 board feet, acquired by application to suppliers of the Preference Rating HH granted as above stated, has been used in the construction of all four structures and so far as three of them are concerned, in violation of PR-33 and without authorization of the Civilian Production Administration. These violations have diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.2001 *Suspension Order No. S-2001.* (a) Authorization on Form CPA-4386, Project Serial No. 6-125-75, dated March 1, 1946, to Edouard E. and Kathleen M. Robert, to apply Preference Rating HH in purchasing the minimum quantity of materials in accordance with PR-33 in the construction of a five-room single family dwelling at Brockway, Lake Tahoe, California, is hereby revoked.

(b) Neither Edouard E. nor Kathleen M. Robert, their successors or assigns, nor any other person shall do any further construction on the story and a half building, containing two apartments and service station, above mentioned, at Brockway, Lake Tahoe, California, including completing, putting up or altering said structure until and unless hereafter specifically authorized in writing by the Civilian Production Administration.

(c) Nothing contained in this order shall be deemed to relieve Edouard E. and Kathleen M. Robert, their successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 25th day of February 1947.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 7424]

PART 3—RADIO BROADCAST SERVICES

NON-COMMERCIAL EDUCATIONAL FM BROADCAST STATIONS

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 14th day of February 1947;

Whereas, on March 7, 1946, the Commission issued its proposed rules and regulations for the non-commercial educational FM broadcast service, allowing 60 days for the public to submit comments and suggestions in regard thereto, and thereafter on April 10, 1946, in response to a request of the National Association of Educational Broadcasters, further extended the time for public consideration of the proposed rules and regulations from May 7, 1946, to June 6, 1946; and

Whereas, the Commission has received comments and suggestions since the publication regarding the proposed rules and regulations and,

Whereas, the Commission has given careful consideration to all such suggestions and comments,

Now, therefore, it is ordered, That §§ 3.501 to 3.591, inclusive, of the Commission's rules and regulations governing non-commercial educational FM broadcast stations as set forth below be, and they are hereby adopted, effective the 1st day of April 1947.

It is further ordered, That the designation contained in Part 3 of the Commission's rules and regulations reading "Subpart D—Rules Governing Television Broadcast Stations" be, and it hereby is amended to read as follows: "Subpart E—Rules Governing Television Broadcast Stations."

SUBPART D—RULES GOVERNING NON-COMMERCIAL EDUCATIONAL FM BROADCAST STATIONS

CLASSIFICATION OF STATIONS AND ALLOCATION OF FREQUENCIES

§ 3.501 *Channels available for assignment.* The channels available for noncommercial educational FM broadcasting are listed in the table below, together with numerical designations for convenience:

Frequency (mc.)	*Channel No.*
88.1	201
88.3	202
88.5	203
88.7	204
88.9	205
89.1	206
89.3	207
89.5	208
89.7	209
89.9	210
90.1	211
90.3	212

91.1	216
91.3	217
91.5	218
91.7	219
91.9	220

§ 3.502 *State-wide plans.* In considering the assignment of a channel for a noncommercial educational FM broadcast station, the Commission will take into consideration the extent to which each application meets the requirements of any state-wide plan for noncommercial educational FM broadcast stations filed with the Commission: *Provided,* That such plans afford fair treatment to public and private educational institutions, urban and rural, at the primary, secondary, higher, and adult educational levels, and appear otherwise fair and equitable.

§ 3.503 *Operation and service.* The operation of, and the service furnished by noncommercial educational FM broadcast stations shall be governed by the following:

(a) A noncommercial educational FM broadcast station will be licensed only to a non-profit educational organization and upon showing that the station will be used for the advancement of an educational program.

(1) In determining the eligibility of publicly supported educational organizations, the accreditation of their respective state departments of education shall be taken into consideration.

(2) In determining the eligibility of privately controlled educational organizations, the accreditation of state departments of education and/or recognized regional and national educational accrediting organizations shall be taken into consideration.

(b) Each station may transmit programs directed to specific schools in a system or systems for use in connection with the regular courses as well as routine and administrative material pertaining thereto and may transmit educational, cultural and entertainment programs to the public.

(c) Each station shall furnish a nonprofit and noncommercial broadcast service. No sponsored or commercial program shall be transmitted nor shall commercial announcements of any character be made. A station shall not transmit the programs of other classes of broadcast stations unless all commercial announcements and commercial references in the continuity are eliminated.

§ 3.504 *Channel, power and service area.* In making an assignment of the channel, operating power, and service area of each noncommercial educational FM broadcast station, the Commission will consider all relevant factors including: (a) The area served by the applicant's existing educational facilities; (b) the channel, power, and service area proposed in the application; and (c) the provisions of any statewide plan on file with the Commission, which meets the requirements of § 3.502.

§ 3.505 *Standards of Good Engineering Practice.* The Standards of Good Engineering Practice Concerning FM Broadcast Stations shall be applicable to noncommercial educational FM broadcast stations. Applicants for stations in this service having an effective radiated power in excess of 1 kw shall determine the antenna height above average terrain and the extent of their 1,000 uv/m and 50 uv/m contours by the method prescribed in section 2E (2) of the standards.

Applicants for stations in this service having an effective radiated power of 1 kw. or less shall determine the antenna height above the average terrain by the method prescribed in section 2E (1) of the standards.

RULES GOVERNING ADMINISTRATIVE PROCEDURE

§ 3.511 *Application for noncommercial educational FM broadcast stations.* Each applicant for a construction permit for a new noncommercial educational FM broadcast station, change in facilities of any existing noncommercial educational FM broadcast station, or noncommercial educational FM broadcast station license or modification of license shall file with the Commission in Washington, D. C., two copies of applications on the appropriate form designated by the Commission and a like number of exhibits and other papers incorporated therein and made a part thereof. Only the original copy need be sworn to. If the application is for a construction permit for a new noncommercial educational FM broadcast station, Form FCC No. 340 should be filed; for a noncommercial educational FM license, Form FCC No. 341 [1] should be filed; and for modification of a noncommercial educational FM license or for change in facilities of an existing noncommercial educational FM broadcast station Form FCC No. 342 [1] should be filed.

§ 3.512 *Full disclosures.* Each application shall contain full and complete disclosures with regard to all matters and things required to be disclosed by the application forms.

§ 3.513 *Installation or removal of apparatus.* Applications for construction permit or modification thereof, involving removal of existing transmitting apparatus and/or installation of new transmitting apparatus, shall be filed at least 60 days prior to the contemplated removal and/or installation.

§ 3.514 *Period of construction.* Each construction permit will specify a maximum of eight months from the date of granting thereof as the time within which construction of the station shall be completed and the station ready for operation, unless otherwise determined by the Commission upon proper showing in any particular case. Each construction permit shall bear the date of the Commission's action authorizing the issuance of the construction permit. Where a conditional grant is ordered, the construction permit shall be dated as of the time when all conditions have been satisfied.

§ 3.515 *Forfeiture of construction permits; extension of time.* (a) A construction permit shall be automatically forfeited if the station is not ready for operation within the time specified therein or within such further time as

[1] Will be issued by the Commission at a later date. Appropriate forms to be employed may be obtained from the Commission on request.

the Commission may have allowed for completion, and a notation of the forfeiture of any construction permit under this provision will be placed in the records of the Commission as of the expiration date.

(b) Any application [2] for extension of time within which to construct a station shall be filed at least thirty days prior to the expiration date of such permit if the facts supporting such application for extension are known to the applicant in time to permit such filing. In other cases such applications will be accepted upon a showing satisfactory to the Commission of sufficient reasons for filing within less than thirty days prior to the expiration date. Such applications will be granted upon a specific and detailed showing that the failure to complete was due to causes not under the control of the grantee, or upon a specific and detailed showing of other matters sufficient to justify the extension.

§ 3.516 *Equipment tests.* (a) Upon completion of construction for a noncommercial educational FM broadcast station in exact accordance with the terms of the construction permit, the technical provisions of the application therefor and the rules and regulations and Standards of Good Engineering Practice concerning FM broadcast stations and prior to filing of application for license, the permittee is authorized to test the equipment for a period not to exceed 30 days: *Provided,* That the engineer in charge of the district in which the station is located and the Commission are notified 2 days in advance of the beginning of tests.

(b) The Commission may notify the permittee to conduct no tests or may cancel, suspend, or change the date of beginning for the period of such tests as and when such action may appear to be in the public interest, convenience and necessity.

§ 3.517 *Program tests.* (a) When construction and equipment tests are completed in exact accordance with the terms of the construction permit, the technical provisions of the application therefor, and the rules and regulations and Standards of Good Engineering Practice concerning FM broadcast stations, and after application for station license has been filed with the Commission showing the transmitter to be in satisfactory operating condition, the permittee is authorized to conduct program tests in exact accordance with the terms of the construction permit for a period not to exceed 30 days: *Provided,* That the engineer in charge of the district in which the station is located and the Commission are notified 2 days in advance of the beginning of such tests.

(b) The Commission reserves the right to cancel such tests or suspend, or change the date of beginning for the period of such tests as and when such action may appear to be in the public interest, convenience, and necessity by notifying the permittee.

(c) The authorization for tests embodied in this section or § 3.516 shall not be construed as constituting a license to operate but as a necessary part of the construction.

§ 3.518 *Normal license period.* All noncommercial educational FM broadcast station licenses will be issued so as to expire at the hour of 3 a. m. e. s. t., and will be issued for a normal license period of 1 year.

§ 3.519 *License, simultaneous modification and removal.* When an application is granted by the Commission necessitating the issuance of a modified license less than 60 days prior to the expiration date of the license sought to be modified, and an application for renewal of said license is granted subsequent or prior thereto (but within 30 days of expiration of the present license) the modified license as well as the renewal license shall be issued to conform to the combined action of the Commission.

§ 3.520 *Renewals of license.* (a) Unless otherwise directed by the Commission, each application for renewal of license shall be filed at least 60 days prior to the expiration date of the license sought to be renewed (Form FCC No. 343).

(b) Whenever the Commission regards an application for renewal of license as essential to the proper conduct of a hearing or investigation, and specifically directs that it be filed by a date certain, such application shall be filed within the time thus specified. If the licensee fails to file such application within the prescribed time, the hearing or investigation shall proceed as if such renewal application had been received.

§ 3.521 *Temporary extension of station licenses.* Where there is pending before the Commission any application, investigation, or proceeding which, after hearing, might lead to or make necessary the modification of, revocation of, or the refusal to renew an existing noncommercial educational FM license, the Commission may, in its discretion, grant a temporary extension of such license: *Provided, however,* That no such temporary extension shall be construed as a finding by the Commission that the operation of any radio station thereunder will serve public interest, convenience, and necessity beyond the express terms of such temporary extension of license: *And provided further,* That such temporary extension of license will in no wise affect or limit the action of the Commission with respect to any pending application or proceeding.

§ 3.522 *Repetitious applications.* (a) Where an applicant has been afforded an opportunity to be heard with respect to a particular application for a new noncommercial educational FM broadcast station, or for change of existing service or facilities, and the Commission has, after hearing or default, denied the application or dismissed it with prejudice, the Commission will not consider another application for a station of the same class to serve in whole or in part the same area, by the same applicant or by his successor or assignee, or on behalf of or for the benefit of the original parties in interest, until after the lapse of 12 months from the effective date of the Commission's order.

(b) Where an appeal has been taken from the action of the Commission in denying a particular application, another application for the same class of broadcast station and for the same area, in whole or in part, filed by the same applicant or by his successor or assignee, or on behalf or for the benefit of the original parties in interest, will not be considered until after the final disposition of such appeal.

§ 3.523 *Assignment or transfer of control.* Application for consent to assignment of a noncommercial educational FM construction permit or license or for consent to voluntary transfer of control of a corporation holding a noncommercial educational FM construction permit or license shall be filed with the Commission on Form FCC No. 314 (assignment of license) and Form FCC No. 315 (transfer of control) at least 60 days prior to the contemplated effective date of assignment or transfer of control.

RULES RELATING TO EQUIPMENT

§ 3.551 *Transmitter power.* The rated power and the operating power range of transmitters shall be in accordance with the Standards of Good Engineering Practice Concerning FM Broacast Stations.

§ 3.552 *Frequency monitor.* The licensee of each noncommercial educational FM broadcast station shall have in operation at the transmitter an approved frequency monitor independent of the frequency control of the transmitter. For detailed requirements thereof see Standards of Good Engineering Practice Concerning FM Broadcast Stations.

§ 3.553 *Modulation monitor.* The licensee of each noncommercial educational FM broadcast station shall have in operation at the transmitter an approved modulation monitor. For detailed requirements thereof see Standards of Good Engineering Practice Concerning FM Broadcast Stations.

§ 3.554 *Required transmitter performance.* The construction, installation, operation, and performance of the noncommercial educational FM broadcast transmitter system shall be in accordance with the Standards of Good Engineering Practice Concerning FM Broadcast Stations.

§ 3.555 *Auxiliary transmitter.* Upon showing that a need exists for the use of an auxiliary transmitter in addition to the regular transmitter of a broadcast station, a license therefor may be issued: *Provided,* That:

(a) An auxiliary transmitter may be installed either at the same location as the main transmitter or at another location.

(b) A licensed operator shall be in control whenever an auxiliary transmitter is placed in operation.

(c) The auxiliary transmitter shall be maintained so that it may be placed into immediate operation at any time for the following purposes:

[2] Form FCC No. 701.

(1) The transmission of the regular programs upon the failure of the main transmitter.

(2) The transmission of regular programs during maintenance or modification [3] work on the main transmitter, necessitating discontinuance of its operation for a period not to exceed five days.

(3) Upon request by a duly authorized representative of the Commission.

(d) The auxiliary transmitter shall be tested at least once each week to determine that it is in proper operating condition and that it is adjusted to the proper frequency, except that in case of operation in accordance with paragraph (c) of this section during any week, the test in that week may be omitted provided the operation under paragraph (c) of this section is satisfactory. A record shall be kept of the time and result of each test.

(e) The auxiliary transmitter shall be equipped with satisfactory control equipment which will enable the maintenance of the frequency emitted by the station within the limits prescribed by these regulations.

(f) The operating power of an auxiliary transmitter may be less than the authorized power of the main transmitter, but in no event shall it be greater than such power.

§ 3.556 *Alternate main transmitters.* The licensee of a noncommercial educational FM broadcast station may be licensed for alternate main transmitters provided that a technical need [4] for such alternate transmitters is shown and that the following conditions are met:

(a) Both transmitters are located at the same place.

(b) Both transmitters shall have the same power rating.

(c) Both transmitters shall meet the construction, installation, operation, and performance requirements of the Standards of Good Engineering Practice concerning FM Broadcast Stations.

§ 3.557 *Changes in equipment and antenna system.* Licensees of noncommercial educational FM broadcast stations shall observe the following provisions with regard to changes in equipment and antenna system:

(a) No changes in equipment shall be made: (1) That would result in the emission of signals outside of the authorized channel.

(2) That would result in the external performance of the transmitter being in disagreement with that prescribed in the Standards of Good Engineering Practice Concerning FM Broadcast Stations.

(b) Specific authority, upon filing formal application (Form FCC No. 342) therefor, is required for a change in service area or for any of the following changes:

(1) Changes involving an increase or decrease in the power rating of the transmitter.

(2) A replacement of the transmitter as a whole.

(3) Change in the location of the transmitting antenna.

(4) Change in antenna system, including transmission line.

(5) Change in location of main studio, if it is proposed to move the main studio to a different city from that specified in the license.

(6) Change in the power delivered to the antenna.

(7) Change in frequency control and/or modulation system.

(c) Specific authority, upon filing informal request therefor, is required for a change in the indicating instruments installed to measure transmitter power output, except by instruments of the same maximum scale reading and accuracy.

(d) Other changes, except as above provided for in this section or in the Standards of Good Engineering Practice Concerning FM Broadcast Stations, may be made at any time without the authority of the Commission; *Provided*, That the Commission shall be promptly notified thereof and such changes shall be shown in the next application for renewal of license.

RULES RELATING TO TECHNICAL OPERATION

§ 3.561 *Operating schedule.* Noncommercial educational FM broadcast stations are not required to operate on a regular schedule and no minimum number of hours of operation is specified; but the hours of actual operation during a license period shall be taken into consideration in considering the renewal of noncommercial educational FM broadcast licenses wherever it appears that the channels available for such stations are insufficient to meet the demand.

§ 3.562 *Experimental operation.* The period between 12:00 midnight, and 6 a. m., local standard time, may be used for experimental purposes in testing and maintaining apparatus by the licensee of any noncommercial educational FM broadcast station on its assigned frequency and not in excess of its authorized power, without specific authorization from the Commission.

§ 3.563 *Station inspection.* The licensee of any noncommercial educational FM broadcast station shall make the station available for inspection by representatives of the Commission at any reasonable hour.

§ 3.564 *Station license, posting of.* The original of each station license shall be posted in the transmitter room.

§ 3.565 *Operator requirements.* If the transmitter power rating is 1 kilowatt or less, one or more licensed radiotelephone second class operators shall be on duty at the place where the transmitting apparatus of each station is located and in actual charge thereof. If the transmitter power rating is in excess of 1 kilowatt, one or more licensed radiotelephone first class operators shall be on duty. The original license (or Form FCC No. 759) of each station operator shall be posted at the place where he is on duty. The licensed operator on duty and in charge of an FM broadcast transmitter may, at the discretion of the licensee, be employed for other duties or for the operation of another station or stations in accordance with the class of operator's license which he holds and by the rules and regulations governing such stations. However, such duties shall in no wise interfere with the operation of the broadcast transmitter.[5]

§ 3.566 *Facsimile broadcasting and multiplex transmission.* Transmission of simplex facsimile on FM channels may be permitted upon application to the Commission. The Commission may grant experimental authority to a noncommercial educational FM broadcast station for the multiplex transmission of facsimile or other signals and aural broadcast programs, provided that the transmission of facsimile or other signals does not reduce the quality of the aural program, and that a filter or other additional equipment is not required for receivers not equipped to receive facsimile or other signals.

§ 3.567 *Operating power; how determined.* The operating power, and the requirements for maintenance thereof, of each noncommercial educational FM broadcast station shall be determined by the methods prescribed in the Standards of Good Engineering Practice concerning FM broadcast stations.

§ 3.568 *Modulation.* The percentage of modulation of all stations shall be maintained as high as possible consistent with good quality of transmission and good broadcast practice and in no case less than 85 percent or more than 100 percent on peaks of frequent recurrence during any selection which normally is transmitted at the highest level of the program under consideration.

§ 3.569 *Frequency tolerance.* The center frequency of each noncommercial educational FM broadcast station shall be maintained within 2000 cycles of the assigned center frequency.

§ 3.570 *Inspection of tower lights and associated control equipment.* The licensee of any noncommercial educational FM broadcast station which has an antenna or antenna supporting structure(s) required to be illuminated pursuant to the provisions of section 303 (q) of the Communications Act of 1934, as amended:

(a) Shall make a visual observation of the tower lights at least once each 24 hours to insure that all such lights are functioning properly.

(b) Shall report immediately by telephone or telegraph to the nearest Airways Communication Station or office of the Civil Aeronautics Administration any observed failure of the tower lights, not corrected within 30 minutes, regardless of the cause of such failure. Further notification by telephone or telegraph shall be given immediately upon resumption of the required illumination.

[3] This includes the equipment changes which may be made without authority as set forth elsewhere in the rules and regulations and the Standards of Good Engineering Practice or as authorized by the Commission by letter or by construction permit. Where such operation is required for periods in excess of 5 days, request therefor shall be in accordance with § 1.365.

[4] Such as licensees maintaining 24-hour schedule and needing alternate operation for maintenance, or where developmental work requires alternate operation.

[5] For additional information regarding operator licenses see section 13 of the Commission's rules.

(c) Shall inspect at intervals of at least once each 3 months all flashing or rotating beacons and automatic lighting control devices to insure that such apparatus is functioning properly as required.

OTHER RULES RELATING TO OPERATION

§ 3.581 *Logs.* The licensee of each noncommercial educational FM broadcast station shall maintain program and operating logs and shall require entries to be made as follows:

(a) In the program log: (1) An entry of the time each station identification announcement (call letters and location) is made.

(2) An entry briefly describing each program broadcast, such as "music," "drama," "speech," etc., together with the name or title thereof, with the time of the beginning and ending of the complete program. If a mechanical record is used, the entry shall show the exact nature thereof, such as "record," "transcription," etc., and the time it is announced.

If the program is of network origin, its source shall be indicated.

If the broadcast is under the auspices of an institution or organization other than the licensee, its name shall be noted.

(b) In the operating log:

(1) An entry of the time the station begins to supply power to the antenna, and the time it stops.

(2) An entry of the time the program service begins and ends.

(3) An entry of each interruption to the carrier wave, its cause and duration.

(4) An entry of the following each 30 minutes:

(i) Operating constants of last radio stage (total plate current and plate voltage).

(ii) Transmission line current or voltage.

(iii) Frequency monitor reading.

(5) A log must be kept of all operation during the experimental period. If the entries required above are not applicable thereto, then the entries shall be made so as to fully describe the operation.

(c) Where an antenna or antenna supporting structure(s) is required to be illuminated the licensee shall make entries in the radio station log appropriate to the requirements of § 3.570 as follows:

(1) The time the tower lights are turned on and off if manually controlled.

(2) The time the daily visual observation of the tower lights was made.

(3) In the event of any observed failure of a tower light:

(i) Nature of such failure.

(ii) Time the failure was observed.

(iii) Time and nature of the adjustments, repairs or replacements made.

(iv) Time notice was given to Airways Communications Station (C. A. A.) of any tower light failure not corrected within thirty minutes.

(v) Time notice was given to the Airways Communication Station (C. A. A.) that the required illumination was resumed.

(4) Upon completion of the periodic inspection (required at least once each three months):

(i) The date of the inspection and the condition of all tower lights and associated tower lighting control devices.

(ii) Any adjustments, replacements or repairs made to insure compliance with the lighting requirements.

§ 3.582 *Logs, retention of.* Logs of noncommercial educational FM broadcast stations shall be retained by the licensee for a period of 2 years.

§ 3.583 *Logs, by whom kept.* Each log shall be kept by the person or persons competent to do so, having actual knowledge of the facts required, who shall sign the log when starting duty and again when going off duty. The logs shall be made available upon request by an authorized representative of the Commission.

§ 3.584 *Log form.* The log shall be kept in an orderly manner, in suitable form, and in such detail that the data required for the particular class of station concerned are readily available. Key letters or abbreviations may be used if proper meaning or explanation is contained elsewhere in the log.

§ 3.585 *Correction of logs.* No log or portion thereof shall be erased, obliterated, or willfully destroyed within the period of retention provided by the rules. Any necessary correction may be made only by the person originating the entry who shall strike out the erroneous portion, initial the correction made, and indicate the date of correction.

§ 3.586 *Rough logs.* Rough logs may be transcribed into condensed form, but in such case the original log or memoranda and all portions thereof shall be preserved and made a part of the complete log.

§ 3.587 *Station identification.* (a) A licensee of a noncommercial educational FM broadcast station shall make at least the following station identification announcements (call letters and location): (1) At the beginning and ending of each time of operation; and (2) within 2 minutes of each hour and each half hour during operation; *Provided:*

(b) Such identification announcement need not be made on the hour or half hour when to make such announcement would interrupt a single continuous program of longer duration than 30 minutes. In such cases the identification announcement shall be made at the beginning of the program, at the first interruption of the continuity, and at the conclusion of the program.

(c) In making the identification announcement, the call letters shall be given only on the channel of the station identified thereby.

§ 3.588 *Mechanical records.* Each program broadcast, except when designed specifically for in-school listening, which consists in whole or in part of one or more mechanical reproductions shall be announced in the manner and to the extent set out below.

(a) Each such program of longer duration than 30 minutes, consisting in whole or in part of one or more mechanical reproductions, shall be identified by appropriate announcement at the beginning of the program, at each 30-minute interval and at the conclusion of the program; *Provided, however,* That the identifying announcement at each 30-minute interval is not required in case of a mechanical reproduction consisting of a continuous uninterrupted speech, play, religious service, symphony, concert, or operatic production of longer than 30 minutes.

(b) Each such program of a longer duration than 5 minutes and not in excess of 30 minutes, consisting in whole or in part of one or more mechanical reproductions, shall be identified by an appropriate announcement at the beginning and end of the program.

(c) Each such program of 5 minutes or less, consisting in whole or in part of mechanical reproductions, shall be identified by appropriate announcement immediately preceding the use thereof; *Provided, however,* That each such program of one minute or less need not be announced as such.

(d) In case a mechanical reproduction is used for background music, sound effects, station identification, program identification (theme music of short duration) or identification of the sponsorship of the program proper, no announcement of the mechanical reproduction is required.

(e) The exact form of identifying announcement is not prescribed, but the language shall be clear and in terms commonly used and understood. A licensee shall not attempt affirmatively to create the impression that any program being broadcast by mechanical reproduction consists of live talent.

§ 3.591 *Rebroadcast.* (a) The term "rebroadcast" means reception by radio of the program [6] of a radio station, and the simultaneous or subsequent retransmission of such program by a broadcast station. The broadcasting of a program relayed by a remote pick-up broadcast station or studio transmitter link is not considered a rebroadcast. In case a program is transmitted from its point of origin to a broadcast station entirely by telephone facilities in which a section of such transmission is by radio, the broadcasting of this program is not considered a rebroadcast.

(b) The licensee of a non-commercial educational FM broadcast station may, without further authority of the Commission, rebroadcast the program of a United States Standard, FM, non-commercial educational, or international broadcast station, provided the Commission is notified of the call letters of each station rebroadcast and the licensee certifies that express authority has been received from the licensee of the station originating the program.[7] [8]

[6] As used in this section, program includes any complete program or part thereof.

[7] The notice and certification of consent shall be given within three (3) days of any single rebroadcast, but in case of the regular practice of rebroadcasting certain programs several times during a license period, notice and certification of consent shall be given for the ensuing license period with the application for renewal of license, or at the beginning of such rebroadcast practice if begun during a license period.

[8] See § 3.503 (c).

(c) No licensee of a non-commercial educational FM broadcast station shall rebroadcast the program of any United States radio station not designated in paragraph (b) of this section without written authority having first been obtained from the Commission upon application (informal) accompanied by written consent or certification of consent of the licensee of the station originating the program.*

By the Commission.

[Order 102-A]

PART 13—COMMERCIAL RADIO OPERATORS

IN THE MATTER OF CANCELLATION OF OPERATION OF AERONAUTICAL AND AERONAUTICAL FIXED STATIONS USING RADIOTELEGRAPHY BY CERTAIN OPERATORS HOLDING RADIOTELEPHONE OPERATOR LICENSES

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 14th day of February 1947;

The Commission having under consideration the proposed cancellation of its Order No. 102, dated June 16, 1942; and

It appearing that on October 31, 1946 the Commission duly published, and also distributed, a notice of proposed rule making proposing that Order No. 102 (11 F. R. 13540) be cancelled; and

It further appearing that the period in which interested parties were afforded an opportunity to submit comment expired on November 15, 1946 and during that period the Commission received no comment in opposition to the proposed cancellation; and

It further appearing that it is in the public interest, convenience or necessity that Commission Order No. 102 (7 F. R. 4619) be cancelled, and that authority for the cancellation of that order is contained in sections 303 (l) and (r) of the Communications Act of 1934, as amended;

It is ordered, That Commission Order No. 102 be and the same is hereby cancelled.

It is further ordered, That after the effective date of this order no person shall operate any aeronautical or aeronautical fixed station using radio telegraphy except in accordance with the provisions of § 13.61 of the Commission's rules governing commercial radio operators.

This order shall take effect on March 25, 1947.

By the Commission.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Misc. 1993881]

COLORADO

RESTORATION ORDER NO. 1178 UNDER FEDERAL POWER ACT

FEBRUARY 14, 1947.

Pursuant to the determination of the Federal Power Commission (DA-247, Colorado) and in accordance with the Departmental regulations of August 16, 1946 (43 CFR § 4.275 (16), 11 F. R. 9080), *It is ordered as follows:*

The land hereinafter described, which was withdrawn by Department order of February 24, 1925, creating Power Site Classification No. 88, is hereby opened to disposition under the public land laws, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1063), as amended by the act of August 26, 1935 (49 Stat. 846, 16 U. S. C. 818).

At 10:00 a. m. on April 18, 1947, the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from April 19, 1947, to July 18, 1947, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279-283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from March 30, 1947 to April 18, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on April 19, 1947 shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on July 19, 1947 any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from June 29, 1947 to July 18, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on July 19, 1947 shall be treated as simultaneously filed.

Veterans shall accompany their application with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office at Denver, Colorado, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the District Land Office at Denver, Colorado.

The lands affected by this order are described as follows:

SIXTH PRINCIPAL MERIDIAN

T. 2 S., R. 79 W., sec. 19, lots 31 and 32.

The area described contains 5.20 acres. These lots are mountainous in character and have a second to third rate soil.

FEDERAL COMMUNICATIONS COMMISSION

TEMPORARY EXPEDITING PROCEDURE FOR STANDARD BROADCAST APPLICATIONS

ANNOUNCEMENT OF CONFERENCES

FEBRUARY 19, 1947.

Pursuant to the Commission's public notice of January 8, 1947, entitled "Temporary Expediting Procedure for Standard Broadcast Applications" (12 F. R. 326), and as provided for therein, the following schedule of informal engineering conferences, is announced for the week of February 24 through 28, 1947:

Monday, Feb. 24	Tuesday, Feb. 25	Wednesday, Feb. 26	Thursday, Feb. 27	Friday, Feb. 28
Kc.	Kc.	Kc.	Kc.	Kc.
860	560	690	1080	920
1340	1030	810	1370	1400
1590	.....	1540	1550	1130

Attorneys and engineers representing applicants on the above specified channels should appear in Room 7454, New Post Office Building, Washington, D. C., at 10 A. M., on the date specified, prepared to participate in the conference concerning the channel in which they are interested. Such representatives of adjacent channel applicants, or of existing station licensees, desiring to participate in any of the foregoing conferences, may also appear at the time and place indicated and take part therein.

Further conferences, pertaining to the above specified channels, will, if necessary, be scheduled and announced at the initial conferences provided for herein. No additional public notice, insofar as such conferences are concerned, is contemplated.

The Commission desires to stress the urgent necessity for the attendance of representatives of applicants for the above specified frequencies at the conference involving their applications. Failure to attend will be construed as indicating that such applicants do not desire to participate in the expediting plan and, although their applications will be considered in connection with the other applications concerned, they will not be accorded the amendment privileges provided for in the public notice of January 8, 1947.

FEDERAL POWER COMMISSION

[Docket No. G-851]

CONSOLIDATED GAS UTILITIES CORP.

NOTICE OF APPLICATION

FEBRUARY 19, 1947.

Notice is hereby given that on February 3, 1947, Consolidated Gas Utilities Corporation (Applicant), a Delaware corporation having its principal place of business at Oklahoma City, Oklahoma, and authorized to do business in the States of Texas, Oklahoma and Kansas, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize Applicant to construct and operate the following facilities:

(1) Approximately 34,000 feet of 6-inch pipe line, together with the necessary appurtenant equipment, beginning at R. Olsen Oil Company's Ott #1 gas well located in the southwest quarter of the southeast quarter of Section 4, Township 21 North, Range 9 West, Major County, Oklahoma, and extending in a southeasterly direction to a point of connection with Applicant's existing 14-inch main gas transmission pipe line in the southeast quarter of Section 31, Township 21 North, Range 8 West, Garfield County, Oklahoma.

(2) A measuring and regulating station to be installed at or near the R. Olsen Oil Company's Ott #1 well in Section 4, Township 21 North, Range 9 West, Major County, Oklahoma.

(3) Two corrugated iron structures to be installed at the location set out in subparagraph (2) above, to house the measuring and regulating equipment.

Applicant recites that no new service is proposed to be rendered by Applicant with the new facilities, and that all such new facilities are to be used to transport gas from the wellhead of the Ott #1 well into Applicant's main pipe line for use in rendering service to Applicant's existing customers. Applicant states that it has a gas-purchase contract covering production from the Ott #1 well.

Applicant states that the Ott #1 well was recently drilled and that further development of the area is contemplated, which will ultimately provide additional gas for transportation through the proposed facilities in addition to that which can be obtained from the well already completed. It is further stated that the discovery of this additional source of supply in the area of the Ott #1 well and its connection to Applicant's main pipe line will provide gas which can be delivered through Applicant's existing facilities in the general area in which cur-

tailments of deliveries occurred during the current heating season of 1946–1947, and the additional gas made available from this source will enable Applicant to supplement its present declining sources of supply and assist it in meeting its present market requirements.

Applicant estimates that the maximum amount of gas which will be delivered through the proposed facilities on the peak day of any year will be approximately 15,000 Mcf, and that the minimum quantity to be delivered in any one day will be approximately 2,000 Mcf. The maximum capacity of the proposed facilities will be approximately 15,000 Mcf per day.

Applicant estimates that the over-all capital cost of construction of all of the facilities above enumerated will total approximately $43,105, to be financed from its funds on hand.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

The application of Consolidated Gas Utilities Corporation is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of the rules of practice and procedure (effective September 11, 1946), and shall set out clearly and concisely the facts from which the nature of the petitioner or protestant's alleged right or interest can be determined. Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contentions of the petitioner in the proceeding, so as to advise the parties and the Commission as to the issues of fact or law to be raised or controverted, by admitting, denying, or explaining specifically and in detail, each material allegation of fact or law asserted with respect to the application.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70–1241]

STANDARD GAS AND ELECTRIC CO.

ORDER PERMITTING AMENDED DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 19th day of February 1947.

Standard Gas and Electric Company (Standard Gas), a registered holding company and a subsidiary of Standard Power and Light Corporation, also a registered holding company, filed on December 30, 1946, its Amendment No. 7 and thereafter its Amendments No. 8 and 9 to its declaration filed pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935 (the act) regarding the proposed modification of the terms and conditions with respect to the payment of the purchase price of $850,000 to be paid to Standard Gas under the Company's proposed sale to Theodore E. Shepard of the following securities: (a) 50 000 shares of the par value of $100 (money of the United States of America) per share, of the capital stock of Empresa de Servicios Publicos de Los Estados Mexicanos, S. A., a Mexican corporation (Empresa), consisting of 15,000 shares described as "Fully Paid Shares" and the remaining 35,000 shares described as "Assessable Series" (40% assessed and paid), and (b) a claim for indebtedness held by Standard Gas against Empresa in the principal sum of $428,495.48 (payable in United States currency), without interest. The said 50,000 shares of capital stock are all of the issued and outstanding shares of capital stock of Empresa and, together with the said claim of indebtedness, constitute the entire investment of Standard Gas in that company which conducts a public utility business in the States of Sonora and Sinaloa, Mexico.

Standard Gas, under the provisions of its Amendments No. 7, 8 and 9, now proposes that the payment of the purchase price for said securities shall be represented in part by a note executed and delivered by the purchaser to Standard Gas, in lieu of payment of the full purchase price in cash, as provided for in the original agreement of sale dated February 15, 1946, between the parties. Standard Gas proposes that under the terms of a Supplemental Agreement dated December 16, 1946, modifying the provisions of the original contract of sale dated February 15, 1946, as previously modified, the sum of $600,000 (representing the balance of the purchase price, after applying $258,000 earnest money heretofore paid by the proposed buyer to Standard Gas) shall be paid as follows: $170,000 cash to be paid by the buyer to Standard Gas at time of closing (plus interest due under the contract of sale as supplemented by Supplemental Agreements, between the parties, extending the date of closing, dated July 29, 1946 and October 10, 1946), and the execution and delivery to Standard Gas by the buyer of his note in the amount of $430,000 to be dated as of the date of closing, which note shall be payable as follows: $80,000 principal amount on or before March 31, 1947, and $350,000 principal amount on or before December 31, 1947, with interest thereon at the rate of 3% per annum, payable March 31, 1947, June 30, 1947, September 30, 1947 and December 31, 1947.

Standard Gas represents that the proposed sale of the securities, and the acceptance by Standard Gas of the note of the purchaser in the amount of $430,000, are necessary or appropriate to effectuate the provisions of section 11 (b) of the act, and requests that the Commission, in its order permitting the declaration, as amended, to become effective, find that said sale and the acceptance of said note are necessary or appropriate to effectuate the provisions of section 11 (b) of the act, and make the specifications and itemizations necessary in order that the provisions of sections 371 (b), 371 (e) and 1808 (f) of the Internal Revenue Code shall be applicable.

Said Amendments 7, 8 and 9 having been filed on December 30, 1946, January 29, 1947, and February 3, 1947, respectively, and notice of said filing having been duly given in the manner and form prescribed by Rule U-23 under said act and the Commission not having received a request for hearing with respect to said amended declaration, as further amended, within the period specified in such notice, or otherwise, and the Commission not having ordered a hearing thereon; and the declarant having requested that the Commission issue its order permitting said amended declaration, as further amended, as soon as practicable; and

The Commission finding that the requirements of section 12 (d) and Rule U-44 are satisfied, that no adverse findings are necessary thereunder and that the request of the declarant that action upon the amended declaration, as further amended, be accelerated should be granted; and the Commission deeming it appropriate in the public interest and the interest of investors and consumers to permit said amended declaration, as further amended, to become effective forthwith;

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the act and subject to the terms and conditions prescribed by Rule U-24 that said amended declaration, as further amended, be, and the same is hereby, permitted to become effective forthwith.

It is further ordered, and the Commission finds, That the sale by Standard Gas and Electric Company of its entire investment in Empresa de Servicios Publicos de Los Estados Mexicanos, S. A. (a corporation organized under the laws of the Republic of Mexico), consisting of (a) 50,000 shares, par value $100 per share, of the capital stock of said company and divided into: 15,000 shares described as "Fully Paid Series" and 35,000 shares described as "Assessable Series" (40% assessed and paid), and (b) a claim for indebtedness held by Standard Gas and Electric Company against the latter company in the principal sum of $428,495.48 (payable in United States currency) without interest, to Theodore E. Shepard for $858,000, and the acceptance by Standard Gas of a note executed by the purchaser in the amount of $430,000, with interest thereon at the rate of 3% per annum, representing the payment of the balance of the purchase price due Standard Gas from Theodore E. Shepard under an Agreement of Sale dated February 15, 1946 and Supplemental Agreement thereto dated December 16, 1946, is in accordance with and in obedience to the order of this Commission dated August 8, 1941, which order found that the divestment by Standard Gas and Electric Company of its interest in Empresa was necessary and appropriate for the purpose of bringing about compliance with section 11 (b) (1) of said act; and the said 50,000 shares of common stock of Empresa are hereby specified and itemized as being included in the holdings of securities named in said order dated August 8, 1941.

MIDDLE WEST CORP.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 19th day of February 1947.

Notice is hereby given that The Middle West Corporation ("Middle West"), a registered holding company, has filed a declaration pursuant to the Public Utility Holding Company Act of 1935. Declarant designates section 12 (b) of the act and Rule U-45 promulgated thereunder as applicable to the proposed transaction.

Notice is further given that any interested person may, not later than February 27, 1947, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after said date said declaration, as filed or as amended, may be made effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said declaration, which is on file in the office of this Commission, for a statement of the transaction therein proposed, which is summarized below:

Middle West proposes to pay to its subsidiary, Kentucky Utilities Company ("Kentucky"), $1,500,000 as a contribution to its Common Stock capital. The declaration states that, subject to the approval of the Commission, an equal par amount of Common Stock of Kentucky will be issued to Middle West as a part of a comprehensive refinancing plan of Kentucky which Kentucky expects to file shortly with the Commission.

Kentucky proposes to use the funds received from Middle West to finance in part an extensive construction program calling for the expenditure in 1947 in excess of $6,000,000, and states that it requires $500,000 of these funds by March 1, 1947, and an additional $1,000,000 from March 1 to June 1, 1947. Accordingly, the declarant requests that the Commission's order making the declaration effective be issued prior to March 1, 1947.

The declaration states that no state commission has jurisdiction over the proposed contribution by Middle West of $1,500,000 to Kentucky Utilities Company.

By the Commission.

DELAWARE POWER & LIGHT CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 19th day of February 1947.

Notice is hereby given that Delaware Power & Light Company ("Delaware"), a registered holding company and an electric and gas utility company, has filed an application-declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935. Delaware has designated sections 6 and 7 of the act and Rule U-50 promulgated thereunder as applicable to the proposed transactions.

All interested persons are referred to said application-declaration and amendment, which are on file in the offices of this Commission for a statement of the transactions therein proposed which are summarized as follows:

Delaware proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50 promulgated under the act, 50,000 shares of ----% Cumulative Preferred Stock of a Par Value of $100 per share. Said 50,000 shares of new Preferred Stock shall be in addition to the presently outstanding 40,000 shares of 4% Cumulative Preferred Stock, of a Par Value of $100 per share. The dividend rate and the price to the company for the new Preferred Stock will be determined by competitive bidding, except that the invitation for bids will specify that the dividend rate shall be a multiple of one-twentieth of one percent and shall not exceed 4% per annum, and that the price to the company shall not be less than $100 per share nor more than $102.75 per share plus accrued dividends, if any.

The proceeds from the proposed sale of Preferred Stock will be used to finance capital expenditures proposed to be made by Delaware during 1947 and to reimburse the treasury of the company for capital and other expenditures made since October 1943.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a public hearing be held with respect to said application-declaration, as amended, and that said application-declaration, as amended, shall not be granted nor permitted to become effective except pursuant to further order of the Commission;

It is ordered, That a hearing, under the applicable provisions of the act and rules thereunder, be held at 10 a. m., e. s. t. on March 6, 1947, in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as may be designated on that day by the hearing room clerk in room 318. At such hearing cause shall be shown why said application should be granted and said declaration permitted to become effective.

It is further ordered, That Allen MacCullen, or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearing in such matter. The officer so designated at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act, and to a trial examiner under the Commission's rules of practice.

The Public Utilities Division of the Commission having advised the Commission that it has made a preliminary examination of the application-declaration, as amended, and that, upon the basis thereof, the following matters and questions are presented for consideration by the Commission without prejudice, however, to the presentation of additional matters and questions upon further examination:

(1) Whether or not the proposed issue and sale of Preferred Stock is for the purpose of financing the business of the declarant as a public utility company;

(2) Whether the proposed Preferred Stock is reasonably adapted to the earning power and the security structure of Delaware and its issuance and sale is necessary and appropriate to the economical and efficient operation of the business or businesses in which Delaware is engaged;

(3) Whether or not the fees, commissions, or other remunerations to be paid in connection with the issue, sale or distribution of said Preferred Stock are reasonable;

(4) Whether or not the terms and conditions of the issue and sale of Preferred Stock are detrimental to the public interest or the interests of investors or consumers;

(5) Whether or not the proposed accounting treatment of the proposed transactions is proper and in conformity with sound accounting principles;

(6) Whether or not there will have been compliance with Rule U-50 promulgated under the act;

(7) What terms and conditions, if any, with respect to the proposed transactions should be prescribed in the public interest or for the protection of investors and consumers.

It is further ordered, That any person desiring to be heard in connection with this proceeding or proposing to intervene herein shall file with the Secretary of the Commission, on or before March 4, 1947, his request or application therefor as provided by Rule XVII of the rules of practice of the commission.

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing a copy of this order by registered mail to Delaware Power & Light Company and the Secretary of the State of Delaware, and that notice of said hearing shall be given to all other persons by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935, and that further notice be given to all persons by publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

UNION PRODUCING CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 19th day of February A. D. 1947.

Notice is hereby given that an application and declaration have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Union Producing Company ("Union"), a wholly-owned subsidiary of United Gas Corporation ("United"), which is a subsidiary of Electric Power & Light Corporation, a registered holding company. Union designates sections 9 (a) (1), 12 (c) and Rule U-42 as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than February 28, 1947 at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after February 28, 1947, said application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said application and declaration, which are on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

Union proposes to redeem for cash on or about March 25, 1947, $1,000,000 principal amount of its 6% Debentures due March 1, 1952, in accordance with the provisions thereof, at principal amount and accrued interest thereon to date fixed for such redemption. Union has presently outstanding $38,000,000 of said 6% Debentures, all of which are owned by United. The Debentures are pledged and held as collateral under the provisions of the Mortgage and Deed of Trust securing United's First Mortgage Bonds. The filing states that United has advised Union that it proposes to transfer the $1,000,000 principal amount to be paid to the Trustee by Union to the Sinking Fund provided in said Mortgage as a credit against current requirements in accordance with the provisions of said Mortgage.

Union requests that the Commission's order granting the application and permitting the declaration to become effective be issued as promptly as may be practicable and that it shall be effective forthwith.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

AUTHORITY: §§ 711.1 to 711.35, inclusive, issued under 52 Stat. 62, 63, 64, 66, 55 Stat. 92, 60 Stat. 237, 7 U. S. C. and Sup., 1361–1368, 1375 (b).

DEFINITIONS

§ 711.1 *Definitions.* As used in the regulations in this part:

(a) The term "Act" means the Agricultural Adjustment Act of 1938, as amended (52 Stat. 31; 7 U. S. C. and Sup., 1281–1407).

(b) The term "Secretary of Agriculture" means the Secretary of Agriculture of the United States.

(c) The term "Hearing Clerk" means the Hearing Clerk, United States Department of Agriculture, Washington, D. C.

(d) The term "review committee" means the review committee appointed by the Secretary of Agriculture pursuant to section 363 of the act.

(e) The terms "State Committee," "county committee," and "community committee" mean the committees selected pursuant to section 8 (b) of the Soil Conservation and Domestic Allotment Act, as amended (49 Stat. 1148; 16 U. S. C., Sup., 590h (b)).

(f) The term "acreage allotment" means an acreage allotment established under Title III of the act.

(g) The term "quota" means a marketing quota established under Title III of the act, and, for purposes of review, shall be deemed to include the acreage allotment, normal yield or actual yield established or determined in connection therewith.

(h) The term "application" means an application for review of a quota under section 363 of the act.

PUBLICATION OF ACREAGE ALLOTMENTS AND QUOTAS AND NOTICE OF QUOTAS

§ 711.2 *Publication.* (a) Immediately upon the establishment of acreage allotments and of quotas for any commodity, the county committee shall prepare a list or other compilation containing the information specified in §§ 711.3 and 711.4.

(b) A copy of the list or other compilation so prepared shall be posted for not less than thirty days in a conspicuous place in the county (or in each local administrative area in the county if the county is divided into two or more local administrative areas) and shall be permanently kept freely available for public inspection in the office of the county committee.

§ 711.3 *List of other compilation of acreage allotments.* The list or other compilation shall contain the following information relating to acreage allotments:

(a) The acreage allotment for each farm or, in the case of rice, for each producer; or, if after considering the eligibility for an allotment of a farm or a producer it has been determined that no acreage allotment is to be established for such farm or such producer, the word "none" shall be inserted as the amount of the acreage allotment.

(b) The identification of the farm by giving the name of the owner or operator of the farm and the serial number thereof; in the case of rice, the name and serial number of the producer shall be given.

(c) The calendar year or crop for which such acreage allotment is made.

§ 711.4 *List or other compilation of quotas.* The list or other compilation shall contain the following information relating to quotas:

(a) The acreage allotment, if any, for each farm or, in the case of rice, for each producer; or, if after considering the eligibility for an allotment of a farm or a producer it has been determined that no acreage allotment is to be established for such farm or such producer, the word "none" shall be inserted as the amount of the acreage allotment.

(b) The normal yield per acre for each farm wherever applicable.

(c) The quota for each farm or, in the case of rice, for each producer, expressed insofar as practicable in applicable units, such as pounds, bales, barrels or bushels; or, if after considering the eligibility for an allotment of a farm or a producer it has been determined that no quota is to be established for such farm or such producer, the word "none" shall be inserted as the amount of the quota.

(d) The identification of the farm by giving the name of the owner or operator of the farm and the serial number thereof; in the case of rice, the name and serial number of the producer shall be given.

(e) The marketing year, or the crop, whichever is applicable, for which such quota is effective.

§ 711.5 *Notice of acreage allotments and quotas.* (a) Immediately upon the establishment of quotas for any commodity, the county committee shall mail a written notice thereof to the producer, in the case of rice, and to the operator of the farm, in the case of any other commodity. If, after considering the eligibility for an acreage allotment of a farm or a producer, it has been determined that no quota is to be established for such farm or such producer, the notice shall contain the word "none" as the amount of the quota. A notice to the operator of the farm shall contain at or near the top thereof the following statement: "To all persons who as operator, landlord, tenant or sharecropper are interested in the farm for which this quota is established," and such notice shall constitute notice to all such persons. The notice shall contain the information required by §§ 711.3 and 711.4 for publication. The notice shall contain also, on the face or back thereof, a brief reference to, or statement of, the procedure whereby application for review of the quota may be made.

(b) A copy of each notice, containing thereon the date of mailing, shall be kept among the records of the county committee, and, upon request, a copy of such notice, certified by the secretary of the county committee as true and correct, shall be furnished without charge to any person interested in the farm in respect to which the quota is established.

§ 711.6 *Other regulations.* The provisions of §§ 711.2 through 711.5 may be supplemented by regulations issued by the Secretary of Agriculture in respect to acreage allotments or quotas for any specific commodity.

APPLICATION FOR REVIEW OF QUOTAS

§ 711.7 *Manner and time of filing application for review.* An application shall be in writing and addressed to, and filed with, the secretary of the county committee from which the notice of quota was received. The application shall be filed within fifteen days after the date of mailing of the notice.

§ 711.8 *Contents of application.* The application shall be accompanied by the original mailed notice of the quota sought to be reviewed, or by a copy of such notice certified as true and correct by the secretary of the county committee, and shall contain:

(a) The date of the application.

(b) The correct full name and full address of the applicant.

(c) A statement of the amount of quota which it is claimed should have been established; or if the quota depends upon a farm marketing excess, the amount of such excess which it is claimed should have been determined.

(d) A brief statement of each ground upon which the application is based.

(e) The signature of the applicant.

§ 711.9 *Record of applications.* The secretary of the county committee shall make a notation on each application of the date of the receipt thereof by him and give such application an identification number.

§ 711.10 *Insufficient and untimely applications.* If the secretary of the county committee finds that any application filed (a) is not in substantial compliance with the provisions of § 711.8, or (b) is not made within the period fixed for the filing of applications, as provided in § 711.7, he shall so notify the applicant in writing by depositing the notice, accompanied by a copy of the regulations of this part, in the United States mails, registered and addressed to the applicant at his last known address. In the case of an insufficient application filed within the period fixed for the filing of applications, the applicant may, within fifteen days after the date of mailing of the notice aforesaid, file with such secretary an amended application containing the matter specified in § 711.8. Any such application shall be retained for appropriate action by the review committee.

§ 711.11 *Clerk to review committee.* The Secretary of the county committee shall act as clerk to the review committee, unless and until some other person shall have been designated by the county committee as clerk to the review committee. The county committee may designate a person other than the secretary of the county committee to act as clerk to the review committee. If not already an employee, the person so designated shall thereby become an employee of such county committee. Immediately upon such designation, the county committee shall notify the State committee thereof. In the event of such designation, the secretary of the county committee shall transmit to the person so designated any and all applications received by him and all papers and information relating thereto.

§ 711.12 *Transmission of information.* The clerk to the review committee shall furnish to the State committee such information pertaining to applications filed with him as the State committee may require.

THE REVIEW COMMITTEE

§ 711.13 *Eligibility for review committee.* Any farmer who is, or who is eligible under the articles of association of county associations (ACP–71)[1] to become, a member of any county or community committee shall be eligible to serve on review committees to hear applications for review of quotas established in counties or communities which are adjacent to or near the county or community, as the case may be, for which he is a committeeman or eligible to become a committeeman. The eligibility hereby declared shall be subject at all times to the provisions of §§ 11.14 through 711.21. No farmer who is a member of a county or community committee of, or whose legal residence is in, one State shall be eligible to serve on a review committee in any other State.

§ 711.14 *Establishment of review committee.* Three eligible farmers shall be designated to serve on a review committee for a county, a group of counties, a community, or group of communities, and of the farmers so designated one shall be named chairman and another vice-chairman of such committee. In the absence of the chairman, the vice-chairman shall perform the duties and exercise the powers of the chairman, and in the absence of both the chairman and the vice-chairman, the other regular member shall, as acting chairman, perform the duties and exercise the powers of the chairman. No review committee shall include any member of the county or community committee through which was determined any matter relating to any quota for the review of which the review committee is established. Subject to the provisions of this section and of § 711.13, the same farmer may be designated to serve on more than one review committee. Not more than three additional eligible farmers may be designated as alternate members of the review committee to serve in the event of the absence of any regular members thereof or in case of any vacancies in such committee, but not more than two such alternates may serve concurrently. The alternates shall be called upon for service in the order of their designation, except that where a hearing will be unduly delayed by this procedufe the person acting as chairman may call upon the alternate who is the most readily available for service.

§ 711.15 *Vacancies on review committee.* Subject to the requirements of eligibility set forth in §§ 711.13 and 711.14, a farmer shall be designated to fill any vacancy occurring in any review committee. Where a single vacancy occurs after a hearing is begun and before the final determination, the remaining two members of the review committee shall henceforth constitute an entire review committee for the purposes of such hearing. If more than one such vacancy occurs, or if the two remaining members of the review committee cannot agree upon a determination, there shall be a new hearing, after the filling of the vacancy, by the entire review committee of three members.

§ 711.16 *Manner of designation.* The designations mentioned in §§ 711.14 and 711.15 with respect to a review committee and the area for which the review committee shall serve shall be made in writing by the Secretary of Agriculture and notice of such designation shall be sent to (a) the farmer so designated, (b) the clerk to the review committee and (c) the State committee.

§ 711.17 *Time of designation.* Any designation may be made before, during, or after the period during which applications are required to be filed.

§ 711.18 *Period of designation.* A review committee shall serve for a period of one calendar year and shall hear applications for review of quotas established for the area served by the review committee and which become effective during the calendar year for which the review committee is designated: *Provided*, That the review committee may serve for a longer period than one year where necessary to conclude proceedings begun during such year.

§ 711.19 *Reservation of powers of Secretary of Agriculture.* Notwithstanding any of the foregoing provisions, the Secretary of Agriculture shall have the continuing power to revoke or suspend any designation made pursuant to the provisions of the regulations in this part, and, subject to the provisions of the act, to make such other designation as he may deem proper.

§ 711.20 *Effect of changes in review committee.* Nothing contained in the foregoing provisions relating to any vacancy or revocation or suspension of designation, and nothing done pursuant to such provisions, shall be construed as affecting the validity of any prior hearing conducted or determination made in accordance with the regulations in this part, in which the member of the review committee, whose place has become vacant, participated, or as affecting in any way any court proceeding which may be instituted, pursuant to the provisions of the act, for the review of such determination.

§ 711.21 *Compensation.* The members of a review committee designated in accordance with the provisions above shall receive the same compensation as that received by the members of the county committee through which were established the quotas sought to be reviewed. The payment of such compensation shall be governed by instructions issued by the Production and Marketing Administration of the Department of Agriculture. The members of a review committee shall not be entitled to receive compensation for services as members of such committee for more than thirty days in any one year. Reimbursement for travel expenses shall be made at such rates and under such conditions as may be prescribed by the Production and Marketing Administration of the Department of Agriculture.

HEARING AND DETERMINATION

§ 711.22 *Place of hearing.* The place of hearing shall be in the office of the county committee through which the quota sought to be reviewed was established, or such other appropriate place in the county as may be designated by the review committee.

[1] 7 CFR 713.

§ 711.23 *Notice of hearing.* As soon as practicable after its establishment, the review committee shall arrange with the clerk to the review committee for the appointment of the time and the designation of the place for hearing on applications. Notice of the hearing shall be given by such clerk. The notice shall be in writing and shall specify the time, place and nature of the hearing. The notice shall also contain a statement of the statutory authority for the hearing and a statement that the application will be heard by the review committee duly appointed for the State and county in which the applicant's farm is located. Such notice shall be given to the applicant by depositing the same, at least ten days prior to the time appointed for the hearing, in the United States mails, registered and addressed to the applicant at his last known address. The appropriate State and county committees shall also be notified in writing of such hearing. A copy of all such notices shall be kept and recorded by such clerk.

§ 711.24 *Time and place of hearing and continuance thereof.* Such hearing shall be held at the time and place set forth in the notice of hearing, or in any subsequent notice amending or superseding the prior notice, but may, without notice other than an announcement at the hearing by the chairman of the review committee, be continued from day to day or adjourned to a different place in the county or to a later date or to a date and place to be fixed in a subsequent notice to be issued in the manner provided in §§ 711.22 and 711.23. In the event a full committee of three is not present, those members present, or in the absence of the entire committee, the clerk, shall postpone the hearing: *Provided, however*, That at the request or with the consent of the applicant a hearing conducted by two members of the review committee, one of whom shall be a regular member, shall be deemed to be a regular hearing of the review committee as to such case, and the determination made by such members shall constitute the determination of the review committee.

§ 711.25 *Conduct of hearing*—(a) *Open to public.* Except as otherwise provided in the regulations of this part, each hearing shall take place before the entire review committee and shall be presided over by the chairman of such committee. The hearing shall be open to the public and shall be conducted in a fair and impartial manner and in such a way as to afford the applicant, members of the appropriate county and community committees, and appropriate officers and agents of the Department of Agriculture, and all persons appearing on behalf of such parties, reasonable opportunity to give and produce evidence relevant to the determination of the quota for the applicant.

(b) *Consolidation of hearings.* Wherever practicable, two or more applications relating to the same commodity and the same farm shall be consolidated and heard at the same time on the same record.

(c) *Representation.* The applicant and the Secretary of Agriculture may be represented at the hearing. The county committee shall be present or represented at the hearing.

(d) *Order of procedure.* At the commencement of the hearing, the chairman of the review committee shall read the pertinent portions of the application for review filed by the applicant and shall then require the county committee or its representative to answer orally or in writing the material allegations contained in the application in a manner which will fully inform the applicant of the issues of fact and law in dispute. Such answer shall be made a part of the record of the hearing. If the applicant asserts and shows to the satisfaction of the review committee that he has not been informed of the county committee's position in time to afford him adequate opportunity to prepare and present his case, the review committee shall continue the hearing, without notice other than announcement thereof at the hearing, for such period of time as will afford the applicant reasonable opportunity to meet the issues of fact and law involved. After answer by the county committee and following such continuance, if any, as may be granted by the review committee, evidence shall be received with respect to the matters relevant to the quota under review in such order as the chairman of the review committee shall prescribe.

(e) *Submission of evidence.* The burden of proof shall be upon the applicant as to all issues of fact raised by him. Each witness shall, before proceeding to testify, be sworn, after which he shall give such information respecting his appearance as the review committee may request. The review committee shall confine the evidence to pertinent matters and shall exclude irrelevant, immaterial, or unduly repetitious evidence. Interested persons shall be permitted to present oral and documentary evidence, to submit rebuttal evidence, and to conduct such cross-examination as may be required for a full and true disclosure of the facts. The hearing shall be concluded within such reasonable time as may be determined by the review committee.

(f) *Transcript of testimony.* The review committee shall provide for the taking of such notes at the hearing as will enable it to make a summary of the testimony received at the hearing, and a transcript of such summary shall be made. The testimony received at the hearing shall be reported verbatim and a transcript thereof made if (1) the applicant requests such transcript and provides for its preparation and for the payment of the expense thereof, or (2) the State committee requests that such transcript be made and provides therefor. Immediately upon the completion of any such verbatim transcript, three legible copies thereof shall be furnished to the review committee without charge.

(g) *Written arguments and proposed findings.* The review committee shall permit the applicant, the members of the appropriate county and community committees, and appropriate officers and agents of the Department of Agriculture to file written arguments and proposed findings of fact and conclusions, based on the evidence adduced at the hearing, for the consideration of the review committee within such reasonable time after the conclusion of the hearing as may be prescribed by the review committee. Such written arguments and proposed findings shall be filed in triplicate with the clerk to the review committee.

§ 711.26 *Withdrawal of applications.* An application may be withdrawn upon the written request of the applicant. Any application so withdrawn shall be endorsed "Dismissed at the Request of the Applicant." This endorsement shall be made by the clerk to the review committee if the withdrawal takes place before the hearing and by the chairman of the review committee if the withdrawal takes place after the hearing has begun.

§ 711.27 *Nonappearance of applicant.* If, at the time of the hearing, the applicant is absent and no appearance is made on his behalf, the review committee shall, after a lapse of such period of time as it may consider proper and reasonable, have the name of the absent applicant called in the hearing room. If, upon such call, there is no response, and no appearance on behalf of such applicant, the review committee may thereupon close the hearing as to such applicant, and, without further proceedings in the case, make an order dismissing the application, or continue the hearing to a later date.

§ 711.28 *Amendments.* Upon due application, and within the discretion of the review committee, the right of amendment of the application and of all procedural documents in connection with any hearing, shall be granted upon such reasonable terms as the review committee may deem right and proper.

§ 711.29 *Reopening hearing.* The review committee (a) on its own motion, or upon due application therefor, may, within fifteen days from the date of mailing to the applicant of a copy of the determination of the review committee, reopen the hearing for the purpose of taking additional evidence or of adding any relevant matter or document, and (b), upon application by or on behalf of the Secretary of Agriculture made for any purpose within a period of sixty days from the date of mailing to the applicant of a copy of the determination of the review committee, shall reopen the hearing.

§ 711.30 *Determination by review committee.* (a) The review committee shall make an order dismissing without further hearing any insufficient application or any application which was not filed within the period required for the filing of applications.

(b) As soon as practicable after hearing on any sufficient application, and after consideration of the entire record of the proceedings, the review committee shall make a determination upon the application. If it is determined by the

review committee that the application should be denied, the review committee shall so indicate. If it is determined that the application should be granted in whole or in part, the review committee shall establish the quota which it finds to be proper. Each determination made by the review committee shall be in writing, shall contain specific findings of fact and conclusions, together with the reasons or basis therefor, and shall be based upon and made in accordance with reliable, probative, and substantial evidence adduced at the hearing. The determination shall also show the review committee's rulings upon the proposed findings and conclusions filed by the applicant. The concurrence of two members of the review committee shall be sufficient to make a determination. The written determination shall contain such subscription by each member of the review committee as will indicate his concurrence therein or his dissent therefrom. In all cases the review committee shall consider only such matters as, under the applicable provisions of the act and regulations of the Secretary of Agriculture thereunder, are required or permitted to be considered by the county committee in the establishment of the quota sought to be reviewed. In case of an increase in the quota, the review committee shall specifically state in the determination in what respect, if any, the county committee has failed properly to apply the act and regulations of the Secretary of Agriculture thereunder. If such increase is based upon evidence not available to the county committee, the findings of the review committee shall so indicate.

§ 711.31 *Service of determination.* A copy of the determination, or of any order dismissing the application, as provided in §§ 711.27 or 711.30, certified by the clerk to the review committee as a true and correct copy of the signed original, shall be served upon the applicant by depositing the same in the United States mails, registered and addressed to the applicant at his last known address. The copy of the determination or order shall contain at the top thereof the following statement: "To all persons who as operator, landlord, tenant or sharecropper are interested in the farm for which this quota is established," and such statement shall constitute notice to all such persons. The clerk to the review committee shall make a notation on the original determination or order of the date and place of such mailing. The clerk to the review committee forthwith shall forward a copy of such determination or order to the Hearing Clerk, to the chairman of the State committee, and to the chairman of the county committee.

§ 711.32 *The record.* The record of the proceedings shall be prepared by the clerk to the review committee and shall consist of the following:

(a) All procedural documents in the case under review, including the application and written notice of hearing and any other written notice in connection with the application.

(b) Copies of such pertinent proclamations, announcements, general regulations, and apportionments, national, State, or county, issued by the Secretary of Agriculture in respect to acreage allotments and marketing quotas for the commodity in question, as may be presented at the hearing by or on behalf of the Secretary of Agriculture.

(c) The answer of the county committee to the allegations contained in the application, which may be summarized by the review committee if the answer is given orally.

(d) The transcript of the testimony made in accordance with the regulations in this part, to which shall be annexed any documentary evidence received at the hearing. The review committee shall make such corrections in any verbatim transcript made as will make the text conform to the correct meaning. The corrections shall be made in such manner as will not obscure the original text of the transcript. In each case which is followed by the institution by the applicant of proceedings in court for a review of the determination of the review committee, the record shall include a copy of the notice of the designation of the members of the review committee, and a copy of the regulations in this part.

(e) Any written arguments or proposed findings of fact and conclusions which may have been filed in connection with the hearing.

(f) The written determination of the review committee.

(g) A list of all papers included in the record, and a certificate by the clerk to the review committee, stating that such record is true, correct and complete.

Any interested person desiring a copy of the record or any part thereof shall be entitled to same upon application to the clerk to the review committee and upon payment of the actual cost of supplying such copy.

COURT PROCEEDINGS

§ 711.33 *Court proceedings; duty of review committee.* (a) The review committee is required, by section 365 of the act, upon the institution of any suit against the review committee for the purpose of reviewing its determination upon any application for review, to certify and file in court a transcript of the record upon which the determination was made, together with the findings of fact made by the review committee. Any suit for review is required to be instituted by the applicant within fifteen days after a notice of the review committee's determination is mailed to him by registered mail. Such suit may be instituted in the United States District Court or in any court of record of the State having general jurisdiction, sitting in the county or the district in which the applicant's farm is located. The bill of complaint in such proceeding may be served by delivering a copy thereof to any member of the review committee.

(b) Upon the institution of such suit, the clerk to the review committee shall immediately send a telegram addressed to the Hearing Clerk, United States Department of Agriculture, Washington, D. C. The telegram shall state the name of the plaintiff, the name of the court in which the suit is instituted, and the time within which appearances must be made in such suit in behalf of the review committee. Any member of the review committee served with papers in such suit shall forward such papers to the clerk to the review committee, who shall in turn forward them to the Hearing Clerk. No member of the review committee shall appear or permit any appearance in his behalf or in behalf of the review committee, or take any action in respect to the defense of such suit, except in accordance with the instructions from or on behalf of the Secretary of Agriculture.

FORMS AND CUSTODY AND INSPECTION OF RECORDS

§ 711.34 *Forms and custody and inspection of records.* (a) The forms required in connection with the publication, notice and review of acreage allotments and quotas shall be prescribed by the Secretary of Agriculture. The following forms prescribed under review regulations heretofore issued, 38–AAA–2 (3 F. R. 1749), are hereby prescribed for use in connection with the review of acreage allotments or quotas becoming effective during the calendar year 1947, and the references in such forms to the Review Regulations, 38–AAA–2, shall be construed to mean these regulations and the references in such forms to sections 300, 301, 513, Article III, and Article V of the Review Regulations, 38–AAA–2, shall be construed as references to §§ 711.7, 711.8, 711.30, 711.7 to 711.12, inclusive, and 711.22 to 711.32, inclusive, respectively, of the regulations in this part: Form No. 38–AAA–3, Application for Review of Farm Marketing Quota; Form No. 38–AAA–4, Notice of Untimely Filing; Form No. 38–AAA–5, Notice of Insufficiency; Form No. 38–AAA–7, Order of Dismissal; Form No. 38–AAA–8, Determination of Review Committee.

(b) The clerk to the review committee shall carefully keep and preserve a record of all applications and of all proceedings relating to the review of such applications.

(c) The Hearing Clerk shall maintain a file of all records, documents and papers specifically required by these regulations to be sent to such clerk.

(d) All records, documents, and papers referred to in paragraphs (b) and (c) of this section shall be available for public inspection at the office of the clerk to the review committee and the office of the Hearing Clerk, respectively.

RESCISSION OF PRIOR REVIEW REGULATIONS

§ 711.35 *Rescission of prior regulations.* The regulations in this part shall supersede the marketing quota review regulations, 38–AAA–2, issued July 13, 1938 (3 F. R. 1749), as amended December 16, 1938 (3 F. R. 3029), October 11, 1940 (5 F. R. 4062), March 8, 1941 (6 F. R. 1353), and June 27, 1941 (6 F. R. 3163).

Done at Washington, D. C., this 21st day of February 1947.

PART 725—BURLEY AND FLUE-CURED TOBACCO

APPORTIONMENT OF NATIONAL MARKETING QUOTA FOR BURLEY TOBACCO; 1947–1948

The purpose of this proclamation is to apportion among the several States the national marketing quota for Burley tobacco for the 1947–1948 marketing year proclaimed on October 1, 1946 (11 F. R. 11441), in accordance with the provisions of section 313 (a) of the Agricultural Adjustment Act of 1938, as amended. Prior to the apportionment of such quota among the several States, public notice of the proposed action was given (11 F. R. 14249) in accordance with the Administrative Procedure Act (60 Stat. 237). The views and recommendations of Burley tobacco growers and other interested persons have been duly considered, within the limits prescribed by the Agricultural Adjustment Act of 1938, as amended, in apportioning the quota among the several States.

In view of the fact that Burley tobacco growers are now preparing plant beds, purchasing fertilizer, and preparing the land on which tobacco will be transplanted, it is hereby determined and found that this proclamation should, and the same hereby shall, become effective upon publication in the FEDERAL REGISTER in order that the national marketing quota, as apportioned among the several States and converted into the State acreage allotments, may be apportioned among farms and the operators notified of their farm acreage allotments and marketing quotas as soon as it is administratively possible to do so.

§ 725.308 *Apportionment of the national marketing quota for Burley tobacco for the 1947–48 marketing year among the several States.* The national marketing quota proclaimed in § 725.306 is hereby apportioned among the several States pursuant to section 313 (a) of the Agricultural Adjustment Act of 1938, as amended, and converted into State acreage allotments in accordance with section 313 (g) of said act, as follows:

State and Acreage Allotment

Alabama	89
Arkansas	94
Georgia	66
Illinois	29
Indiana	11,089
Kansas	377
Kentucky	302,554
Missouri	5,780

Chapter XXI—Organization, Functions and Procedure

PART 2100—OFFICE OF THE SECRETARY

INFORMATION AND RECORDS

Section 2100.3 *Availability of information and records.* (11 F. R. 177A–233), is amended as follows:

1. By amending paragraph (a) (5) to read as follows:

(a) *Confidential records.* • • •

(5) Records of audits other than information with respect thereto authorized by the Secretary of Agriculture or the Board of Directors of Corporations to be made available and other than records of audits included under paragraph (b) (2) (e) of this section.

2. By amending the first sentence of paragraph (b) to read as follows:

(b) *Records of limited availability.* The records enumerated below are of limited availability and information contained therein shall not be disclosed, nor shall a copy thereof be furnished, except in proper cases upon requests from Federal official sources or as specifically provided: • • •

3. By adding after subdivision (d) of paragraph (b) (2) the following subdivision (e):

(e) Records and reports of audits, parts thereof, or information with respect thereto in connection with contractual relations under the jurisdiction of the Production and Marketing Administration, may be made available to the contractor or person whose activities form the basis of the audit, and in the case of audits in connection with the national school lunch program, may be made available also to State Educational Agencies.

Chapter II—Railroad Retirement Board

PART 260—APPEALS WITHIN THE BOARD

Pursuant to the general authority contained in section 10 of the act of June 24, 1937 (Sec. 10, 50 Stat. 314; 45 U. S. C. 228j), Part 260 of the regulations of the Railroad Retirement Board under such act; (4 F. R. 1477; 6 F. R. 4684; 7 F. R. 776; and 8 F. R. 5701) is revised by Board Order 47–33 dated January 28, 1947, to read as follows:

Sec.
260.1 Initial decisions by the Bureau of Retirement Claims.
260.2 Appeal from an initial decision of the Bureau of Retirement Claims.
260.3 Final appeal from a decision of the Appeals Council.
260.4 Determination of date of filing of appeal.

AUTHORITY: §§ 260.1 to 260.4, inclusive, issued under sec. 10, 50 Stat. 314, 45 U. S. C. and Sup. 228j.

§ 260.1 *Initial decisions by the Bureau of Retirement Claims.* (a) Claims will be adjudicated and initial decisions made by the Bureau of Retirement Claims upon the basis of the application, the evidence submitted by the applicant, and evidence otherwise available. Adjudication and initial decision will be in accordance with instructions issued by the board.

(b) Notice of an initial decision shall be communicated by the Bureau of Retirement Claims to the applicant in writing within thirty days after such decision is made.

§ 260.2 *Appeal from an initial decision of the Bureau of Retirement Claims.* (a) Every applicant shall have a right to appeal to the Appeals Council from any initial decision of the Bureau of Retirement Claims by which he claims to be aggrieved. The Appeals Council shall consist of three members, one of whom shall be named by the Board as Chairman.

(b) Appeal from an initial decision of the Bureau of Retirement Claims shall be made by the execution and filing of the appeal form prescribed by the Board. Such appeal must be filed with the Appeals Council within one year from the date upon which notice of the initial decision is mailed to the applicant at the address furnished by him.

(c) The right to further review of an initial decision of the Bureau of Retirement Claims shall be forfeited unless formal appeal is filed in the manner and within the time prescribed in this part.

(d) In the event that the applicant makes informal complaint without taking formal appeal, which complaint is not eliminated by explanation of the basis of the initial decision of the Bureau of Retirement Claims, the Appeals Council shall endeavor to ascertain, by correspondence or conference with the applicant, whether he takes issue with any point of fact or law involved in the initial decision of the Bureau of Retirement Claims, and, if so, whether the applicant desires to take a formal appeal

to the Appeals Council. In the latter event, he shall be supplied with the appeal form prescribed by the Board, which form shall be duly executed and filed before the applicant is considered to have made an appeal.

(e) The appellant, or his representative, shall be afforded full opportunity to present further evidence upon any controversial question of fact, orally or in writing or by means of exhibits; to examine and cross-examine witnesses; and to present argument in support of the appeal. If, in the judgment of the Appeals Council, evidence not offered by the appellant is available and relevant and is material to the merits of the claim, the Appeals Council shall obtain such evidence upon its own initiative. The Appeals Council shall protect the record against scandal, impertinence and irrelevancies, but the technical rules of evidence shall not apply.

(f) In the development of appeals, the Appeals Council shall have power to hold hearings, require and compel the attendance of witnesses, administer oaths, take testimony, and make all necessary investigations.

(g) All oral evidence presented at any hearing shall be reduced to writing. All evidence presented by the appellant and all evidence developed by the Appeals Council shall be preserved. Such evidence, together with a record of the arguments, oral or written, and the file previously made in the adjudication of the claim, shall constitute the record for decision of the appeal. After an appeal form is filed, the completion of the record shall be initiated by the inclusion therein of the file made in the adjudication of the claim; the compilation of the record shall be kept up to date by the prompt addition thereto of all parts of the record subsequently developed. The entire record at any time during the pendency of an appeal shall be available for examination by the appellant or his representative.

(h) Upon completion of the record, the Appeals Council shall render decision thereon as soon as practicable, and within thirty days after the making thereof, such decision shall be communicated to the appellant in writing. Decision by two or more members of the Council shall be the decision of the Council.

§ 260.3 *Final appeal from a decision of the Appeals Council* (a) Every appellant shall have a right to a final appeal to the Railroad Retirement Board from any decision of the Appeals Council by which he claims to be aggrieved.

(b) Final appeal from a decision of the Appeals Council shall be made by the execution and filing of the final appeal form prescribed by the Board. Such appeal must be filed with the Board within four months from the date upon which notice of the decision by the Appeals Council is mailed to the appellant at the address furnished by him. As used in this part, a month shall be considered to have elapsed between any date and the date corresponding thereto in the next succeeding month.

(c) The right to further review of a decision of the Appeals Council shall be forfeited unless formal final appeal is filed in the manner and within the time prescribed in this part.

(d) Upon final appeal to the Board, the appellant shall not have the right to submit additional evidence: *Provided, however*, That, if upon final appeal to the Board, the Board finds that new or better evidence is available, the Board may obtain such evidence, in which event the appellant shall be advised with respect to such evidence and given an opportunity to submit rebuttal evidence and argument: *And provided further*, That in the event that pursuant to the preceding proviso material evidence is developed which tends to show facts contrary to those found by the Appeals Council, or, in the event that the appellant shows that he is ready to present to the Appeals Council, the claim may be referred back to the Appeals Council. Thereupon the Appeals Council shall receive such new evidence as may be offered, develop new or better evidence if available, affording the appellant appropriate opportunity to submit rebuttal evidence and argument, include a transcript of all evidence in the record, and transmit the entire record to the Board together with its recommendation to the Board for final decision.

(e) The decision of the Board shall be made upon the record of evidence and argument which has been made in the handling of the case before final appeal to the Board, with such additions as may be made pursuant to this section. Further argument will not be permitted except upon a showing by the appellant that he has arguments to present which for valid reasons he was unable to present at an earlier stage, and in cases in which the Board requests further elaboration of the appellant's arguments. In such cases, the further argument shall be submitted orally or in writing, as the Board may indicate in each case, and shall be subject to such restrictions as to form, subject matter, length and time as the Board may indicate to the appellant.

§ 260.4 *Determination of date of filing of appeal.* In determining whether an appeal has been made in accordance with the regulations in this part, the date of filing of a duly executed appeal form prescribed by the Board shall be the date of receipt at an office of the Board or the date of delivery for the purpose of transmission to the Board's main office in Chicago, Illinois, to any field agent specifically authorized by a Regional Director to receive custody thereof in the district where delivery is made, whichever date is earlier.

By authority of the Board.

MARY B. LINKINS,
Secretary of the Board.

TITLE 32—NATIONAL DEFENSE

Chapter VI—Selective Service System

[State Director Advice 345, Issued 2/26/47]

PART 672—STATE DIRECTOR ADVICES

DEFERMENT FOR NAVAL RESERVE OFFICERS' TRAINING CORPS AND NAVAL AVIATION COLLEGE PROGRAM

Pursuant to the provisions of the Administrative Procedures Act, the following directive issued under authority of the Selective Training and Service Act of 1940, as amended, is hereby made a matter of record:

§ 672.345 *Deferment for Naval Reserve Officers' Training Corps and Naval Aviation College Program.* (a) Public Law 729, 79th Congress, provides for a new naval officer candidate training program, the chief components of which are the Naval Reserve Officers' Training Corps and the Naval Aviation College Program.

(b) In accordance with the provisions of Public Law 729, nationwide competitive examinations for candidates within the age group 17 through 20 were conducted in January 1947 to choose candidates for matriculation into courses of study under such program to commence in September 1947. No candidate who will reach the age of 21 by July 1, 1947, will be accepted.

(c) The Navy Department has indicated that the competitive examinations will be scored by February 15, 1947. Candidates who qualify will be notified by the Officer Procurement Division of the Bureau of Naval Personnel on a form designated as NROTC and NACP Notification to Successful Candidates, NAVPERS-922 (NEW 12-46). Between February 15, 1947, and May 15, 1947, successful candidates will be enlisted in the Naval Reserve, after which they will be entitled to classification in Class I-C.

(d) Between February 15, 1947, and May 15, 1947, candidates who receive the NROTC and NACP notification to successful candidates and who are registrants of an age liable for military service, will present this notice to their local boards, unless they are otherwise entitled to deferment. It is requested that the most serious deferment consideration be given during this period to candidates ages 19 through 20 who are registrants, and who present such notification of qualification to their local boards.

(e) The Bureau of Naval Personnel will advise the Director of Selective Service of the names of any candidates who are dropped from either component of this program. The Director of Selective Service will in turn notify the State Directors in such instances.

Chapter XXIV—Department of State, Disposal of Surplus Property and Administration of Lend-Lease [1]

[FLC Reg. 8, Amdt. 1 to Order 6]

PART 8508—DISPOSAL OF SURPLUS PROPERTY LOCATED IN FOREIGN AREAS

IMPORTATION INTO UNITED STATES

The President has informed the Secretary of State that many items of surplus property excepted by Order 6 (Departmental Regulation 108.39, 12 F. R. 397) from the importation prohibition of § 8508.15 of FLC Regulation 8 (Departmental Regulation 108.30, 11 F. R. 13423) have now ceased or will during the coming months cease to be in critically short supply and urgently needed for reconversion in the United States. The President has requested the Secretary of State to take such steps as are necessary to terminate on October 1, 1947 the period during which the items covered by Order 6 may be imported into the United States without regard to the importation prohibition and to remove at this time certain items from the list covered by the order.

It is hereby ordered, That FLC Regulation 8, Order 6, with Schedule A attached thereto be and is hereby amended as follows:

1. Items appearing on Schedule A may be imported into the United States only if they are in transit to a point in the United States on or before October 1, 1947. For the purpose of this order "in transit to a point in the United States" shall mean that the property involved is afloat, or is covered by an on-board ocean bill of lading to a point in the United States, or has been delivered to and accepted by a rail, truck or air carrier for transportation to a point within the United States.

2. The items appearing on Schedule A are subject to removal at any time. In the event of such removal prior to October 1, 1947, items so removed are not excepted from the importation prohibition of § 8508.15 of FLC Regulation 8 if the purchase by the importer, or his consignor, of those items was made subsequent to the effective date of the removal order. Items purchased by the importer, or his consignor, prior to the effective date of the order removing those items from Schedule A will not be affected by the importation prohibition of § 8508.15 of FLC Regulation 8 if such items are placed in transit to a point in the United States, as defined above, within ninety days of the effective date of the removal order, provided that such ninety-day period does not extend beyond October 1, 1947.

3. The following items are hereby removed from Schedule A and are not excepted from the importation prohibition of § 8508.15 of FLC Regulation 8 unless they were purchased by the importer, or his consignor, prior to the effective date of this order and are in transit to a point in the United States, as defined above, on or before May 27, 1947: *Provided, however*, That items purchased pursuant to Bid Invitation No. BE-3 of the Field Commissioner for Canada and North Atlantic Areas of the Office of the Foreign Liquidation Commissioner, issued January 20, 1947 and supplemented by Addendum No. 1 on February 5, 1947, shall not be affected by the provisions of this paragraph. No item on Schedule A as published January 18, 1947 (12 F. R. 397) which is purchased pursuant to Bid Invitation BE-3 is subject to the importation prohibition of § 8508.15 if in transit to a point in the United States on or before October 1, 1947:

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

ORGANIZATION

AUTHORITY OF REGIONAL ADMINISTRATORS; LAND REGIONS AND REGIONAL HEADQUARTERS

Under authority of section 403 (e) of the President's Reorganization Plan No. 3 of 1946; *It is ordered:*

(a) The regional administrator for each region shall have immediate supervision over the work of the district land offices and all other field offices in his region.

(b) All authority formerly vested in the regional field examiners, the regional cadastral engineers and the regional graziers by Departmental or Bureau orders is hereby transferred to and hereafter shall be exercised by the regional administrators.

(c) All regulations of the Bureau of Land Management containing provisions which conflict with the foregoing will be amended as soon as possible so as to conform thereto.

PART 50—ORGANIZATION AND PROCEDURE

The following text is substituted for §§ 50.30 and 50.31:

§ 50.30 *Supervision.* The headquarters organization of the Bureau of Land Management, in addition to formulating policies and programs concerning the public lands, and administering the eastern region, has immediate supervision over the work of the regional administrators.

§ 50.31 *Land regions; regional administrators.* There are seven land regions, as follows:

(a) Washington, Oregon and Idaho, with headquarters at Portland, Oregon.

(b) California and Nevada, with headquarters at San Francisco, California.

(c) Utah and Colorado, with headquarters at Salt Lake City, Utah.

(d) Montana, Wyoming, North Dakota, South Dakota, Nebraska, Kansas, Iowa, and Missouri, with headquarters at Billings, Montana.

(e) Arizona, New Mexico, Texas, Oklahoma, Arkansas, Louisiana, with headquarters at Albuquerque, New Mexico.

(f) All the remaining States, with headquarters at Washington, D. C.

(g) Alaska, with headquarters at Anchorage.

The regional administrator for each region, to the extent of the authority delegated to him, is responsible for the management, protection and disposal of the public lands in his region and has immediate supervision over the work of the district land offices and all other field offices in his region.

Appendix—Public Land Orders

[Public Land Order 350]

NEW MEXICO

REVOKING PUBLIC LAND ORDER 18 OF JULY 29, 1942, WITHDRAWING PUBLIC LANDS FOR USE OF WAR DEPARTMENT AS PRACTICE BOMBING RANGE

By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Public Land Order No. 18 of July 29, 1942, as amended by Executive Order No. 9526 of February 28, 1945, withdrawing the hereinafter-described public land for the use of the War Department as a practice bombing range, is hereby revoked.

The jurisdiction over and use of such lands granted to the War Department by Public Land Order No. 18 shall cease upon the date of the signing of this order. Thereupon, the jurisdiction over and administration of such lands shall be vested in the Department of the Interior and any other Department or agency of the Federal Government according to their respective interests then of record.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on April 18, 1947. At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from April 18, 1947, to July 18, 1947, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from March 29, 1947, to April 18, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on April 18, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on July 18, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from June 28, 1947, to July 18, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on July 18, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office, Las Cruces, New Mexico, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the District Land Office, Las Cruces, New Mexico.

The lands affected by this order are described as follows:

NEW MEXICO PRINCIPAL MERIDIAN

T. 16 S., R. 24 E.,
sec. 27.

The area described contains 640 acres.
This is typical desert land, fairly level in topography.

WYOMING

REVOCATION OF EXECUTIVE ORDER 3263 OF APRIL 28, 1920

By virtue of the authority contained in section 1 of the act of June 25, 1910 c. 421, 36 Stat. 847 (U. S. C. Title 43, sec. 141), and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Executive Order No. 3263, of April 28, 1920 temporarily withdrawing the E½ and SW¼ sec. 19, T. 24 N., R. 119 W., 6th P. M., Wyoming, pending a determination as to what portion thereof, if any, would be needed as a landing field for aeroplanes in connection with national forest fire patrol purposes, is hereby revoked.

The lands are nearly level and semi-arid in character, supporting native desert vegetation. They are within Wyoming Grazing District No. 4.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on April 21, 1947.

At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from April 21, 1947, to July 21, 1947, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from April 1, 1947, to April 21, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on April 21, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on July 21, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from July 1, 1947, to July 21, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on July 21, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office at Evanston, Wyoming, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the District Land Office at Evanston, Wyoming.

PART 95—CAR SERVICE

SALTING OF ICE ON CARS OF CITRUS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 21st day of February A. D. 1947.

Upon further consideration of the provisions of Service Order No. 260 (9 F. R. 14547), as amended (10 F. R. 4818; 11 F. R. 8452, 13639; 12 F. R. 48, 128), and good cause appearing therefor: It is ordered, that:

Section 95.260 *Salting of ice on cars of citrus* of Service Order No. 260, as amended, be, and it is hereby, further amended by adding the following exception to paragraph (a) thereof:

Exception. The provisions of this order, during the effectiveness of this amendment, shall not apply to the salting, at regular icing stations en route, with not to exceed three percent (3%) salt, of ice in the bunkers of refrigerator cars, shipped from any origin in the State of Florida, loaded with straight carloads of tangerines, or loaded with mixed carloads of tangerines and other citrus fruit providing tangerines comprise fifty percent (50%) or more of the lading.

Effective date. This amendment shall become effective at 12:01 a. m., February 24, 1947.

Expiration date. This amendment shall expire at 11:59 p. m., May 15, 1947.

It is further ordered, that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

HANDLING OF MILK IN CHICAGO, ILL., MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVELY APPROVED MARKETING AGREEMENT

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended (7 CFR, Cum. Supp. 900.1 et seq.; 10 F. R. 11971, 11 F. R. 7737, 12 F. R. 1159), notice is hereby given of a public hearing to be held at the Hotel Stevens, Chicago, Illinois, beginning at 10:00 a. m., c. s. t., March 5, 1947, for the purpose of receiving evidence with respect to proposed amendments to the tentatively approved marketing agreement, as amended, and the order, as amended, regulating the handling of milk in the Chicago, Illinois, milk marketing area (11 F. R. 9606). These proposed amendments have not received the approval of the Secretary of Agriculture.

The following amendments have been proposed:

By the Pure Milk Association:

1. Delete § 941.1 (e) and substitute therefor the following:

(e) "Approved plant" means any plant which is approved by any health authority for the receiving of milk which may be disposed of as Class I milk, as defined in § 941.4, in the marketing area, except if such plant has been suspended as a pool plant pursuant to § 941.6.

2. Add at the end of § 941.1 (g) the following:

(g) This definition shall not include any person who sells the larger percentage of Class I milk handled by him in a marketing area under any other milk marketing agreement or order issued under the act where such person is a handler subject to such other milk marketing agreement or order.

By the Dairy Branch, Production and Marketing Administration:

3. Amend § 941.4 (a) (2) by adding after the words "fluid cream" the following: "frozen cream, other cream frozen, plastic cream, or any cream product similar to the products here named,"

4. Amend § 941.4 (a) (2) by including the counties of Stark, Marshall, Woodford, Livingston, Ford, and Iroquois in the State of Illinois, and the counties of Benton, White, Cass, Miami, Howard, Carroll, Tippecanoe, Tipton, Clinton, Fountain, Warren, Parke, Vermillion, Vigo, and Sullivan in the State of Indiana in the "surplus milk manufacturing area."

5. Amend § 941.4 (a) (3) by adding to such paragraph the following:

Such utilization shall be substantiated by daily production records:

(i) If the unapproved plant makes available to the market administrator adequate daily records of its total milk receipts and the utilization or disposition thereof, but intermingles its receipts of fluid milk or fluid cream from an approved plant with its other receipts and is therefore unable to account for the utilization of the receipts from an approved plant, such fluid milk shall be allocated on a daily basis as substantiated by production records to the amount of butterfat used in Class III milk products, in Class IV milk products, and in Class II milk products, respectively, and the balance, if any, shall be allocated to the amount of fluid milk in Class I milk products, and such fluid cream shall be allocated on a daily basis as substantiated by production records to the amount of butterfat used in Class IV milk products, in Class III milk products, in Class II milk products, and in Class I milk products, respectively;

(ii) If the unapproved plant does not make available to the market administrator adequate daily records of its total milk receipts and the utilization or disposition thereof, but does make available to the market administrator adequate records of utilization on a monthly basis, the fluid milk received from an approved plant shall be allocated to the amount of fluid milk used in Class I milk products, then to the amount of butterfat used in Class II milk products, in Class III milk products, and in Class IV milk products, respectively, as shown by such production records, and the fluid cream received from an approved plant shall be allocated to the amount of butterfat used in Class II milk products, in Class III milk products, in Class IV milk products, and in Class I milk products, respectively, as shown by such production records; and

(iii) If adequate records of utilization are not available the milk shall be classified pursuant to § 941.4 (c).

6. Amend § 941.4 (c) (3) (ii) by adding after the word "tests" the following: "(in the case of flavored milk and flavored milk drinks the average fat test including test of chocolate ingredients)."

7. Amend (2), (3), (4), and (5) of § 941.4 (f) by changing the designations thereof to (3), (4), (5), and (6), respectively, and adding as (2) the following: "Subtract from the remaining pounds of milk in each class the pounds of milk obtained from frozen cream and utilized during the delivery period in such class."

By the Associated Milk Dealers Inc.:

8. Delete (1) and (2) of § 941.4 (b) and substitute therefor the following:

(1) Class I milk shall be all milk disposed of in the form of fluid milk, excluding bulk milk disposed of to bakeries, soup companies, and candy manufacturing establishments, but including bulk milk disposed of to hotels, restaurants, and other retail food establishments, and all milk not accounted for as Class II milk, Class III milk, or Class IV milk.

(2) Class II milk shall be all milk, except skim milk, disposed of in the form of flavored milk and flavored milk drinks, and all milk, the butterfat from which is disposed of in the form of sweet or sour cream, cottage cheese, buttermilk, frozen cream, ice cream, and ice cream mix.

9. Delete § 941.4 (b) (4) (iii) and substitute therefor the following:

(iii) Actual shrinkage, but in an amount not to exceed one-half percent of total pounds of butterfat received directly from producers plus 2 percent of the total pounds of butterfat in bulk fluid milk, bulk fluid skim milk, or bulk fluid cream received at an approved plant or platform from all sources: *Provided*, That such shrinkage shall be allowed in this class only if records of utilization satisfactory to the market administrator are available.

10. Delete § 941.4 (e) (6) (vi) and substitute therefor the following:

(vi) Determine the maximum number of pounds of butterfat shrinkage in Class IV milk by multiplying by 2 percent the pounds of butterfat in bulk fluid milk, bulk fluid skim milk, or bulk fluid cream received at an approved plant or platform from all sources, and adding such amount to the result obtained by multiplying by one-half percent the pounds of butterfat received directly from producers: *Provided*, That the pounds determined pursuant to this subdivision shall be zero if records of utilization satisfactory to the market administrator are not available.

By the Pure Milk Association:

11. Delete (1) and (2) of § 941.5 and substitute therefor the following:

(1) *Class I milk.* The price for Class I milk shall be the basic formula price plus 70 cents, except that during the delivery periods of May and June the price shall be the basic formula price plus 50 cents, and during the delivery periods of August, September, October, and November the price shall be the basic formula price plus $1.00.

(2) *Class II milk.* The price for Class II milk shall be the basic formula price plus 32 cents, except that during the delivery periods of August, September, October, and November the price shall be the basic formula price plus 60 cents.

By the Consolidated Badger Cooperative, the Wisconsin Cooperative Dairies, the Fox River Valley Cooperative Creamery, the Columbus Milk Products Cooperative, the St. Croix Valley Cooperative Dairies, West Depere Cooperative Creamery, Ladysmith Milk Producers Cooperative Association, the Lake to Lake Dairy Cooperative, the Dairyland Cooperative Association, the Barron Cooperative Creamery, and the Kaukauna Cooperative Dairy (hereinafter referred to as Consolidated Badger Cooperative et al.):

12. Amend § 941.5 (a) (3) to read as follows:

(3) *Class IV milk.* Multiply by 3.5 the average price per pound of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture for the delivery period during which such milk was received, less 1 cent and add 20 percent: *Provided*, That such price shall be subject to the following adjustments: (i) add 3¾ cents per hundredweight for each full one-half cent that the price of dry skim milk for human consumption is above 5½ cents per pound or (ii) subtract 3¾ cents per hundredweight for each full one-half cent that the price of such dry skim milk is below 5½ cents per pound. For purposes of determining this adjustment the price per pound of dry skim milk to be used shall be the average of the carlot prices for dry skim milk for human consumption, f. o. b. manufacturing plant, as published by the United States Department of Agriculture for a Chicago area during the delivery period, including in such average the quotations published for any fractional part of the previous delivery period which were not published and available for the price determination of such dry skim milk for the previous delivery period. In the event the United States Department of Agriculture does not publish carlot prices for dry skim milk for human consumption, f. o. b. manufacturing plant, the average of the carlot prices for dry skim milk for human consumption, delivered at Chicago, shall be used. In the latter event the Class IV price shall be subject to the following adjustments: Add 3¾ cents per hundredweight for each full one-half cent that the price of dry skim milk for human consumption, delivered at Chicago, is above 7½ cents per pound, or subtract 3¾ cents per hundredweight for each full one-half cent that such price of dry skim milk is below 7½ cents per pound.

13. Delete § 941.5 (b) and substitute therefor the following:

(b) *Class prices.* Subject to the appropriate location adjustment credits set forth in (c) of this section, each handler, at the time and in the manner set forth in § 941.8, shall pay per hundredweight of milk purchased or received during each delivery period from producers or from cooperative associations, not less than the prices set forth below in this paragraph:

(1) *Class I milk.* The price for Class I milk shall be the average of the basic formula prices for the preceding month and the current month, plus 70 cents.

(2) *Class II milk.* The price for Class II milk shall be the average of the basic formula price for the current month and the preceding month plus 32 cents, except that during the delivery periods of May and June of each year the price for that portion of Class II milk used in frozen cream shall be the average of the basic formula price for the current month and the preceding month, plus 20 cents.

(3) *Class III milk.* The price for Class III milk shall be the same as the basic formula price for the current month.

(4) *Class IV milk.* The price for Class IV milk shall be the same as the price computed pursuant to (a) (3) of this section.

14. Amend § 941.5 (c) (2) by adding thereto the following proviso:

Provided, That if any handler can prove to the market administrator that the LCL freight rate approved by the Interstate Commerce Commission, or the State authorities having the power to fix intrastate rail rates for the movement of cream in forty quart cans from the shipping point for the plant where such milk is received from producers to the marketing area, is in excess of the allowance herein provided, such actual freight rate shall be allowed such handler on Class II milk.

By the Associated Milk Dealers, Inc.:

15. Amend § 941.5 (a) (1) by adding the following manufacturing plants to the list of such plants appearing in said sections:

Borden Co., Dixon, Ill.
Carnation Co., Oregon, Ill.
Libby, McNeil & Libby Co., Morrison, Ill.
Dean Milk Co., Pecatonica, Ill.
Amboy Milk Products Co., Amboy, Ill.

16. Amend (1) and (2) of § 941.5 (b) to read:

(1) *Class I milk.* The price for Class I milk shall be the basic formula price plus 70 cents, except that during the period from April 16 through July 15 the price for Class I milk shall be the basic formula price plus 45 cents.

(2) *Class II milk.* The price for Class II milk shall be the basic formula price plus 32 cents, except that during the period from April 16 through July 15 the price for Class II milk shall be the basic formula price plus 20 cents.

17. Amend § 941.5 (c) to read:

(c) *Location adjustment credit to handlers.* (1) The location adjustment credit with respect to that portion of milk received directly from producers at an approved plant or platform (i) which is moved in the form of fluid milk or fluid skim milk from such approved plant or platform to a plant engaged in the bottling of fluid milk, which is located less than 70 miles from the City Hall in Chicago, or (ii) which is classified as Class I milk but did not move in the manner described in (i) of this subparagraph or in (2) (i) of this subparagraph, shall be 2½ cents per hundredweight for each 15 miles or fraction thereof that such approved plant is located more than 70 miles by rail or highway, whichever is shorter, from the City Hall in Chicago.

(2) The location adjustment credit with respect to that portion of milk received directly from producers at an approved plant (i) which is moved in the form of fluid cream from such approved plant to a plant engaged in the bottling of fluid milk or cream or in the manufacturing of ice cream or ice cream mix, which is located less than 70 miles from the City Hall in Chicago, or (ii) which is classified as Class II milk but did not move in the manner described in (1) (i) of this paragraph or in (i) of this subparagraph shall be ¾ cent per hundredweight of milk equivalent for each 15 miles or fraction thereof that such approved plant is located more than 70 miles by rail or highway, whichever is shorter, from the City Hall in Chicago.

18. Amend § 941.5 by adding a new paragraph (e) to read as follows:

(e) If any handler has purchased or received from any producer, during any delivery period, milk having an average butterfat content, other than 3.5 percent, such handler, in making the payments pursuant to paragraph (a) of this section to such producer shall add for each one-tenth of 1 percent of average butterfat content above 3.5 percent not less than, or shall deduct for each one-tenth of 1 percent of average butterfat content below 3.5 percent not more than 4 cents per hundredweight.

By the Beatrice Foods Company:

19. Amend § 941.5 by adding paragraph (e) as follows:

(e) *Sales outside the marketing area.* The price to be paid by a handler for Class I milk disposed of outside of marketing area 41, shall be the price, as ascertained by the market administrator, which is being paid for milk of equal grade and of equivalent use in the market where such milk is disposed of.

For the purpose of this section, milk produced and sold in cities operating under ordinances complying with regulations of the U. S. Public Health Service or under regulations of equal requirements shall be classed as Grade A milk.

By the Ice Cream Manufacturers' Association of Cook County:

20. Amend § 941.5 (b) (2) to read as follows:

(2) *Class II milk.* The price per hundredweight for Class II milk shall be the price determined pursuant to paragraph (b) of this section (for Class III milk) plus a premium of 32 cents for the months of July to the following March, both inclusive, and a premium of 20 cents during the months of April, May, and June: *Provided, however,* That as to purchases during April, May, and June, any handler who shall certify that such purchases are for frozen cream storage shall be entitled to a reduction of 17 cents per hundredweight. Any handler who shall receive such reduction shall be liable under the provisions of § 941.8 (g) for the amount thereof as to any frozen cream used before the following July 15th or used at any time for other than a Class II use.

By the Pure Milk Association:

21. Amend § 941.6 to read as follows:

§ 941.6 *Application of provisions.*—(a) *Handlers who are also producers.* No provision hereof shall apply to a handler whose sole sources of supply are receipts from his own production and from other handlers, except that such handlers shall make reports to the market administrator at such time and in such manner as the market administrator may request.

(b) *Pool plants.* Any approved plant which meets the requirements of this section shall be designated as a pool plant until such designation is suspended pursuant to paragraph (2) hereof.

(1) *Requirements.* A pool plant must utilize as Class I or Class II milk on its own premises or dispose of such milk to a plant engaged in the distribution of Class I or Class II milk in the marketing area the minimum percentages of fluid milk or butterfat specified by the market administrator. The requirements of a pool plant shall be determined by the market administrator. The market administrator shall call a meeting of handlers and cooperative associations after at least three (3) days notice of such meeting has been mailed by the market administrator to handlers and cooperative associations. At such meeting consideration shall be given to the desirable percentage of utilization of milk received from producers during the delivery period immediately following the month in which such meeting is held. Following such meeting, and not later than the 25th day of the month during which held, the market administrator shall mail to all handlers operating pool plants an announcement of his determination of the desirable percentage of utilization of milk received from producers during the next delivery period. Such determination shall include a statement setting forth the minimum percentage of milk received from producers to be utilized as Class I or Class II milk or disposed of to a plant engaged in the distribution of Class I or Class II milk in the marketing area. In order to facilitate meeting the requirements of this paragraph, from time to time the market administrator shall notify all handlers and cooperative associations by letter of the handlers reporting to him a desire to buy fluid milk or fluid cream, and of the handlers reporting to him a desire to sell fluid milk or fluid cream.

(2) *Suspension.* Any plant which fails to meet the requirements of (1) hereof shall be suspended as a pool plant during the delivery periods of February, March, April, May, June, and July next following. However, if the handler operating such plant during the delivery period or periods in which the violation occurred notified the market administrator of a desire to dispose of fluid milk or fluid cream and thereafter did not receive sufficient requests to purchase all of such milk or cream, such plant shall not be suspended. The burden of proving insufficient requests to purchase milk or cream shall be upon the handler. Offers to sell such milk or cream must be upon terms and conditions prevailing in the area where such plant is located. Suspension shall become effective upon notice by the market administrator to the handler operating the plant whenever the market administrator finds on the basis of available information, that the handler did not meet the requirements provided for in (1) hereof. Sections 941.4 through 941.14 hereof shall not apply to any handler with respect to any milk which is received at a plant that is suspended as a pool plant during the period of the suspension.

(c) *Payment for milk received from sources determined as other than from producers or other handlers.* The market administrator in computing the value of milk for each handler pursuant to § 941.7 shall add an amount determined by multiplying the pounds of milk purchased or received from sources determined as other than producers or other handlers by the difference between the value of such milk pursuant to its allocation in § 941.4 (f) (3) and the value of such milk at the price for Class IV milk. This provision shall not apply if such handler can prove to the market administrator that such milk was used for purposes which did not violate any regulations issued by the various health authorities in the marketing area, and that such milk was not obtained from a plant that has been suspended as a pool plant pursuant to (b) (2) of this section.

(d) *Announcement by the market administrator.* The market administrator shall publicly announce the name of any handler who fails to meet the requirements of (b) (1) hereof.

(e) *Payment for overrun.* The market administrator in computing the value of milk for each handler pursuant to § 941.7 shall add an amount determined by multiplying the pounds of overrun pursuant to § 941.4 (e) (7) by the appropriate price pursuant to its allocation in § 941.4 (f) (4).

By the Dairy Branch, Production and Marketing Administration:

22. Amend § 941.6 by adding as paragraph (d) the following:

(d) *Butterfat in skim milk.* A handler may claim butterfat in skim milk disposed of to others or used in the manufacture of dairy products by including the butterfat content of such skim milk in his report or otherwise notifying the market administrator of his desire to do so. In the event that a handler does not have adequate records of the butterfat content of such skim milk, the market administrator shall use 0.06 percent per hundredweight of skim milk as the butterfat content of such skim milk. In the event the handler desires to discontinue accounting for butterfat in skim milk, or after discontinuing accounting therefor desires to again account for the same, he may do so by notifying the market administrator in writing at least 30 days prior to the first day of the delivery period during which such change shall become effective. Classification of such butterfat shall be determined pursuant to § 941.4.

By the Pure Milk Association:

23. Amend § 941.7 (b) (3) by adding thereto the following:

(i) Subtract an amount equal to the milk equivalent of Class II butterfat utilized as frozen cream, multiplied by the difference between the Class II and Class IV prices for the current delivery period from the total pool value; and

(ii) Add the amount subtracted under (i) above with respect to any frozen cream used in Class II products during the current delivery period.

By the Consolidated Badger Cooperative et al.:

24. Amend § 941.8 (b) as follows:

(b) *Location adjustment to producers.* In making payment to producers pursuant to (a) (2) of this section, handlers shall deduct per hundredweight with respect to all milk purchased or received from producers, at a plant located more than 70 miles by rail or highway (whichever is the shorter), from the City Hall in Chicago, Illinois, the amount specified as follows:

	Cents per hundredweight
(1) Within 70.1 to 85 miles	1½
Within 85.1 to 100 miles	3
Within 100.1 to 115 miles	4½
Within 115.1 to 130 miles	6

For each 15 miles, or part thereof, beyond 130 miles from the City Hall in Chicago, Illinois, an additional ½ cent per hundredweight: *Provided, however,* That in the event the accumulated deductions from producers as provided herein effective from the first day of the period for which this provision becomes applicable is in excess of the allowances provided for in § 941.5 (c) (by an amount in excess of $50,000) the market administrator shall give public notice that the location adjustment to producers shall, for succeeding reporting periods, be as follows:

	Cents per hundredweight
(2) Within 70.1 to 85 miles	1
Within 85.1 to 100 miles	2
Within 100.1 to 115 miles	3
Within 115.1 to 130 miles	4

For each 15 miles or part thereof beyond 130 miles from the City Hall in Chicago, Illinois, an additional ¼ cent per hundredweight: *And provided further,* That said rate shall continue in effect until the accumulated excess of deductions from producers over allowances to handlers has been reduced to $25,000 or less, in which event schedule (b) (1) shall be applicable for the succeeding delivery periods, until the proviso clause in (b) (1) of this section becomes applicable.

By the Dairy Branch, Production and Marketing Administration:

25. Amend § 941.9 (a) by adding the following phrase "a sum not exceeding 2 cents per hundredweight" the words ", or such lesser amount as the Secretary may prescribe," and delete from such paragraph the words "the exact sum to be determined by the market administrator, subject to review by the Secretary."

26. Delete § 941.9 (b).

By the Dairy Branch, Production and Marketing Administration:

27. Delete from § 941.10 (a) the words "or such lesser amount as the market administrator shall determine to be sufficient, such determination to be subject to review by the Secretary" and substitute therefor the words "or such lesser amount as the Secretary may prescribe,".

General proposals by the Dairy Branch, Production and Marketing Administration:

28. Make such other changes as may be required to make the entire marketing agreement or order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and of the tentatively approved marketing agreement and order, now in effect, may be procured from the market administrator, 1425 Field Building, 135 South LaSalle Street, Chicago, Illinois, or from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, in Room 0306, South Building, Washington 25, D. C., or may be there inspected.

Dated: February 24, 1947.

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVELY APPROVED MARKETING AGREEMENT

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended (7 CFR, Cum. Supp. 900.1 et seq.; 10 F. R. 11791, 11 F. R. 7737, 12 F. R. 1159), notice is hereby given of a public hearing to be held at Hotel Sinton, 4th and Vine Sts., Cincinnati, Ohio, beginning at 10:00 a. m., e. s. t., March 3, 1947, for the purpose of receiving evidence with respect to proposed amendments to the tentatively approved marketing agreement and order, as amended, regulating the handling of milk in the Cincinnati, Ohio, milk marketing area (9 F. R. 825, 9 F. R. 9880, 10 F. R. 7607, 11 F. R. 7331, 11 F. R. 9670, 11 F. R. 14011). These proposed amendments have not received the approval of the Secretary of Agriculture.

The following amendments have been proposed:

By The K. I. O. Milk Producers Association, Inc., and The Milk Producers' Union, Inc.:

1. Delete from § 965.6 (a) (1) the figure "$1.15" and substitute therefor the figure "$1.30."

2. Delete from § 965.6 (a) (2) the figure "$0.70" and substitute therefor the figure "$0.85."

3. Establish a floor under the prices for Class I milk and Class II milk at cost of production.

By The Cooperative Pure Milk Association:

4. Delete § 965.6 (a) (1) and (2) and substitute therefor the following:

(1) The price for Class I milk shall be the price for Class III milk plus $1.30: *Provided,* That such price shall not be less than $5.00.

5. Amend § 965.6 (a) by adding a new subparagraph (4) as follows:

(4) In the case of Class III milk disposed of as butter, the price per hundredweight shall be the average price per pound of 92 score butter at wholesale in the Chicago market as reported by the United States Department of Agriculture for the delivery period during which such milk was received, plus 2 cents, multiplied by 4. In the event that the total receipts of milk, excepting emergency milk, by all handlers from producers and new producers during the delivery period, as ascertained by the market administrator from reports submitted by handlers pursuant to § 965.4 (a), are less than 125 percent of the total quantity of milk disposed of as Class I and Class II milk by such handlers computed pursuant to § 965.5, the price set forth above shall apply to a quantity of milk disposed of as butter but not to exceed 10 percent of such Class I and Class II milk.

By the Wilson Dairy Products:

6. Amend § 965.6 (c) in such a manner that the average price (blend of Class I, Class II, and Class III milk values) for any handler never will exceed the price for Class I milk computed pursuant to (a) (1) of this section.

General proposals by the Dairy Branch, Production and Marketing Administration:

7. Make such other changes as may be required to make the entire tentatively approved marketing agreement and the marketing order, as amended, conform with any amendments thereto which may result from this hearing.

HANDLING OF MILK IN SUBURBAN CHICAGO, ILL., MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVELY APPROVED MARKETING AGREEMENT

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended (7 CFR, Cum. Supp., 900.1 et seq.; 10 F. R. 11791, 11 F. R. 7737, 12 F. R. 1159), notice is hereby given of a public hearing to be held at the Hotel Stevens, Chicago, Illinois, beginning at 10:00 a. m., c. s. t., March 3, 1947, for the purpose of receiving evidence with respect to proposed amendments to the tentatively approved marketing agreement, as amended, and the order, as amended, regulating the handling of milk in the Suburban Chicago, Illinois, milk marketing area (11 F. R. 11126). These proposed amendments have not received the approval of the Secretary of Agriculture.

The following amendments have been proposed:

By the Lake County Milk Dealers' Association, Inc.:

1. Amend § 969.1 (b) to read as follows:

(b) "Suburban Chicago, Illinois, Marketing Area", hereinafter called "Marketing Area" means all of the territory geographically included within the City of Barrington in Lake County, the Townships of Dundee, Elgin, St. Charles, Geneva, Batavia and Aurora in Kane County, Cook, DuPage and Will Counties, Illinois, except territory lying within the corporate limits of the cities and villages of Chicago, Evanston, Wilmette, Kenilworth, Winetka, Glencoe, and Oak Park, in the State of Illinois, and that a separate Federal Marketing Order be established for all of the territory geographically included within the Townships of North, Calumet, and Hobart, in Lake County, Indiana, and that the Federal Marketing Order for this territory when established embody the present Order No. 69 (11 F. R. 11126) together with the amending proposals herewith submitted.

2. Amend § 969.1 (i) to read as follows:

(i) "Grade A Milk" means fluid milk labeled Grade A.

3. Amend § 969.1 (j) to read as follows:

(j) "Grade B Milk" means fluid milk not labeled Grade A.

By the Committee for Order 69 Handlers:

4. Amend § 969.4 (b) to read as follows:

(b) *Classes of utilization.* Subject to the conditions set forth in (a) of this section, the classes of utilization of milk shall be as follows:

(1) Class I milk shall be all milk disposed of in the form of fluid milk (excluding bulk milk disposed of to bakeries, soup companies, and candy manufacturing establishments, which do not distribute fluid milk), including bulk milk disposed of to hotels, restaurants, and other retail food establishments, and all milk not accounted for as Class II milk, Class III milk, or Class IV milk.

(2) Class II milk shall be all milk, except skim milk, disposed of in the form of flavored milk and flavored milk drinks, and all milk the butterfat from which is disposed of in the form of sweet or sour cream, cottage cheese, and buttermilk.

(3) Class III milk shall be all milk the butterfat from which is used to produce a milk product other than one of those specified in Class II and Class IV, and all bulk milk and bulk cream disposed of to bakeries, soup companies, and candy manufacturing establishments, which do not distribute fluid milk.

By the Dairy Branch, Production and Marketing Administration:

5. Amend § 969.4 (f) by changing the designation of subparagraph (6) to (7) and adding a new provision as subparagraph (6) to read as follows:

(6) If after making the applicable deductions pursuant to subparagraphs (1) to (5), inclusive, (i) the amount of Class I milk is greater than the amount of milk received from producers plus the 3.5 percent milk equivalent of butterfat overrun, if any, and none of the butterfat received from producers has been allocated to Class II milk, Class III milk, or Class IV milk, the amount of Class I milk allocated to producers shall be equal to the amount of milk received from producers plus the 3.5 percent milk equivalent of the butterfat overrun, (ii) the amount of Class I milk plus the 18 percent cream equivalent of the butterfat in the remaining Class II milk, Class III milk, and Class IV milk is greater than the amount of milk received from producers plus the 3.5 percent milk equivalent of butterfat overrun, if any, the difference shall be subtracted from the amount of Class I milk. The adjusted Class I milk pounds shall be used in completing the computation of the handler's obligation to producers.

6. Amend (e) (3) (ii) of § 969.4 by adding after the word "tests" the following: "(in the case of flavored milk and flavored milk drinks the average fat test including test of chocolate ingredients)".

By the Lake County Milk Dealers Association, Inc.:

7. Amend § 969.4 (b) (1) and (2) to read as follows:

(b) *Classes of utilization.* Subject to the conditions set forth in (a) of this section, the classes of utilization of milk shall be as follows:

(1) Class I milk shall be all milk disposed of in the form of fluid milk (excluding bulk milk disposed of to bakeries, soup companies, and candy manufacturing establishments, which do not distribute fluid milk), including bulk milk disposed of to hotels, restaurants, and other retail food establishments, and all milk not accounted for as Class II milk, Class III milk, Class IV milk, or Class V milk.

(2) Class II milk shall be all milk, except skim milk, disposed of in the form of flavored milk and flavored milk drinks, and all milk the butterfat from which is disposed of in the form of sweet or sour cream, cottage cheese, and buttermilk.

8. Amend § 969.4 (b) by adding subparagraph (5), as follows:

(5) Class V milk shall be all milk in excess of the actual and complete requirements of each handler as follows: Whenever any handler shall give the Pure Milk Association and/or the Market Administrator not less than twenty-four hours' notice to dispose of all milk above the actual and complete requirements of such handler and the Pure Milk Association shall fail to accept delivery of such milk or the Market Administrator shall fail to instruct the handler where such milk should be disposed of, and which milk the handler takes into his plant on account of the failure of the Pure Milk Association to accept delivery or the failure of the Market Administrator to instruct as to the disposition of such milk, then such milk shall become Class V milk.

9. Amend § 969.4 (b) (4) (iii) to read as follows:

(iii) Actual shrinkage, but in an amount not to exceed ½ percent of the total pounds of butterfat received directly from producers plus 2½ percent of the total pounds of butterfat in bulk fluid milk, bulk fluid skim milk, or bulk fluid cream received at a plant as described in § 969.1 (f) from all sources which were not disposed of in bulk to a plant as described in § 969.1 (f) or to a plant not meeting such description: *Provided*, That such shrinkage shall be allowed in this class only if records of utilization satisfactory to the market administrator are available.

By the Pure Milk Association:

10. Amend subparagraphs (1) and (2) of § 969.5 (b) to provide for the following premiums above the basic formula price:

	Grade A	Grade B
(1) Class I milk		
January through April	$0.70	$0.60
May and June	.50	.40
July	.70	.60
August through November	1.00	.90
December	.70	.60
(2) Class II milk		
January through July	.32	.22
August through November	.60	.50
December	.32	.22

By the Committee for Order 69 Handlers:

11. Amend § 969.5 by adding a new paragraph (g) as follows:

(g) *Out of area milk.* (1) The price to be paid by a handler for Class I milk disposed of outside of Marketing Area 69, shall be the price, as ascertained by the market administrator which is being paid for milk of equal grade and of equivalent use in the market where such milk is disposed of.

(2) For the purpose of this section, milk produced and sold in cities operating under ordinances complying with regulations of the United States Public Health Service, or under regulations of equal requirements shall be classed as Grade A milk.

12. Amend § 969.5 (a) (3) to read as follows:

(3) The price per hundredweight computed from the following formula: Multiply by 3.5 the average price per pound of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture for the delivery period during which such milk was received, add 20 percent thereof, and make the following adjustment: Add 3½¢ per hundredweight for each full ½ cent that the price per pound of nonfat dry milk solids is above 5 cents, or subtract 3½ cents per hundredweight for each full ½ cent that the price per pound of nonfat dry milk solids is below 5 cents. For the purpose of determining this adjustment the price of nonfat dry milk solids to be used shall be the average of the carlot prices for nonfat dry milk solids for human consumption, f. o. b. manufacturing plants, as published by the United States Department of Agriculture for the Chicago area during such delivery period, including in such average the quotations published for any fractional part of the previous delivery period which were not published and available at the time such average price was determined for the previous delivery period. In the event the United States Department of Agriculture does not publish carlot prices for nonfat dry milk solids for human consumption, f. o. b. manufacturing plants, for such delivery period, the price of nonfat dry milk solids to be used shall be the average of the carlot prices for nonfat dry milk solids for human consumption, delivered at Chicago during such delivery period as published by the United States Department of Agriculture and the adjustment to be made as follows: Add 3½ cents per hundredweight for each full ½ cent that such price is above 6 cents, or subtract 3½ cents per hundredweight for each full ½ cent that such price is below 6 cents.

13. Amend subparagraphs (1) and (2) of § 969.5 (b) to read as follows:

(1) *Class I milk.* (i) The price for Grade A Class I milk shall be the basic formula price plus 70 cents, except that during the delivery periods of April, May, and June the price for Grade A Class I milk shall be the basic formula price plus 45 cents; (ii) the price for Grade B Class I milk shall be the basic formula price plus 50 cents, except that during the delivery periods of April, May, and June the price for Grade B Class I milk shall be the basic formula price plus 25 cents.

(2) *Class II milk.* (ii) The price for Grade B Class II milk shall be the basic formula price plus 12 cents.

By the Lake County Milk Dealers Association, Inc.:

14. Amend § 969.5 (a) (3) to read as follows:

(3) The price per hundredweight computed from the following formula: Multiply by 3.5 the average price per pound of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture for the delivery period during which such milk was received, add 20 percent thereof, and making the following adjustment: Add 3½ cents per hundredweight for each full ½ cent that the price per pound of nonfat dry milk solids is above 5½ cents, or subtract 3½ cents per hundredweight for each full ½ cent that the price per pound of nonfat dry milk solids is below 5½ cents. For the purpose of determining this adjustment the price of nonfat dry milk solids to be used shall be the average of the carlot prices for nonfat dry milk solids for human consumption, f. o. b. manufacturing plants, as published by the United States Department of Agriculture for the Chicago area during such delivery period, including in such average the quotations published for any fractional part of the previous delivery period which were not published and available at the time such average price was determined for the previous delivery period. In the event the United States Department of Agriculture does not publish carlot prices for nonfat dry milk solids for human consumption, f. o. b. manufacturing plants, for such delivery period, the price of nonfat dry milk solids to be used shall be the average of the carlot prices for nonfat dry milk solids for human consumption, delivered at Chicago during such delivery period as published by the United States Department of Agriculture and the adjustment to be made as follows: Add 3½ cents per hundredweight for each full ½ cent that such price is above 7½ cents or subtract 3½ cents per hundredweight for each full ½ cent that such price is below 7½ cents.

15. Amend § 969.5 (b) by adding a new subparagraph (5), as follows:

(5) *Class V milk.* The price of Class V milk shall be the net price actually received, f. o. b. the handler's plant, less twenty (20) cents per hundredweight as and for the handling charge thereof.

By the Lake County Milk Dealers Association, Inc.:

16. Amend § 969.6 by adding a new paragraph (c), as follows:

(c) If a handler operates a plant (or plants) from which both Grade A milk and Grade B milk is disposed of in the marketing area, the market administrator shall compute a separate milk value for milk utilized in each grade.

By the Dairy Branch, Production and Marketing Administration:

17. Amend § 969.6 by adding a new paragraph (c), as follows:

(c) *Butterfat in skim milk.* A handler may claim butterfat in skim milk disposed of to others or used in the manufacture of dairy products by including the butterfat content of such skim milk in his report or otherwise notifying the market administrator of his desire to do so. In the event that a handler does not have adequate records of the butterfat content of such skim milk, the market administrator shall use .06 percent per hundredweight of skim milk as the butterfat content of such skim milk. In the event the handler desires to discontinue accounting for butterfat in skim milk, or after discontinuing accounting therefor desires to again account for the same, he may do so by notifying the market administrator in writing at least 30 days prior to the first day of the delivery period during which such change shall become effective. Classification of such butterfat shall be determined pursuant to § 969.4.

By the Committee for Order 69 Handlers:

18. Amend § 969.6 (b) to read as follows:

(b) *Uniform prices of handler of both Grade A milk and Grade B milk.* If a handler operates both a plant (or plants) from which only Grade A milk is disposed of in the marketing area and a plant (or plants) from which only Grade B milk is so disposed of, even though such plant (or plants) are located within the same building, the market administrator shall compute a separate milk value and uniform price for milk so disposed of from each type of plant.

By the Lake County Milk Dealers' Association, Inc.:

19. Amend § 969.8 (b) to read as follows:

(b) *Butterfat differential to producers.* For each one-tenth of 1 percent of average butterfat content above or below 3.5 percent in milk received from any producer or association of producers during the delivery period, the uniform price paid to such producer or association of producers shall be plus or minus, as the case may be, four cents.

By the Dairy Branch, Production and Marketing Administration:

20. Amend § 969.9 by adding the following phrase "an amount not exceeding 4 cents per hundredweight" the words ", or such lesser amount as the Secre-

tary may prescribe," and delete from such section the words "the exact sum to be determined by the market administrator, subject to review by the Secretary."

By the Dairy Branch, Production and Marketing Administration:

21. Delete from § 969.10 (a) the parenthetical phrase "(or such lesser amount as the market administrator shall determine to be sufficient, such determination to be subject to review by the Secretary)" and substitute therefor the words ", or such lesser amount as the Secretary may prescribe,".

General proposals by the Lake County Milk Dealers' Association, Inc.:

22. Petitioners respectfully petition that any and all other sections of the Order No. 69 as amended, to which the proposals of amendment herewith submitted are in any way related, be likewise amended and changed insofar as changes and amendments become necessary because of the amendments herein proposed.

By the Dairy Branch, Production and Marketing Administration:

23. Make such other changes as may be required to make the entire marketing agreement and order conform with any amendments thereto that may result from this hearing.

It is hereby determined that an emergency exists which requires a period of notice less than 15 days and that the notice provided for herein is deemed to be reasonable under the attendant circumstances.

HANDLING OF MILK IN TRI-STATE MILK MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVELY APPROVED MARKETING AGREEMENT

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended (7 CFR, Cum. Supp., 900.1 et seq.; 10 F. R. 11791, 11 F. R. 7737, 12 F. R. 1159), notice is hereby given of a public hearing to be held at the Hotel Neil House, Columbus, Ohio, beginning at 10:00 a. m., e. s. t., March 4, 1947, for the purpose of receiving evidence with respect to proposed amendments to the tentatively approved marketing agreement, as amended, and the order, as amended, regulating the handling of milk in the Tri-State milk marketing area (11 F. R. 12926). These proposed amendments have not received the approval of the Secretary of Agriculture.

The following amendments have been proposed:

By the Dairy Branch, Production and Marketing Administration:

1. Review for the purpose of determining whether it should be modified or deleted, the following language in § 972.1 (h) (suspended effective November 1, 1946, by order of the Secretary): "or (2) having its entire dairy farm supply of milk produced under health requirements equivalent to those applicable to dairy farm supplies of a plant(s) described under (1) of this paragraph and moving 50 percent or more of its total receipts of skim milk and butterfat to the latter plant(s)."

By the Huntington Interstate Milk Producers Association, Scioto County Milk Producers Association, Marietta Cooperative Milk Producers Association, and Athens Milk Sales, Inc.:

2. Delete § 972.5 (b) and substitute therefor the following:

(b) *Class I milk prices.* Subject to the provisions of (e), (f), (g), and (h) of this section, the minimum prices per hundredweight on a 3.5 percent butterfat content basis to be paid by each handler for producer milk classified as Class I milk, shall be the basic formula price

dence with respect to proposed amendments to the tentatively approved marketing agreement, as amended, and order, as amended, regulating the handling of milk in the Columbus, Ohio, milk marketing area (11 F. R. 1081, 9424). These proposed amendments have not received the approval of the Secretary of Agriculture.

The following amendments have been proposed:

a. In § 974.1; by the Dairy Branch, Production and Marketing Administration:

1. Delete § 974.1 (e) and substitute therefor the following:

(e) "Fluid milk plant" means the premises and portions of the building and facilities used in the receipt and processing or packaging of milk all or a portion of which is disposed of from such plant during the delivery period on a route(s), wholly or partially within the marketing area, but not including any portion of such buildings or facilities used for receiving or processing milk or any milk product required by the appropriate health authorities in the marketing area to be kept physically separate from the receiving and processing or packaging of milk for disposition as Class I milk in the marketing area.

2. Add at the end of § 974.1 the following paragraphs:

(l) "Route" means a delivery route (including a plant store) on which milk, skim milk, buttermilk, or flavored milk drink is distributed in fluid form to a

4. After the figure "7" in § 974.2 (c) (7) and before the word "on" insert in parenthesis the letter "I". Delete the semicolon after the word "association" at the end of this paragraph and add the following:

(ii) On or before the 12th day of each month, report to each cooperative association for the preceding month with respect to each handler the percent of utilization in each class of milk of producers as qualified in accordance with §974.9 (b);

c. In § 974.3; by the Dairy Branch, Production and Marketing Administration:

5. Delete (b) (1) of § 974.3 and substitute therefor the following:

(b) (1) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

d. In § 974.4; by Allen Milk Company, et al:

6. In § 974.4 (b) (2) convert the semicolon to a period and delete "or (ii) used to produce cottage cheese," and in § 974.4 (b) (3) strike out the word "or" before the word "frozen," convert the period at the end of said subparagraph to a comma and add "or cottage cheese."

7. In § 974.4 (b) (4), strike out all of the present language after the semicolon following the word "feeding" in (ii) and insert in lieu thereof the following:

(iii) All skim milk and butterfat con-

(1) Subtract from the total pounds of butterfat in Class IV milk (other than butterfat used in butter making), the pounds of butterfat shrinkage allowed pursuant to (b) (4) (iv) of this section;

(2) Subtract from the remaining pounds of butterfat in each class the pounds of butterfat received from other handlers in such classes pursuant to (d) of this section;

(3) Subtract from the remaining pounds of butterfat in Class I milk, the smaller of the following:

(i) The pounds, if any, by which the butterfat in milk received from producers is less than 115 percent of the total pounds of butterfat in such handler's Class I milk; or

(ii) The pounds of butterfat in other source milk received;

(4) Subtract from the pounds of butterfat in other source milk, the pounds deducted pursuant to (3) of this paragraph;

(5) Subtract from the pounds of butterfat remaining in each class, after making the deductions pursuant to (1), (2), and (3) of this paragraph, in series beginning with the lowest-priced utilization, the pounds of butterfat remaining in other source milk after making the deduction pursuant to (4) of this paragraph;

(6) Add to the remaining pounds of butterfat in Class IV milk (other than butterfat used in butter making), the pounds subtracted pursuant to (1) of this paragraph; or if the remaining pounds of butterfat in all classes exceed

Copies of this notice of hearing and of the tentatively approved marketing agreement and order, now in effect, may be procured from the market administrator, 1425 Field Building, 135 South LaSalle Street, Chicago, Illinois, or from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, in Room 0306, South Building, Washington 25, D. 3. Add at the end of § 974.1 the following paragraph:

(o) "Market pool handler" means a handler who disposes of 25% or more of his receipts of milk from producers and other handlers as Class I milk during each delivery period. The market administrator shall determine if a handler is a market pool handler within this definition upon the basis of the reports for each delivery period.

b. In § 974.2; by the Central Ohio Cooperative Milk Producers, Inc.:

tained in inventory variation; and (iv) actual plant shrinkage for each delivery period which shall be deemed to be the total actual plant shrinkage from the beginning of the calendar year to the close of the delivery period less shrinkage previously allowed during said year, but the total shrinkage from the beginning of said year to the close of the delivery period shall not exceed 2½ percent, respectively, of the total receipts of skim milk or butterfat during the calendar year not including skim milk or butterfat transferred directly from other handlers' plants.

8. In § 974.4 (d) (1) (iii) before the word "statement" insert the word "sworn." After the word "buyer" strike out "and the seller." After the word "milk" which follows "Class IV," strike out "and that such utilization may be audited at the receiving plant."

9. In § 974.4 (d) (2) (iii), before the word "statement" insert the word "sworn" and after the word "by" strike out "the seller and." After the word "milk" following "class IV," strike out "and that such utilization may be audited at the receiving plant."

10. Strike out all of paragraph (f) of § 974.4 and insert in lieu of the present provisions of said paragraph the following, which shall include a new paragraph designated (g):

(f) *Allocation of butterfat classified.* The pounds of butterfat remaining after making the following computations in the order specified shall be the pounds in each class allocated to milk received from producers:

the pounds of butterfat in milk received from producers, subtract such excess from the remaining pounds of butterfat in each class in series beginning with the lowest priced utilization.

(g) *Allocation of skim milk classified.* Allocate the pounds of skim milk in each class to milk received from producers in a manner similar to that prescribed in (f) of this section.

By the Dairy Branch, Production and Marketing Administration:

11. Delete § 974.4 (d) (1) (ii) and substitute therefor the following:

(ii) As Class I milk if transferred to a producer-handler.

12. Delete § 974.4 (d) (2) (ii) and substitute the following therefor:

(ii) As Class II milk if transferred to a producer-handler.

e. In § 974.5; by Allen Milk Company, et al.:

13. Strike out all of the provisions of § 974.5 (a) and insert in lieu thereof the following:

§ 974.5 *Minimum prices*—(a) *Basic formula price to be used in determining Class I milk, Class II milk, and Class III milk prices.* The basic formula price per hundredweight of milk to be used in computing the minimum prices for Class I milk, Class II milk, and Class III milk provided in this section shall be the average of the two prices determined pursuant to (1) and (2) of this paragraph.

(1) The price per hundredweight resulting from the following formula:

(i) Multiply by 6 the average wholesale price per pound of 92-score butter at Chicago as reported by the Department of Agriculture for the delivery period;

(ii) Add an amount equal to 2.4 times the average weekly prevailing price per pound of "Twins" during the delivery period on the Wisconsin Cheese Exchange at Plymouth, Wisconsin: *Provided*, That if the price of "Twins" is not quoted on the Wisconsin Cheese Exchange the weekly prevailing price per pound of "Cheddars" shall be used; and

(iii) Divide by 7, add 30 percent thereof, and then multiply by 3.5.

(2) The price per hundredweight computed by the market administrator in accordance with the following formula: From the average price per pound of 92-score butter at wholesale in the Chicago market, as reported by the Department of Agriculture for the delivery period, subtract 3.5 cents, add 20 percent, and multiply the resulting amount by 3.5; *Provided*, That such price shall be increased by the amount resulting from the following computation: from the average of the carlot prices per pound of nonfat dry milk solids, roller and spray process, f. o. b. manufacturing plants, as published by the Department of Agriculture for the Chicago area during the delivery period, including in such average the quotations published for any fractional part of the previous delivery period which were not published and available for the price determination of such nonfat dry milk solids for the previous delivery period, deduct 5.5 cents, multiply by 8.5, and multiply such net amount pursuant to this proviso by 0.965.

By the Central Ohio Cooperative Milk Producers, Inc.:

14. Delete the provisions (b), (c), and (d) of § 974.5 and insert in lieu thereof the following:

(b) *Class I milk prices.* Subject to the provisions of (f) of this section, the minimum prices to be paid by each handler, f. o. b. his fluid milk plant, for that portion of skim milk or butterfat in producer milk received which is classified as Class I milk, shall be determined from the following schedule:

When the basic formula price computed pursuant to (a) of this section is:	The price per hundredweight for skim milk and butterfat in Class I shall be:		
	Skim milk	Butterfat	3.5 percent milk
Under $2.75	$1.089	$70.00	$3.501
$2.75 or over, but under $3.00	1.141	75.00	3.726
$3.00 or over, but under $3.25	1.193	80.00	3.951
$3.25 or over, but under $3.50	1.245	85.00	4.176
$3.50 or over, but under $3.75	1.297	90.00	4.402
$3.75 or over, but under $4.00	1.349	95.00	4.627

Provided, That when the basic formula price is $4.00 or more, the price per hundredweight for skim milk and butterfat, respectively, shall be the price associated with the "$3.75 or over, but under $4.00" range in the basic formula price plus $0.052 and $5.00, respectively, for each successive 25 cent range in the basic formula price.

(c) *Class II milk prices.* Subject to the provisions of (f) of this section, the minimum prices to be paid by each handler, f. o. b. his fluid milk plant, for that portion of skim milk and butterfat in producer milk received which is classified as Class II milk, shall be determined as follows:

The prices per hundredweight for skim milk and butterfat, respectively, shall be the prices determined by (b) of this section less $0.052 and $5.00.

(d) *Class III milk prices.* The minimum prices to be paid by each handler, f. o. b. his fluid milk plant, for that portion of skim milk and butterfat in producer milk received which is classified as Class III, shall be determined as follows:

The prices per hundredweight for skim milk and butterfat, respectively, shall be the prices determined by (b) of this section less $0.125 and $7.00: *Provided*, That the prices per hundredweight of skim milk and butterfat in Class III milk shall be not less, respectively, than the prices per hundredweight of skim milk and butterfat (other than in butter) in Class IV milk.

15. Strike out all of the provisions of § 974.5 (b), (c), and (d) and insert in lieu thereof the following:

(b) *Class I milk prices.* Subject to the provisions of (f) of this section, the minimum prices per hundredweight to be paid by each handler, f. o. b. his fluid milk plant, for that portion of skim milk or butterfat in producer milk received which is classified as Class I milk, shall be as follows, as computed by the market administrator:

(1) For the delivery periods of April, May, and June, add $0.85 to the basic formula price; for the delivery periods of October, November, and December, add $1.20 to the basic formula price; for all other delivery periods add $1.00 to the basic formula price.

(2) The price of butterfat shall be the sum obtained in (1) of this paragraph, multiplied by 18.75.

(3) The price of skim milk shall be computed by (i) multiplying the price for butterfat pursuant to (2) of this paragraph by 0.04; (ii) subtracting such amount from the sum obtained in (1) of this paragraph; (iii) dividing such net amount by 0.96; and (iv) rounding off to the nearest full cent.

(c) *Class II milk prices.* Subject to the provisions of (f) of this section, the minimum prices per hundredweight to be paid by each handler, f. o. b. his fluid milk plant, for that portion of skim milk and butterfat in producer milk received which is classified as Class II milk, shall be as follows, as computed by the market administrator:

(1) For the delivery periods of April, May, and June add $0.25 to the basic formula price; for the delivery periods of October, November, and December add $0.60 to the basic formula price; for all other delivery periods add $0.40 to the basic formula price.

(2) The price of butterfat shall be the sum obtained in (1) of this paragraph, multiplied by 18.75.

(3) The price of skim milk shall be computed by (i) multiplying the price for butterfat pursuant to (2) of this paragraph by 0.04; (ii) subtracting such amount from the sum obtained in (1) of this paragraph; (iii) dividing such net amount by 0.96; and (iv) rounding off to the nearest full cent.

By Allen Milk Company, et al.:

16. In § 974.5 (g) (1), after the first colon, insert the following:

Provided, however, If the same or similar subsidy, or other similar payment, is being made by any Federal agency in connection with any milk classified under this order, no adjustment shall be made;

17. In § 974.5 (g) (2) strike out the word "or" which appears between "Class I milk" and "Class II milk" as they appear therein the first time and insert in lieu thereof a comma and after "Class II milk" as it appears therein, the first time, insert ", Class III milk or Class IV milk."

Strike out the word "or" which appears between "Class I milk" and "Class II milk" where said terms are used the second time and insert in lieu thereof a comma and after "Class II milk" as it appears the second time insert ", Class III milk or Class IV milk."

Strike out the word "or" which appears between "Class I milk" and "Class II milk" as they appear the third time and insert in lieu thereof a comma and after "Class II milk" as it appears the third time insert ", Class III milk or Class IV milk."

f. In § 974.6; by Allen Milk Company, et al.:

18. In § 974.6 (c) (1) strike out the semicolon at the end thereof and add the following: "and except those who are not market pool handlers;".

19. Add a subparagraph to paragraph (c) of § 974.6 by striking out the word

"and" at the end of subparagraph (4) and inserting the following:

(5) Subtracting for each of the delivery periods of April, May, and June, beginning in 1948, an amount representing 25 cents per hundredweight of milk received from producers by the handlers and adding, for each of the delivery periods of October, November, and December, one-third of the aggregate amount so subtracted; and

20. Renumber subparagraph (5) as subparagraph (6) in paragraph (c) of § 974.6.

By the Central Ohio Cooperative Milk Producers, Inc.:

21. Delete from § 974.6 (c) the term "4 percent" wherever it appears and substitute therefor the term "3.5 percent."

By Dairy Branch, Production and Marketing Administration:

22. Delete from § 974.6 (a) the following proviso: "*Provided*, That if such handler received milk, skim milk, or cream from a handler who received no producer milk other than that of his own production and disposed of the skim milk or butterfat contained therein as other than in the lowest-priced use of the receiving handler, there shall be added an amount equal to the difference between (1) the value of such skim milk or butterfat at the price of such lowest-priced use and (2) the value computed in accordance with its class use."

By Allen Milk Company, Diamond Milk Products, Distelhorst Milk Company, H. L. Gabel & Son Dairy, Home Producers Milk Company, A. Keller & Son Dairy, Mar Ber Farms, Model Dairy Products, Pestel Milk Company, Timmons Dairy, Wetherell Dairy, and Young's Dairy:

23. Amend the provisions of §§ 974.6 and 974.7 so as to provide for an individual-handler pool, instead of for a market-wide pool, and make such other changes as may be required to make the entire order conform with this proposal.

g. In § 974.7; by Allen Milk Company, et al.:

24. In § 974.7 (a) after the word "each" as it appears therein the second time and before the word "handler" as it appears therein the first time, insert "market pool."

25. In paragraph (c) of § 974.7, after the word "each" as it appears the second time and before the word "handler" as it appears therein the first time, insert "market pool."

26. Add paragraph (g) to § 974.7, said paragraph (g) to read as follows:

(g) On or before the 15th day after the end of each delivery period each handler who is not a market pool handler shall make payment to each producer for the milk received from such producer, an amount computed by multiplying such milk by not less than the price per hundredweight determined by the market administrator, pursuant to paragraph (a) of § 974.6, to be the average price based upon the non-market pool handler's utilization of milk, subject to the butterfat differential computed pursuant to (f) of this section.

h. In § 974.8; by the Dairy Branch, Production and Marketing Administration:

27. Delete § 974.8 and substitute therefor the following:

§ 974.8 *Expense of Administration.* As his pro rata share of the expense incurred pursuant to § 974.2 (c) (3) each handler shall pay the market administrator on or before the 12th day after the end of each delivery period 2 cents per hundredweight, or such lesser amount as the Secretary from time to time may prescribe, with respect to all receipts of skim milk and butterfat in (1) producer milk and (2) other source milk at a fluid milk plant.

i. In § 974.9; by Dairy Branch, Production and Marketing Administration:

28. Delete § 974.9 (a) and substitute therefor the following:

§ 974.9 *Marketing services*—(a) *Deductions.* Except as set forth in (b) of this section each handler shall deduct from the payments pursuant to § 974.7 (a) 4 cents per hundredweight of milk, or such lesser deduction as the Secretary from time to time may prescribe, with respect to all producer milk received (except such handler's own production), and shall pay such deduction to the market administrator on or before the 12th day after the delivery period. Such moneys shall be used by the market administrator to check weights, samples, and tests of producer milk received by handlers and to provide producers with market information. Such services to be performed by the market administrator or by an agent engaged by and responsible to him.

j. In § 974.12; by Allen Milk Company, et al.:

29. Include a new section to be designated § 974.12 and renumber present §§ 974.12 and 974.13 so that they will be §§ 974.13 and 974.14, respectively. Said new section to read as follows:

Whenever, under the terms of this order, it is necessary to compute, express, or report quantities in terms of weight, the standard of weights of the Bureau of Dairy Industry, United States Department of Agriculture, shall be used.

By the Dairy Branch, Production and Marketing Administration:

30. Make such other changes as may be required to make the entire marketing agreement and order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and of the tentatively approved marketing agreement and order, now in effect, may be procured from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, in Room 0306, South Building, Washington 25, D. C., or may be there inspected.

[Dissolution Order 48]

K. MIKIMOTO, INC.

Whereas, by Vesting Order Number 106, dated August 17, 1943 (7 F. R. 7057, September 5, 1942), there were vested all the issued and outstanding shares of the capital stock of K. Mikimoto, Inc., a New York corporation; and

Whereas, by Supplemental Vesting Order Number 3637, dated May 15, 1944 (9 F. R. 5352, May 19, 1944), there were vested the interests of the following nationals of a designated enemy country, Japan, to wit, J. Seo, M. Kuki, S. Tanabe and I. Okada, represented on the books and records of K. Mikimoto, Inc., as accounts and notes payable, and it has been determined that certain claims in favor of J. Seo totalling $8,058.63, certain claims in favor of M. Kuki totalling $5,403.32, certain claims in favor of S. Tanabe totalling $2,758.10 and a certain claim in favor of I. Okada in the amount of $1,817.84 were thereby vested; and

Whereas, K. Mikimoto, Inc., has been substantially liquidated;

Now, under the authority of the Trading with the Enemy Act, as amended, and Executive Orders 9095, as amended, and 9788, and pursuant to law, the undersigned, after investigation:

1. Finding that the claims of all known creditors have been paid, except such claims, if any, as the Attorney General of the United States may have for monies advanced or services rendered to or on behalf of the corporation; and except claims formerly of J. Seo in the amount of $8,058.63, claims formerly of M. Kuki in the amount of $5,403.32, claims formerly of S. Tanabe in the amount of $2,758.10, and a claim formerly of I. Okada in the amount of $1,817.84, all of which have been vested as aforesaid; and

2. Having determined that it is in the national interest of the United States that said corporation be dissolved, and that its assets be distributed and a Certificate of Dissolution having been issued by the Secretary of State of the State of New York;

hereby orders, that the officers and directors of K. Mikimoto, Inc. (to wit, Francis J. Carmody, President and Director, Henry S. Sellin, Treasurer and Director, Stanley B. Reid, Secretary and Director, Francis J. Foley, Director, Martin S. Watts, Director, and Robert Kramer, Director, and their successors or any of them), continue the proceedings for the dissolution of K. Mikimoto, Inc.; and further orders, that the said officers and directors wind up the affairs of the corporation and distribute the assets thereof coming into their possession as follows:

(a) They shall first pay the current expenses and reasonable and necessary charges of winding up the affairs of said corporation and the dissolution thereof; and

(b) They shall then pay all known Federal, state and local taxes and fees owed by or accruing against the said corporation; and

(c) They shall then pay over, transfer, assign and deliver to the Attorney General of the United States all of the funds and property, if any, remaining in their hands after the payments as aforesaid, the same to be applied by him, first, in satisfaction of such claims, if any, as the Attorney General of the United States may have for monies advanced or services rendered to or on behalf of the corporation, second, in satisfaction of the claims of the Attorney General of the United States in the principal amounts of $8,058.63, $5,403.32, $2,758.10, and $1,817.84 as hereinbefore described, and third, as a liquidating distribution of assets to the Attorney General of the United States as holder of all the issued and outstanding stock of the corporation; and

further orders, that nothing herein set forth shall be construed as prejudicing the rights, under the Trading with the Enemy Act, as amended, of any person who may have a claim against said corporation to file such claim with the Attorney General of the United States against any funds or property received by the Attorney General of the United States hereunder: *Provided, however,* That nothing herein contained shall be construed as creating additional rights in such person: *Provided, further,* That any such claim against said corporation shall be filed with or presented to the Attorney General of the United States within the time and in the form and manner prescribed for such claims by the Trading with the Enemy Act, as amended, and applicable regulations and orders issued pursuant thereto; and further orders, that all actions taken and acts done by the said officers and directors of K. Mikimoto, Inc., pursuant to this order and the directions contained herein shall be deemed to have been taken and done in reliance on and pursuant to paragraph numbered (2) of subdivision (b) of section 5 of the Trading with the Enemy Act, as amended, and the acquittance and exculpation provided therein.

Executed at Washington, D. C., this 19th day of February 1947.

[Dissolution Order 49]

STEFFENS, JONES & CO., INC.

Whereas, by Vesting Order Number 214, dated October 3, 1942 (7 F. R. 9056, November 6, 1942), amended December 29, 1942 (8 F. R. 200, January 5, 1943), there were vested all the issued and outstanding shares of the capital stock of Steffens, Jones & Co., Inc., a New York corporation; and

Whereas, by said Vesting Order No. 426, there were also vested all the right, title, interest and claim of Dr. Robert F. Lachmann, Hamburg, Germany, and Julius Lachmann, Hamburg, Germany, in and to all indebtedness owing to them by Steffens, Jones & Co., Inc., and it has been ascertained that certain claims in favor of Dr. Robert Lachmann and Julius Lachmann aggregating $48,736.74 were thereby vested; and

Whereas, by Subordination Order No. 3, executed July 12, 1943, the officers and directors of Steffens, Jones & Co., Inc., were directed to subordinate the vested claims in the name of Dr. Robert F. Lachmann and Julius Lachmann to the claims of other creditors of, and claimants against Steffens, Jones & Co., Inc.; and

Whereas, Steffens, Jones & Co., Inc., has been substantially liquidated;

Now, under the authority of the Trading with the Enemy Act, as amended, and Executive Orders 9095, as amended, and 9788, and pursuant to law, the undersigned, after investigation:

1. Finding that the claims of known creditors have been paid, except such claim, if any, as the Attorney General of the United States may have for money advanced or services rendered to or on behalf of the corporation; and except a balance still unpaid of the claims formerly of Dr. Robert Lachmann and of Julius Lachmann which have been vested and subordinated as aforesaid; and

2. Having determined that it is in the national interest of the United States that said corporation be dissolved, and that its assets be distributed, and a Certificate of Dissolution having accordingly been filed with the Secretary of State of the State of New York;

hereby orders, that the officers and directors of Steffens, Jones & Co., Inc. (to wit, Stanley B. Reid, President and Director, Robert Kramer, Secretary and Director, and Edward W. Hardy, Treasurer and Director, and their successors, or any of them), continue the proceedings for the dissolution of Steffens, Jones & Co., Inc.; and further orders, that the said officers and directors wind up the affairs of the corporation and distribute the assets thereof coming into their possession as follows:

(a) They shall first pay the current expenses and reasonable and necessary charges of winding up the affairs of said corporation and the dissolution thereof; and

(b) They shall then pay all known Federal, state, and local taxes and fees owed by or accruing against the said corporation; and

(c) They shall then pay over, transfer, assign and deliver to the Attorney General of the United States all of the funds and property, if any, remaining in their hands after the payments as aforesaid, the same to be applied, first, in satisfaction of the unpaid balance of the vested claims described above and in satisfaction of such claims, if any, as he may have for monies advanced or services rendered to or on behalf of the corporation, and second, as a liquidating distribution of assets to the Attorney General of the United States as holder of all the issued and outstanding stock of the corporation; and

further orders, that nothing herein set forth shall be construed as prejudicing the rights, under the Trading with the Enemy Act, as amended, of any person who may have a claim against said corporation to file such claim with the Attorney General of the United States against any funds or property received by the Attorney General of the United States hereunder: *Provided, however,* That nothing herein contained shall be construed as creating additional rights in such person: *Provided further,* That any such claim against said corporation shall be filed with or presented to the Attorney General of the United States within the time and in the form and manner prescribed for such claims by the Trading with the Enemy Act, as amended, and applicable regulations and orders issued pursuant thereto; and further orders, that all actions taken and acts done by the said officers and directors of Steffens, Jones & Co., Inc., pursuant to this order and the directions contained herein shall be deemed to have been taken and done in reliance on and pursuant to paragraph numbered (2) of subdivision (b) of section 5 of the Trading with the Enemy Act, as amended, and the acquittance and exculpation provided therein; and further orders, that to the extent that the provisions of this order are inconsistent with the provisions of Subordination Order No. 3 executed July 12, 1943, the provisions of this Order shall govern.

Resale Commission division	15	19
Sheep:		
Rail	9	13
Direct	4½	6½
Resale Commission division	9	13
Horses: Rail	40	50

The proposed increases, if granted, are calculated to result in additional gross revenue to respondent and, therefore, public notice should be given of the filing of such petition in order that all interested persons may have an opportunity to be heard in the matter.

Now, therefore, notice is hereby given to the public and to all interested persons of the filing of such petition for modification.

All interested persons who desire to be heard upon the matter requested in said petition for modification shall notify the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., within 15 days from the date of the publication of this notice.

Copies hereof shall be served upon the respondent by registered mail or in person.

Done at Washington, D. C., this 21st day of February 1947.

ALASKA

NOTICE FOR FILING OBJECTIONS TO PUBLIC LAND ORDER 353,[1] WITHDRAWING PUBLIC LANDS FOR THE PROTECTION OF THE WATER SUPPLY FOR THE CITY OF FAIRBANKS, ALASKA

Notice is hereby given that for a period of 30 days from the date of publication of this notice, persons having cause to object to the terms of Public Land Order 353, of February 18, 1947, withdrawing the E½NW¼, NE¼SW¼ of sec. 26, T. 1 S., R. 1 W., F. M., Alaska, for the protection of the water supply for the City of Fairbanks, Alaska, may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C.

In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent and extent. Whether or not a hearing is held, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

WARNER W. GARDNER,
Assistant Secretary of the Interior.

When cattle and/or calves are purchased for immediate slaughter for outside packers by their own buyers, market agencies merely clearing such transactions, $6.25 per car.

SECTION G

BUYING CHARGES

Other Hogs

For purchasing hogs other than stockers and feeders $12 per single deck and $15 per double deck car.

For purchasing each 120 head or fraction thereof of hogs on one order to be driven or hauled out, the rates to be determined as follows: 25 cents per head, up to and including 60 head, with a maximum charge of $12; and 25 cents per additional head above 60, with a maximum of $15, up to and including each 120 head.

The proposed modifications set out above, if granted, would have the effect of increasing the revenues accruing to respondents, and, it appears that public notice should be given to all interested persons of the request of respondents so as to afford all interested persons, including patrons of respondents, an opportunity to be heard in the matter, should they so desire.

Therefore, notice is hereby given to the public and to all interested persons of the filing of said petition for modification.

All interested persons who desire to be heard upon the matter requested in said petition for modification shall notify the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., within fifteen (15) days from the date of the publication of this notice.

Copies hereof shall be served upon the respondents.

Done at Washington, D. C., this 21st day of February 1947.

SIOUX CITY STOCK YARDS CO.

NOTICE OF PETITION FOR MODIFICATION

Pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), the Secretary of Agriculture on December 13, 1934, issued an order prescribing reasonable rates and charges for stockyard services rendered by the respondent. Upon petitions for modification filed by respondent, this order has been modified from time to time.

By petition filed on February 17, 1947, the respondent has requested certain increases in its rates and charges, as follows:

Yardage	Present rates (per head)	Proposed rates (per head)
	Cents	*Cents*
Cattle:		
Rail	42	50
Truck	49	50
Direct	21	25
Resale Commission division	42	50
Calves (400 pounds or under):		
Rail	30	35
Direct	15	17½
Resale Commission division	30	35
Hogs:		
Rail	15	19

Direct	7½	9½
Resale Commission division	15	19
Sheep:		
Rail	9	13
Direct	4½	6½
Resale Commission division	9	13
Horses: Rail	40	50

The proposed increases, if granted, are calculated to result in additional gross revenue to respondent and, therefore, public notice should be given of the filing of such petition in order that all interested persons may have an opportunity to be heard in the matter.

Now, therefore, notice is hereby given to the public and to all interested persons of the filing of such petition for modification.

All interested persons who desire to be heard upon the matter requested in said petition for modification shall notify the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., within 15 days from the date of the publication of this notice.

Copies hereof shall be served upon the respondent by registered mail or in person.

Done at Washington, D. C., this 21st day of February 1947.

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

PART 904—MILK IN GREATER BOSTON, MASS., MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937 (7 U. S. C., 601 et seq.), hereinafter referred to as the "act," and of the order, as amended, regulating the handling of milk in the Greater Boston, Massachusetts, marketing area, hereinafter referred to as the "order," it is hereby found and determined that:

1. Subdivisions (i), (ii), and (iii) of § 904.6 (a) (1) of the order and the entire table contained in subdivision (iv) of said section, with the exception of the words "Class I Price (dollars per cwt.)" and the figure or price "4.77," do not tend to effectuate the declared policy of the act with respect to all milk subject to the provisions of the order during the month of March 1947; and

2. It is impracticable and contrary to the public interest to comply with the specific notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Public Law 404, 79th Cong., 60 Stat. 237) in that the time intervening between the date when the conditions necessitating the foregoing finding became apparent and March 1, 1947 is insufficient to permit compliance with such specific notice, public rule making procedure, and effective date requirements, and in that any delay in the effective date of this action beyond March 1, 1947, will seriously jeopardize the orderly marketing of milk produced for the Greater Boston, Massachusetts milk marketing area.

It is therefore ordered, That subdivisions (i), (ii), and (iii) of § 904.6 (a) (1) of the order and the entire table contained in subdivision (iv) of said section, with the exception of the words "Class I Price (dollars per cwt.)" and the figure or price "4.77," be and they hereby are suspended with respect to all milk subject to the provisions of the order during the month of March 1947.

PART 934—MILK IN LOWELL-LAWRENCE, MASS., MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937 (7 U. S. C., 601 et seq.), hereinafter referred to as the "act," and of the order, as amended, regulating the handling of milk in the Lowell-Lawrence, Massachusetts, milk marketing area, hereinafter referred to as the "order," it is hereby found and determined that:

1. Subdivisions (i), (ii), and (iii) of § 934.6 (a) (1) of the order and the entire table contained subdivision (iv) of said section, with the exception of the words "Class I Price (dollars per cwt.)" and the figure or price "5.21," do not tend to effectuate the declared policy of the act with respect to all milk subject to the provisions of the order during the month of March 1947, and

2. It is impracticable and contrary to the public interest to comply with the specific notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Public Law 404, 79th Cong., 60 Stat. 237), in that the time intervening between the date when the conditions necessitating the foregoing finding became apparent and March 1, 1947 is insufficient to permit compliance with such specific notice, public rule making procedure, and effective date requirements, and in that any delay in the effective date of this action beyond March 1, 1947, will seriously jeopardize the orderly marketing of milk produced for the Lowell-Lawrence, Massachusetts, milk marketing area.

It is therefore ordered, That subdivisions (i), (ii), and (iii) of § 934.6 (a) (1) of the order and the entire table contained in subdivision (iv) of said section, with the exception of the words "Class I Price (dollars per cwt.)" and the figure or price "5.21," be and they hereby are sus-

PART 927—MILK IN NEW YORK METROPOLITAN MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937 (7 U. S. C. 601 et seq.), hereinafter referred to as the "act," and of the order, as amended, regulating the handling of milk in the New York metropolitan milk marketing area, hereinafter referred to as the "order," it is hereby found and determined that:

1. The entire table contained in § 927.5 (a) (1) of the order, with the exception of the words "Dollars per cwt." and the figure or price "4.58," does not tend to effectuate the declared policy of the act with respect to all milk subject to the provisions of the order during the month of March 1947; and

2. It is impracticable and contrary to the public interest to comply with the specific notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 60 Stat. 237) in that the time intervening between the date when the conditions necessitating the foregoing finding became apparent and March 1, 1947 is insufficient to permit compliance with such specific notice, public rule making procedure, and effective date requirements, and in that any delay in the effective date of this action beyond March 1, 1947, will seriously jeopardize the orderly marketing of milk produced for the New York metropolitan milk marketing area.

It is therefore ordered, That the entire table contained in § 927.5 (a) (1) of the order, with the exception of the words "Dollars per cwt." and the figure or price "4.58," be and it hereby is suspended with respect to all milk subject to the provisions of the order during the month of March 1947.

(48 Stat. 31, 670, 675; 49 Stat. 750, 50 Stat. 246; 7 U. S. C. 601 et seq.)

Secretary of Agriculture.

PART 947—MILK IN FALL RIVER, MASS., MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937 (7 U. S. C., 601 et seq.), hereinafter referred to as the "act," and of the order, as amended, regulating the handling of milk in the Fall River, Massachusetts, milk marketing area, hereinafter referred to as the "order," it is hereby found and determined that:

1. Subparagraphs (1), (2), and (3) of § 947.4 (a) of the order and the entire table contained in subparagraph (4) of said section, with the exception of the words "Class I price (dollars per cwt.)" and the figure or price "5.52," do not tend to effectuate the declared policy of the act with respect to all milk subject to the provisions of the order during the month of March 1947; and

2. It is impracticable and contrary to the public interest to comply with the specific notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Public Law 404, 79th Cong., 60 Stat. 237) in that the time intervening between the date when the conditions necessitating the foregoing finding became apparent and March 1, 1947 is insufficient to permit compliance with such specific notice, public rule making procedure, and effective date requirements, and in that any delay in the effective date of this action beyond March 1, 1947, will seriously jeopardize the orderly marketing of milk produced for the Fall River, Massachusetts, milk marketing area.

It is therefore ordered, That subparagraphs (1), (2), and (3) of § 947.4 (a) of the order and the entire table contained in subparagraph (4) of said section, with the exception of the words "Class I price (dollars per cwt.)" and the figure or price "5.52," be and they hereby are suspended with respect to all milk subject to the provisions of the order during the month of March 1947.

(48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U. S. C. 601 et seq.)

PART 2—ORGANIZATION, FUNCTIONS AND PROCEDURES OF AGENCIES DEALING WITH THE PUBLIC

TRANSPORTATION CORPS

Pursuant to the provisions of section 3 (a) (1) and (2) of the Administrative Procedure Act of June 11, 1946, paragraph (b) of § 2.151 (11 F. R. 177A-791, 14012, 14509, 12 F. R. 219) is amended as follows:

Change the headnotes of paragraphs (b) (6) and (b) (9); delete paragraph (b) (19), and where the word "Group" appears in the headnotes of the subparagraphs of § 2.151 (b) substitute the word "Division" as follows:

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Regs., Amdt. 20-5]

PART 20—PILOT CERTIFICATES

AERONAUTICAL KNOWLEDGE

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 18th day of February 1947.

The repeal of § 43.52 (b) of Part 43 of the Civil Air Regulations has made the reference to this section contained in § 20.24 of Part 20 incorrect.

The Board finds that an amendment to § 20.24 is required to remove this inconsistency and that the notice and procedures provided for in paragraphs (a) and (b) of section of the Administrative Procedure Act are unnecessary.

Now, therefore: Effective April 1, 1947, § 20.24 of the Civil Air Regulations is amended to read as follows:

§ 20.24 *Aeronautical knowledge.* Applicant for a powered aircraft or glider rating shall have passed the written examination prescribed in § 43.51 (a) of this chapter within the preceding 24 calendar months. (52 Stat. 984, 1007, 49 U. S. C. 425, 551)

By the Civil Aeronautics Board.

Secretary.

PART 43—GENERAL OPERATION RULES

STUDENT PILOT REQUIREMENTS FOR FIRST SOLO FLIGHT

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 18th day of February 1947.

Part 43 of the Civil Air Regulations now requires that a student pilot pass a written examination on pertinent provisions of Part 43 and those provisions of Part 60 of the Civil Air Regulations dealing with contact flight rules prior to engaging in solo flight outside of a local flying area designated by his instructor.

The Civil Aeronautics Board finds that requiring a student pilot to pass such an examination prior to engaging in any solo flight will increase safety in flying; that a change in the Civil Air Regulations requiring such an examination prior to first solo flight is a minor change, since its only effect is to advance the date for complying with an existing examination requirement; and that the public notice and procedures provided for in paragraphs (a) and (b) of section 4 of the Administrative Procedure Act are unnecessary.

Now, therefore: Effective April 1, 1947, Part 43 of the Civil Regulations is amended as follows:

1. By amending § 43.51 to read as follows:

§ 43.51 *Requirements for first solo.* A student pilot shall not operate an aircraft in solo flight until:

(a) He has passed a written examination on pertinent provisions of Part 43 and those of Part 60 dealing with contact flight rules.

(b) He has been found competent by a flight instructor to make such flight and authority therefor has been endorsed by such instructor on the student pilot certificate, and

(c) He has been given instruction in recovery from stalls and spins, if such solo flight is made in a spinnable aircraft.

2. By repealing paragraph (b) of § 43.52 *Flight area limitations.*

(52 Stat. 984, 1007; 49 U. S. C. 425, 551)

By the Civil Aeronautics Board.

TITLE 24—HOUSING CREDIT

Chapter VI—Federal Public Housing Authority

PART 603—FINAL DELEGATIONS OF AUTHORITY

DELEGATIONS TO REGIONAL OFFICE OFFICIALS

Section 603.2 is hereby amended, effective upon publication in the FEDERAL REGISTER, by adding paragraph (m) thereto as follows:

§ 603.2 *Delegations to regional office officials.* • • •

(m) *Delegation of authority to the Special Assistant (Veterans' Emergency Housing Program) to the Director of Region II.* The Special Assistant (Veterans' Emergency Housing Program) to the Director of Region II is delegated the authority to exercise those powers, duties and responsibilities set forth in paragraph (d) (3) of this section.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 146—CERTIFICATION OF BATCHES OF PENICILLIN-CONTAINING DRUGS

PACKAGING OF PENICILLIN OINTMENT

By virtue of authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, as amended by 59 Stat. 463; 21 U. S. C., Sup. 357), the regulations for the certification of batches of penicillin-containing drugs (11 F. R. 12136), as amended, are hereby further amended by deleting the word "one" in line eight of paragraph (b) of § 146.26 *Penicillin ointment*, and substituting the word "two" therefor.

This order, which provides for a change in the packaging requirements of penicillin ointment, shall become effective upon publication in the FEDERAL REGISTER since both the public and the penicillin industry will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order and would be contrary to the public interest, and I so find, since it was drawn in collaboration with interested members of the affected industry, and since it would be against public interest to delay the marketing of penicillin ointment under the revised packaging requirements.

(Sec. 507, 52 Stat. 1040, as amended, 59 Stat. 463; 21 U. S. C., Sup. 357)

Dated: February 21, 1947.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 13, Direction 26]

DISPOSAL OF LIQUEFIED PETROLEUM GAS TANK CARS BY WAR ASSETS ADMINISTRATION

The following direction is issued pursuant to Priorities Regulation 13:

(a) *Purpose of this direction.* A critical shortage has developed in pressure tank cars suitable for the transportation of liquefied petroleum gas. It is imperative to maintain as many cars as possible in the transportation of such gas on which the public in many areas of the country is dependent for heating and cooking. In addition, the expected production of new liquefied petroleum gas tank cars has not been reached. 423 of these cars, ICC type 105-A-300 W, owned by the Army have been or are about to be declared surplus to its needs. This direction controls the disposal of these surplus tank cars by the War Assets Administration in accordance with dispositions determined by the Office of Defense Transportation to be in the best public interest.

(b) *Disposal of certain pressure tank cars by War Assets Administration.* The War Assets Administration is hereby directed to dispose of the liquefied petroleum gas tank cars listed on Schedule A below, subject to financial arrangements satisfactory to it, only to the persons and in the quantities as designated in writing by the Office of Defense Transportation.

(c) *Expiration date.* This direction expires on March 31, 1947.

Issued this 27th day of February 1947.

TITLE 34—NAVY

Chapter I—Department of the Navy

PART 26—ORGANIZATION AND FUNCTIONS OF THE NAVAL ESTABLISHMENT

MISCELLANEOUS AMENDMENTS

The following changes are authorized to amend the regulations relating to the organization and functions of the naval establishment (11 F. R. 177A-159):

1. In § 26.12a (a) at the end of the last sentence of the second paragraph delete "34 USC 621."

2. In § 26.12a (l) in the last sentence, change the comma after the word "files" to a period and delete "and for the issuance of Savings Bonds."

3. In § 26.12a (m) (2) at the end of the first sentence, change the period to a comma and add "and the issuance of Savings Bonds."

4. In § 26.18 (a) add the following: "The Fleet Marine Force is a force of combined arms comprising land, air, and service elements of the U. S. Marine Corps which is integral with the U. S. Fleet. It has the status of a type command and is organized, trained, and equipped for the seizure or defense of advance naval bases or for the conduct of limited amphibious or land operations essential to the prosecution of a naval campaign. This Force is presently divided into Fleet Marine Force, Pacific, under the command of Commander in Chief, Pacific Fleet, and the Fleet Marine Force, Atlantic, under command of the Commander in Chief, Atlantic Fleet."

TITLE 41—PUBLIC CONTRACTS

Chapter I—Bureau of Federal Supply, Department of the Treasury

PART 5—ORGANIZATION AND PROCEDURES

MISCELLANEOUS AMENDMENTS

The regulations in this part (11 F. R. 177A-98) are hereby amended as follows:

1. In § 5.1 *Central organization* paragraphs (c) and (h) are amended, and a sentence is added at the end of paragraph (e), as follows:

§ 5.1 *Central organization.* • • •

(c) *Stores Branch.* Arranges for the receipt, storage and issue of supplies, materials and equipment for use by the Executive agencies in Washington, D. C., and the receipt, warehousing and issue of supplies, materials and equipment for use by Executive agencies in the areas served by the Supply Centers at the locations hereafter referred to; stores and issues solid and liquid fuels for use by the Federal Government and the District of Columbia Government in Washington, D. C., and vicinity; operates a furniture repair shop, an automobile repair shop and a typewriter repair shop.

• • • • • •

(e) *Standards Branch.* • • • Inspects supplies, materials and equipment received by the Bureau and investigates complaints with respect to purchases by Executive agencies from Bureau stock or under Bureau contracts for compliance with specifications and contract conditions.

• • • • • •

(h) *Treasury Department Price Adjustment Board.* In accordance with regulations and policies prescribed by the War Contracts Price Adjustment Board, the Treasury Department Price Adjustment Board, headed by a chairman and consisting of four members, three of whom represent the Treasury Department and one of whom represents the Office of Temporary Controls, renegotiates under the authority of the Renegotiation Act (50 U. S. C. App., Sup. 1191) such war contractors holding contracts from the Bureau of Federal Supply, War and Navy Departments, U. S. Maritime Commission, War Shipping Administration and Reconstruction Finance Corporation as are assigned to it by the War Contracts Price Adjustment Board and formulates suitable recommendations for the final approval of the Director, Bureau of Federal Supply.

2. Section 5.2 *Field organization* is revised to read as follows:

§ 5.2 *Field organization.* The field organization is composed of several Supply Centers, some with branches, each headed by a Manager. Each office is responsible for effectively carrying out the activities and responsibilities of the Bureau within the areas assigned to it, following for these purposes the directives, policies and procedures established by the Washington Office. Field office activities include procuring, inspecting, storing, issuing and delivering supplies, materials and equipment to Executive agencies within the assigned area and, in addition, acting as liaison with such agencies to improve and develop centralized procurement and distribution within such assigned areas; inspecting, expediting, storing and transporting supplies, materials and equipment purchased by the Washington Office for special procurement programs; performing administrative functions incident to its field activities, including maintenance of accounts, preparation and certification of vouchers, auditing of invoices and other documents, and performing necessary service functions required in its activities.

(a) *Supply Centers; headquarters and areas.* The headquarters and areas served, as defined in paragraph (b) of this section, of the Supply Centers are as follows:

(1) New York, New York: Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont, New Jersey, New York and Pennsylvania. A Branch Supply Center is located at Boston, Massachusetts.

(2) Cleveland, Ohio: Indiana, Kentucky, Ohio and West Virginia.

(3) Chicago, Illinois: Illinois, Michigan, Minnesota, North Dakota, South Dakota and Wisconsin.

(4) Atlanta, Georgia: Alabama, Florida, Georgia, Mississippi, South Carolina and Tennessee.

(5) Fort Worth, Texas: Arkansas, Louisiana, Oklahoma and Texas.

(6) Kansas City, Missouri: Iowa, Kansas, Missouri and Nebraska.

(7) Denver, Colorado: Colorado, New Mexico, Utah and Wyoming.

(8) San Francisco, California: Arizona, California, Nevada, Hawaii and the Philippine Islands. A Branch Supply Center is located at Los Angeles, California.

(9) Seattle, Washington: Idaho, Montana, Oregon, Washington and Alaska.

(10) Washington, D. C. Such functions as are ordinarily performed by a field office are performed by the Washington Office for Delaware, Maryland, North Carolina and Virginia and the District of Columbia, Puerto Rico and the Virgin Islands.

(b) *"Areas served" defined.* Areas served by Supply Centers and the Washington Office in its field activities are the geographical areas specified as well as areas within the most economical transportation cost from each such office. The latter areas are set out in the Bureau of Federal Supply Stock Catalog, copies of which are available at all offices.

3. In § 5.3 *Delegations of final authority*, paragraphs (a) (2), (b), the first sentence of (e), and paragraph (j) are amended to read as follows:

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter C—National Wildlife Refuges; Individual Regulations

PART 26—EAST CENTRAL REGION NATIONAL WILDLIFE REFUGES

KENTUCKY WOODLANDS NATIONAL WILDLIFE REFUGE, KENTUCKY; FISHING

Section 26.503 is revised to read as follows:

§ 26.503 *Kentucky Woodlands National Wildlife Refuge, Kentucky; fishing.* Fishing in accordance with the State laws of Kentucky is permitted in all waters within the Kentucky Woodlands National Wildlife Refuge, in accordance with the following provisions:

Entry on and use of the refuge for any purpose is governed by the regulations of the Secretary dated December 19, 1940 (5 F. R. 5284), as amended, and strict compliance therewith is required. All fishermen must comply with all State fishing laws and regulations and must have on their person and exhibit at the request of any authorized Federal or State officer whatever license is required by such laws and regulations, which license shall serve as a federal permit for non-commercial or sport fishing in any refuge waters and for commercial fishing in Kentucky Lake only. A permit issued by the officer in charge is required for commercial fishing in all waters of the refuge except Kentucky Lake.

The use of motorboats, except those powered by electric motors, is prohibited in all refuge waters except Kentucky Lake.

During periods of waterfowl concentrations, or other wildlife concentrations fishing may be limited either to bank fishing, to boat fishing, or may be closed on such areas of the refuge as, in the judgment of the officer in charge of such limitations or restrictions are necessary in order to provide adequate protection for wildlife. Such limitations or restrictions are to be clearly designated by posting and shall be available at the refuge headquarters. (Sec. 84, 35 Stat. 1104 as amended; 18 U. S. C. 145)

Dated: February 19, 1947.

NOTICES

FEDERAL POWER COMMISSION

[Docket No. G-859]

MEMPHIS NATURAL GAS CO.

NOTICE OF APPLICATION

FEBRUARY 20, 1947.

Notice is hereby given that on February 7, 1947, an application was filed with the Federal Power Commission by Memphis Natural Gas Company ("Applicant"), a Delaware corporation with its principal place of business at Memphis, Tennessee, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of certain facilities hereinafter described.

The present natural-gas pipeline system of Applicant extends from the Lisbon and Monroe fields in Louisiana across a portion of Arkansas and Mississippi to Memphis, Tennessee, and other points in western Tennessee.

The facilities which Applicant seeks authorization to construct and operate are described as follows:

Part A. A 24-inch natural-gas transmission pipeline commencing at a point in the East Texas Gas Fields and extending in a general northeasterly direction for a distance of approximately 669 miles to a point of connection with the natural-gas system of Louisville Gas and Electric Company, southeast of Louisville, Kentucky. The proposed pipeline will cross the Mississippi River near Memphis, where a connection will be made with Applicant's present system. Other connections will be made in West Tennessee with Applicant's present system at points of crossing. A connection will also be made with the main system of Kentucky Natural Gas Corporation ("Kentucky"), an affiliate of Applicant, at a point in Hopkins County, Kentucky, near Madisonville.

Part B. (a) A 24-inch natural-gas transmission pipeline extending from the terminus of the "Part A" facilities at Louisville, in a general northeasterly direction, for a distance of approximately

290 miles, to a point near Clarington, Ohio.

(b) Three compressor stations located along the route of the proposed Part A and Part B pipe lines, at respective points in Arkansas, Mississippi, and Kentucky, having a total installed capacity of 20,000 horsepower.

Part C. (a) A 24-inch natural-gas transmission pipe line extending from the Ohio terminus of the Part B facilities in a general northeasterly direction, for a distance of approximately 57 miles to a point in Greene County, Pennsylvania, approximately 25 miles south of Pittsburgh.

(b) Additional compressor stations and facilities located along the route of the proposed Part A, Part B, and Part C pipe lines at respective points in Louisiana, Arkansas, Mississippi, Tennessee, Kentucky, and Ohio, having 30,000 horsepower of additional compressor capacity.

Applicant proposes to begin construction of the Part A facilities as soon after the issuance of the requested certificate as materials can be secured; to complete the construction of such facilities during 1949; upon completion of the Part A facilities, to commence work on the Part B and Part C facilities; and, if possible, to construct the latter facilities within one year thereafter.

The application recites that the Part A facilities are intended to deliver 100,000 Mcf. of gas per day initially; that the Part A and Part 5 facilities when completed will have a delivery capacity of 220,000 Mcf. of gas per day; that the Part A, Part B and Part C facilities when completed will have a delivery capacity of 295,000 Mcf. of gas per day. Applicant proposes that a portion of the gas to be delivered by such facilities shall be used to meet requirements of the present customers of Applicant and Kentucky; and that the remainder thereof shall be delivered at Louisville, to systems in the Appalachian area, and at other communities along the route of the proposed line.

The application recites that Applicant's present system is now delivering its full capacity; that such capacity is not adequate for the pressing and rapidly growing needs of the Memphis Light, Gas and Water Division; and that Applicant, even for its present system, is faced with the necessity of constructing an additional loop to its present pipelines to Monroe Field, or else building a new line directly from Memphis to the East Texas Gas Fields.

The application further recites that by a pending application before the Commission "in the matter of Memphis Natural Gas Company and Kentucky Natural Gas Corporation," Docket No. G-855, Applicant seeks authorization for the corporate and organization integration of Applicant and Kentucky, and that the application in the instant matter seeks authorization for the physical interconnection of the two systems; that the present major sources of supply to the system of Kentucky are the Panhandle Eastern Pipe Line Company system on the north thereof, and the Tennessee Gas and Transmission Company system on the south; that the growing load on the Kentucky system makes it desirable and necessary that Kentucky have an independent and direct line to the source of supply under its own control; that the extension of the proposed line north and east from the connection with the Kentucky system is in response to demands for an additional gas supply for Louisville and for the Appalachian markets; that Louisville now receives its natural-gas requirements from Kentucky-West Virginia Gas Company and Tennessee Gas and Transmission Company; that the estimated requirements of Louisville exceed the amount it can now or may expect to receive from all present sources; that the proposed line is planned to supplement the present and proposed outside supply of gas in the States of Ohio, Pennsylvania and New York; that gas is being offered for sale and connections are proposed to be made to gas systems along the line close to the major markets in the Appalachian area; and that there are indications that the available capacity of the proposed line in such area will be fully utilized.

It is further recited in the application that agreements covering an assured supply of natural gas for the program proposed will be presented to the Commission at or before the hearing upon the application.

It appears from the application that the estimated total over-all cost of the facilities proposed to be built, including materials and supplies, is as follows: Part A, $32,300,000; Part B, $20,000,000; Part C, $11,000,000.

Any interested State commission is requested to notify the Federal Power Commission whether the application shall be considered under the cooperative provisions of Rule 37 of the Commission's rules of practice and procedure and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and further to specify whether it desires a conference, the creation of a board, or a concurrent hearing as defined in said rule and the reasons for such request.

The application of Memphis is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of the rules of practice and procedure (effective September 11, 1946), and shall set out clearly and concisely the facts from which the nature of the petitioner's or protestant's alleged right or interest can be determined. Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contentions of the petitioner in the proceeding, so as to advise the parties and the Commission as to the issues of fact or law to be raised or controverted, by admitting, denying, or explaining specifically and in detail, each material allegation of fact or law asserted with respect to the application.

Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-1394]

FEDERAL WATER AND GAS CORP. AND NEW YORK WATER SERVICE CORP.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania on the 21st day of February A. D. 1947.

Notice is hereby given that an application and declaration, and an amendment thereto, have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Federal Water and Gas Corporation ("Federal"), a registered holding company, and its subsidiary company, New York Water Service Corporation ("New York"). The applicant-declarant designates sections 10 and 12 as applicable to the proposed transaction.

Notice is further given that any interested person may, not later than February 28, 1947, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application and declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such application and declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commision may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said application and declaration which is on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized below:

Federal proposes to sell to New York for the consideration of $1,000 in cash a note in the unpaid principal amount of $227,960 issued by South Bay Consolidated Water Company, Inc. ("South Bay"), a direct subsidiary of New York. Interest on said note is subordinate to the payment of dividends on the preferred stock of South Bay; interest arrears on said note amounted to $209,425 on September 30, 1946, and preferred stock dividend arrears amounted to $916,461.

CONSOLIDATED ELECTRIC AND GAS CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 21st day of February A. D. 1947.

Notice is hereby given that an application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Consolidated Electric and Gas Company ("Consolidated"), a registered holding company and a subsidiary of Central Public Utility Corporation, also a registered holding company.

All interested persons are referred to said document, which is on file in the office of the Commission, for a statement of the transactions therein proposed, which may be summarized as follows:

Consolidated proposes to sell at competitive bidding, pursuant to Rule U-50, the presently authorized and outstanding Capital Stock of Maine Public Service Company ("Maine"), consisting of 150,000 shares of common stock, par value $10 per share, all of which, with the exception of five directors' qualifying shares, are owned by Consolidated. All of said shares have been pledged by Consolidated. All of said shares have been pledged by Consolidated under a Bank Loan Agreement between Consolidated and certain banks dated as of November 15, 1945, securing notes of Consolidated dated November 29, 1945, and due November 29, 1948. The proceeds of the sale of Maine's stock will be deposited under the above mentioned Bank Loan Agreement in connection with the release of the Capital Stock of Maine from pledge thereunder, and will be applied towards payment of the principal of said notes of Consolidated.

Consolidated has designated, as applicable to the proposed sale, section 12 (d) of the act and Rules U-44 and U-50 promulgated thereunder. Consolidated has requested that the Commission's order herein include recitals and specifications conforming to the requirements of section 371 and 1808 of the Internal Revenue Code, as amended.

It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that a hearing be held with respect to said application-declaration, and that said application-declaration should not be granted or permitted to become effective except pursuant to further order of this Commission;

It is ordered, That a hearing on said application-declaration under the applicable provisions of the act and rules of the Commission thereunder be held on March 7, 1947, at 11:00 a. m., e. s. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On that date, the hearing room clerk in Room 318 will advise as to the room in which the hearing will be held.

It is further ordered, That William W. Swift or any other officer or officers of this Commission designated by it for that purpose shall preside at the hearing. Each officer so designated to preside at the hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues presented by said application-declaration, particular attention be directed at the hearing to the following matters and questions:

(1) Whether the proposed sale and the terms and conditions thereof are appropriate in the public interest and the interests of investors and consumers;

(2) Whether the accounting entries proposed to be made by Consolidated in connection with the proposed transactions are consistent with sound accounting principles and conform to the standards of the act and the rules promulgated thereunder;

(3) Whether the fees, commissions and other remuneration to be paid directly or indirectly in connection with the proposed transactions are reasonable; and

(4) Generally, whether the proposed transactions comply with all of the applicable provisions and requirements of the act and rules and regulations promulgated thereunder, and whether it is necessary or appropriate in the public interest or for the protection of investors and consumers, or to prevent the circumvention of any provisions of the act or of the rules, regulations or orders thereunder to impose terms or conditions in connection with any of the proposed transactions.

It is further ordered, That notice of said hearing is hereby given to Consolidated and to all interested persons, said notice to be given to Consolidated by registered mail and to all other persons by a general release of this Commission which shall be distributed to the press and mailed to all persons on our mailing list for releases issued under the Public Utility Holding Company Act of 1935, and by publication of a copy of this notice and order in the FEDERAL REGISTER.

It is requested that any person desiring to be heard in the proceedings shall file with the Secretary of the Commission on or before March 3, 1947, an appropriate request or application to be heard, as provided by Rule XVII of the Commission's rules of practice.

By the Commission.

INTERSTATE POWER CO.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 21st day of February A. D. 1947.

Notice is hereby given that a declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Interstate Power Company ("Interstate"), a registered holding company, and a subsidiary of Ogden Corporation, a registered holding company. Declarant designates sections 6 and 7 of the act and Rule U-23 promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than March 4, 1947, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said declaration which is on file in the

office of this Commission, for a statement of the transactions therein proposed, which are summarized below:

Interstate proposes to issue and sell two collateral promissory notes, each in the principal amount of $400,000, bearing interest at the rate of 1¾% annually payable semi-annually, and maturing on December 1, 1947; one of said notes is to be sold to The Chase National Bank of the City of New York, and the other to Manufacturers Trust Company, New York. Interstate also proposes to issue $800,000 principal amount of its First Mortgage Gold Bonds, 5% Series, due January 1, 1957, which bonds are to serve as collateral for the $800,000 aggregate principal amount of notes. Interstate represents that said 5% bonds will be issued under the indenture securing Interstate's presently issued and outstanding 5% bonds due 1957, upon certification to the trustee under said indenture of certain property additions which have not heretofore been certified as a basis for authentication and issuance of bonds. The filing states that the proceeds of the proposed issue and sale of securities will be applied toward the financing of Interstate's construction program and to restore current working funds which have been reduced below normal requirements in order to finance new construction.

A plan for the reorganization of Interstate was approved under section 11 (e) of the act by the Commission on January 24, 1947 (Holding Company Act Release Nos. 7143 and 7159), and enforcement proceedings are pending with respect thereto in the District Court of the United States for the District of Delaware. The filing further states that it is expected to retire the aforesaid notes, as well as $600,000 aggregate principal amount of notes issued and sold to the aforesaid banks on December 2, 1946 (Holding Company Act Release No. 7001), out of the proceeds of the sale of securities to be issued upon consummation of the aforesaid plan.

The declarant requests that the Commission's order be issued herein on or before March 15, 1947, and become effective forthwith, in view of its urgent need of the funds to be obtained from the aforesaid financing.

By the Commission.

TEXAS UTILITIES CO. AND AMERICAN POWER & LIGHT CO.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 21st day of February A. D. 1947.

American Power & Light Company ("American"), a registered holding company subsidiary of Electric Bond and Share Company, a registered holding company, and American's registered holding company subsidiary, Texas Utilities Company ("Texas Utilities"), having filed a joint application-declaration and amendments thereto pursuant to sections 6 (a), 7, 9, 10 and 12 (f) of the Public Utility Holding Company Act of 1935 with respect to the following transactions:

Texas Utilities proposes to amend its charter to change its presently authorized and outstanding 2,001,000 shares of common stock without nominal or par value, all of which are owned by American, to 4,000,000 shares of common stock without nominal or par value but without any change in the aggregate stated value, said 4,000,000 shares to be issued to American in exchange for its presently held shares of Texas Utilities.

Texas Utilities further proposes to amend its charter in the following respects: (a) to increase its authorized capital stock to 40,000,000 shares without nominal or par value; (b) to provide for preemptive rights to stockholders with respect to any offering of common stock, or security convertible into common stock, for money, other than with respect to a public offering of such shares; (c) to authorize the Board of Directors to sell, exchange or otherwise dispose of any property not essential to the conduct of its corporate business; (d) to authorize the corporation to sell, exchange or otherwise dispose of all or an essential portion of its property upon the vote of a majority of the Board of Directors and a majority of the aggregate number of shares outstanding and entitled to vote; and (e) to provide that statutes passed in the future affecting the rights of the company or its stockholders shall be applicable to the company upon the vote of the holders of a majority of shares of the outstanding stock.

Applicants-declarants have requested that the order of the Commission granting the application and permitting the declaration to become effective conform to the requirements of the Internal Revenue Code, as amended, including section 1808 (f) and Supplement R thereof.

The application-declaration having been filed December 18, 1946, and amendments thereto having been filed on January 2, 1947 and February 6, 1947, and notice of said filing, as amended, having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said application as amended within the period specified in said notice or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to the application-declaration, as amended, that the requirements of the applicable provisions of the act and rules thereunder are satisfied, that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers that the said application-declaration, as amended, be granted and permitted to become effective, and deeming it appropriate to grant the request of applicants-declarants that the order become effective at the earliest date possible;

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24 that said joint application-declaration, as amended, be, and the same hereby is, granted and permitted to become effective forthwith.

It is further ordered, That the reclassification of the outstanding common stock of Texas Utilities from 2,001,000 shares of common stock without nominal or par value, all of which are owned by American, to 4,000,000 shares of common stock without nominal or par value but without any change in the aggregate stated value thereof and the issuance of the said 4,000,000 shares to American in exchange for its presently held shares of Texas Utilities is a preliminary step toward compliance with the order of this Commission dated August 22, 1942, directing the dissolution of American, and is necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935.

By the Commission.

MIDDLE WEST CORP. AND CONSOLIDATED ELECTRIC AND GAS CO.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 21st day of February A. D. 1947.

The Middle West Corporation ("Middle West") and Consolidated Electric and Gas Company ("Consolidated"), both registered holding companies, having filed an application and declaration pursuant to sections 9 (a), 10, and 12 (b) of the Public Utility Holding Company Act of 1935 and Rule U-45 promulgated thereunder with respect to the following transactions:

Consolidated and Middle West propose to acquire $600 par value and $200 par value, respectively, of the capital stock of a new corporation which will be organized in Michigan with an initial authorized capital stock of 5,000 shares, par value $10 per share. Consolidated also proposes to advance to the newly organized company such sums as it may require to defray its organization and preliminary expenses. The contemplated transaction is a preliminary step in a program whereby the newly organized company will issue and sell securities and use the proceeds therefrom, in part, to acquire from Consolidated and Middle West their respective security holdings in three public utility companies operating in Michigan, two being subsidiaries of Consolidated and the other being a subsidiary of Middle West.

The application and declaration relate solely to advances and the acquisition of said capital stock; and

Such application and declaration having been filed on January 15, 1947, and notice of such filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said application and declaration within the period specified in said notice or otherwise, and not having ordered a hearing thereon; and

The Commission finding that no adverse findings are necessary under sections 10 (b) and 10 (c) (1) of the act and that the transactions involved have the tendency required by section 10 (c) (2), and that the requirements of section 12 (b) and Rule U-45 are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that said application and declaration be granted and permitted to become effective;

The Commission deeming it appropriate to grant the request of applicants and declarants that the order become effective immediately upon the issuance thereof;

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act and rules thereunder that the application and declaration be and the same hereby are granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

BUFFALO NIAGARA ELECTRIC CORP., AND THE NIAGARA FALLS POWER CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 19th day of February 1947.

Notice is hereby given that a joint application has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by Buffalo Niagara Electric Corporation ("Buffalo"), a subsidiary of Niagara Hudson Power Corporation, which, in turn, is a subsidiary of The United Corporation, a registered holding company, and The Niagara Falls Power Company ("Niagara"), a subsidiary of Buffalo.

Notice is further given that any interested person may, not later than February 25, 1947, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said application, which is on file in the offices of said Commission, for a statement of the transactions therein proposed, which are summarized below:

Buffalo proposes to sell to Niagara certain water rights consisting of the right to take 262.6 cubic feet per second of water from the Hydraulic Basin of Niagara in the City of Niagara Falls. The water rights are presently owned by Buffalo and leased to Niagara which utilizes such rights exclusively for the generation of hydro-electric power.

The consideration for the conveyance and the release from certain obligations now required to be performed by Niagara is $728,415.48, an amount equivalent to the original cost of the water rights, as recorded on the books of Buffalo.

The proposed transaction was approved by the Public Service Commission of the State of New York on February 5, 1947.

The applicants designate section 12 (d) of the act and Rule U-44 thereunder as being applicable to the transactions embraced in the joint filing and request that the Commission's order granting the application become effective within fifteen days from the date of filing.

NORTH AMERICAN CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 19th day of February 1947.

The North American Company, a registered holding company, has filed a declaration pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935 ("Act") and the general rules and regulations promulgated thereunder, regarding a proposal to pay on April 1, 1947, a dividend to its holders of common stock of record on March 3, 1947, payable in the common stock of Pacific Gas and Electric Company, having a par value of $25 per share, owned by The North American Company, at the rate of one share of common stock of Pacific Gas and Electric Company on each 100 shares of the outstanding common stock of The North American Company. No certificates will be issued for fractions of shares of stock of Pacific Gas and Electric Company, but, in lieu thereof, cash will be paid at the rate of forty-two cents for each 1/100 of a share of stock of Pacific Gas and Electric Company, this rate being based on the market price of approximately $42 per share as of February 7, 1947, the date on which the proposed dividend was declared.

The declaration having been filed on February 7, 1947, and notice of filing having been duly given in the manner and form prescribed by Rule U-23 under said act and the Commission not having received a request for hearing with respect to said declaration within the period specified in such notice, or otherwise, and not having ordered a hearing thereon; and

The North American Company having requested that the Commission issue its order on or before February 21, 1947, permitting said declaration to become effective; and

The Commission finding that the requirements of section 12 (d) of the act and Rules U-43 and U-44 thereunder are satisfied, that no adverse findings are necessary thereunder, and that action upon said declaration should be accelerated, and the Commission deeming it appropriate in the public interest and in the interest of investors to permit said declaration to become effective;

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of the act and subject to the terms and conditions prescribed in Rule U-24 that said declaration be and the same is hereby permitted to become effective forthwith.

NEW ENGLAND GAS AND ELECTRIC ASSN.

CORRECTION TO FINDINGS AND OPINION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 19th day of February 1947.

In the matters of New England Gas and Electric Association, File No. 54-120; New England Gas and Electric Association et al., File No. 59-34.

The Commission by order dated February 11, 1947, having approved the alternate plan for recapitalization of New England Gas and Electric Association (New England) filed pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935, and having made and filed its findings and opinion therein; and

Said findings and opinion stating on page 4 of the mimeographed release (Holding Company Act Release No. 7181) that "New England will offer for sale $22,425,000 principal amount of Sinking Fund Collateral Trust Bonds, Series A, having an interest rate not in excess of 3¼%;" and

It appearing to the Commission that by Amendment No. 2 (filed January 13, 1947) to its application New England intended and did amend its alternate plan so as to provide that the rate of interest to be paid on the bonds to be issued under the alternate plan should be determined by competitive bidding and that the terms of the bidding should not include any ceiling interest rate; and

It appearing to the Commission that its findings and opinion in this matter should be corrected to give effect to the said amendment;

It is ordered, That the findings and opinion in this matter be, and hereby are, corrected by deleting from page 4 of the said mimeographed release the words "having an interest rate not in excess of 3¼" so that the sentence will read as follows: "New England will offer for sale $22,425,000 principal amount of Sinking Fund Collateral Trust Bonds, Series A, having an interest rate to be determined by competitive bidding;".

SUPPLEMENTAL ORDER GRANTING AND PERMITTING APPLICATION AND DECLARATIONS TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 24th day of February 1947.

The Commission having, by order entered January 22, 1947, granted certain applications and permitted to become effective certain declarations with respect to the sale by Standard Gas and Electric Company ("Standard") of its holdings of 750,000 shares of the common stock of Oklahoma Gas and Electric Company ("Oklahoma Gas"), pursuant to the competitive bidding requirements of Rule U-50, and, simultaneously with such sale, the issue and sale by Oklahoma Gas of an additional issue of 140,000 shares of its common stock, also pursuant to the competitive bidding requirements of Rule U-50; and

Oklahoma Gas having filed an amendment herein, deleting the provision previously in effect under which said additional issue of 140,000 shares of its common stock would be sold simultaneously with the proposed sale by Standard of its holdings of the common stock of Oklahoma Gas, and Oklahoma Gas having advised the Commission in said amendment that it proposes to publish a public invitation for bids to purchase said additional issue of 140,000 shares of its common stock and, on March 4, 1947, to open such bids and having requested that the Commission enter an order permitting said declaration as so amended to become effective forthwith, and it appearing that such an order may appropriately be entered at this time;

It is hereby ordered, That said applications and declarations, as so amended, be, and the same are hereby, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24, and subject to the further condition that the proposed sales of shares of common stock of Oklahoma Gas shall not be consummated until the results of competitive bidding pursuant to Rule U-50 have been made a matter of record herein and a further order shall have been entered with respect thereto, which order may contain such further terms and conditions as may then be deemed appropriate, for which purpose jurisdiction is hereby reserved.

LOUISIANA POWER & LIGHT CO. AND ELECTRIC POWER & LIGHT CORP.

NOTICE OF FILING AND NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 24th day of February A. D. 1947.

Notice is hereby given that Louisiana Power & Light Company ("Louisiana"), a public utility subsidiary of Electric Power & Light Corporation ("Electric"), a registered holding company subsidiary of Electric Bond and Share Company, also a registered holding company, and Electric have filed joint applications and declarations with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act"), and have designated sections 6 (a), 7, 9 (a), 12 (c), and 12 (f) of the act and Rules U-42, U-43 and U-50 promulgated thereunder as applicable to the proposed transactions.

All interested persons are referred to said applications and declarations which are on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Louisiana proposes to offer to the holders of its 59,422 shares of outstanding $6 preferred stock the right to exchange such stock share for share for a new issue of ----% cumulative preferred stock having a par value of $100 a share, the dividend rate to be supplied by amendment. All shares of the outstanding preferred stock not so exchanged will be called at the redemption price of $110 a share plus accrued dividends to the date of redemption. Louisiana also proposes to sell to Electric, the holder of all of Louisiana's outstanding common stock, and Electric proposes to acquire, for cash, such additional shares of common stock at its stated value of $5 a share as may be required to provide Louisiana with funds in connection with the redemption of its outstanding preferred stock. The plan for retiring the outstanding preferred stock is to become automatically effective if 75% or more of such stock is offered for exchange, but Louisiana reserves the right to make the plan effective, with the consent of Electric, if less than 75% is offered for exchange. Louisiana proposes also to make certain amendments to its certificate of incorporation in connection with carrying out the proposed transactions.

In effectuating the plan of exchange, Louisiana proposes to select a dealer manager to manage the exchanges. Every Louisiana dealer who is a member of the National Association of Security Dealers will be invited to become a member of the dealer group to effectuate exchanges.

Louisiana applies for exemption from the competitive bidding provisions of Rule U-50, and Louisiana and Electric request that the Commission's order be entered as promptly as may be feasible.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said joint applications and declarations and that the said joint applications and declarations shall not be granted or become effective except pursuant to further order of the Commission:

It is ordered, That a hearing on said joint applications and declarations under the applicable provisions of the act and the rules of the Commission thereunder be held on March 10, 1947, at 10:00 a. m., e. s. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room in which such hearing is to be held.

It is further ordered, That Richard Townsend or any other officer or officers of the Commission designated by it for that purpose shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a hearing officer under the Commission's rules of practice.

The Public Utilities Division of the Commission having advised the Commission that it has made a preliminary examination of said joint applications and declarations, and that, on the basis thereof, the following matters and questions are presented for consideration by the Commission without prejudice, however, to the presentation of additional matters and questions upon further examination:

(1) Whether the preferred and common stocks to be issued are reasonably adapted to the earning power and security structure of Louisiana and are necessary or appropriate to the economical and efficient operation of the business in which Louisiana is engaged.

(2) Whether the issuance of such securities is solely for the purpose of financing the business in which Louisiana is engaged, or for the purpose of refinancing, exchanging or discharging an outstanding security of the company.

(3) Whether the terms and conditions of the issue or sale of said securities are detrimental to the public interest or the interest of investors or consumers.

(4) Whether the terms and conditions of the proposed exchange offer are fair and reasonable and appropriate in the public interest and the interest of investors and consumers.

(5) Whether the consideration, fees, commissions, or other remuneration to be paid in connection with the proposed transactions are reasonable.

(6) Whether Electric may appropriately acquire additional common stock of Louisiana in the manner proposed and whether such acquisitions would be in conformity with the applicable provisions of section 10 of the act.

(7) Whether the program proposed by Louisiana would involve in effect issuance of the new preferred stock at a substantial premium and, if so, whether such new preferred stock may appropriately be issued.

(8) Whether the accounting entries to be made in connection with the proposed transactions are adequate and in accordance with sound accounting practices.

(9) Whether the requested exemption from the competitive bidding provisions of Rule U-50 is appropriate in the public interest and the interest of investors and consumers, and if so, whether such exemption should be granted prior to the entry of any orders with respect to the principal transactions.

(10) Whether, in the event that the applications and declarations shall be granted and permitted to become effective, it is necessary or appropriate to impose any terms or conditions to assure compliance with the standards of the act or in the public interest or for the protection of investors or consumers.

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions, and that matters pertinent to the questions in paragraph (9) be first considered at such hearing.

It is further ordered, That any person desiring to be heard in connection with this proceeding or proposing to intervene herein shall file with the Secretary of the Commission on or before March 7, 1947 his request or application therefor as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing a copy of this order by registered mail to the Louisiana Public Service Commission, Louisiana Power & Light Company and Electric Power & Light Corporation; and that notice of said hearing be given to all other persons by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935; and that further notice be given to all persons by publication of this order in the FEDERAL REGISTER.

By the Commission.

HARTFORD GAS CO.

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 20th day of February 1947.

The Hartford Gas Company ("Hartford"), a subsidiary of The United Gas Improvement Company, a registered holding company, having filed an application and amendments thereto, pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 with respect to the following transaction:

Hartford proposes to issue and sell for cash at principal amount to six banks and insurance companies an aggregate of $2,000,000 principal amount of 2⅝% First Mortgage Bonds, due February 1,

ruary 11, 1947, having approved the al-

herein;

8:45 a. m.]

1972. The net proceeds of the sale of the bonds are to be used to provide funds for the enlargement of Hartford's gas manufacturing plant, for new business extensions, and for the repayment of bank borrowings which were expended for such improvements. Hartford has requested that the proposed issue and sale of securities be excepted from the competitive bidding requirements of Rule U-50, and that it be permitted to consummate the proposed transaction immediately upon approval thereof.

Such application, as amended, having been duly filed, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act and the Commission not having received a request for hearing with respect to said application, as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

It appearing to the Commission that the proposed issue and sale of bonds has been approved by the Public Utility Commission of the State of Connecticut and that in the particular circumstances of this case it is appropriate in the public interest and in the interests of investors and consumers to grant applicant's request for an exception from the competitive bidding requirements of Rule U-50 with respect to the proposed sale of bonds, and that the application, as amended, should be granted so as to permit immediate consummation of the proposed transaction;

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the act, and subject to the terms and conditions prescribed in Rule U-24, that the application, as amended, be, and the same hereby is, granted, and that the proposed transaction may be consummated forthwith.

By the Commission.

J. F. WM. MEYER

In re: Trust under the Will of J. F. Wm. Meyer, deceased. File D-28-2508; E. T. sec. 3648.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Marichen Meyer, August Meyer, Hermann (Herman) Kieselhorst, Sophia Engman, Hannilori Kieselhorst, Rosemarin Kieselhorst, Marguerite Engman, Magdalena Engman, Ruth Engman, and Kate Kieselhorst, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the persons named in subparagraph 1 hereof in and to the trust created under the will of J. F. Wm. Meyer, deceased, is property payable or deliverable to, or claimed by, the aforesaid nationals of a designated enemy country (Germany);

3. That such property is in the process of administration by Roetzel Jochems, as trustee, acting under the judicial supervision of the Probate Court of Sedgwick County, Wichita, Kansas;

and it is hereby determined:

4. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany),

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on February 17, 1947.

PART 256—COTTON LOANS

CHANGES IN AREAS SERVED BY FEDERAL RESERVE BANKS

Section 256.113, *Federal Reserve Banks* (11 F. R. 10751), is amended effective November 1, 1946, as follows:

1. The Federal Reserve Bank of Atlanta, Georgia, will serve the state of Alabama.

2. The Memphis Branch, Federal Reserve Bank of St. Louis, Missouri, will serve all counties in the state of Arkansas.

This amendment releases the Birmingham Branch, Federal Reserve Bank of Atlanta, and the Little Rock Branch, Federal Reserve Bank of St. Louis from responsibility for handling transactions under the 1946 cotton loan program. Documents relating to Alabama loans will henceforth be handled by the Federal Reserve Bank of Atlanta, and those relating to the counties in Arkansas originally assigned to Little Rock will be handled by the Memphis Branch, Federal Reserve Bank of St. Louis.

TITLE 7—AGRICULTURE

Chapter I—Production and Marketing Administration (Standards, Inspections, Marketing Practices)

PART 26—GRAIN STANDARDS

OFFICIAL GRAIN STANDARDS OF THE UNITED STATES FOR OATS

By virtue of the authority vested in the Secretary of Agriculture by the United States Grain Standards Act, 1916, as amended (39 Stat. 482, 485, 54 Stat. 765; 7 U. S. C. 71 et seq.), official grain standards of the United States for oats and amendments thereto (7 CFR and Cum. Supp. 26.251) were promulgated and became effective after the required public notice had been given.

Notice of a proposed amendment to be effective not later than July 1, 1947, if promulgated, was published in the FEDERAL REGISTER on January 22, 1947 (12 F. R. 446). The notice stated that the proposed amendment is to provide a better description on certificates for oats by establishing an additional special grade to be known as "Medium Heavy" oats. The notice also stated that hearings would be held at Minneapolis, Omaha and Chicago at specified places and specified times to provide interested persons an opportunity to present their views and opinions orally with respect to the desirability of the promulgation of the proposed amendment. In addition, the notice stated that written views, data or arguments of interested persons might be submitted to the Director, Grain Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., to be received by him not later than February 20, 1947.

The hearings were held at the times and places specified in the notice and material submitted in writing was received. Information secured at the hearings and written data submitted together with other information available in the United States Department of Agriculture have been considered and it has been determined that an amendment should be promulgated.

Therefore, effective June 1, 1947, the official grain standards of the United States for oats are amended by inserting a new section to read as follows:

§ 26.253a *Special grade; medium heavy oats*—(a) *Definition.* Medium heavy oats shall be oats of any class of grades Nos. 3, 4, and Sample grade which have a test weight per bushel of 30 pounds or more but less than 35 pounds.

(b) *Grades.* Medium heavy oats shall be graded and designated according to the grade requirements of the standards otherwise applicable and there shall be added to, and made a part of, the grade

[Tangerine Reg. 64]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.334 *Tangerine Regulation 64*—(a) *Findings.* (1) Pursuant to the amended marketing agreement and the order, as amended (7 CFR, Cum. Supp., 933.1 et seq.; 11 F. R. 9471), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., March 3, 1947, and ending at 12:01 a. m., e. s. t., July 31, 1947, no handler shall ship:

(i) Any tangerines, grown in the State of Florida, which grade U. S. No. 3, or lower than U. S. No. 3 grade (as such grades are defined in the U. S. Standards for Tangerines, issued by the United States Department of Agriculture, effective September 29, 1941, as amended); or

(ii) Any tangerines, grown in the State of Florida, which are of a size smaller than the size that will pack 294 tangerines, packed in accordance with the requirements of a standard pack (as such pack in the aforesaid U. S. Standards), in a half-standard box (inside dimensions 9½ x 9½ x 19⅛ inches; capacity 1,726 cubic inches).

(2) As used in this section "handler" and "ship" shall have the same meaning as is given to each such term in said amended marketing agreement and order. (48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U. S. C. 601 et seq.)

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.333 *Grapefruit Regulation 83*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and the order, as amended (7 CFR, Cum. Supp., 933.1 et seq.; 11 F. R. 9471), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., March 3, 1947, and ending at 12:01 a. m., e. s. t., March 10, 1947, no handler shall ship:

(i) Any grapefruit of any variety, grown in the State of Florida, which grade U. S. No. 3, or lower than U. S. No. 3 grade (as such grades are defined in the United States standards for citrus fruits, as amended (11 F. R. 13239; 12 F. R. 1));

(ii) Any seeded grapefruit, other than pink grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid amended United States standards), in a standard box (as such box is defined in the standards for containers for citrus fruit established by the Florida Citrus Commission pursuant to section 3 of Chapter 20449, Laws of Florida, Acts of 1941 (Florida Laws Annotated § 595.09));

(iii) Any seedless grapefruit, other than pink grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid amended United States standards), in a standard box (as such box is defined in the aforesaid standards for containers for citrus fruit); or

(iv) Any pink grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 126 grapefruit, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid amended United States standards), in a standard box (as such box is defined in the aforesaid standards for containers for citrus fruit).

(2) As used in this section "variety," "handler," and "ship" shall have the same meaning as is given to each such term in said amended marketing agreement and order. (48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U. S. C. 601 et seq.)

[Lemon Reg. 211]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.318 *Lemon Regulation 211*—(a) *Findings.* (1) Pursuant to the marketing agreement and the order (7 CFR, Cum. Supp., 953.1 et seq.), regulating the handling of lemons grown in the State of California or in the State of Arizona, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m. P. s. t., March 2, 1947, and

ending at 12:01 a. m., P. s. t., March 9, 1947, is hereby fixed at 300 carloads, or an equivalent quantity.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference. The Lemon Administrative Committee, in accordance with the provisions of the said marketing agreement and order, shall calculate the quantity of lemons which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such word in the said marketing agreement and order. (48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U. S. C. 601 et seq.)

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATIONS OF SHIPMENTS

§ 933.335 *Orange Regulation 112*—(a) *Findings.* (1) Pursuant to the amended marketing agreement and the order, as amended (7 CFR, Cum. Supp., 933.1 et seq.; 11 F. R. 9471), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., March 3, 1947, and ending at 12:01 a. m., e. s. t., March 10, 1947, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in the State of Florida, which grade U. S. No. 2, as such grade is defined in the United States standards for citrus fruits, as amended (11 F. R. 13239; 12 F. R. 1), if more than one-half of the surface in the aggregate is affected with discoloration;

(ii) Any container of oranges, except Temple oranges, grown in the State of Florida, which grade U. S. Combination Grade (as such grade is defined in the aforesaid amended United States standards) unless at least sixty-five percent (65%), by count, of the total quantity of oranges in such container meet the requirements of U. S. No. 1 grade (as such grade is defined in the aforesaid amended United States standards) and each of the remainder of the oranges meets all other requirements of the aforesaid U. S. Combination Grade;

(iii) Any oranges, except Temple oranges, grown in the State of Florida, which grade U. S. Combination Russet, U. S. No. 2 Russet, U. S. No. 3, or lower than U. S. No. 3 grade, as such grades are defined in the aforesaid amended United States standards;

(iv) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size smaller than a size that will pack 288 oranges, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid amended United States standards), in a standard box (as such box is defined in the standards for containers for citrus fruit established by the Florida Citrus Commission pursuant to section 3 of Chapter 20449, Laws of Florida, Acts of 1941 (Florida Laws Annotated § 595.09));

(v) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size larger than a size that will pack 126 oranges, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid amended United States standards), in a standard box (as such box is defined in the aforesaid standards for containers for citrus fruit); or

(vi) Any Temple oranges, grown in the State of Florida, which grade U. S. No. 3 or lower than U. S. No. 3, as such grades are defined in the aforesaid amended United States standards.

(2) As used in this section, "handler" and "ship" shall have the same meaning as is given to each such term in said amended marketing agreement and order. (48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U. S. C. 601 et seq.)

PART 955—GRAPEFRUIT GROWN IN ARIZONA; IMPERIAL COUNTY, CALIFORNIA; AND THAT PART OF RIVERSIDE COUNTY, CALIFORNIA, SITUATED SOUTH AND EAST OF SAN GORGONIO PASS

LIMITATION OF SHIPMENTS

§ 955.304 *Grapefruit Regulation 43*—(a) *Findings.* (1) Pursuant to the marketing agreement and the order (7 CFR, Cum. Supp., 955.1 et seq.) regulating the handling of grapefruit grown in the State of Arizona; in Imperial County, California; and in that part of Riverside County, California, situated south and east of the San Gorgonio Pass, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation of the Administrative Committee established under the said marketing agreement and the said order, and upon other available information, it is hereby found that the limitation of shipments of such grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., March 2, 1947, and ending at 12:01 a. m., P. s. t., March 30, 1947, no handler shall ship:

(i) Any grapefruit grown in the State of Arizona; in Imperial County, California; or in that part of Riverside County, California, situated south and east of the San Gorgonio Pass, which grade lower than U. S. No. 2 grade, as such grades are defined in the U. S. Standards for California and Arizona Grapefruit, issued by the United States Department of Agriculture, effective March 15, 1941; or

(ii) From the State of California or the State of Arizona to any point outside thereof in the United States, any such grapefruit (*a*) which are of a size smaller than $3\frac{11}{16}$ inches in diameter, or (*b*) which are of a size larger than $4\frac{11}{16}$ inches in diameter ("diameter" in each case to be measured midway at a right angle to a straight line running from the stem to the blossom end of the fruit), except that a tolerance of 5 percent, by count, of grapefruit smaller than such minimum size shall be permitted, and a tolerance of 5 percent, by count, of grapefruit larger than such maximum size shall be permitted, which tolerances shall be applied in accordance with the provisions for the application of tolerances, specified in the said U. S. Standards for California and Arizona Grapefruit: *Provided*, That in determining the percentage of grapefruit in any lot which are smaller than $3\frac{11}{16}$ inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size $4\frac{2}{16}$ inches in diameter and smaller; and in determining the percentage of grapefruit in any lot which are larger than $4\frac{11}{16}$ inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size $4\frac{5}{16}$ inches in diameter and larger; or

(iii) From the State of California or the State of Arizona to any point outside thereof in Canada, any such grapefruit (*a*) which are of a size smaller than $3\frac{5}{16}$ inches in diameter, or (*b*) which are of a size larger than $4\frac{11}{16}$ inches in diameter ("diameter" in each case to be measured midway at a right angle to a straight line running from the stem to the blossom end of the fruit), except that a tolerance of 5 percent, by count, of grapefruit smaller than such minimum size shall be permitted, and a tolerance of 5 percent, by count, of grapefruit larger than such maximum size shall be permitted, which tolerances shall be applied in accordance with the provisions for the application of tolerances, specified in the said U. S. Standards for California and Arizona Grapefruit: *Provided*, That in determining the percentage of grapefruit in any lot which are smaller than $3\frac{5}{16}$ inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size $3\frac{13}{16}$ inches in diameter and smaller; and in determining the percentage of grapefruit in any lot which are larger than $4\frac{11}{16}$ inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size $4\frac{5}{16}$ inches in diameter and larger.

(2) As used in this section, "handler" and "ship" shall have the same meaning as is given to each such term in said marketing agreement and order. (48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U. S. C. 601 et seq.)

PART 966—ORANGES GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 966.313 *Orange Regulation 167*—(a) *Findings.* (1) Pursuant to the provisions of the order (7 CFR, Cum. Supp., 966.1 et seq.) regulating the handling of oranges grown in the State of California or in the State of Arizona, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., March 2, 1947, and ending at 12:01 a. m., P. s. t., March 9, 1947, is hereby fixed as follows:

(i) *Valencia oranges.* Prorate Districts Nos. 1, 2, and 3, no movement.

(ii) *Oranges other than Valencia oranges.* (*a*) Prorate District No. 1, unlimited movement; (*b*) Prorate District No. 2, 1150 carloads; and (*c*) Prorate District No. 3, unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference. The Orange Administrative Committee, in accordance with the provisions of the said order, shall calculate the quantity of oranges which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(4) As used herein, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said order; and "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as is given to each such term in § 966.107 of the rules and regulations (11 F. R. 10258) issued pursuant to said order. (48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U. S. C. 601 et seq.)

TITLE 10—ARMY: WAR DEPARTMENT

Chapter III—Claims and Accounts

PART 306—CLAIMS AGAINST THE UNITED STATES

CONSIDERATION, ADJUSTMENT AND SETTLEMENT OF CLAIMS FOR RELIEF BY CONTRACTORS AGAINST WAR DEPARTMENT

Pursuant to the authority vested in the Secretary of War by the act of August 7, 1946, Public Law 657, 79th Congress (hereinafter referred to as the "Act"), and Executive Order No. 9786 dated October 5, 1946 (hereinafter referred to as the "Executive order"), the following regulations set forth in § 306.85 are hereby prescribed to govern the consideration, adjustment and settlement of claims for relief by contractors against the War Department under the provisions of the act and the Executive order.

§ 306.85 *Claims for relief by contractors.* (a) There is hereby constituted in the Office of the Under Secretary of War a board to be known as "War Contract Hardship Claims Board" (hereinafter referred to as the "board"), to consider, adjust, and settle equitable claims of contractors, including subcontractors and materialmen performing work or furnishing supplies or services to the contractor or another subcontractor, for losses (not including diminution of anticipated profits) incurred between September 16, 1940, and August 14, 1945, without fault or negligence on their part in the performance of such contracts or subcontracts. The board shall consist of five members, one of whom shall be designated as president of the board. There will also be a recorder. The Under Secretary of War shall recommend appointees for membership on the board and for recorder and shall nominate the president of the board. Appointments will be made by the Secretary of War. Upon request of the Under Secretary of War, The Judge Advocate General is authorized to assign to the board one or more judge advocates as trial attorneys or examiners, and if and when deemed necessary by the Under Secretary of War and upon his request, The Judge Advocate General also may assign an officer or civilian attorney as general counsel.

(b) The board created by paragraph (a) of this section is hereby designated the central authority within the War Department to consider, adjust, and settle all claims of contractors under the act and the Executive order; to make or approve the settlement of any such claim in each case in which the War Department is the war agency considering the claim; to grant in whole or in part, or to withhold, for the War Department approval of that part of any proposed settlement by any other agency considering the claim, which relates to contracts or subcontracts of the War Department and to make any and all determinations and findings for the War Department required by the act and the Executive order with respect to each claim. Except for any reconsideration which the board may in its discretion grant, any approval, finding, determination or settlement by the board shall be final, subject only to the provisions of section 6 of the act. The board shall have all powers necessary and incident to the proper performance of its duties as set forth in this section and shall adopt its own methods of procedure and rules and regulations for its conduct.

(c) Claims under the act and the Executive order filed with the War Department will be examined, reviewed and verified by the technical service, which includes for the purpose of this regulation the Army Air Forces, under whose contracts or subcontracts the loss is claimed. When a claim is made with respect to contracts or subcontracts of more than one technical service the claim shall be examined, reviewed and verified by the technical service under whose contracts and subcontracts the largest claim for loss is made. In the event a claim is filed with other than the chief of a technical service or the chief of the technical service with which the claim is filed determines that another technical service has a primary interest in the consideration thereof the claim will be forwarded immediately to the president of the board for appropriate assignment. The receiving office in transmitting the claim to the board will transmit also any information in its possession bearing upon the claim. In the event the chief of the technical service which is examining, reviewing and verifying a claim determines that the claim also is of interest to another war agency a copy of the claim will be transmitted to the board, with a statement of the reason for such transmission, for appropriate referral and coordination.

(d) Upon receipt of a claim the technical service will transmit a copy of the claim to the Chief of Finance and request that the claim be transmitted to the General Accounting Office for verification of the list of contracts and subcontracts set forth therein as required by section 301 of the Executive order. The Chief of Finance will transmit such request for verification to the General Accounting Office. Upon receipt of information from the General Accounting Office, the Chief of Finance will advise the technical service concerned with respect to the information obtained from the General Accounting Office.

(e) In addition to such verification by the General Accounting Office as is required by section 301 of the Executive order, all claims under the act will be examined, reviewed and verified by the appropriate technical service or services to the extent that the chief of the technical service in his discretion determines necessary for an adequate consideration of the claim under the act and the Executive order. The chief of the technical service is authorized to arrange directly with the Chief of Finance for any necessary audit of claims. Request for audit will not be made by the chief of the technical service unless preliminary examination by him indicates that the claim appears to fall within the scope of the act and Executive order. Upon completion of such review and consideration as the chief of the technical service may deem adequate for the purposes of the act and the Executive order the chief of the technical service will transmit the original of the claim together with his recommendation as to the disposition thereof and a statement of the basis of such recommendation to the board. He also will designate one or more members of his legal staff as trial attorneys or examiners for processing the claim through his office and before the board. The board will consider the claim and the recommendation and statement by the chief of the interested technical service and approve such adjustment and settlement of the claim as it determines appropriate under the act and the Executive order. The board may direct such further action by the technical service as it deems necessary to the final disposition of the claim.

(f) When the board approves the settlement of a claim, in whole or in part, it will notify the interested technical service of its decision and the technical service will request the Chief of Finance to advise the General Accounting Office of the proposed settlement as approved and request that it be notified of any claims against the claimant. The Chief of Finance will transmit such advice as to the proposed settlement and request for information as to claims to the General Accounting Office. Upon receipt of advice from the General Accounting Office with respect to information available in that office concerning indebtedness the Chief of Finance will notify the technical service of any such indebtedness reported by the General Accounting Office and of any other indebtedness shown by War Department records. If any discrepancies appear between the records of the General Accounting Office and the War Department records as to the verification of contracts and subcontracts, or any indebtedness of the claimant, the technical service will advise the Chief of Finance thereof, who will communicate with the General Accounting Office with respect thereto advising the technical service concerned as to the results thereof. In the case of denial of a claim the board will notify the claimant and the interested technical service of its decision immediately.

(g) Approved claims which involve indebtedness reported by the General Accounting Office, or any other indebtedness shown on the records of the War Department, will be made the subject of an appropriate communication to the Chief of Finance prepared by the technical service concerned, together with a full report of all such indebtedness, which will be transmitted by the Chief of Finance to the General Accounting Office for necessary set-off or other appropriate action. When Certificate of Settlement on such claims, issued by the General Accounting Office and requiring payment, is received in the Office of the Chief of Finance, it will be forwarded to the Finance Officer, United States Army, Washington, D. C., for payment in the usual way. Approved claims which do not involve set-off by the General Accounting Office on account of indebtedness will be vouchered on Standard Form 1034 prepared by the technical service concerned and certified by a duly authorized certifying officer of such service, supporting same with the original of the approved award of the board and of the settlement agreement and release. Said voucher, supported as indicated above, will be forwarded through the Chief of Finance to the Finance Officer, United States Army, Washington, D. C., for payment. Chapter IX—Office of Temporary Controls, Civilian Production Administration

AUTHORITY: Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827, 59 Stat. 658, Pub. PART 944—REGULATIONS APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Reg. 33, as Amended Feb. 28, 1947]

VETERANS' EMERGENCY HOUSING PROGRAM

§ 944.54 *Priorities Regulation 33*—(a) *What this regulation does.* Priorities Regulation 33 was the method by which the Civilian Production Administration provided general priorities assistance for the Veterans' Emergency Housing Program on applications filed before September 10, 1946. It was also the method by which persons who wished to do construction work restricted by VHP–1 could apply for authorization under that order when the work was to be done on structures used for residential purposes. Applications under the regulation were made to the National Housing Agency or an agency acting for it under a delegation. On and after December 24, 1946, all new applications in connection with housing accommodations have been filed under the Housing Permit Regulation or other applicable regulation of the Housing Expediter.

The provisions of Priorities Regulation 33, as amended, apply to all housing accommodations built under an approved application on Form CPA–4386 or Form CPA–4387.

(b) [Deleted Feb. 28, 1947.]

(c) On approval of an application, a copy of the application bearing a project serial number and a placard or placards are sent to the builder.

(1) If the application covered the construction, completion or conversion of dwelling accommodations to which veterans of World War II and members of the Armed Forces would be given preference in selling or renting, or if the application covered the construction, conversion or alteration by an educational institution or public organization of a dormitory or other group housing facility for veterans of World War II and members of the Armed Forces, the placard contained a statement that the accommodations were to be rented or sold to veterans or members of the Armed Forces and spaces for the maximum sales price or rent and the project serial number. The builder must insert in the placard or placards clearly, legibly and permanently the project serial number. The builder must set up a placard in front of each separate residential building on the project site in a conspicuous location within 5 days after construction has started and must keep the placard there until completion of the building; and, unless all the accommodations in the building have been sold or rented to veterans of World War II or members of the Armed Forces, in accordance with paragraph (h), for 30 days after completion (for 60 days after completion in the case of accommodations approved after August 6, 1946, which are being offered for sale). As soon as construction is completed, the builder must insert in the placard for that unit the appropriate rent and sales price, not in excess of those specified in the application as approved. The applicant may post a project sign instead of posting the placards sent to him. If he chooses to use a project sign, he must post a sign having the approximate dimensions of 3′ x 5′ or more in a conspicuous location on the site of the project. Such a sign must contain the same information that is required on placards as provided above and all provisions applying to placards, apply to signs posted instead of placards.

(2) If the application does not fall within paragraph (c) (1), the builder need not post any placard.

(d) Paragraph (c) of Schedule A to PR–33 contains the provisions concerning the use of HH ratings formerly in paragraph (d) of this regulation.

(e) *Construction of the project.* A builder who constructs, converts, alters, or repairs housing accommodations under this regulation must do the work in accordance with the description given in the application, except where he has obtained written approval for a change from the agency which approved the original application.

(f) *Reports.* All persons affected by this regulation shall file such reports as may be requested by the CPA, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(g) *Maximum sales prices and rents*—(1) *General.* The restrictions on sales prices and rents contained in this paragraph (g) must be observed so long as this regulation remains in effect. They apply to dwellings of the kinds described below when built or converted under this regulation. Except as provided in the Housing Permit Regulation, dwellings or other housing accommodations covered by approved applications under this regulation are considered to have been built or converted under this regulation when the priorities assistance assigned has been used to get materials for the accommodations or when the construction of the accommodations could not have been done under VHP–1 without the authorization granted by the approval of the application. The restrictions on sales prices do not apply to judicial or statutory foreclosure sales of a dwelling and do not prohibit any subsequent sale of the dwelling at or below the amount of the foreclosure sale. The restrictions on sales prices and rents apply to all sales and leases, whether made to veterans of World War II or to other persons. It is a violation of this regulation to condition a sale or rent on the purchase of or the agreement to purchase any commodity, service or property interest except where this regulation specifically permits the consideration paid for the commodity, service or property interest to be included in or added to the maximum sales price or maximum rent. Approval of a proposed sales price or rent should be considered merely as a limit upon the price or rent to be charged. It should not be considered as a statement that the sales price or rent represents the value of the dwelling or the apartment for other purposes. In the case of remodelling or rehabilitation, the Office of Price Administration may reduce the maximum rent specified in the application, unless prior approval of the rent has been obtained from that agency.

(2) *One-family dwelling.* (i) A "one-family dwelling" means a building designed for occupancy by one family and to be occupied, rented or sold as a unit, including a detached or semi-detached house or a row house but not including an apartment house or a two-family "one-over-one" house.

(ii) A builder must not sell a one-family dwelling built or converted under this regulation, including the land and all improvements (including garage if provided), for more than the maximum sales price specified in the application, as approved, including within this sales price the amount of any brokerage fees or commissions paid in connection with the sale, whether paid by the builder or by the purchaser.

(iii) No other person shall sell a one-family dwelling built or converted under this regulation, including the land and all improvements, for more than the maximum sales price specified in the application as approved, plus the amount of any normal and customary brokerage fees or commissions actually paid for services which have been rendered in connection with the sale being made, whether paid by the seller or the purchaser, plus normal and customary brokerage fees actually paid for services rendered in connection with previous sales of the dwelling (after the sale by the builder) whether paid by previous sellers or purchasers.

(iv) No person shall rent a one-family dwelling built or converted under this regulation for more than the maximum rent specified in the application as approved. If no rent is specified in the application, the person wishing to rent the dwelling may request the Federal Housing Administration to set a rent on the basis of information given in the original application and any supplemental information filed, and no person shall rent the dwelling for more than the amount set.

(3) *Two-family dwellings.* (i) A "two-family dwelling" means a building designed for occupancy by two families which will be sold as a unit, not including semi-detached or row houses covered by paragraph (g) (2).

(ii) A builder must not sell a two-family dwelling built or converted under this regulation, including the land and all improvements (including garage if provided), for more than the maximum sales price specified in the application, as approved, including within this sales price the amount of any brokerage fees or commissions paid in connection with the sale, whether paid by the builder or the purchaser.

(iii) No other person shall sell a two-family dwelling built or converted under this regulation, including the land and all improvements, for more than the maximum sales price specified in the application as approved, plus the amount of any normal and customary brokerage fees or commissions actually paid for services which have been rendered in connection with the sale being made, whether paid by the seller or the purchaser, plus brokerage fees actually paid for services rendered in connection with previous sales of the dwelling (after the sale by the builder), whether paid by previous sellers or purchasers.

(iv) No person shall rent an apartment in a two-family dwelling built or converted under this regulation for more than the maximum rent specified for the apartment in the application as approved.

(4) *Multiple-family dwellings.* (i) A "multiple-family dwelling" means a building containing three or more separate living accommodations for three or more families.

(ii) No person shall rent an apartment in a multiple-family dwelling built or converted under this regulation for more than the maximum rent specified for the apartment in the application as approved.

(5) *Dormitories and group housing facilities.* No person (whether the builder or any other person) shall rent accommodations in a dormitory or other group housing facility built under this regulation for more than the maximum shelter rent specified in the application as approved.

(6) *Maximum rent and maximum shelter rent.* "Maximum rent" means the total consideration paid by the tenant for the accommodations including charges paid by the tenant for tenant services specified on the application and including charges paid by the tenant for garage as specified on the application, but excluding charges covering the actual cost on a pro rata basis for gas and electricity for the tenant's domestic purposes when the application specifies that such charges will be made. "Maximum shelter rent" means the maximum rent, less charges for tenant services and garage. Any payment for the rental of furniture made by a tenant or a prospective tenant in connection with the renting of dwelling accommodations built or altered under this regulation must be considered as a part of the maximum rent. However, if the rental of furniture was requested by a tenant in connection with a dwelling accommodation covered by a lease entered into with the tenant before December 13, 1946, the amount paid for furniture in connection with the lease or with a later renting of that dwelling accommodation need not be included in the maximum rent.

(7) *Requests for increases in sales prices and rents by builders.* A builder may apply to the Federal Housing Administration for an increase in the sales price or rent specified in the application before the house is sold (i. e., before title has passed) or initially rented. The application will not be approved unless he can show that he has incurred or will incur additional or increased costs in the construction over which he had, or has, no control, or if he can show that he will incur additional or increased costs in the operation of rented accommodations over which he has no control, and that these increased or additional costs will make it unreasonable for him to sell or rent at the price or rent specified in the application. No increase in sales price or rent will be granted in excess of the increase in construction cost, or a proper proportion of it, or the increase in operating cost, as the case may be.

(8) *Requests for increases in sales prices or rents by subsequent owners.* An owner of a dwelling built under this regulation, other than the builder, may apply to the Federal Housing Administration for an increase in the sales price or rent specified in the application if the subsequent owner has made improvements to the dwelling which would warrant an increase. No increase will be granted in excess of the cost of construction of the improvement, or a proper proportion of it in the case of a requested increase in rents. However, no increase in sales price to an amount more than $10,000 (or $17,000 in the case of a two-family dwelling) will be granted and no increase in shelter rent to more than $80 a month will be granted, except on appeal where unusual hardship would result. If an increase in rent is needed because of subsequent improvements, and the accommodations have previously been rented and are in a Defense Rental Area established by the Office of Price Administration, the owner should apply to the Area Rent Office of the Office of Price Administration for an increase (or in the District of Columbia to the Office of Administrator of Rent Control for the District of Columbia). If an increase is granted, one copy of the instrument granting the increase must be filed with the appropriate office of the Federal Housing Administration. Upon the filing of this copy with the Federal Housing Administration, the new rent granted becomes the maximum shelter rent under this regulation. (Note: Under Veterans' Housing Program Order 1 it may be necessary to get authorization to make these alterations.)

(h) *Preferences for veterans of World War II and members of the Armed Forces*—(1) *General.* This paragraph tells how preferences must be given under this regulation to veterans of World War II and members of the Armed Forces as long as this regulation remains in effect. As used in this regulation, "veterans of World War II and members of the Armed Forces" (sometimes referred to in this regulation as "veterans" or as "veterans of World War II") include the following: (i) A person who has been on active service in the U. S. Army, Navy, Coast Guard or Marine Corps or in the U. S. Merchant Marine during World War II (i. e., on or after September 16, 1940) and who was discharged or released under conditions other than dishonorable; (ii) a person who is serving in the U. S. Army, Navy, Coast Guard, Marine Corps or in the U. S. Merchant Marine; (iii) the spouse of a member of the Armed Forces who died in service during World War II or the spouse of a deceased veteran of World Wor II, if the spouse is living with a child or children of the deceased; or (iv) a citizen of the United States who served in the Armed Forces of an allied nation during World War II. The preference for veterans and members of the Armed Forces provided by this paragraph (h) do not apply to judicial or statutory foreclosure sales. Sales subsequent to a foreclosure sale, however, are subject to the provisions of this paragraph. The requirements of this paragraph apply to the original sales or leases and to later sales and leases, as long as this regulation remains in effect. The provisions of paragraph (h) do not apply to dwellings for which neither a maximum sales price nor a maximum rent is established under this regulation and do not apply to dwellings approved for the purpose of increasing or maintaining the production of scarce materials or products, or to the initial occupancy of a dwelling or an apartment in it approved under this regulation for the occupancy of the applicant or the continued occupancy of his tenant.

(2) *One-family dwellings.* (i) A builder who has built or converted a one-family dwelling under this regulation must, during construction and for 30 days after completion (or 60 days after completion if the application was approved after August 6, 1946, and the dwelling is being offered for sale), publicly offer it for sale or for rent at or below the approved maximum sales price or the approved maximum rent to veterans of World War II and members of the Armed Forces for their own occupancy, and he must not sell or rent it to any other person unless he has made such an offer.

(ii) If a one-family dwelling built or converted under this regulation is being offered for sale, the person offering it for sale must not sell or otherwise dispose of it to any person other than a veteran of World War II or a member of the Armed Forces unless he has publicly offered it for sale to such veterans for at least 30 days (or 60 days if the dwelling was built or converted under an authorization approved after August 6, 1946) at or below the approved maximum sales price.

(iii) No person shall rent a one-family dwelling built or converted under this regulation to any person other than a veteran of World War II or a member of the Armed Forces unless he has publicly offered the dwelling for rent to such veterans for at least 30 days (or during construction and for 30 days afterwards in the case of the initial offering by the builder) at or below the approved maximum rent.

(3) *Two-family dwellings.* (i) A builder who has built or converted a two-family dwelling under this regulation must publicly offer it for sale or the apartments in it for rent at or below the maximum sales price or the maximum rent specified in the application, as approved, to veterans of World War II and members of the Armed Forces for their own occupancy. This public offering must continue during construction and for 30 days afterwards in the case of rentals, and in the case of sales if the application was approved before August 7, 1946. It must last during construction and for 60 days after completion in the case of sales of dwellings built or converted under an application approved after August 6, 1946.

(ii) If a two-family dwelling built or converted under this regulation is being offered for sale, the person offering it for sale must not sell or otherwise dispose of it to any person other than a veteran of World War II or a member of the Armed Forces unless he has publicly offered it for sale to such veterans for at least 30 days (or 60 days if the dwelling was built or converted under an authorization approved after August 6, 1946) at or below the approved maximum sales price.

(iii) No person shall rent an apartment in a two-family dwelling built or converted under this regulation to any person other than a veteran of World War II or a member of the Armed Forces unless he has publicly offered the apartment for rent to such veterans for at least 30 days (or during construction and for 30 days afterwards in the case of the initial offering by the builder) at or below the approved maximum rent.

(4) *Multiple-family dwellings.* (i) A builder who has built or converted a multiple-family dwelling under this regulation must, during construction and for 30 days after completion, publicly offer the apartments in it for rent to veterans of World War II and members of the Armed Forces for their own occupancy at or below the maximum rent given in the application as approved.

(ii) No person shall rent an apartment in a multiple-family dwelling built or converted under this regulation to any person other than a veteran of World War II or a member of the Armed Forces unless he has publicly offered the apartment for rent to such veterans for at least 30 days (or during construction and for 30 days after completion in the case of the initial offering of the builder) at or below the approved maximum rent.

(5) *Dormitories and group housing facilities.* A builder who has built or converted a dormitory or other group housing facility under this regulation must make the accommodations available exclusively for veterans of World War II and members of the Armed Forces and their dependents otherwise eligible to occupy the accommodations, except that if an educational institution builds a dormitory under this program it may make available to non-veterans 40% of the accommodations in the dormitory if it makes available to veterans of World War II an equivalent number of similar or better accommodations in other dormitories at rents not larger than the rents specified in the application as approved.

(i) *Notices in advertisements and deeds.* (1) If the placard described in paragraph (c) (1) is sent to the applicant, as long as this regulation remains in effect a builder who has used the HH rating to get materials for a dwelling, or who could not, under Veterans' Housing Program Order 1, have built or converted the dwelling without approval under this regulation and every other person who has acquired title to such a dwelling (whether completed or not) must include a statement in substantially the following form in any deed, conveyance or other instrument by which the dwelling is sold, transferred or mortgaged to any other person:

> The building on the premises hereby conveyed was built (converted) under Priorities Regulation 33 (Builder's Serial No. —). Under that regulation a limit is placed on either the sales price or the rent for the premises or both and preferences are given to veterans of World War II or members of the Armed Forces in selling or renting. As long as that regulation remains in effect, any violation of these restrictions by the grantee or by any subsequent purchaser will subject him to the penalties provided by law. The above is inserted only to give notice of the provisions of Priorities Regulation 33 and neither the insertion of the above nor the regulation is intended to affect the validity of the interest hereby conveyed.

(2) If the placard described in paragraph (c) (1) is sent to the applicant, as long as this regulation remains in effect the builder and every subsequent owner, and their agents and brokers, must include in any advertisement printed or published in which accommodations built under Priorities Regulation 33 are offered for sale or for rent, the following statements:

> Built under Veterans' Emergency Housing Program.
> Held for sale (rent) to veterans of World War II for 60 (30) days.
> Sales price (rent per month) $——.

(j) *Transfer of ratings forbidden.* No person to whom an HH rating has been assigned shall transfer the rating to any other person (as distinguished from applying the rating to purchase orders) and any transfer attempted is void. If for any reason a builder wishes to abandon a project and another builder wishes to continue with the project, the new builder should apply to the appropriate FHA office, attaching to his application a letter from the former builder or the representatives of the former builder joining in the request for the assignment of ratings to the new builder.

(k) *Appeals.* Any person affected by this regulation or a direction to it who considers that compliance with its provisions would result in an exceptional and unreasonable hardship on him may appeal for relief. An appeal from a provision of this regulation should be filed with the local office of the Federal Housing Administration or other appropriate agency. An appeal from a schedule or direction to this regulation, unless expressly stated otherwise, should be filed by letter in duplicate addressed to the Civilian Production Administration, Washington 25, D. C., Ref: Direction or Schedule to PR-33.

(l) *Amendments and supplemental applications.* A builder may apply to the agency which approved his application for an amendment to it. If the amendment covers changes in the specifications of the proposed dwelling or dwellings or changes in the proposed sales price or rent (see paragraph (g) (6)), or a change in the construction schedule of a project involving several buildings, the request for an amendment may be made by letter in triplicate. If the request for an amendment is granted, the provisions of this regulation apply to the application as amended. If the request for an amendment requires additional buildings or dwelling units not included in the original application, a new application on Form NHA 14-56 covering the new units should be filed.

(m) *Communications.* All communications about this regulation should be addressed to the appropriate State or District Office of the Federal Housing Administration or other appropriate agency. Communications about Schedules A and B or directions to the regulation should, unless specifically directed otherwise, be addressed to the Civilian Production Administration, Washington 25, D. C., or to the appropriate Civilian Production Administration Construction Field Office.

(n) *Violations.* Any person who wilfully violates any provision of this regulation or who, in connection with this regulation, wilfully conceals a material fact or furnishes false information to any Department or Agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining any further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

INTERPRETATION 1

PUBLIC OFFERING

Paragraph (h) of Priorities Regulation 33 provides generally that the owner of dwelling accommodations constructed under the Regulation must "publicly offer" them for sale or for rent exclusively to eligible veterans during prescribed periods. This requirement imposes upon the owner the obligation not only to offer the accommodations to veterans in good faith but also to take such affirmative steps as, under the circumstances, will give notice to all veterans or a reasonably large class of veterans in the community that the accommodations are available and will give them a reasonable opportunity to negotiate for them. These steps may take the form of newspaper advertisements, listing the property with real estate brokers, or consulting the local Mayor's Veterans' Housing Committee for the purpose of finding eligible veterans. The mere posting of a placard is not sufficient for this purpose. The owner's intention as manifested by his conduct is an important element in determining whether the public offer requirement has been met. The refusal of the owner to sell to a particular veteran for personal reasons does not by itself necessarily constitute a violation of the public offer requirement. If, however, an owner refuses to sell or rent to veterans whom he does not know to be unqualified or unable to purchase or rent, and then sells or rents to a non-veteran, the owner has violated the regulation. (Issued October 31, 1946.)

INTERPRETATION 2

PREFERENCES TO VETERANS IN SELLING OR RENTING HOUSING ACCOMMODATIONS

Paragraph (h) of Priorities Regulation 33 sets forth the preferences which must be given to veterans of World War II when housing accommodations built under the regulation are being sold or rented. Paragraph (g) sets forth limitations on the sales prices and rents which may be charged for the accommodations. In general these paragraphs provide that the accommodations must be offered for sale or for rent to veterans of World War II (as defined in PR 33) during construction and for 30 days after completion or for 30 days in case the house or apartment is later sold or rented again. Where a one or two family house which was authorized after August 6, 1946 is to be sold, it must be offered to veterans during construction and for 60 days after completion or for 60 days in case of a later sale. The requirement that a house or apartment be offered for 60 or 30 days does not prevent the offeror from accepting a veteran's offer within the period. The following examples will illustrate the effect of these general rules. (In the illustrations it is assumed that the authorization was issued after August 6, 1946. If approval had been given on or before August 6, 1946, the 60 day figures below would be 30 days.)

(1) A one-family dwelling was built under the regulation, with a maximum sales price of $7,500. The builder sold it to a veteran when it was complete. The veteran now wishes to move. The veteran must publicly offer the house to other veterans of World War II for 60 days. The veteran must not charge more than $7,500 for the house whether he sells to a veteran or to a non-veteran, unless he has been authorized to charge more by the Federal Housing Administration. However, if any customary brokerage fees are paid for services rendered in connection with this sale, whether paid by the buyer or the seller, they may be added to the sales price.

(2) A one-family dwelling was built under the regulation, with a maximum sales price of $7,500. The builder publicly offered the dwelling to veterans during construction and for 30 days after completion without finding a veteran who wanted to buy it. He then sold the house to a non-veteran for $7,500. The non-veteran now wishes to sell the house. The non-veteran must publicly offer the dwelling to veterans of World War II for 60 days, at a price of $7,500 or less. However, if any customary brokerage fees are paid for services rendered in connection with this sale, whether paid by the buyer or the seller, they may be added to the sales price.

(3) A one-family dwelling was built under the regulation. A maximum sales price of $7,500 was approved, but no rent was stated in the application. The builder, instead of selling the dwelling at once, decides to rent it. He must apply to the Federal Housing Administration for approval of a maximum rent before he rents the dwelling.

(4) A one-family dwelling was built under the regulation, having a maximum rent of $63 a month and a maximum sales price of $7,500. The builder sold the house to a veteran. The veteran now wishes to rent the house. He must publicly offer the dwelling to veterans of World War II for 30 days, before renting to a non-veteran, and he must not charge more than $63, whether he rents to a veteran or a non-veteran unless the Federal Housing Administration authorizes an increase.

(5) A one-family dwelling was built under the regulation, having a maximum rent of $63 a month and a maximum sales price of $7,500. The builder rented it to a non-veteran for $63 a month, no veterans having applied during construction and for 30 days after completion. The tenant now wishes to sublet the house. He must publicly offer the house to veterans of World War II for 30 days and must not rent it for more than $63 a month. This would also be the case if the tenant who wished to sublet were a veteran.

(6) A multiple-family dwelling was built under the regulation, each apartment having a maximum rent of $63 a month. The builder publicly offered the apartments for rent to veterans during construction and for 30 days after completion. One of the apartments was leased by a veteran; another, not having been taken by a veteran during this period, was then leased to a non-veteran. Neither the veteran nor the non-veteran may be charged more than $63 a month for his apartment. Six months later the two apartments are vacated. The builder must publicly offer each for 30 days to veterans of World War II for not more than $63 a month.

(7) A multiple-family dwelling was built under the regulation, each apartment having a maximum rent of $63. All the apartments were rented to veterans when the building was completed. The builder sold the building to an investor. An apartment has been vacated by a tenant. The new owner must publicly offer the apartment for 30 days to veterans of World War II for not more than $63 a month, and must not rent it to a non-veteran unless he has made such a public offer to veterans.

(8) A multiple-family dwelling was built under the regulation, each apartment having a maximum rent of $63. The builder wishes to sell the building to be operated as a co-operative apartment house. The builder cannot do this unless the Federal Housing Administration grants him an appeal from the requirement that he must publicly offer the apartments for rent to veterans during construction and for 30 days after completion.

See also Interpretation 1 to Priorities Regulation 33 which defines and explains the requirements of the regulation which concern public offering to veterans. (Issued November 15, 1946.)

INTERPRETATION 3

CHARGES IN EXCESS OF MAXIMUM SALES PRICE REQUESTED BECAUSE OF INCIDENTAL CHARGES, EXTRAS, OR ADDITIONAL CONSTRUCTION

Under paragraph (g) of Priorities Regulation 33 a seller must not require a purchaser, as a condition for the sale of a house, to buy or agree to buy any commodity, service, or property interest, except where the regulation specifically permits the charges for the commodity, service, or property interest to be added to the maximum sales price. This means that the seller must offer the dwelling accommodations to the purchaser at or below the approved maximum sales price and free from incidental charges and extras. The following examples illustrate the effect of this general rule:

1. *Abstract fees and title insurance.* The purchaser may pay the customary abstract fees and title insurance over and above the maximum sales price, unless the purchaser is required to take these services when he does not want them.

2. *Financing charges.* The purchaser may pay customary incidental charges (such as fire insurance, title insurance, mortgagee's appraisal fees, and future taxes) in connection with financing the purchase of a dwelling, if the purchase of these services is not made a condition to the sale. The purchaser must be given an opportunity to purchase the dwelling for cash at or below the approved maximum price and to finance the purchase himself in any way he desires. The seller cannot require the purchaser to finance the purchase through a particular lending institution.

3. *Previously incurred charges.* Charges which have been incurred by the builder before the sale of the dwelling must not be charged the purchaser in addition to the maximum sales price. A request that a prospective purchaser pay such charges for prior services would be making the charges a condition to the sale. Charges of this kind include accumulated taxes before the date of sale, interest before the sale, prepayment penalties in connection with a builder's loan, fees for survey of site and liability and fire insurance before the sale.

4. *Charges for additional construction or for equipment or fixtures not specified in the application.* The builder must publicly offer the building described in the application at or below the approved maximum sales price. He may not, under his authorization, do any additional construction in connection with the authorized construction over and above what is specified in the application, except where he gets written approval from the agency which approved the original application. He must not increase his sales price above the approved maximum sales price by reason of any such additional construction or added equipment, except where the increased price has been approved in writing by the agency which approved the original application.

A person who has bought a house built under Priorities Regulation 33 and who has made improvements to the house (authorization under VHP-1 may be required for such improvements) must not charge more than the approved maximum sales price for the house if he sells it, unless he has obtained permission for the increased charge from the agency which approved the original application (this will usually be given, where appropriate, in connection with the application for authorization under VHP-1 to make the improvements). (Issued February 3, 1947.)

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1103]

KIMBALL BROS.

A. J. Kimball and G. C. Kimball, partners, d/b/a Kimball Brothers, at 256 South Saginaw Street, Pontiac, Michigan, about November 23, 1946, without authorization of the Civilian Production Administration began and thereafter carried on construction, at an estimated cost of $10,000, of a structure at 631 Oakland Avenue, Pontiac, Michigan, for use in the servicing of farm tractors and farm implements and for supplying repair parts therefor. This was a violation of Veterans' Housing Program Order No. 1, and has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1103 *Suspension Order No. S-1103.* (a) Neither A. J. Kimball nor G. C. Kimball, individually or d/b/a Kimball Brothers, their successors and assigns, nor any other person shall do any further construction on the structure at 631 Oakland Avenue, Pontiac, Michigan, including putting up, completing or altering the structure, unless hereafter

authorized in writing by the Civilian Production Administration.

(b) A. J. Kimball and G. C. Kimball, d/b/a Kimball Brothers, shall refer to this order in any application or appeal which they may file with the Civilian Production Administration or any other duly authorized Governmental agency for priorities assistance or authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve A. J. Kimball and G. C. Kimball, individually or d/b/a Kimball Brothers, their successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1104]

UNITED STATES FIDELITY & GUARANTY CO.

United States Fidelity and Guaranty Co., a corporation, 75 William Street, New York, N. Y., made application on September 12, 1946, on Form CPA-4423, for authorization to do certain construction in repairing and making alterations upon the structure to be used as an office building at 100 Maiden Lane, New York City, at an estimated cost of $50,000, which was denied on September 24, 1946. About October 1, 1946, it began and carried on construction, repairs and alterations upon the aforesaid structure at an estimated cost in excess of $25,100, despite the denial of authorization by the Civilian Production Administration. This was a wilful violation of Veterans' Housing Program Order No. 1, and has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1104 *Suspension Order No. S-1104.* (a) Neither United States Fidelity and Guaranty Co., a corporation, its successors and assigns, nor any other person shall do any further construction on the premises located at 100 Maiden Lane, New York City, N. Y., including completing the remodeling, repairs or alterations or construction therein, unless hereafter specifically authorized in writing by the Civilian Production Administration.

(b) United States Fidelity and Guaranty Co., shall refer to this order in any application or appeal which they may file with the Civilian Production Administration for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve the United States Fidelity and Guaranty Co., its successors and assigns, from any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

[Limitation Order L-359, Revocation]

LUMBER, MILLWORK AND HARDWOOD FLOORING

Section 3285.153 *Limitation Order L-359,* is revoked effective March 31, 1947. This revocation does not affect any liabilities incurred for the violation of the order, or of actions taken by the Civilian Production Administration under it. After March 31, 1947 deliveries of Douglas Fir and Western Pine shop lumber will be subject to Veterans' Housing Program Order 5. Nothing in this revocation affects the validity of ratings applied or extended for lumber prior to April 1, 1947.

PART 4700—VETERANS' EMERGENCY HOUSING PROGRAM

[Veterans' Housing Program Order 5]

DELIVERY RESTRICTION ON DOUGLAS FIR AND WESTERN PINE SHOP LUMBER

There is a shortage in the supply of Douglas Fir and Western Pine shop lumber for defense, for private account and for export. Douglas Fir and Western Pine shop lumber are suitable for the manufacture of millwork needed for the construction and completion of housing accommodations in rural and urban areas and for construction and repair of essential farm buildings. This order is necessary and appropriate in the public interest, to promote the national defense and to effectuate the purposes of the Veterans' Emergency Housing Act of 1946.

§ 4700.18 *Veterans' Housing Program Order 5*—(a) *Definitions.* For the purpose of this order:

(1) "Sawmill" means: (i) a person operating any mill or plant, stationary or portable, that produces Douglas Fir or Western Pine lumber. The term includes a person who has Douglas Fir and Western Pine logs manufactured into lumber by a sawmill, except a person who has less than 5,000 feet a quarter of his own logs sawed into lumber for his own use; (ii) a person operating any plant or concentration yard which processes (by drying, resawing, edging, grading, sorting, planing, or otherwise) 25 percent or more of the total volume of Douglas Fir and Western Pine logs and lumber which it receives.

(2) "Distributor" means any person who buys and stocks Douglas and Western Pine lumber for resale as lumber. The term "distributor" also includes any establishment owned or operated by a sawmill where Douglas Fir and Western Pine lumber is sold. A distributor who has two or more distinct and separate yards must for the purpose of this order, consider each yard a "distributor".

(3) "Millwork" means only sash, windows, doors, interior and exterior frames for the foregoing, combination doors and garage doors; storm sash and storm doors; window, sash and door screens; porch columns, louvres and newels; standing interior trim for doors and windows and cased openings; crown, bed, cove, brick, screen, panel, band and cornice mouldings; quarter, half and full rounds; window and door steps; nosing, screen, sash, sill and frame stock; hook strip, corner and glass bead; chair, porch and hand rails; shelf cleat; panel strips; stools and aprons; lattice; drip cap and water table; back band, cap trim, floor and base mouldings; astragals, and baluster stock; mantels; built-in kitchen cabinets, medicine cases, china cabinets, ironing boards and linen closets.

(4) "Cut-stock manufacturer" means a person who supplies from his production plant stock surfaced 2-sides, cut to approximate net sizes for the manufacture of doors, sash, check rail and plain rail windows, exterior frames and inside jambs. Cut-stock for doors, windows and sash consists of stock cut to approximate net sizes S2S and not further machined for stiles, rails, bars, muntins, meeting rails and facings for door stiles. Cut-stock for frame parts consists of stock cut to approximate net sizes S2S and not further machined for pulley stiles, blind and parting stops, outside casings, sills, drip cap and brick mould.

(b) *Sawmills.* Sawmills must sell only to millwork or cut-stock manufacturers or distributors, or to persons who certify in writing that they will sell to millwork or cut-stock manufacturers, 85 percent of all 8/4" and thinner Douglas Fir and Western Pine shop, including No. 3 clears, produced in any quarter.

(c) *Distributors.* A distributor must sell only to millwork or cut-stock manufacturers, or persons who certify in writing that they will sell to millwork or cut-stock manufacturers, 85 percent of all 8/4" and thinner Douglas Fir and Western Pine shop, including No. 3 clears, received in any quarter.

(d) *Miscellaneous*—(1) *Applicability of regulations.* Except as otherwise required by this order, Priorities Regulations 1 and 3 continue to govern the use of ratings and the acceptance, scheduling and filling of orders. All other applicable regulations and orders of the Civilian Production Administration must be observed where not inconsistent with this order.

(2) *Appeals.* An appeal from the provisions of this order should be made by mailing a letter in triplicate to the Civilian Producton Administration, Forest Products Division, Washington 25, D. C., Ref.: VHP 5.

(3) *Effective date.* This order shall become effective April 1, 1947.

Issued this 28th day of February 1947.

This amendment shall become effective March 1, 1947.

Issued this 28th day of February 1947.

PHILIP B. FLEMING,
Temporary Controls Administrator.

Statement To Accompany Amendment 111 to the Rent Regulation for Housing and Amendment 103 to the Rent Regulation for Transient Hotels, Residential Hotels, Rooming Houses and Motor Courts

By these amendments the application of the rent regulations is terminated in a portion of the Phoenix-Salt River Valley defense-rental area in Arizona, consisting of:

1. The portion of Maricopa County lying west of the west line of Range 2 West, Gila and Salt River Meridian; lying north of the north line of Township 3 North, Gila and Salt River Base Line; and lying south of the south line of Township 2 South, Gila and Salt River Base Line and,

2. Gila County, except the portion bounded on the north, west, and south by Crook National Forest, and on the east by San Carlos Indian Reservation.

The application of the regulations is also terminated in a portion of the Fort Huachuca defense-rental area in Arizona, consisting of Santa Cruz County, except the portion within the corporate limits of the City of Nogales; in a portion of the Prescott-Flagstaff defense-rental area in Arizona, consisting of Yavapai County, except Townships 13 and 14 North, Range 2 West, Gila and Salt River Base and Meridian, including the City of Prescott; in a portion of the Tucson defense-rental area in Arizona, consisting of Pima County, except the portion lying east of the Papago Indian Reservation; in a portion of the Yuma defense-rental area in Arizona, consisting of Yuma County, except the portion lying west of the west line of Range 21 West, Gila and Salt River Meridian; in a portion of the Lassen County defense-rental area in California, consisting of Lassen County except Township 29 North Range 12 East, Township 29 North Range 11 East, Township 30 North Range 12 East, and Township 30 North Range 11 East, Mt. REGISTRATION OF HOUSE FLAG AND FUNNEL MARK

FEBRUARY 25, 1947.

House flag and funnel mark of South Atlantic Steamship Line, Inc., registered in accordance with § 3.81 (a), Customs Regulations of 1943.

The Commissioner of Customs, by virtue of the authority vested in him by section 7 of the Act of May 28, 1908 (U. S. C., title 46, sec. 49), as modified by section 102, Reorganization Plan No. 3 of 1946 (11 F. R. 7875), and in accordance with § 3.81 (a) of the Customs Regulations of 1943 (19 CFR 3.81 (a)), has registered the house flag and funnel mark of the South Atlantic Steamship Line, Inc., described below:

(a) *House flag.* The house flag is a triangular pennant having a white field. The hoist is 4 feet in height; the fly is 6 feet. Along the upper and lower sides of the pennant, there run yellow stripes 7 inches in width. Inside these stripes, there are blue stripes, which are also 7 inches in width, parallel with the yellow stripes.

(b) *Funnel mark.* The funnel mark is to appear on a funnel of a yellow color. The mark consists of a black band 3 feet in width at the top of the funnel, below which are a yellow band 4 feet in width, a blue band 2 feet in width, a white band 2 feet in width, and a blue band 2 feet in width.

Colored scale replica drawings of the house flag and of the funnel mark described above are on file with the Division of the Federal Register.

HENRY SCHNITTGER

In re: Estate of Henry Schnittger, deceased. File No. D–28–10384; E. T. sec. 14774.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

That the property described as follows: All right, title, interest and claim of any kind or character whatsoever of Ida Moneta, Lena Skeba, Wilhelm Schnittger and Meta Denef, and each of them, in and to the Estate of Henry Schnittger, deceased,

is property payable or deliverable to, or claimed by, nationals of a designated enemy country, Germany, namely,

Nationals and Last Known Address

Ida Moneta, Germany.
Lena Skeba, Germany.
Wilhelm Schnittger, Germany.
Meta Denef, Germany.

That such property is in the process of administration by Maria Schlosser, as administratrix of the Estate of Henry Schnittger, deceased, acting under the judicial supervision of the Surrogate's Court of Nassau County, New York;

And determined that to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany);

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on February 17, 1947.

COSTS AND EXPENSES INCURRED IN CERTAIN ACTIONS OR PROCEEDINGS IN CERTAIN NORTH DAKOTA, MONTANA, AND ILLINOIS COURTS

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it having been found:

1. That each of the persons named in Column 1 of Exhibit A, attached hereto and by reference made a part hereof, was a person within the designated enemy country or the enemy-occupied territory identified in Column 2 of said Exhibit A opposite such person's name;

2. That it was in the interest of the United States to take measures in connection with representing each of said persons in the court or administrative action or proceeding identified in Column 3 of said Exhibit A opposite such person's name, and such measures having been taken;

3. That as a result of such action or proceeding each of said persons obtained or was determined to have the property particularly described in Column 4 of said Exhibit A opposite such person's name;

4. That such property is in the possession or custody of, or under the control of, the person described in Column 5 of said Exhibit A opposite such property;

5. That, in taking such measures in each of such actions or proceedings, costs and expenses have been incurred in the amount stated in Column 6 of said Exhibit A opposite such action or proceeding;

Now, therefore, there is hereby vested in the Attorney General of the United States, to be used or otherwise dealt with in the interest of and for the benefit of the United States, interest in the property in the possession or custody of, or under the control of, the persons described in Column 5 of said Exhibit A in amounts equal to the sums stated in Column 6 of said Exhibit A.

The term "designated enemy country" as used herein shall have the meaning prescribed in section 10 of Executive Order 9193, as amended. COSTS AND EXPENSES INCURRED IN CERTAIN ACTIONS OR PROCEEDINGS IN CERTAIN CALIFORNIA COURTS

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it having been found:

1. That each of the persons named in Column 1 of Exhibit A, attached hereto and by reference made a part hereof, was a person within the designated enemy country or the enemy-occupied territory identified in Column 2 of said Exhibit A opposite such person's name;

2. That it was in the interest of the United States to take measures in connection with representing each of said persons in the court or administrative action or proceeding identified in Column 3 of said Exhibit A opposite such person's name, and such measures having been taken;

3. That as a result of such action or proceeding each of said persons obtained or was determined to have the property particularly described in Column 4 of said Exhibit A opposite such person's name;

4. That such property is in the possession or custody of, or under the control of, the person described in Column 5 of said Exhibit A opposite such property;

5. That, in taking such measures in each of such actions or proceedings,

costs and expenses have been incurred in the amount stated in Column 6 of said Exhibit A opposite such action or proceeding;

Now, therefore, there is hereby vested in the Attorney General of the United States, to be used or otherwise dealt with in the interest of and for the benefit of the United States, interests in the property in the possession or custody of, or under the control of, the persons described in Column 5 of said Exhibit A in amounts equal to the sums stated in Column 6 of said Exhibit A.

LOUISE SEGHORN

In re: Estate and trust under the Will of Louise Seghorn, deceased. File No. D-28-9611; E. T. sec. 13311.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Anna Borchers Bischoff, Anna Siems, Heinrich Borchers, also known as Henrich Borchers, Eilert Borchers, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the issue, names unknown, of Anna Borchers Bischoff, the issue, names unknown, of Eilert Borchers, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

3. That all right, title, interest and claim of any kind or character whatsoever of the persons identified in subparagraphs 1 and 2 hereof, and each of them, in and to the estate and trust under the will of Louise Seghorn, deceased, is property payable or deliverable to, or claimed by, the aforesaid nationals of a designated enemy country (Germany);

4. That such property is in the process of administration by The Howard Savings Institution, 768 Broad Street, Newark 1, New Jersey, and Christian Seghorn, Hight Street, Stirling, New Jersey, co-executors and co-trustees, acting under the judicial supervision of the Morris County Surrogate's Court, Morristown, New Jersey;

and it is hereby determined:

5. That to the extent that the above-named persons and the issue, names unknown, of Anna Borchers Bischoff, and the issue, names unknown, of Eilert Borchers, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

CHUO FIRE AND ACCIDENT INSURANCE CO. LTD. AND MANNHEIM INSURANCE CO.

In Re: Rights and interests of Chuo Fire and Accident Insurance Company, Limited, and Mannheim Insurance Company under Final Decree of the United States District Court, Southern District of New York, in the matter of the petition of Kabushiki Kaisha Kawasaki Zosenjo et al., for limitation of liability.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Mannheim Insurance Company is a corporation organized under the laws of Germany, having its principal place of business in Mannheim, Germany, and is a national of a designated enemy country (Germany);

2. That Chuo Fire and Accident Insurance Company, Limited, is a corporation organized under the laws of Japan, having its principal place of business in Tokyo, Japan, and is a national of a designated enemy country (Japan);

3. That the property described as follows: All rights and interests created in Chuo Fire and Accident Insurance Company, Limited, and Mannheim Insurance Company, and each of them, under and by virtue of a final decree of the United States District Court, Southern District of New York, dated July 29, 1941, in the matter of The Petition of Kabushiki Kaisha Kawasaki Zosenjo, Owner, and Kawasaki Kisen Kabushiki Kaisha, Bareboat Charterer of the Steamship Venice Maru for Limitation of Liability under the Fire Statute of 1851, including, particularly, but not limited to, the rights to enter into stipulations as to amounts receivable under said final decree, to receive such amounts and to enter satisfactions of judgment therefor,

is property within the United States owned or controlled by, payable or deliverable to, or held on behalf of or on account of or owing to, or which is evidence of ownership or control by, the aforesaid nationals of designated enemy countries (Japan and Germany), is an interest in a ship or vessel of the aforesaid nationals of designated enemy countries (Japan and Germany) and is property which is in libel proceedings and is payable or deliverable to, or claimed by, the aforesaid nationals of designated enemy countries (Japan and Germany);

And determining that to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of designated enemy countries, viz: (Germany) and (Japan);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, subject, however, to the liens of Bingham, Englar, Jones & Houston, 90 John Street, New York 7, New York, against the amounts receivable by Chuo Fire & Accident Insurance Company, Ltd. and Mannheim Insurance Company under and by virtue of the decree identified in subparagraph 3 hereof, such liens being in the sum of $1,159.42 against the amount so receivable by Chuo Fire & Accident Insurance Company, Ltd. and in the sum of $251.89 against the amount so receivable by Mannheim Insurance Company, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on February 26, 1947.

MONTANA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

FEBRUARY 21, 1947.

Departmental Order approved June 21, 1946, revoked Departmental Order of February 28, 1946, insofar as it withdrew in the first form prescribed by section 3 of the Reclamation Act of June 17, 1902 (32 Stat. 388), the lands hereinafter described within the Missouri River Project, Montana, and provided that such revocation shall not affect the withdrawal of any other lands by said order or affect any other order withdrawing or reserving the lands described.

At 10:00 a. m. on April 25, 1947, the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from April 26, 1947, to July 25, 1947, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from April 6, 1947, to April 25, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on April 26, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on July 26, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from July 6, 1947, to July 25, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on July 26, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office at Great Falls, Montana, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the District Land Office at Great Falls, Montana.

The lands affected by this order are described as follows:

PRINCIPAL MERIDIAN

T. 8 N., R. 1 E.,
Sec. 2, W½SW¼.
T. 9 N., R. 1 E.,
Sec. 18, SW¼NE¼, NW¼, and S½;

ALASKA

NOTICE FOR FILING OBJECTIONS TO PUBLIC LAND ORDER 354[1] WITHDRAWING PUBLIC LANDS FOR THE USE OF ALASKA RAILROAD

Notice is hereby given that for a period of 30 days from the date of publication of this notice, persons having cause to object to the terms of Public Land Order 354, of February 19, 1947, withdrawing Block 20 including the 20-foot alley therein in Anchorage Town Site, Alaska, as shown on the plat of survey approved September 10, 1915 by the Commissioner of the General Land Office, may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C.

In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent and extent. Whether or not a hearing is held, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

WARNER W. GARDNER,
Assistant Secretary of the Interior.

OFFICE OF TEMPORARY CONTROLS

Civilian Production Administration

[C-479]

JOSEPH E. BUEHLER

CONSENT ORDER

Joseph E. Buehler of Miami, Florida, is charged by the Civilian Production Administration with violation of Veterans' Housing Program Order No. 1 in that subsequent to March 26, 1946 and on or about September 22, 1946, he began construction of a one-story concrete block stucco structure located at 3022 N. W. 62d Street, Miami, Florida, size 30 ft. x 40 ft., to be used in the manufacturing of cigars, at an estimated cost of $8,500.00 which was afterwards enlarged and extended to include a two-story structure, size 36 ft. x 90 ft., with apartments located on the second floor thereof, and at an estimated cost for the whole structure as altered of approximately $21,742.27. The estimated cost of the original structure was within the $15,000.00 exemption for industrial structures used for manufacturing; however, after the estimated cost of said structure as altered and extended exceeded the exemption, construction thereof was carried on without authorization from the Civilian Production Administration, and until a stop violation telegram was dispatched to the contractor, Buell C. Rollins, on January 31, 1947. The sum of $14,745.00 was expended in materials and labor which was incorporated into said structure to and including January 31, 1947.

Joseph E. Buehler admits the violation as charged and does not desire to contest the same and has consented to the issuance of this order. Joseph E. Buehler asserts, however, that the violation which he admits was not wilful or intentional.

Wherefore, upon the agreement and consent of Joseph E. Buehler, the Regional Compliance Director and the Regional Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered,* That:

(a) Neither Joseph E. Buehler, his successors and assigns, nor any other person shall do any further construction on the premises herein described or any part thereof located at 3022 N. W. 62d Street, Miami, Florida, including the putting up, completing or altering of any structure located on said premises except or unless hereafter specifically authorized in writing by the Civilian Production Administration.

(b) The issuance of this consent order shall be without prejudice to the consideration on its merits of application for authorization to complete construction of the structures covered by this order.

(c) Joseph E. Buehler shall refer to this order in any application or appeal which he may file with the Civilian Production Administration.

(d) Nothing contained in this order shall be deemed to relieve Joseph E. Buehler, his successors and assigns from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 28th day of February 1947.

WILLIE E. PARNELL

CONSENT ORDER

Willie E. Parnell, doing business as Parnells Restaurant, Mayport, Florida, is charged by the Civilian Production Administration with violation of Veterans' Housing Program Order No. 1, as issued and amended by the Civilian Production Administration, in that subsequent to March 26, 1946, and on or about November 30, 1946, he began and carried on the construction of a commercial building to be used as a restaurant located at the corner of Ocean and Henry Streets, Mayport, Florida, at an estimated cost of $6,000.00 without the same having been authorized by the Civilian Production Administration. Construction of said building was begun and carried on until January 15, at which time the matter was investigated by a Compliance Investigator of the Civilian Production Administration, and on said date there had been incorporated into said building, material and labor in the approximate sum of $4,400. On February 20, 1947, a hearing was had in said case before a Compliance Commissioner of the Civilian Production Administration, which was upon charges contained in a charging letter dispatched to Willie E. Parnell on February 14, 1947.

Willie E. Parnell admits the violation as charged and does not desire to contest the same and has consented to the issuance of this order. Willie E. Parnell asserts, however, that the violation which he admits was not wilful or deliberate.

Wherefore, upon the agreement and consent of Willie E. Parnell, the Regional Compliance Director, and the Regional Compliance Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered,* That:

(a) Neither Willie E. Parnell, his successors or assigns, nor any other person, shall do any further construction on the premises herein described or any part thereof located at the corner of Ocean and Henry Streets, Mayport, Florida, including the putting up, completing or altering of any structure located on said premises, unless hereafter specifically authorized in writing by the Civilian Production Administration.

(b) The issuance of this consent order shall be without prejudice to the consideration on its merits of application for authorization to complete construction of the structure covered by this order.

(c) Willie E. Parnell shall refer to this order in any application or appeal which he may file with the Civilian Production Administration for priorities assistance or for authorization to carry on construction.

(d) Nothing contained in this order shall be deemed to relieve Willie E. Parnell, his successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

ACE LUMBER & SUPPLY CO., INC.

CONSENT ORDER

Ace Lumber & Supply Co., Inc., a New York corporation with its principal office and place of business at 32–02 Astoria Boulevard, Long Island City (2), New York, is engaged in the business as a lumber distributor, among other things. It is charged by the Civilian Production Administration, with violating Direction 1 to Priorities Regulation 33 and Priorities Regulations 1 and 3 in that as a lumber distributor it placed certified orders for delivery of housing construction lumber during the periods February 1 to April 30, and June 1 to September 30, 1946, inclusive, for amounts in excess of the amounts authorized and in that it failed to keep and preserve accurate and complete records of the details of its transactions and its inventories of the materials to which the rules, regulations and orders of the Civilian Production Administration apply. Ace Lumber & Supply Co., Inc., admits the violations as charged, does not desire to contest the same, and has consented to the issuance of this order.

Wherefore, upon the agreement and consent of Ace Lumber & Supply Co., Inc., the Regional Compliance Director, and the Regional Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered,* That:

(a) Until the 31st day of March, 1947, Ace Lumber & Supply Co., Inc., its successors and assigns, shall not place or apply or extend an HH rating on orders for delivery during the first quarter of 1947 of housing construction lumber.

(b) Until the 31st day of March, 1947, Ace Lumber & Supply Co., Inc., its successors and assigns, shall sell or deliver housing construction lumber, to the extent of 125,000 board feet, only on rated orders accepted by it for delivery in the first quarter of 1947. Ace Lumber & Supply Co., Inc., represents that it has an inventory at present of 125,000 board feet of housing construction lumber. It is agreed that Ace Lumber & Supply Co., Inc., placed certified orders in excess of the amount authorized, for 176,954 board feet of housing construction lumber.

(c) Ace Lumber & Supply Co., Inc., its successors and assigns, shall keep and preserve accurate and complete records of the details of each transaction to which Limitation Order L–359 and other rules, regulations and orders of the Civilian Production Administration apply, as required by § 944.15 of Priorities Regulation 1.

(d) Nothing contained in this order shall be deemed to relieve Ace Lumber & Supply Co., Inc., its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

SECURITIES AND EXCHANGE COMMISSION

[File No. 7–975]

SCRANTON ELECTRIC CO.

FINDINGS AND ORDER GRANTING UNLISTED TRADING PRIVILEGES

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 25th day of February A. D. 1947.

In the matter of application by the Philadelphia Stock Exchange for unlisted trading privileges in Scranton Electric Company, common stock, $5.00 par value.

The Philadelphia Stock Exchange has made application to the Commission pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X–12F–1 for permission to extend unlisted trading privileges to the $5.00 Par Value Common Stock of Scranton Electric Company.

After appropriate notice and opportunity for hearing and in the absence of any request by any interested person for hearing on this matter, the Commission on the basis of the facts submitted in the application makes the following findings:

(1) That this security is listed and registered on the New York Stock Exchange; that out of a total of 1,214,000 shares outstanding, members of the Philadelphia Stock Exchange held 80,960 shares of this security on December 31, 1946 for 815 different shareholders, and that in the vicinity of this Exchange there were 5,577 transactions involving 628,231 shares from April 1, 1946 to December 31, 1946;

(2) That sufficient public distribution of, and sufficient public trading activity in, this security exist in the vicinity of the applicant exchange to render the extension of unlisted trading privileges thereto appropriate in the public interest and for the protection of investors; and

(3) That the extension of unlisted trading privileges on the applicant exchange to this security is otherwise appropriate in the public interest and for the protection of investors.

Accordingly it is ordered, Pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934, that the application of the Philadelphia Stock Exchange for permission to extend unlisted trading privileges to the $5.00 Par Value Common Stock of Scranton Electric Company be, and the same is, hereby granted.

By the Commission.

DALLAS POWER & LIGHT CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 24th day of February A. D. 1947.

Notice is hereby given that a declaration and amendment thereto have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Dallas Power & Light Company ("Dallas"), an electric utility subsidiary of Texas Utilities Company, a registered holding company subsidiary of American Power & Light Company, a registered holding company subsidiary of Electric Bond and Share Company, also a registered holding company. Declarant designates sections 6 (a) (2) and 7 of the act as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than March 3, 1947 at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after March 3, 1947, said declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said declaration as amended which is in file in the offices of this Commission for a statement of the transactions therein proposed which are summarized as follows:

Dallas proposes to amend its charter in the following respects: (1) to provide for a dividend restriction on common stock whereby not more than 75% of the earnings available to the common stock may be paid out as dividends thereon when the ratio of common stock equity to total capitalization is between 20% and 25% of total capitalization, and not more than 50% of such earnings may be paid out as dividends when the ratio of common stock equity to total capitalization falls below 20%; (2) to grant holders of common stock preemptive rights with respect to any offering of common stock or any security convertible into common stock for money, other than by a public offering of such shares; (3) to provide that the consideration received for the issuance and sale of additional common stock without nominal or par value be entered in the capital stock account; (4) to increase the authorized common stock from 273,000 shares without nominal or par value to 2,500,000 shares without nominal or par value; and (5) to expressly confer on the company or its Board of Directors certain additional powers with respect to the borrowing of money, mortgaging of the company's property and purchase and sale of its own securities.

The declaration requests that the Commission's order permitting the declaration herein as amended to become effective be issued as promptly as may be practicable and that it shall be effective forthwith.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

Chapter VIII—Production and Marketing Administration (Sugar Branch)

PART 802—SUGAR DETERMINATIONS

FAIR AND REASONABLE WAGE RATES FOR PERSONS EMPLOYED IN PRODUCTION AND CULTIVATION OF SUGARCANE IN LOUISIANA DURING 1947

Pursuant to the provisions of section 301 (b) of the Sugar Act of 1937, as amended, and after investigation and due consideration of the evidence obtained at the hearing held in New Iberia, Louisiana, on July 1, 1946, the following determination is hereby issued:

§ 802.24z *Fair and reasonable wage rates for persons employed in the production and cultivation of sugarcane in Louisiana during the calendar year 1947.* The requirements of section 301 (b) of the Sugar Act of 1937, as amended, shall be deemed to have been met with respect to the production and cultivation of sugarcane in Louisiana during the calendar year 1947, if all persons employed on the farm during that period in the production and cultivation of sugarcane shall have been paid in full for all such work and shall have been paid wages therefor as follows:

(a) Wages in cash at rates agreed upon between the producer and laborer but in no case less than the following:

(1) *On a time basis.* For all work except as otherwise specified:

Adult males, per 9-hour day	$2.60
Adult females, per 9-hour day	2.15
Tractor drivers, per 9-hour day	3.25
Teamsters, per 9-hour day	2.60
Workers between 14 and 16 years of age, per 8-hour day	1.95

For a working day longer or shorter than 9 hours for adult workers (or shorter than 8 hours for workers between 14 and 16 years of age) the rate shall be in proportion to the applicable rate prescribed above. (Maximum employment per day for workers 14 to 16 years of age is 8 hours.)

(2) *On a piece rate basis.* The rate for all classes of work performed on a piece rate basis shall be as agreed upon between the producer and laborer: *Provided, however,* That the average earnings for the time involved on each separate unit of work for which a piece rate is agreed upon shall be not less than the applicable daily or hourly rate provided under subparagraph (1) of this section.

(b) *General provisions.* (1) In addition to the foregoing, the producer shall furnish to the laborer without charge the customary perquisites such as a habitable house, a suitable garden plot with facilities for its cultivation, pasturage for livestock, medical attention, and similar incidentals.

(2) The producer shall not reduce the wage rates to laborers below those determined herein through any subterfuge or device whatsoever.

(c) Notwithstanding the foregoing provisions of this section, the requirements of section 301 (b) of the said act shall be deemed to have been met with respect to work performed from January 1, 1947, to the date of this determination, if cash wages are paid therefor in amounts not less than the rates determined, pursuant to said act, for the period from February 6, 1946, to the end of the calendar year 1946. (Sec. 301, 50 Stat. 909; 7 U. S. C. 1131)

Issued this 26th day of February 1947.

TITLE 8—ALIENS AND NATIONALITY

Chapter II—Office of Alien Property, Department of Justice

PART 501—RULES OF PROCEDURE

TIME FOR FILING CLAIMS

Section 501.5 (General Order No. 21) is hereby amended to read as follows:

§ 501.5 *Time for filing claims*—(a) *Title claims.* (1) Notices of Claim for return of any property or interest seized by, vested in, or transferred to the Attorney General of the United States or his predecessor, the Alien Property Custodian under the Trading with the Enemy Act, as amended, shall be filed within two years from the seizure, vesting, or transfer of the property or interest in respect of which the claim is made, or within two years from August 8, 1946, whichever is later, computed in accordance with section 33 of the Trading with the Enemy Act.

(2) Notwithstanding the provisions of subparagraph (1) of this paragraph, if no such notice of claim is filed prior to July 1, 1947, with respect to any property or interest vested in or transferred to the Attorney General of the United States, or his predecessor, the Alien Property Custodian, between December 18, 1941, and December 31, 1946, inclusive, or the net proceeds thereof, the Attorney General is authorized, under section 34 of the act, to pay debts owed by the person who owned such property or interest immediately prior to such vesting or transfer, out of money included in, or received as net proceeds from the sale, use, or other disposition of, such property or interest, after deduction for expenses and taxes pursuant to section 34 (g) of the act.

(b) *Debt claims.* (1) Claims asserting any debt owed by the person who owned any property or interest immediately prior to its vesting in or transfer to the Attorney General of the United States or his predecessor, the Alien Property Custodian, on or after December 18, 1941, shall be filed with the Office of Alien Property within the time fixed by the Attorney General of the United States in accordance with section 34 of the Trading with the Enemy Act. Under section 34 (a) of the act any time fixed for the filing of any debt claims may be extended in respect of any or all debtors covered thereby; and at least sixty (60) days notice thereof will be given by publication in the FEDERAL REGISTER.

(2) Bar Order No. 1 (12 F. R. 1448) has fixed June 1, 1947, as the date after which the filing of debt claims shall be barred in respect of debtors who owned any property or interest immediately prior to its vesting in or transfer to the Attorney General of the United States or his predecessor, the Alien Property Custodian, between December 18, 1941, and December 31, 1946, inclusive.

PART 131—GENERAL LICENSES UNDER EXECUTIVE ORDER 8389, APRIL 10, 1940, AS AMENDED, AND REGULATIONS ISSUED PURSUANT THERETO

CERTAIN COUNTRIES GENERALLY LICENSED

MARCH 4, 1947.

Amendment to General License No. 94 under Executive Order No. 8389, as amended, Executive Order No. 9193, as amended, section 5 (b) of the Trading With the Enemy Act, as amended by the First War Powers Act, 1941, relating to foreign funds control.

Section 131.94 (General License No. 94) is hereby amended to read as follows:

§ 131.94 *General License No. 94; certain countries generally licensed*—(a) *Blocked countries generally licensed subject to certain conditions.* A general license is hereby granted licensing all blocked countries and nationals thereof (excepting the following countries and nationals thereof: Portugal, Spain, Sweden and Tangier) to be regarded as if such countries were not foreign countries designated in the order, *Provided*, That

(1) Any property in which on the effective date hereof any of the following had an interest: (i) any blocked country (including countries licensed hereby) or person therein; or (ii) any other partnership, association, corporation, or other organization, which was a national of a blocked country (including countries licensed hereby) by reason of the interest of any such country or person therein; or

(2) Any income from such property accruing on or after the effective date hereof shall continue to be regarded as property in which a blocked country or national thereof has an interest and no payment, transfer, or withdrawal or other dealing with respect to such property shall be effected under, or be deemed to be authorized by, this paragraph.

(b) *Transactions under other licenses authorized without regard to certain restrictions.* With respect to property subject to the proviso of paragraph (a) of this section, any transaction not involving any excepted country or national thereof which is authorized under any license (other than §§ 131.1, 131.1a, 131.4, 131.27 and 131.30a (General Licenses Nos. 1, 1A, 4, 27 and 30A) or any other license to the extent that it merely authorizes transfers between blocked accounts of the same person or changes in the form of property held in a blocked account) may be effected without regard to any terms of such license relating to the method of effecting such transaction.

(c) *Certain other transactions authorized.* This license also authorizes any transaction which could be effected under § 131.53 (General License No. 53) if the countries licensed hereby were members of the generally licensed trade area: *Provided*, That this paragraph shall not be deemed to authorize any payment, transfer, or withdrawal, or other dealing with respect to any property which is subject to the proviso of paragraph (a) of this section.

(d) *General Ruling No. 17 not waived with regard to certain countries.* This license shall not be deemed to waive the requirements of General Ruling No. 17 with respect to blocked property held in any account maintained in the name of any bank or other financial institution located in Switzerland or Liechtenstein, unless such property has been certified under paragraph (1) of § 131.95 (General License No. 95).

(e) *Applicability of license to nationals of countries licensed hereby who are also nationals of excepted countries.* Paragraphs (a) and (b) of this section shall not apply with respect to any national of a country licensed hereby who is also a national of any excepted country, *Provided, however,* That for the purpose only of this license the following shall be deemed not to be nationals of an excepted country:

(1) Any individual residing in a country licensed hereby;

(2) Any partnership, association, corporation, or other organization, organized under the laws of a country licensed hereby.

(f) *Definition.* As used in this license, the term "excepted country" shall mean any country excepted in paragraph (a) of this section.

(g) *Effective date.* The effective date of this general license shall be December 7, 1945, except that it shall be October 5, 1945 as to France, November 20, 1945 as to Belgium, November 30, 1946 as to Switzerland and Liechtenstein and December 31, 1946 as to Germany and Japan.

(h) *Restrictions of General Ruling No. 11A.* Attention is directed to the special restrictions contained in General Ruling No. 11A pertaining to dealings in certain property in which there is any interest of Germany or Japan or certain nationals thereof.

COMMUNICATIONS AND TRANSACTIONS WITH OR BY ENEMY NATIONALS

MARCH 4, 1947.

Amendment to Public Circular No. 25 under Executive Order No. 8389, as amended, Executive Order No. 9193, as amended, sections 3 (a) and 5 (b) of the Trading with the Enemy Act, as amended by the First War Powers Act, 1941, relating to foreign funds control.

Part 131, Appendix B, Public Circular No. 25 is hereby amended to read as follows:

(1) *Communications and transactions with or by enemy nationals exempted from General Ruling No. 11 under certain conditions.* There are hereby exempted from the prohibitions contained in paragraphs (1) and (2) of General Ruling No. 11:

(a) Any trade or communication with an enemy national;

(b) Any act or transaction involving any trade or communication with an enemy national;

(c) Any financial, business, trade, or other commercial act or transaction by or on behalf of an enemy national:

Provided, however, That the exemption herein granted shall not apply to any transaction which is prohibited by the order or General Ruling No. 11A or by any other ruling or regulation (other than General Ruling No. 11) issued by the Secretary of the Treasury pursuant to section 5 (b) of the Trading with the Enemy Act, as amended, unless such transaction is licensed by the Secretary of the Treasury. A license authorizing any prohibited transaction will not require a waiver of General Ruling No. 11.

(2) *General License No. 32 not applicable to certain remittances.* The provisions of § 131.32 (General License No. 32) shall not be deemed to authorize any remittance to any citizen or subject of any country against which the United States has declared war (Germany, Italy, Japan, Bulgaria, Hungary and Rumania) who is within any such country.

(3) *Attention directed to rules of Office of Alien Property.* Attention is directed to § 501.6–2 of the rules of procedure of the Office of Alien Property (Regulation 2 under General Order No. 6), which requires that when legal notice is sent to enemy countries, a copy must in certain cases be sent to the Office of Alien Property.

[Priorities Reg. 33, Schedule A as Amended March 3, 1947]

Section 944.54a *Schedule A to Priorities Regulation 33,* is amended to read as follows:

There is a shortage in the supply of the materials and facilities listed in paragraph (b) of this schedule for defense, for private account and for export. These materials and facilities are suitable for the construction and completion of housing accommodations in rural and urban areas and for the construction and repair of essential farm buildings. The allocation of, and the establishment of priorities for the delivery of, these materials and facilities in the manner, upon the conditions and to the extent provided in this schedule and other applicable regulations, orders, directives, schedules and directions of the Civilian Production Administration and of the Housing Expediter are necessary and appropriate in the public interest, to promote the national defense and to effectuate the purposes of the Veterans' Emergency Housing Act of 1946.

§ 944.54a *Schedule A to Priorities Regulation 33*—(a) *Establishment of allocation and priorities system.* Priorities for the delivery of the materials and facilities listed in paragraph (b) of this schedule are hereby established, and they may be allocated, under the Veterans' Emergency Housing Act of 1946, as provided in this schedule and in other orders, regulations, directions, schedules and directives of the Civilian Production Administration. These priorities consist in general of HH and HHH ratings. The method by which these ratings may be applied and other provisions concerning their use are set forth in paragraph (c) of this schedule. The effect of these ratings shall be the effect provided in applicable regulations of the Civilian Production Administration (including Priorities Regulations 1 and 3, schedules and directions to Priorities Regulation 33, and orders in the "L" series). In addition, some of these applicable regulations provide for "certified" and "authorized" orders for some of these materials under certain conditions. The terms and conditions under which these ratings will be assigned and the conditions and requirements imposed upon the use of materials obtained by means of these ratings and upon housing accommodations constructed or manufactured from such materials are set forth in Housing Expediter Priorities Regulation 5, Priorities Regulation 33 and in other applicable regulations of the Civilian Production Administration and the Housing Expediter.

(b) *List of short materials.* The materials and facilities for which priorities are established by this schedule are listed below. The listing includes only residential types of the items mentioned. The fact that a residential type may also be suitable for nonresidential use does not take it out of the "residential" class.

MATERIALS AND FACILITIES SUBJECT TO HH RATINGS

A. Lumber Materials

1. Flooring, hardwood (all grades).
2. Lumber, housing construction (softwood—flooring, ceiling, siding, partition, casing, base, moulding stock, strips and boards, two-inch dimension, finish, lath and shop.) (After April 1, 1947 this will not include Douglas fir and Western pine shop which will be controlled by VHP 5).
3. Millwork.

4. Plywood, construction (softwood) (Interior (moisture resistant): ¼" and ⅜" sanded or 5/16" and 7/16" unsanded wallboard; ¼" and ⅜" sanded or 5/16" and 7/16" unsanded sound oneside plypanel; 5/16", ⅜", ½" and ⅝" sheathing; and Exterior: ¼" and ⅜" sanded or 5/16" and 7/16" unsanded sound oneside plypanel).

B. Electrical Wiring Materials

1. *Cable, metallic or nonmetallic sheathed.
2. Lighting fixtures, not including portable lamps.
3. Raceways (including rigid and flexible conduit, thin-wall metallic tubing, surface metal raceways) and fittings.
4. Service entrance equipment (of the following kinds only: (a) Fuse cut-outs; (b) meter pans; (c) panel-boards; (d) service switches).
5. Wiring devices (of the following kinds only: (a) Sockets, lampholders, and lamp receptacles—medium screw base types; (b) convenience receptacles (outlets); (c) toggle switches; (d) wall and face plates; (e) outlet, switch and receptacle boxes—covers, hangers, supports, and clamps included; (f) box connectors for metallic or nonmetallic sheathed cable).

C. Hardware Materials

1. Builders hardware (of the following types only: (a) Butts, hinges, hasps; (b) door locks, lock trim; (c) sash, screen, and shelf hardware; (d) night latches, dead locks; (e) spring hinges; (f) sash balances, sash pulleys).
2. *Nails (ferrous, of the following kinds only: Wire and cut nails 2d to 20d, inclusive; nails and brads smaller than 2d but suitable for roofing, siding, lath, or millwork). This does not include 2d to 10d cement and bright box nails.

D. Masonry Materials

1. Brick, common and face, clay.
2. Brick, sand lime.
3. Concrete block and brick.
4. Cement, portland (all types, including high early strength, limestone, slag, and sulfate resistant).
5. Tile, common and face, structural.

E. Plumbing and Heating Supplies

1. Bathtubs (steel, cast iron).
2. Boilers, low pressure, for heating and hot water.
3. Controls, temperature and combustion, for heating and hot water.
4. Fittings and trim (brass tubular goods included) for bathtubs, kitchen sinks, lavatories, and waterclosets.
5. Furnace pipes, fittings, and duct work.
6. Furnaces, floor, wall.
7. Furnaces, warm air (forced or gravity circulation types of the following kinds only: (a) Gas-fired—rated input 110,000 or less B. T. U. per hour; (b) oil-fired—rated output 100,000 or less B. T. U. per hour; (c) coal-fired—grate not larger than either 2.64 sq. ft. in area or 22" in diameter).
8. Kitchen sinks and undersink cabinets. (This includes sinks and sink-and-tray combinations, undersink cabinets with or without sinks, and any fixture containing a kitchen sink.)
9. Lavatories.
10. Oil burners, domestic.
11. Pipe, bituminized fibre, for drains and sewers.
12. Pipe, sewer, clay.
13. Pipe, soil, cast iron, and fittings for such pipe.
14. *Pipe, steel and wrought iron, black and galvanized, sizes ⅜" to 4" inclusive, standard weight.
15. *Pipe fittings, screwed (of the following kinds only: (a) Gray cast recessed drainage, 2" and under; (b) gray cast steam fittings, 3" and under (125 lbs. S. W. P.); (c) malleable fittings, including unions, 2" and under (150 lbs. S. W. P.)).
16. *Pipe nipples, steel and wrought iron, black and galvanized, sizes ⅜" to 4" inclusive, in lengths 6" and less, made from standard weight pipe.
17. Radiation, convector and cast iron, including accompanying metal enclosures and grilles.
18. Range boilers.
19. Registers and grilles for heating systems.
20. Stokers, domestic.
21. Stoves and ranges for cooking and heating, including space heaters.
22. Tanks, septic.
23. Tanks, oil and water storage, capacity 550 gallons or less.
24. *Tubing, copper—types K, L, M—sizes ⅜" to 3" inclusive.
25. Tubing fittings (for copper tubing as defined above), pressure (solder and flare) and drainage (solder).
26. Water closets (1-piece combinations; and bowls and tanks, separately or in combination).
27. Water heaters.

F. Prefabricated Housing

1. Prefabricated houses, sections, and panels (as defined in Direction 8 to PR 33).

G. Structural Materials (Metal)

1. Doors and frames, hollow metal and kalamein.
2. *Fabricated reinforcing rod and mesh.
3. Joists, bar, steel.
4. Structural shapes, steel and aluminum, fabricated or cut to length.
5. Window sash and frames, metal (of the following types only: casements; double hung windows; basement windows).

H. Wall and Roof Materials

1. Asbestos-cement flat sheets, ¼" thick or less. This does not include electrical and insulation grades.
2. Building board (products made from wood pulp, vegetable fibres, pressed paper stock, or multiple plies of fibred stock, produced for use in building construction, and commonly described as structural insulation board, sheathing, lath, tile board, plank, thin board or laminated fibre tile board). This does not include the following: acoustical tile, asbestos-cement faced insulation board, mineral surfaced insulation board, roof insulation, and products commonly described as "hard board".
3. Gypsum board (products made from gypsum and commonly described as wall board, wide board, laminated board). This does not include precast reinforced gypsum roof plank.
4. Gypsum lath (gypsum products especially made for use as a plaster base).
5. Lime, finishing.
6. Papers, building and sheathing (of the following kinds only: (a) Asphalt sheathing paper; (b) laminated papers, consisting of two or more plies of paper cemented together with asphalt; (c) metal foil, designed for building use and consisting of one or more layers of metal foil laminated with one or more layers of paper; (d) rosin-sized, red rosin, and house sheathing paper); (e) slaters felt weighing approximately 25 lbs. per 500 square-feet roll.
7. Plaster, hardwall (gypsum plaster—basic, ready-mixed and gauging—made for use in applying base or finish coats to lathed interior walls).
8. Plaster base (metal lath and accessories for metal lath).
9. *Sheet, copper. (A person authorized to use an HH rating may use it for this material only if (1) he is going to use the material in making any of the following items for the authorized job or units and (2) he has not received other priorities assistance for this purpose from the CPA (under Priorities Regulation 28): flashings; gutters and downspouts; shower pans; termite shields.)
10. *Sheet, flat galvanized steel, 23 gauge or lighter. (A person authorized to use an HH rating may use it for this material only if (1) he is going to use it in making any of the following items for the authorized job or units and (2) he has not received other priorities assistance for this purpose from the CPA (under Priorities Regulation 28 or Order M-21): flashings; furnace pipes, fittings, and duct work; gutters and downspouts; termite shields.)
11. Shingles (asbestos-cement, asphalt, slate, wood).
12. *Stucco mesh (woven or welded wire).

I. Miscellaneous Building Materials

1. Cabinets, metal, attachable or built-in types for kitchens or bathrooms.
2. Floor coverings (of the following types only: (a) Felt-base; (b) linoleum (up to battleship grade); (c) mastic; (d) asphalt tile; (e) rubber tile).
3. Gutters and downspouts.
4. Insect screen cloth, metal or plastic.
5. Lead, caulking.
6. Paints, house, exterior—ready mixed, paste, semi-paste, and lead-in-oil. This is limited to primers, under-coats, finish coats, and stucco and cement paints only. It does not include such paints as trim colors, porch and deck paints and exterior enamels. This is also limited to lead-in-oil in 12½-lb. and larger containers and to the other paints in 1-gal. and larger containers.
7. Weatherstripping, metal.

*See paragraph (v) of Schedule B to PR 33 for special rule regarding HHH and HH rated orders for items marked with an asterisk (*) in the above list.

(c) *Use of HH and HHH ratings.* The general rules for applying HH ratings are set forth below, together with certain provisions concerning the use of these ratings by builders. These rules apply to the use of HHH ratings except when otherwise provided by Direction 11 to Priorities Regulation 33 or other applicable regulations. Except as specifically provided elsewhere, these rules also apply to the use of HH ratings by prefabricators and trailer manufacturers. Additional rules applicable to HHH ratings and other related priorities assistance are set forth in Direction 11 to Priorities Regulation 33.

(1) *Kinds and quantities of materials.* The HH rating may be used only to get materials of the kinds listed in paragraph (b) of this schedule. The HH rating may not be used to get more than the minimum quantities of those materials needed to complete the housing accommodations for which the rating was assigned, in accordance with the description given in the application as approved. In some cases applicants may be limited to specific quantities of particular materials. In such cases the HH rating may not be used to get more than the specific quantities approved. The HH rating may not be applied to purchase orders for greater quantities of materials than the applicant is authorized to get. Persons authorized to use the HH rating may not place duplicate orders totalling more than the authorized minimum quantities, even though they plan to cancel one of the orders later.

(2) *Restriction on time of delivery.* A person placing an HH rated order must not specify delivery dates on purchase orders for rated materials more than 30 days before the time they are to be incorporated in the project. This provision applies to materials ordered with an HH rating, instead of the usual rule in Priorities Regulation 32. Furthermore, he must not place rated purchase orders for materials in which delivery is specified later than during the third full calendar month after the calendar month during which the purchase order is placed.

(3) *Expiration of rating.* The right to use the HH rating for a project expires 90 days after the issuance of the rating, unless the builder has begun construction on the project by physically incorporating at the site of the project materials which will be an integral part of the construction. If the builder has not begun construction within this time, he must unrate all orders for materials for the project to which he has applied the HH rating. If the application covers a number of different buildings, the right to use the rating for materials going into any individual building expires unless that particular building has been started within the 90 day period. However, he may apply by letter in triplicate to the agency which granted his application for an extension of the starting date, showing why he was unable to begin construction in accordance with his original application and giving his revised starting date. If the request for an extension is approved, he need not unrate his orders but he must postpone the delivery dates so as to comply with paragraph (c) (2) of this schedule. The provisions of this paragraph (c) (3) do not apply to prefabricators and house trailer manufacturers, since their authorizations are granted on a calendar-quarter basis.

(4) *Use of rating.* The applicant must not use an HH rating or give others the right to use it before his application has been approved. After approval, the HH rating may be used to get materials by the applicant or by contractors or subcontractors doing all or any part of the construction work for the applicant. Applicants, contractors and sub-contractors using the rating and their officers and agents must comply with all applicable provisions of this and other pertinent regulations. The applicant may authorize contractors and sub-contractors, and contractors may authorize subcontractors, to use the rating assigned to the applicant, by using a certificate in substantially the following form:

VETERANS' EMERGENCY HOUSING PROGRAM

Application Serial Number------

You are hereby authorized to use the HH rating to obtain material of the kinds listed on Schedule A to Civilian Production Administration Priorities Regulation 33 which are required for the housing accommodations located at ---------- (give location). Your use of this rating is subject to the provisions of applicable regulations.

Authorized user of rating

A contractor to whom an HH rating has been assigned by the Army or the Navy for military housing may authorize his subcontractors, to use that rating, by using the certificate as set out above in this paragraph but without the caption "Veterans' Emergency Housing Program" and the "Application Serial Number."

(5) *Certificates.* The HH rating may be applied to a purchase order by a person authorized to use the rating only by placing on the order the certificate specified for him below (the certificates set out in Priorities Regulations 3 and 7 may not be used):

VETERANS' EMERGENCY HOUSING PROGRAM*

Application Serial Number------*

I certify to the U. S. Government that an HH rating has been assigned for the materials covered by this order. The materials will be used only for housing accommodations, as authorized. The housing accommodations are at----------**

(Give location.)

Purchaser.

Purchase orders already placed with the certificates previously specified in this Schedule or in Directions 8 and 13 to PR 33 need not be re-certified. Printed and other prepared forms of those previous certificates may continue to be employed until they are used up.

(d) *Violations.* Any person who wilfully violates any provision of any rule, regulation or order of the Civilian Production Administration dealing with the priorities assistance and allocations established by this schedule, or who, by any statement or omission, wilfully falsifies any records which he is required to keep, or who otherwise wilfully furnished false or misleading information to the Civilian Production Administration and any person who obtains a delivery or an allocation of materials or facilities or a preference rating by means of a material and wilfully false or misleading statement, may be prohibited by the Civilian Production Administration from making or obtaining further deliveries of materials and facilities of the kinds listed in paragraph (b) of this schedule and may be deprived of further priorities assistance. The Civilian Production Administration may also take any other action deemed appropriate, including the making of a recommendation for prosecution under section 35 (A) of the Criminal Code, under the Second War Powers Act or under the Veterans' Emergency Housing Act of 1946.

Issued this 3d day of March 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

[F. R. Doc. 47-2039; Filed, Mar. 3, 1947; 11:19 a. m.]

*Contractors using HH rating assigned by the Army or Navy should substitute the following caption, without an application serial number: "MILITARY HOUSING."

**Prefabricators need not include statement about location.

PART 944—REGULATIONS APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Reg. 33, Schedule B as Amended Mar. 3, 1947]

HOW DISTRIBUTORS OF BUILDING MATERIALS HANDLE RATINGS

PURPOSE AND SCOPE OF SCHEDULE B

PURPOSES AND SCOPE OF SCHEDULE B

§ 944.54b *Schedule B to Priorities Regulation 33*—(a) *What this schedule does.* This Schedule B explains special rules for the handling of rated orders (AAA; MM; HHH; HH and CC) by people who sell most of the building materials listed in Schedule A to Priorities Regulation 33. (Schedule A lists the building materials for which HH ratings can be used by builders and other authorized persons and tells how they use these ratings.)

NOTE: Former 2d and 3d undesignated subparagraphs of paragraph (a) deleted March 3, 1947.

When any material is mentioned by name in this schedule, the material is the same as the corresponding item on Schedule A, unless it is specifically made less inclusive than the Schedule A item. In no case does it include anything not included in the Schedule A item.

The provisions of this Schedule B apply to HHH ratings since they are to be treated exactly the same as HH ratings except in one respect—the HHH rating has a higher priority than the HH rating. The provisions of this Schedule B apply

to "certified-HH" ratings only where specifically mentioned below. This is because there are special rules for certified-HH ratings, as explained in Direction 11 to PR-33.

Beginning April 1, 1947, this Schedule will apply to the "Lumber Materials" group on Schedule A to PR 33. Until then, the Schedule does not apply to those materials since they are covered by other orders (L-358 and L-359) which will remain in effect up to that date.

This Schedule also does not apply to deliveries of any "prefabricated houses, sections, and panels." They are covered by Direction 8 to PR 33.

DEFINITIONS

(b) *Definitions.* For the purposes of this schedule:

(1) "Distributor" means any of the following:

(i) A person (including, but not limited to, wholesalers, jobbers, dealers) who sells to users.

(ii) A retail outlet (including, but not limited to, the following: mail order houses, department stores, hardware stores, appliance stores, appliance sales departments of public utility companies, etc.)

(iii) A manufacturer's factory branch sales offices which sell to users.

(iv) A manufacturer (to the extent that he sells directly to users and not through factory branch sales offices).

(v) Any sawmill, any manufacturer of construction plywood (softwood), millwork, or hardwood flooring and any person who buys and stocks construction plywood (softwood), millwork, or hardwood flooring for resale or housing construction lumber for resale as such. Where two or more separate and distinct sales yards are operated, each yard must be considered a "distributor." (For the purposes of Schedule B, this paragraph (v) is the only definition for distributors of the materials mentioned in it.)

(2) "User" means any person who buys for use instead of for resale. This includes, but is not limited to, the following:

(i) A builder, prefabricator, or house trailer manufacturer.

(ii) A person buying from a retail outlet.

(iii) A person buying for a structure, property, or installation owned, occupied, or managed by him.

(iv) A person who installs what he sells (such as a plumbing contractor, wiring contractor, etc.) The performance of such service as the mere connecting of a stove to an existing gas line in a structure does not constitute "installing" for the purpose of this definition.

EXTENSION OF RATINGS

(c) *What "extension" of ratings means.* Some of the new provisions of this schedule involve the matter of "extension" of ratings. This matter is explained in Priorities Regulation 3, but a brief generalized explanation is as follows (this is merely explanatory and its application to particular materials depends on the various provisions in the schedule).

In general, people may place rated orders in one of two ways (the distinction between the two is important):

(1) *By "application."* When a rating is used by a person to whom it was originally issued (or by a person he has authorized to use it), he is "applying" it to his supplier.

(2) *By "extension."* When a person receives a rated order from a customer and passes the rating on to his supplier, he is "extending" the rating. The cases in which HHH and HH ratings may be extended are explained below.

(d) *HHH and HH ratings are not extendible by manufacturers.* HHH and HH ratings are never extendible by manufacturers (as such).

(e) *When HHH and HH ratings are extendible.* In general, distributors and other suppliers may not extend HHH and HH ratings. However, they may extend such ratings for certain materials, subject to certain conditions. In these cases, the ratings may be extended by them to get the material to be delivered on the rated orders involved. The procedure for extending ratings is explained in Priorities Regulation 3.

(1) *Limited extendibility.* For the following materials,[1] HHH and HH ratings may be extended to suppliers except manufacturers (as such):

Nails.
Pipe, steel and wrought iron.
Pipe fittings (cast and malleable).
Pipe nipples, steel and wrought iron.
Sheet, copper.
Sheet, galvanized steel.
Tubing, copper.
Tubing (copper) fittings.

(2) *Complete extendibility.* For the following materials,[1] HHH and HH ratings may be extended to suppliers, including manufacturers (as such):

Brick, common and face, clay.
Brick, sand lime.
Concrete block and brick.
Tile, structural clay.

(f) *Special rule for certified-HH ratings.* "Certified-HH" ratings may be issued, under Direction 11 to PR 33, for the following materials, for use in FPHA projects: building board, cast iron soil pipe, and gypsum board. A "certified-HH" rating is extendible to suppliers, including manufacturers.

SET-ASIDE PROVISIONS

(g)-(k) [Revoked Dec. 31, 1946.]

"CEILING" PROVISIONS

(l) *Purpose of "ceiling."* In general, rated orders must be accepted and filled in accordance with the basic priorities rules of Priorities Regulation 1. One of those rules is that rated orders must be accepted and filled in preference to unrated or lower rated orders. The "ceiling" provisions of this Schedule modify that basic rule by putting a limit on the amount of his supply a person has to use in filling rated orders.

It is not necessary to hold any supply in expectation of receiving rated orders.

(m) *Operation of "ceiling."* A person who is required to fill rated orders for a Schedule A material does not have to use more than his "ceiling" amount to fill such orders. (AAA rated orders are an exception to this rule. While amounts delivered on AAA orders may be charged against the ceiling, a person may not refuse to fill a AAA rated order merely on the ground that it will exceed his ceiling.)

The distributor may set his own unit of measure in figuring the ceiling. Ordinarily, the customary way of billing the material in the industry should be used, such as units on things like stoves, pounds for insulated copper wire, square feet for screen cloth, etc.

The figuring and application of ceilings depend on whether or not HHH and HH ratings are extendible for the particular material involved. The following paragraphs (n) and (o) explain this in more detail.

(n) *Ceilings for materials for which HHH and HH ratings are not extendible.* In the case of materials for which HHH and HH ratings are not extendible, the ceiling applies to the distributor only. He is to figure his ceiling as follows (this does not apply to the "extendibility" materials listed in paragraphs (e) (1) and (2) above):

(1) *Most materials.* Except for the "Lumber Materials" group covered by paragraph (n) (2) below, the ceiling is 75% of the distributor's deliveries of the particular material to users during the month.

(2) *Lumber materials.* In the case of any of the following materials[1], after March 31, 1947, a distributor need not use more than the specified percentage of the quantity he produces or receives in any quarter to fill rated orders:

	Percent
Hardwood flooring	75
Housing construction lumber	50
Millwork	75
Construction plywood (softwood)	50

(o) *Ceilings for materials for which HHH and HH ratings are extendible.* In the case of materials for which HHH and HH ratings are extendible, the figuring and application of ceilings depend on whether or not these ratings are extendible to the manufacturer.

(1) *Percentage ceiling for "complete-extendibility" materials.* In the case of a material for which HHH and HH ratings are extendible to a manufacturer, the percentage ceiling applies to him. His ceiling is 75% of the total amount scheduled for production during the month. This applies to the materials listed in paragraph (e) (2).

(2) *Percentage ceiling for "limited-extendibility" materials.* In the case of a material for which HHH and HH ratings are extendible to any supplier except a manufacturer (as such), the percentage ceiling applies to the supplier who gets his supply from the manufacturer (as such). The supplier's ceiling is 75% of the total quantity delivered by him during the month. This applies to the materials listed in paragraph (e) (1).

(3) *General ceiling for other suppliers of "extendibility" materials.* In the case of a material for which HHH and HH ratings are extendible, the ceiling for any distributor or other supplier who extends the rating is generally the amount he gets by extending those ratings. He must redeliver these (or equivalent) amounts on the orders bearing the ratings he extended. Generally, the amounts he gets without extending ratings (i. e., "free supply") need not be used to fill rated orders.

APPORTIONMENT OF SALES BETWEEN USERS AND OTHERS

(p) *Minimum percentage for users.* Where a person normally sells both to users and to persons buying for resale, he must continue to sell to both those classes of customers. The portion he sells to users must be at least as large, percentage-wise, as the portion he has usually sold to that class of customers in the past. He may sell more than that percentage to users and should do so when it will help the Veterans' Emergency Housing Program. While this percentage requirement is an exception from the rules of Priorities Regulation 1, the other rules of that regulation apply to his handling of rated orders from users.

(q) *Special rule for nails.* The former special rule for apportioning sales of nails between users and persons buying for resale is revoked. Instead, the apportioning rule of paragraph (p) now applies to nails,[1] as well as to the other materials in Schedule A to PR 33.

(r) *Exclusion of certain quantities in figuring ceilings.* In the case of materials for which a distributor's ceiling is based on deliveries to users, his ceiling figuring does not have to include amounts delivered to persons who are not users if those deliveries are made in conformity with paragraph (p) above. (This rule does not apply to any materials for which HHH and HH ratings are extendible, as listed in paragraph (e) above.)

For instance, where a manufacturer of sinks makes some deliveries directly to users, those deliveries are subject to this Schedule and he is a "distributor" with respect to them. However, the ceiling provisions of this Schedule do not apply to the rest of his deliveries, if they are not made to users.

Also, where a person delivers to a distributor, the ceiling provisions do not apply to the person making the delivery for those quantities but do apply to the person who receives them. This is an example of the rule. If a distributor delivers 100 sinks during a month, he would normally be required to deliver up to 75 (75% of 100) on rated orders, if received. If, however, he legitimately delivers 40 of the 100 to another distributor, then he need apply the ceiling provisions to 60 sinks only and deliver up to 45 (which is 75% of 60) on rated orders, if received.

However, in these cases he must make a complete record of the transaction and adjust the records which he is required to keep under paragraph (y) accordingly.

(s) *Inclusion of direct shipments in figuring ceilings.* A distributor must include any direct shipments which he arranges to have made by his supplier directly to his customer for his own account. These kinds of shipments count against the distributor's ceiling, and the distributor must handle these shipments just as if the material had actually been delivered from his stock. It is the distributor's job to make arrangements with the manufacturer so that these shipments the manufacturer makes are in accordance with those that the distributor can make under this schedule.

OTHER SPECIAL PROVISIONS

(t) *Rated orders must be accepted.* A person required to accept rated orders under this schedule must not turn down a rated order merely because he does not have the material ordered in stock or because it would exceed his ceiling. He must accept the order, and keep it on hand to fill it as soon as possible (subject to the ceiling provisions), and he must tell his customer how soon he expects to be able to fill it.

(u) *Manufacturer's scheduling for HHH, HH, and CC ratings.* When a manufacturer receives, and is required to accept, any rated order, including an HHH, HH or CC rated order (by extension or by application), he must schedule it as required by Priorities Regulation 1.

(v) *Materials for which manufacturers need not accept any HHH or HH rated orders.* (1) For the following materials[1], HHH and HH rated orders may not be served on a manufacturer and have no effect on him (see paragraph (v) (3) below):

Cable
Fabricated reinforcing rod and mesh
Nails
Pipe, steel and wrought iron
Pipe, fittings (cast and malleable)
Pipe nipples, steel and wrought iron
Sheet, copper
Sheet, galvanized steel
Stucco mesh
Tubing, copper

These items have been marked with an asterisk in Schedule A to PR 33.

(2) For any of the following materials,[1] a manufacturer who sells to dealers directly (and not through factory branch sales offices) need not accept HHH and HH rated orders from a dealer even if the dealer has been authorized to use such a rating as a subcontractor:

Asphalt tile floor covering
Boilers, low pressure
Controls, temperature and combustion
Furnaces, floor, wall
Furnaces, warm air
Oil burners, domestic

(3) Subparagraphs (v) (1) and (v) (2) above do not mean, by implication, that HHH and HH rated orders may be served on manufacturers for the Schedule A materials not mentioned. This question is controlled by other rules (Priorities Regulation 1 and other applicable regulations). The special rules in those subparagraphs merely mean that, for the materials mentioned, HHH and HH rated orders may not be served on the manufacturers involved even if other applicable rules might otherwise permit that.

(w) *Refusal of outside-area orders.* A producer or other supplier may refuse to accept an HHH or HH rated order for any material listed below for delivery by him in any area to which he has not delivered it in the five years preceding receipt of this order. A new producer or dealer may not apply this basis for refusal to accept such rated orders for delivery in his local trading area. This paragraph applies to the following materials:[1]

Brick, common and face, clay.
Brick, sand lime.
Concrete block and brick.
Tile, structural, clay.

(x) *Applicability of this schedule to AAA rated orders.* This schedule does not limit acceptance of AAA rated orders or deliveries on AAA rated orders.

RECORDS

(y) *Records.* Each person entitled to apply a ceiling under this Schedule must keep records in such a way that, upon request of authorized government representatives, he can show for each material, how much he delivered with or without ratings, separately, after the material was put on Schedule A.

These various records must be kept so that each rated purchase order placed with him can be easily identified. (These record requirements are in addition to those of Priorities Regulation 1.)

MISCELLANEOUS PROVISIONS

(z) *Communications.* All communications about this Schedule should be addressed to the Civilian Production Administration, Washington 25, D. C., Ref: Schedule B to PR 33.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–1108]

FARRAL BROS. THEATER

George Farral and John Farral, d/b/a Farral Brothers Theater, Box 86, Erie, Illinois, after March 26, 1946, began construction of a theater on North Street, Erie, Illinois, at an estimated cost in excess of $1,000, and thereafter carried on such construction although application for authorization to construct such structure was denied by the Civilian Production Administration. Carrying on of said construction after an application for authorization had been denied constituted a wilful violation of Veterans' Housing Program Order 1. This violation has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing it is hereby ordered that:

§ 1010.1108 *Suspension Order No. S–1108.* (a) Neither George Farral or John Farral, d/b/a Farral Brothers Theater, their successors or assigns, nor any other person shall do any construction on the premises located on North Street, Erie, Illinois, including the putting up, completing or altering of any structure located thereon, unless specifically authorized in writing by the Civilian Production Administration.

(b) George Farral and John Farral, d/b/a Farral Brothers Theater, shall refer to this order in any application or appeal which they may file with the Civilian Production Administration for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve George Farral and John Farral, d/b/a Farral Brothers Theater, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 3d day of March 1947.

[Suspension Order S–1107]

NUNZI MANGIERI ET AL.

Nunzi Mangieri, Frank Mangieri, Tony Mangieri and Angelo Vericella, 359 East Third Street, Galesburg, Illinois, were tenants of a building, Route 150, Galesburg, Illinois, in which they operated a tavern. On August 14, 1946, said building was destroyed by fire. On September 19, 1946 they filed with the Civilian Production Administration on Form 4423 an application to construct a building on a plot of ground approximately 1.2 acres in the Southwest Corner of the Northwest Quarter of Section 3, Township 11 North, Range 1, East of the 4 P. M., Knox County, Illinois, in which application they represented that they were the owners of the building destroyed by fire. Such representation was false and misleading and knowingly and wilfully made. The furnishing of this false and misleading information subjected Nunzi Mangieri, Frank Mangieri, Tony Mangieri and Angelo Vericella to the administrative action provided for by the provisions of Section 944.18 of Priorities Regulation 1. In view of the foregoing, it is hereby ordered that:

§ 1010.1107 *Suspension Order No. S–1107.* (a) The authorization granted to Nunzi Mangieri, Frank Mangieri, Tony Mangieri and Angelo Vericella on Form CPA–4423, dated December 4, 1946, is hereby revoked.

(b) Neither Nunzi Mangieri, Frank Mangieri, Tony Mangieri or Angelo Vericella, nor any other person, shall do any construction on the premises known as a plot of ground approximately 1.2 acres in the Southwest Corner of the Northwest Quarter of Section 3, Township 11 North, Range 1, East of the 4 P. M., Knox County, Illinois, including the putting up, completing or altering of any structure located thereon, unless specifically authorized in writing by the Civilian Production Administration.

(c) Nunzi Mangieri, Frank Mangieri, Tony Mangieri and Angelo Vericella shall refer to this order in any application or appeal which they may file with the Civilian Production Administration for priorities assistance or for authorization to carry on construction.

(d) Nothing contained in this order shall be deemed to relieve Nunzi Mangieri, Frank Mangieri, Tony Mangieri and Angelo Vericella from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–1112]

JOHN CHORNEY

John Chorney, Platea, Pennsylvania, on or about June 7, 1946 began the construction of a combination commercial and residential building on the West Side of Route 18, Elk Creek Township, south of Platea, Pennsylvania, at an estimated cost of $6,500 without authorization of the Civilian Production Administration or other duly authorized governmental agency. The beginning and carrying on of this construction without authorization subsequent to March 26, 1946 constituted a wilful violation of Veterans' Housing Program Order No. 1 of the Civilian Production Administration. This violation has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1112 *Suspension Order No. S–1112.* (a) Neither John Chorney, his successors or assigns, nor any other person shall do any construction on the premises of John Chorney located on the West Side of Route 18, Elk Creek Township, south of Platea, Pennsylvania, including the putting up, completing or altering of any structure located thereon, unless specifically authorized in writing by the Civilian Production Administration or other duly authorized governmental agency.

(b) John Chorney shall refer to this order in any application or appeal which he may file with the Civilian Production Administration or other duly authorized governmental agency for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve John Chorney, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

PART 1305—ADMINISTRATION

[3d Rev. RO 3,[1] Amdt. 19 to Supp. 1]

SUGAR

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Supplement 1 to Third Revised Ration Order 3 is amended in the following respect:

Section 2.2 is amended to read as follows:

SEC. 2.2 *Percentage to be used in determining allowance for manufacturers of bulk sweetened condensed milk as provided in Article XXIV.* (a) Percentage of sugar base for each calendar month commencing on and after November 1, 1946 and through February 1947:

Bulk sweetened condensed milk in containers of more than one gallon---- 100

(b) Percentage of sugar base for each calendar month commencing on and after March 1, 1947:

Bulk sweetened condensed milk in containers of more than one gallon------ 110

This amendment shall become effective March 1, 1947.

Issued this 28th day of February 1947.

PHILIP B. FLEMING,
Temporary Controls Administrator.

[1] 11 F. R. 166.

Rationale Accompanying Amendment No. 19 to Supplement 1 to Third Revised Ration Order 3

Proposed amendment. This amendment raises the percentage factor used in determining the monthly maximum allowances for manufacturers of bulk sweetened condensed milk from 100 to 110. The new factor is to be applied in determining such allowances for each calendar month commencing March 1, 1947.

Reason for amendment. Latest production data available indicates that there has been an unusual increase in milk production during the early part of 1947.

Since the present factor to be used in determining maximum allowances for the manufacture of bulk sweetened condensed milk is based on a seasonal milk production pattern during previous years, the factor is raised from 100% to 110% in order to provide for a greater utilization of milk solids resulting from the present abnormal milk supply.

Chapter XVIII—Office of Temporary Controls, Office of War Mobilization and Reconversion (Stabilization)

[Directive 145, Amdt. 1]

PART 4003—SUBSIDIES: SUPPORT PRICES

1946 CORN LOAN PROGRAM

The Secretary of Agriculture has submitted a recommendation that the program under which Commodity Credit Corporation makes loans available to producers of 1946-crop corn, as approved by the Director of the Office of War Mobilization and Reconversion in Directive 145, on November 18, 1946 (11 F. R. 13696), be amended to provide for the making of loans on shelled corn and to change the closing date for loans to producers in angoumois moth infestation areas from May 31, 1947 to March 31, 1947.

After careful consideration, I hereby find that the proposed amendment is necessary to enable producers to retain stocks on farms for feeding purposes and to stabilize the farm price of corn. Therefore, Directive 145 is amended by the addition of the following paragraph to § 4003.17c *Corn loan program, 1946 crop.*

The Department of Agriculture is authorized and directed, in carrying out the 1946 corn loan program, to make such loans available on shelled corn as well as on ear corn, and to establish March 31, 1947, as the closing date for loans to producers in angoumois moth infestation areas.

Chapter II—Forest Service, Department of Agriculture

PART 261—TRESPASS

TONTO NATIONAL FOREST; ORDER FOR REMOVAL OF TRESPASSING BURROS

Whereas a number of burros are trespassing and grazing on land in the Tonto National Forest in the State of Arizona; and

Whereas these burros are consuming forage needed for permitted livestock, are causing extra expense to established permittees, and are injuring national-forest lands;

Now, therefore, by virtue of the authority vested in the Secretary of Agriculture by the act of June 4, 1897 (30 Stat., 35, 16 U. S. C. 551), and the act of February 1, 1905 (33 Stat. 628, 16 U. S. C. 472), the following order for the occupancy, use, protection, and administration of land in the Tonto National Forest is issued:

Temporary closure from livestock grazing.[1] (a) The following-described area within the Tonto National Forest is hereby closed for the period March 1, 1947 to May 31, 1947, to the grazing of burros, excepting those that are lawfully grazing on or crossing such land pursuant to the regulations of the Secretary of Agriculture, or that are used in connection with operations authorized by such regulations, or that are used as riding or pack animals by persons traveling over such land:

The Southeast part of Allotment No. 57, which contains approximately 40,000 acres, bounded by Salt River on the South, the Hughes Allotment drift fence from Apache Lake to Four Peaks on the East, by Boulder Creek (which heads near Four Peaks and enters Cottonwood Wash at Cottonwood Camp) and the Cottonwood Camp-Rio Verde Road on the North, and by Jones Canyon,, which is approximately 1½ miles east of the Bush Highway, on the West. All in unsurveyed Townships 3 and 4 North, Ranges 8, 9, and 10, East, Gila and Salt River Meridian.

(b) Officers of the United States Forest Service are hereby authorized to dispose of, in the most humane manner, all burros found trespassing or grazing in violation of this order.

(c) Public notice of intention to dispose of such burros shall be given by posting notices in public places or advertising in newspaper of general circulation in the locality in which the Tonto National Forest is located.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

Subchapter B—Regulations

PART 17—MONEY-ORDER SYSTEM

INTERNATIONAL MONEY-ORDER SERVICE

1. Amend § 17.51 *Establishment of international money-order service,* by designating the present undesignated paragraph as paragraph (a) and by adding paragraphs (b) and (c), to read as follows:

(b) The maximum amount for which a single money order may be drawn is $100, but more than one order for that amount can be purchased on the same day. However, the limit for a single order payable in Honduras is $10, and only one order for that amount may be purchased on any one day by one remitter in favor of the same payee.

(c) The amounts of money orders payable in Great Britain and Northern Ireland are paid by means of new orders, reissued at the London exchange office. The order form will therefore be marked "Canceled" and sent with the advice and coupon to the New York exchange office. However, money orders payable in Ireland, (Eire, formerly the Irish Free State), the Union of South Africa, New Zealand, New South Wales, Queensland, South Australia, Tasmania, Victoria, and Western Australia are paid on the original order forms, and these documents will be handed to the remitters for transmission to the payees.

2. Amend § 17.55 *Exchange offices,* by adding a new paragraph (c), to read as follows:

(c) (1) There is shown below a list of the countries with which the United States has an exchange of money orders at the present time on the international basis.

Argentina.
Australia (Commonwealth of) consisting of—
New South Wales.
Queensland.
South Australia.
Tasmania.
Victoria.
Western Australia.
Belgium.
Brazil.
Chile.
Colombia.
Costa Rica.
Czechoslovakia.
Finland.
France.
Great Britain and Northern Ireland.
Greece.
Guatemala.
Honduras.
Hungary.
Iceland.
Ireland (Eire).
Lebanon.
Luxembourg.
Mexico.
New Zealand.
Palestine.
Peru.
Salvador.
Surinam.
Syria.
Union of South Africa (consisting of)—
Cape of Good Hope.
Natal and Zululand.
Orange Free State.
The Transvaal.
Uruguay.
Yugoslavia.

(2) Other places and countries to which money orders can again be sent through the intermediary of other countries are Gibraltar, British Somaliland, the Azores, Madeira, Mozambique, and Angola, but they cannot now be sent to Borneo, Burma, and the Channel Islands.

(3) Money-order service with the British Solomon Islands is conducted through the intermediary of New South Wales, but the only post office at which United States international money orders can be paid there now is Honiara, Guadalcanal. FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

NOTICE OF PROPOSED RULE MAKING

Consideration is being given to the following proposal submitted by the Control Committee and the Plum Commodity Committee, established under the marketing agreement, as amended, and Order No. 36, as amended (7 CFR, Cum. Supp., 936.1 et seq.), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, as the agencies to administer the terms and provisions thereof with respect to plums:

That commencing with the marketing season beginning April 1, 1947, each shipment of plums into, in, or through either of the following regions in the State of California be regarded as directly burdening, obstructing, or affecting interstate or foreign commerce in plums:

(a) The San Francisco-Sacramento region, consisting of Marin County, Sacramento County, Contra Costa County, Alameda County, San Mateo County, and San Francisco County; and

(b) The Los Angeles-San Diego region, consisting of Ventura County, Los Angeles County, Orange County, and San Diego County.

All persons who desire to submit data, views, or arguments with respect to such proposal shall file the same with the Hearing Clerk, United States Department of Agriculture, Room 0308, South Building, Washington 25, D. C., not later than the close of business on the fifteenth day after the publication of this notice in the FEDERAL REGISTER. All documents should be filed in quadruplicate.

As used herein, "plums" and "marketing season" shall have the same meaning as is given to each such term in the amended marketing agreement and order.

(48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 7 CFR, Cum. Supp., 936.1 et seq.)

Issued this 27th day of February 1947.

i. Two (2) checks or other credit instruments, drawn by the Treasurer of the United States and by the Lawyers Mortgage Company, respectively, particularly described in Exhibit D, attached hereto and by reference made a part hereof, and presently in the custody of Carl Petrasch, Mount Kisco, New York, and any and all rights in, to and under, including particularly, but not limited to, possession and presentation for collection and payment, of the aforesaid checks or other credit instruments, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 2-a hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, and

There is hereby vested in the Attorney General of the United States the property described in subparagraphs 2-b to 2-i hereof, inclusive.

All such property so vested to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on February 11, 1947.

For the Attorney General.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-1450]

CONTINENTAL GAS & ELECTRIC CORP. AND KANSAS CITY POWER & LIGHT CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 25th day of February 1947.

Kansas City Power & Light Company ("Kansas City"), a subsidiary of Continental Gas & Electric Corporation ("Continental"), a registered holding company and in turn a subsidiary of The United Light and Railways Company, and Continental having filed a joint application-declaration pursuant to sections 6, 7, 9, 10 and 12 (f) of the Public Utility Holding Company Act of 1935 and Rule U-43 promulgated thereunder regarding the issuance and sale by Kansas City and the acquisition by Continental of an additional 172,000 shares of common stock of Kansas City without par value for a cash consideration of $3,500,000 for the purpose of financing the construction of facilities by Kansas City; and

Said joint application-declaration having been filed on February 6, 1947 and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for a hearing thereon within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and request having been made for accelerated action upon the joint application-declaration; and

The Commission finding with respect to said joint-application that the requirements of the applicable sections of the act and the rules promulgated thereunder are satisfied, that no adverse findings are necessary thereunder, and that action upon said joint application-declaration should be accelerated; and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers to grant and permit said application-declaration to become effective; such action, however, to be without prejudice to the Commission's subsequent consideration and determination of any of the issues in the pending section 11 proceedings with respect to Continental and The United Light and Railways Company;

It is hereby ordered, Effective forthwith, pursuant to Rule U-23 and the applicable provisions of the act, that the joint application-declaration be and the same hereby is granted and permitted to become effective.

FEDERAL POWER COMMISSION

[Docket No. G-866]

KANSAS-NEBRASKA NATURAL GAS CO., INC.

ORDER FIXING DATE FOR HEARING

Upon consideration of the application of Kansas-Nebraska Natural Gas Company, Inc., filed pursuant to section 7 of the Natural Gas Act, as amended;

It appears to the Commission that:

(a) Kansas-Nebraska Natural Gas Company, Inc. (Applicant), a Kansas corporation engaged in the transportation and sale of natural gas in the States of Kansas and Nebraska, filed on February 18, 1947, an application for a certificate of public convenience and necessity authorizing the construction, maintenance and operation of the following facilities, to wit:

A certain gas pipeline approximately 47 miles in length extending from a connection with the existing pipelines of Applicant at or near the City of Cambridge, in Furnas County, Nebraska; thence in a generally northerly and northeasterly direction into and through the County of Frontier, in said State, and thence northerly into and through the County of Dawson, in said State, to a point of connection with the existing 6-inch pipeline of Applicant at or near the town of Cozad, in the last mentioned county.

(b) The aforesaid facilities are to consist of approximately 30 miles of new so-called 6-inch invasion or government surplus pipe, approximately 2 miles of new 6⅝-inch pipe and approximately 15 miles of reclaimed and reconditioned 6⅝-inch pipe. By means of this pipeline Applicant proposes to move approximately 6,000 Mcf of natural gas per day into the Platte River Valley in the State of Nebraska.

(c) The aforesaid application was filed as an emergency application for a temporary certificate so that construction could be commenced as soon as weather conditions permit. It is claimed imperative to the interest of the farm-

ing element in the State of Nebraska and the general welfare of the State itself, that the proposed line be placed in service as soon as possible.

(d) Applicant states that the additional gas is necessary for the use of alfalfa dehydrating plants now connected and several additional plants to be connected, the construction of which has been announced or is in prospect, and to maintain adequate service to its domestic customers in the State of Nebraska.

(e) Applicant estimates the total overall capital cost of the proposed pipeline construction to be approximately $230,200 and states that it has on hand and paid for all the necessary materials except items aggregating about $40,000, most of which are in transit and the cost thereof will be met out of current funds.

(f) Hearings are now set for March 4, 1947, at Wichita, Kansas, on other applications for certificates of public convenience and necessity filed by Applicant and it is reasonable and good cause exists by reason of the aforesaid allegations that this application be set for hearing immediately.

The Commission orders that:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure (effective September 11, 1946), a hearing be held on the sixth day of March 1947, at 10:00 a. m., in District Court Room, Main Post Office Building, Wichita, Kansas, concerning the matters of fact and law presented by the application filed in the above-entitled proceeding.

(B) Interested State commissions may participate, as provided by Rules 8 and 37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure (effective September 11, 1946).

Date of issuance: February 26, 1947.

[Project No. 1956]

LYLES FORD TRI-COUNTY POWER AUTHORITY

NOTICE OF APPLICATION FOR PRELIMINARY PERMIT

FEBRUARY 27, 1947.

Public notice is hereby given pursuant to the provisions of the Federal Power Act (16 U. S. C., 791-825r), that Lyles Ford Tri-County Power Authority, of Union, South Carolina, has applied for preliminary permit for proposed Project No. 1956 on the Broad and Congaree Rivers, in Chester, Fairfield, Laurens, Lexington, Newberry, Richland, and Union Counties, South Carolina, consisting of three developments known respectively as the Blairs and Frost Shoals units on the Broad River, and Columbia Regulating Dam on the Congaree River and appurtenant hydroelectric facilities.

Any protest against the approval of this application or request for hearing thereon, with the reasons for such protest or request and the name and address of the party or parties so protesting or requesting, should be submitted on or before March 27, 1947, to the Federal Power Commission, Washington 25, D. C.

[Docket Nos. G-852, G-685 and G-694]

UNION GAS SYSTEM, INC.

ORDER CONSOLIDATING PROCEEDINGS FOR HEARING AND FIXING DATE THEREOF

Upon consideration of the following applications filed pursuant to section 7 of the Natural Gas Act, as amended, it appears to the Commission that:

(a) Union Gas System, Inc., a Kansas corporation with its principal place of business at Independence, Kansas filed on January 27, 1947, Docket No. G-852, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the acquisition of the facilities of Union Gas System, Inc., a Delaware corporation, consisting of a pipeline system extending in general from northern Oklahoma north in Kansas to Burlington, Kansas, and extending east and west from approximately Cedar Vale, Kansas, to Altamont, Kansas, and the operation of such facilities for the transportation of natural gas in rendering the same service as performed by Union Gas System, Inc., the Delaware corporation.

(b) Union Gas System, Inc., a Delaware corporation, filed on November 29, 1945, Docket No. G-685, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the transportation of natural gas in interstate commerce by means of facilities not heretofore used in such transportation in the counties of Chautauqua and Montgomery, in the State of Kansas and to construct and operate facilities for the interconnection of its pipeline system with the pipeline system of Cities Service Gas Company, east of Sedan, Kansas. Temporary authorization to operate the facilities was granted by the Commission on November 26, 1946.

(c) Union Gas System, Inc., a Delaware corporation, filed on January 14, 1946, Docket No. G-694, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the transportation of natural gas in interstate commerce at some future time by means of facilities not heretofore used in such transportation, which facilities were to be acquired from The Independent Industrial Gas Company and The Veeder Supply and Development Company, Delaware corporations, consisting of facilities in and extending north and east from Coffeyville, Kansas.

(d) The foregoing applications are related and should be consolidated for hearing.

The Commission orders that:

(A) The aforesaid proceedings, Docket Nos. G-852, G-685 and G-694 involving applications of Union Gas System, Inc., be and the same hereby are consolidated for hearing.

(B) Pursuant to authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a hearing be held on March 10, 1947, at 10 a. m., c. s. t., in Room 519, United States Court House, Kansas City, Missouri, concerning the matters of fact and law asserted in the applications filed in the aforesaid proceedings.

(C) Interested State commissions may participate as provided by Rules 8 and 37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Date of issuance: February 26, 1947.

TITLE 3—THE PRESIDENT

PROCLAMATION 2718

"I AM AN AMERICAN DAY", 1947

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the rise of the United States of America to a place of eminence among nations in less than two centuries has been greatly enhanced by the migration to its shores of pioneering, freedom-loving peoples; and

WHEREAS the political life-blood of the Nation is annually renewed by the coming of voting age of more than two million native-born young men and women; and

WHEREAS the combined talents, skills, service, and loyalty of these mingled native-born and foreign-born peoples have brought us victoriously through the greatest of all wars; and

WHEREAS in the teamwork of democracy the requisites for good citizenship are not place of birth or race or religious belief; but character, education, cooperation, and loyalty; and

WHEREAS the stupendous task of all men in this new age is to strive to remove from the world the age-old curse of warfare, and to advance the cause of freedom and brotherhood:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, under and by virtue of the authority vested in me by the Congress in Public Resolution 67, approved May 3, 1940, do hereby designate Sunday, May 18, 1947, as "I Am an American Day," and do set aside that day as a public occasion for the honoring of American citizenship by giving special recognition to those who have become naturalized as citizens during the past year and to the young people who have during the year assumed full responsibilities of citizenship by coming of age.

And I urge Federal, State, and local officials and patriotic, civic, and educational organizations to plan and hold, on or about May 18, exercises designed to help our citizens better to understand their privileges and responsibilities as participants in our representative democracy, to the end that world peace and domestic felicity may be attained and perpetuated.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 1st day of March in the year of our Lord nineteen hundred and forty-seven, and of the Independence of the United States of America the one hundred and seventy-first.

PART 306—CLAIMS AGAINST THE UNITED STATES

CLAIMS COGNIZABLE UNDER FEDERAL TORT CLAIMS ACT

A new section is added to Part 306 to read as follows:

§ 306.29 *Claims cognizable under the Federal Tort Claims Act for damage to or loss of property or on account of personal injury or death caused by the negligent or wrongful act or omission of military personnel or civilian employees of the War Department or of the Army while acting within the scope of their office or employment*—(a) *Scope.* Subject to exclusions set forth in paragraph (c) of this section, the act and this section provide the exclusive authorization and procedure whereby the Secretary of War, or his designee, may consider, ascertain, adjust, determine and settle claims for $1,000 or less, accruing on or after January 1, 1945, on account of damage to or loss of property, or on account of personal injury or death, caused in the United States or its territorial possessions by the negligent or wrongful act or omission of military personnel or civilian employees of the War Department or of the Army while acting within the scope of their employment.

(1) Nothing contained in the act or the regulations set forth in this section, abridges the existing legal authority of the Secretary of War to consider, ascertain, adjust, determine, settle, or pay any claim on account of damage to or loss of property or on account of personal injury or death, in cases where such damage, loss, injury, or death was not caused by any negligent or wrongful act or omission of an employee of the Government while acting within the scope of his office or employment, or any other claim not cognizable under the act and this section.

(2) The provisions of the act do not apply to:

(i) Any claim based upon an act or omission of an employee of the Government, exercising due care, in the execution of a statute or regulation, whether or not such statute or regulation be valid; or based upon the exercise or performance, or the failure to exercise or perform, a discretionary function or duty on the part of a Federal agency or an employee of the Government, whether or not the discretion involved be abused.

(ii) Any claim arising out of the loss, miscarriage, or negligent transmission of letters or postal matter.

(iii) Any claim arising in respect of the assessment or collection of any tax or customs duty, or the detention of any goods or merchandise by any officer of customs or excise or any other law-enforcement officer.

(iv) Any claim for which a remedy is provided by the act of March 9, 1920 (46 U. S. C. 741–752, inclusive) or the act of March 3, 1925 (46 U. S. C. 781–790, inclusive), relating to claims or suits in admiralty against the United States.

(v) Any claim arising out of an act or omission of any employee of the Government in administering the provisions of the Trading with the Enemy Act, as amended.

(vi) Any claim for damages caused by the imposition or establishment of a quarantine by the United States.

(vii) Any claim arising from injury to vessels, or to the cargo, crew, or passengers of vessels, while passing through the locks of the Panama Canal or while in Canal Zone waters.

(viii) Any claim arising out of assault, battery, false imprisonment, false arrest, malicious prosecution, abuse or process, libel, slander, misrepresentation, deceit, or interference with contract rights.

(ix) Any claim for damages caused by the fiscal operations of the Treasury or by the regulation of the monetary system.

(x) Any claim arising out of the combatant activities of the military forces during the time of war.

(xi) Any claim arising in a foreign country.

(xii) Any claim arising from the activities of the Tennessee Valley Authority.

(b) *Claims in excess of $1,000.* The War Department does not have legal authorization to consider administratively claims in excess of $1,000 which are otherwise cognizable under the act. The claimant's remedy, if any, in such cases is by suit in the United States District Court for the district wherein the claimant is resident or wherein the act or omission complained of occurred, including the United States District Courts for the Territories and possessions of the United States.

(c) *Acts or omissions*—(1) *Military personnel and civilian employees.* Military personnel and civilian employees whose acts or omissions may give rise to claims within the scope of the act and the regulations set forth in this section, include members of the military forces of the United States and persons acting on behalf of the War Department in an official capacity, temporarily or permanently in the service of the United States whether with or without compensation.

(2) *Scope of employment.* Acts or omissions of military personnel and civilian employees may give rise to claims payable under the provisions of the regulations set forth in this section, only if such acts or omissions occur while such military personnel or civilian employees are acting within the scope of their employment. Activities of military personnel and civilian employees in the course of which such acts or omissions may occur are ordinarily within the scope of employment if the performance thereof is directed, or if of a kind the performance of which is expressly or impliedly authorized, or if the purpose is, at least in part, to serve the Government.

(3) *Proximate cause.* Claims against the War Department for $1,000 or less, on account of damage to or loss of property or on account of personal injury or death caused by the negligent or wrongful act or omission of military personnel or civilian employees while acting within the scope of their employment, are payable according to this section only where the circumstances are such that the United States, if a private person, would be liable to the claimant under the law of negligence of the place where the act or omission occurred. Acts or omissions involving a lack of reasonable care will be the basis of claims payable under the local law of most jurisdictions. If the proximate cause of the accident or incident is the act or omission of persons other than military personnel or civilian employees, as defined in subparagraph (1) of this paragraph, the claim will not be payable, as a general rule, under local law. If the proximate cause of the accident or incident is the joint or concurrent tortious act or omission of military personnel or civilian employees and of one or more persons other than the claimant, his agent, or employee, the claim will be considered, and determined necessarily, under the local law pertaining to joint tort-feasors. Acts or omissions constituting a mere condition without the existence of which the accident or incident could not have occurred, and which are not the proximate cause thereof, will not constitute a proper basis for finding of liability under the applicable local law as a general rule. For example, the mere violation of certain statutory laws or ordinances providing standards of safety may be declared to be negligence (per se), but such violations will not constitute the basis of liability under local laws generally unless the unlawful acts or omissions are deemed a proximate cause of the accident or incident in that jurisdiction.

(d) *Contributory negligence.* The law of the place where the act or omission occurred will be followed in determining whether contributory negligence is present under the facts of the accident or incident, and also in ascertaining the effect of contributory negligence as a bar to the claim under consideration. Contributory negligence will constitute an absolute bar to a claim under applicable local law in practically all jurisdictions. The doctrine of comparative negligence is recognized in few places.

(e) *Claims of subrogees.* (1) Settlement of claims not exceeding $1,000 will be made solely with the insured rather than with the insurer or with both the insured and insurer, in cases of damage, loss, destruction, injury, or death, covered by insurance. No inquiry will be made into the relative interests between insured and insurer. The entire claim, including any portion thereof insured against, will be filed by or on behalf of the insured and payment of the entire amount approved will be made in the name of and to the insured. Evidence of authority to file a claim on behalf of the insured may be established by a power of attorney, insurance policy provisions, or other satisfactory documentary evidence.

(2) The principles set forth in subparagraph (1) of this paragraph, with respect to subrogation arising from insurance contracts, are applicable to all cases of subrogation.

(3) Although a claim filed in the name of a subrogee may not be considered by the War Department under this section pertaining to the settlement of claims for $1,000 or less, the substantive rights of the subrogee will be determined when properly presented in accordance with the law of the place where the negligent or wrongful act or omission of the Government employee, while acting within the scope of his office or employment, occurred.

(f) *Statute of limitations.* (1) Claims for $1,000 or less, against the United States, cognizable under the act and the regulations set forth in this section, must be presented in writing to the War Department within 1 year after such claim accrued or within 1 year after August 2, 1946, the date of enactment of the act, whichever is later.

(2) A suit may be filed pursuant to the act if brought within 1 year after such claim accrued or within 1 year after the date of enactment of this act, whichever is later. In the event that a claim for a sum not exceeding $1,000 is presented to the War Department, the time to institute a suit under the act shall be extended for a period of 6 months from the date of mailing of notice to the claimant by the War Department with respect to the final disposition of the claim, or for a period of 6 months from the date of withdrawal of the claim from the War Department.

(g) *Acceptance of award.* (1) The acceptance by the claimant of any award, compromise, or settlement made pursuant to the act and this section shall be final and conclusive on the claimant, and shall constitute a complete release by the claimant of any claim against the United States and against the employees of the War Department whose act or omission gave rise to the claim.

(2) An acceptance agreement and general release will be required of and signed by the claimant, or claimants, as a condition precedent to payment under the act and this section in all cases except where the claim is for property damage only, and is approved in the amount claimed, and the report of claims officer shows affirmatively that no persons were injured or killed in the accident or incident giving rise to the claim for property damage.

(h) *Attorneys' fees.* (1) The Secretary of War or his designee, making an award pursuant to the act and this section, may, as a part of the award, determine and allow reasonable attorneys' fees, which, if the amount awarded is $500 or more, shall not exceed 10 per centum of the sum approved, and shall be paid to the attorney representing the claimant, out of, but not in addition to, the amount of the award. The limitation of 10 per centum will not apply when the award is less than $500.

(2) Attorneys' fees may be fixed under subparagraph (1) of this paragraph, only on written request of either the claimant or his attorney.

(i) *Injury or death of military personnel or civilian employees.* (1) Claims on account of personal injury or death of military personnel of the War Department incurred in line of duty will not be considered administratively under the provisions of this section.

(2) Claims on account of personal injury or death of civilian employees of the War Department, to whom the Federal Employees' Compensation Act of September 7, 1916 (39 Stat. 742; 5 U. S. C. 751), as amended, is applicable, will not be considered administratively under the provisions of this section.

(3) Claims for medical, hospital and burial expenses, on account of injury or death of military personnel or civilian employees of the War Department or of the Army, will be first considered under the provisions of §§ 707.1–707.9 of Chapter VII and AR 40–505 (Medical Attendance—General Provisions), §§ 707.40–707.46 and AR 40–510 (Dental Attendance), or §§ 306.50–306.53 and AR 30–1830 (Burial Expenses); claims of civilian employees not within the provisions of AR 40–505, 40–510, or 30–1830, may be within the jurisdiction of the United States Employees' Compensation Commission under the provisions of the act of September 7, 1916 (39 Stat. 742; 5 U. S. C. 751), as amended (§ 306.17 (b) and AR 25–25).

(j) *Approval or disapproval of claims.* Subject to appeal to the Secretary of War, claims under the provisions of this section may be approved or disapproved, in whole or in part, by the Chief, Claims and Litigation Group, Office of The Judge Advocate General, Washington 25, D. C. (See Subtitle A, Part 2, §§ 2.101 to 2.106, inclusive, 11 F. R. 177A–780.)

(k) *Appeal.* (1) Upon disapproval of a claim in whole or in part by the approving authority, the claimant will be notified in writing of the action taken and the reason therefor; and he will in such notice be advised of his right to appeal, stating in such appeal the grounds relied on, to the Secretary of War, through the authority disapproving the claim, within 30 days after the receipt by the claimant of such notification. An appeal will be considered as having been taken seasonably if mailed or delivered within 30 days after the receipt by the claimant of such notification. No notice of the right to appeal is necessary if the full amount claimed is approved for payment.

(2) The action of the approving authority in approving or disapproving a claim in whole or in part will be final and conclusive for all administrative purposes unless the claimant appeals in writing to the Secretary of War as herein provided.

(l) *Conditions of payment.* Prior to payment by the War Department of any claim within the provisions of the act and this section, each of the following conditions must be fulfilled:

(1) The amount of the damage, loss, or destruction, or the amount payable on account of personal injury or death, must be determined in accordance with the law of the place where the negligent act or omission occurred.

(2) The payment must not exceed $1,000.

(3) Claims by subrogees will not be recognized except as an element of the subrogor's claim.

(4) The claim must be presented within 1 year after the occurrence of the accident or incident out of which the claim arises or within 1 year after August 2, 1946, the date of enactment of the act, whichever is later.

(5) Negligence or wrongful act of the claimant, constituting a proximate cause, bars a claim in most jurisdictions. However, the effect of contributory negligence on the part of the claimant as a bar to his claim must be determined in each instance in accordance with the law of the place where the act or omission occurred.

(6) The claim must be approved as provided in paragraph (j) of this section, or, on appeal, by the Secretary of War.

(7) The claimant must accept, in writing, in full satisfaction and final settlement:

(i) The amount approved for personal injury or wrongful death, even though equal to amount claimed.

(ii) The amount approved for property damage or loss if less than the amount claimed.

(iii) The amount approved for property damage or loss equal to amount claimed when personal injury or death resulted also from the accident or incident giving rise to the claim for property damage, even though no claim is filed on account of the personal injury or death.

(8) Claims payable under the provisions of Article of War 105 (see § 306.25 and AR 25–80) are not payable under the provisions of this section.

(9) Claims payable under the provisions of AR 25–25 (see §§ 306.12 to 306.21) are not payable under the provisions of this section.

(10) Foreign claims payable under the provisions of AR 25–90 (see § 306.26) are not payable under the provisions of this section.

(11) Personnel claims payable under the provisions of AR 25–100 (see § 306.27) are not payable under the provisions of this section.

(12) Claims for personal injury or death of military personnel or civilian employees incident to their service are not payable under the provisions of this section.

(m) *Superseded provisions.* With respect to claims for $1,000 or less, and otherwise cognizable under the act and this section, the Federal Tort Claims Act (Pub. Law 601, 79th Cong.) repeals all provisions of law, and this section supersedes other regulations, authorizing the War Department to consider, ascertain, adjust, determine, settle, or pay such claims on account of damage to or loss of property, or on account of personal injury or death, caused by the negligent or wrongful act or omission of any military personnel or civilian employee of the War Department while acting within the scope of his office or employment. The act and this section provide the exclusive procedure whereby these claims for $1,000 or less, predicated on negligence, may be processed. See paragraph (a) of this section. Chapter VII—Personnel

PART 701—RECRUITING AND INDUCTION FOR THE ARMY OF THE UNITED STATES

MISCELLANEOUS AMENDMENTS

Rescind paragraphs (k) and (l) of § 701.30 and substitute the following therefor:

§ 701.30 *Enlistments and reenlistments in the Regular Army pursuant to the act of June 1, 1945, as amended by the Armed Forces Voluntary Recruitment Act of 1945.* • • •

(k) *Grades in which enlisted; former enlisted men and individuals with no prior service.* Applicants for enlistment or reenlistment in the Regular Army will be enlisted in the grades specified in this paragraph:

(1) Provided enlistment is accomplished on or after January 1, 1947.

(i) Individuals honorably discharged from the Army of the United States (including Regular Army) may enlist in the Regular Army in the grade held at time of discharge, permanent or temporary, whichever is higher, provided they enlist for a 3-year period within 20 days from the date of last discharge.

(ii) Individuals who have had satisfactory active service in the Army of at least 6 months, and who enlist within 20 days after the date of discharge from active service, if not eligible to enlist in a higher grade under the provisions of subdivision (i) of this subparagraph will be enlisted in grade six (private first class).

(2) Certain former enlisted men who have not enlisted in the Regular Army, and who are not eligible to enlist therein in a grade higher than the seventh grade under the provisions of subparagraph (1) of this paragraph, may be enlisted in grades commensurate with their prior training and experience.

(3) All other applicants, except as authorized in paragraph (l) of this section will be enlisted in grade seven (private).

(l) *Grades in which enlisted; former officers, warrant officers, and flight officers.* (1) An applicant for enlistment whose last period of active service in the Army was in the status of commissioned officer, warrant officer, or flight officer, whose release from such status was under honorable conditions and who enlists for a 3-year period within 20 days from date of release from active service (date of release from active service is, for this purpose, the last day of terminal leave granted) will be enlisted in grade one except as follows:

(i) On and after July 1, 1947 an applicant for enlistment whose last period of active service was in the status of a commissioned officer, warrant officer, or flight officer, if enlistment for assignment to Army Air Forces is desired, will be enlisted in grades to be prescribed by the Commanding General, Army Air Forces.

(ii) On and after July 1, 1947, in addition to the exception cited in subdivision (i) of this subparagraph, an applicant for enlistment whose last period of service in the Army was in the status of a commissioned officer, whose basic Arm at time of separation was Air Corps; flight officer; or warrant officer of classification number 8 (MOS 4902—Technical Supply Officer, Air), 12 (MOS 8219—Weather Officer), 13 (MOS 8502—Aerial Photographic Officer), 15 (MOS 4823—Aircraft Engineering Officer), 16 (MOS 4822—Armament and Chemical Officer, Aviation), 17 (MOS 4825—Bombsight Maintenance Officer), or 28 (MOS 0200—Communications Officer, Air Corps), if enlistment for assignment other than Army Air Forces is desired will be enlisted in a grade to be prescribed by the appropriate army commander or chief of the administrative or technical service concerned. (This paragraph does not apply to commissioned officers of other arms and services or warrant officers, of any classification other than those listed in this subparagraph on duty with Army Air Forces.)

(2) An applicant for enlistment whose last period of active service in the Army was in the status of commissioned officer, warrant officer, or flight officer, whose release from such status was under honorable conditions, and who is not eligible to enlist in the Regular Army under the provisions of subparagraph (1) of this paragraph may be enlisted in grades commensurate with his prior training and experience.

(3) The provisions of this paragraph and the fact that no further change in this policy is contemplated will be brought immediately to the attention of all officers, warrant officers, and flight officers on active duty, except Regular Army officers.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 41–4]

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE CONTINENTAL LIMITS OF THE UNITED STATES

SCHEDULED AIR CARRIER APPROACH AND LANDING LIMITATIONS

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 21st day of February 1947.

Recent airline accident experience indicates that § 41.432 is inadequate to prevent low approaches under marginal weather conditions because this section is effective only when the Weather Bureau reports a "measured ceiling." When weather conditions are critical, ceilings reported as "measured" are only a small percentage of the total. The problem of instrument approach procedures and weather minimums as correlated with existing air navigation facilities is now being given joint study by the air carriers, the Administrator, and the Board; and it is anticipated that within the next few months such procedures and minimums may be modified to the extent that further change of § 41.432 may be desirable. In the meantime, immediate changes are required in order to provide for safer operations.

The Board finds that the public interest requires a revision of § 41.432 of the Civil Air Regulations, that such revision should be made effective immediately, and that compliance with paragraphs (a) and (b) of section 4 of the Administrative Procedure Act is impracticable.

Now, therefore, effective February 21, 1947, § 41.432 of the Civil Air Regulations is amended to read as follows:

§ 41.432 *Approach and landing limitations.* No instrument approach procedure shall be executed or landing made at an airport when the latest U. S. Weather Bureau weather report for that airport indicates the ceiling or visibility to be less than that prescribed by the Administrator for landing at such airport. (52 Stat. 984, 1007; 49 U. S. C. 425, 551)

PART 224—TARIFFS

FILING, POSTING AND PUBLISHING OF TARIFFS BY AIR CARRIERS AND FOREIGN AIR CARRIERS

Amendment No. 4 of § 224.1 of the Economic Regulations.

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 26th day of February 1947.

The Civil Aeronautics Board, acting pursuant to the Civil Aeronautics Act of 1938, as amended, particularly section 205 (a) thereof, and for the purpose of implementing section 403 (a) thereof; and finding that notice and public procedure are unnecessary because the general public is not affected and only minor and technical amendment of a regulation is involved; and finding that such amendment is required in order to insure performance of obligations assumed by the United States in treaties, conventions, and agreements with other countries, and that this fact constitutes good cause for making such amendment effective without delay; hereby makes and promulgates the following regulation:

Effective February 26, 1947, § 224.1 of the economic regulations is amended by adding thereto a new paragraph (t) reading as follows:

§ 224.1 *Filing, posting and publishing of tariffs by air carriers and foreign air carriers.* • • •

(t) *Statement of filing with foreign governments.* Every air carrier tariff, supplement, or revised page containing rates or rules which by treaty, convention, or agreement entered into between any foreign country and the United States are required to be filed with that foreign country, shall include a statement substantially as follows:

The rates, fares, charges, classifications, rules, regulations, practices, and services provided herein have been filed in each country in which filing is required by treaty, convention, or agreement entered into between that country and the United States, in accordance with the provisions of the applicable treaty, convention, or agreement.

(52 Stat. 984, 992, as amended; 49 U. S. C. 425a, 483b)

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 51637]

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

WOOL-BEARING SHEEPSKINS

Section 10.77, Customs Regulations of 1943 (19 CFR, Cum. Supp., 10.77), is amended to read as follows:

§ 10.77 *Skins bearing wool as fur skins.* (a) The following types of lambskins may be classified as fur skins under paragraph 1681, Tariff Act of 1930,[1] without special supporting evidence:

Astrekhan.	Krimmer.
Bagdad.	Moire.
Bessarabian.	Mosul.
Bombay.	Multan.
Broadtail.	Persian.
Caracul.	Salzfells.
Chekiang.	Shiraz.
Chinese.	Southwest African.
Indian.	Tsining.
Karakul.	

(b) If any skins, other than the above-named lambskins, bearing wool or hair of a kind described in paragraph 1101 or 1102, Tariff Act of 1930, as amended, are claimed to be more specifically provided for as fur skins in paragraph 1681 of that act, the importer shall file in connection with the entry an affidavit that the skins are to be used for no other purpose than as fur skins, and free entry shall be dependent upon a report of the appraiser that no substantial part of the wool or hair on the skins can economically be removed otherwise than as an unsought residue and used or disposed of in competition with pulled or clipped wool, and that they are suitable for use, without removing the wool or hair from the skins, in the manufacture or trimming of clothing, driving gloves, or other articles in which the imported skins will be used as furs. (Par. 1681: sec. 201, 46 Stat. 677, sec. 624, 46 Stat. 759; 19 U. S. C. 1201, 1624)

Insofar as the foregoing amendment will require the assessment of duty on merchandise of a kind now being classified under paragraph 1681, Tariff Act of 1930, it shall be effective only with respect to merchandise entered for consumption after the expiration of 30 days after the publication of the amendment in the weekly Treasury Decisions.

An investigation has established that at and immediately prior to the passage of the Tariff Act of 1930 the types of lambskins named in paragraph (a) of the amended § 10.77 were commercially known in the United States as fur skins and were chiefly used in this country for fur purposes. The investigation further disclosed that since 1936 certain importers have found it profitable to use, and have used, for fur purposes types of sheep and lamb skins which were not in fact fur skins but could be made suitable for fur use under prevailing market conditions by the removal of substantial quantities of valuable wool. This wool is a valuable byproduct in the processing of the skins for fur purposes, rather than an unsought residue, and is sold in our markets in competition with pulled or clipped wool. Although a practice has been established of classifying such skins under paragraph 1681 because the primary use of such imported skins was for fur purposes, the Bureau is now satisfied that this practice was incorrect because such skins were neither commercially known nor chiefly used as fur skins at or before the passage of the Tariff Act of 1930.

The mere fact that wool-bearing sheepskins are to be used without the separation of the wool from the skin does not preclude the classification of such skins under paragraph 1101 or 1102, Tariff Act of 1930, and the Bureau is satisfied that kinds chiefly used shortly before the passage of the tariff act in the manufacture of powder puffs, dusters, and automobile polishers are classifiable under one of those provisions, insofar as the wool is concerned (T. D. 46035 and Abstract 1553 (N)). The use of wool-bearing sheepskins in the manufacture of floor coverings does constitute a fur use, and skins chiefly so used shortly before the passage of the act are classifiable under paragraph 1681 (T. Ds. 37221 and 48177).

TITLE 21—FOOD AND DRUGS

Chapter II—Bureau of Narcotics, Department of the Treasury

PART 206—ORGANIZATION, FUNCTIONS AND PROCEDURES OF THE BUREAU OF NARCOTICS

DELEGATION OF AUTHORITY AND PROCEDURE WITH RESPECT TO OPIATES

1. The following new paragraph is added at the end of § 206.3 (11 F. R. 177A-71):

§ 206.3 *Delegations by the Secretary to the Commissioner of Narcotics.* • • •

(f) Authority to conduct any hearing to determine the addiction-forming or addiction-sustaining liability of any drug, as described in section 1 of the act of March 8, 1946 (Pub. Law 320, 79th Cong.); and to make, prescribe and issue, with the approval of the Secretary of the Treasury, all necessary rules and regulations for carrying out the provisions of section 1 of said act of March 8, 1946. (Sec. 1, Pub. Law 320, 79th Cong.; 60 Stat. 38)

2. The following new paragraph is added at the end of § 206.7 (11 F. R. 177A-72):

§ 206.7 *Rules.* • • •

(e) Any person interested in the determination whether a drug (as defined in the Federal Food, Drug and Cosmetic Act, 21 U. S. C. 321 (g)) has an addiction-forming or addiction-sustaining liability similar to morphine or cocaine for the purpose of a finding whether it is an opiate as defined in section 1 of the act of March 8, 1946 (Pub. Law 320, 79th Cong.; 60 Stat. 38) will be accorded opportunity to be heard, by the Commissioner of Narcotics, Washington 25, D. C., pursuant to hearing regulations published in Part 207 (§§ 207.1–207.3) of this chapter, *infra*. (Sec. 1, Pub. Law 320, 79th Cong.; 60 Stat. 38)

[T. D. 38]

PART 207—DELEGATION ORDERS AND HEARING RULES UNDER THE ACT OF MARCH 8, 1946

Sec.
207.1 Delegation of authority, re opiates.
207.2 Hearing; notice.
207.3 Procedural rules.

AUTHORITY: §§ 207.1 to 207.3 inclusive, issued under section 1, Public Law 320, 79th Congress, 68 Stat. 38.

§ 207.1 *Delegation of authority (re opiates).* There are hereby conferred and imposed upon the Commissioner of Narcotics, subject to the general supervision and direction of the Secretary of the Treasury, all the rights, privileges, powers and duties conferred or imposed upon said Secretary by section 1 of Public Law 320, 79th Congress (60 Stat. 38) so far as such rights, privileges, powers and duties relate to:

(a) The conducting of any hearing to determine the addiction-forming or addiction-sustaining liability of any drug as defined in the act.

(b) The making, prescribing, and issuing, with the approval of the Secretary of the Treasury, of all necessary rules and regulations for carrying out the provisions of section 1 of Public Law 320, 79th Congress (60 Stat. 38).

§ 207.2 *Hearing; notice.* (a) For the purpose of carrying out the provisions of section 1 of Public Law 320, 79th Congress (60 Stat. 38), due notice shall be given, and opportunity for a public hearing to all interested parties shall be afforded to determine whether any drug as defined in the Federal Food, Drug and Cosmetic Act (21 U. S. C. 321 (g)) has an addiction-forming or addiction-sustaining liability similar to morphine or cocaine. The Commssioner of Narcotics, hereinafter designated as the Commissioner, is authorized to conduct a hearing at a time and place to be announced in the notice.

(b) Not less than 20 days prior to the date set for a hearing, the Commissioner shall cause to be published in the FEDERAL REGISTER a notice setting forth the date, time and place of the proposed hearing. The notice shall also identify the drug upon which evidence will be heard to determine its addiction-forming or addiction-sustaining liability. Any person desiring to be heard on the addiction-forming or addiction-sustaining liability of the particular drug shall furnish written notice to the Commissioner of Narcotics, Washington 25, D. C., not later than 20 days from the date notice of hearing is published in the FEDERAL REGISTER. If no written notice of a desire to be heard shall be received by the Commissioner within such period of 20 days, no hearing shall be held, but the Commissioner shall proceed to make a recommendation based upon the result of pharmacologic tests of the drug. This recommendation, together with a report of the results of pharmacologic tests upon which it is based, shall be transmitted promptly to the Secretary of the Treasury for a finding as to the addiction-forming or addiction-sustaining liability of the drug as compared to morphine or cocaine.

§ 207.3 *Procedure.* (a) If written notice of a desire to be heard is received by the Commissioner within the prescribed period of 20 days, the hearing will be held in accordance with the original notice. Evidence, both documentary and oral, will be received, and argument will be heard, on the question whether the particular drug has an addiction-forming or addiction-sustaining liability similar to morphine or cocaine, but all such evidence shall be based upon the result of pharmacologic tests of the drug.

(b) The Commissioner shall prepare a report containing the substance of all evidence adduced, including copies of documentary evidence, the arguments presented, and any briefs submitted and shall transmit the same, with his recommendation, to the Secretary of the Treasury within 30 days from the date of conclusion of the hearing. All persons who were parties to the hearing shall, at the same time, be notified of the Commissioner's recommendation.

(c) Within ten days from the date of receipt of the Commissioner's recommendation, the Secretary of the Treasury shall make his finding, and if he finds that the drug has an addiction-forming or addiction-sustaining liability similar to morphine or cocaine, he shall transmit such finding to the President for proclamation. If he finds that the drug has no such addiction-forming or addiction-sustaining liability, he shall so notify the Commissioner who shall communicate this finding to all persons who were parties to any hearing held under this section.

Sections 207.1 to 207.3, inclusive, shall take effect on the date of publication in the FEDERAL REGISTER.

[SEAL] JOSEPH J. O'CONNELL, Jr.,
Acting Secretary of the Treasury.

944.16 Audit and inspection.
944.17 Reports.
944.18 Violations.
944.19 Appeals for relief in exceptional cases.
944.20 Notification of customers.

§ 944.1 *Purpose and scope of this regulation; definitions.* This regulation states the basic rules of the Civilian Production Administration which apply to all business transactions unless they are covered by more specific regulations or orders of the Civilian Production Administration which are inconsistent with this regulation. It includes transactions which are not subject to priority control in any other way than by this regulation. The following definitions apply for purposes of this regulation and any other regulation or order of the Civilian Production Administration, unless otherwise indicated.

(a) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(b) [Deleted Oct. 1, 1945.]

(c) "Material" means any commodity, equipment, accessory, part, assembly or product of any kind.

§ 944.1b [Deleted Oct. 1, 1945.]

§ 944.2 *Rules for acceptance and rejection of rated orders.* Every order bearing a preference rating must be accepted and filled regardless of existing contracts and orders except in the following cases:

(a) A person must not accept a rated order for delivery on a date which would interfere with delivery on equal or higher rated orders which he has already accepted, or if delivery of the material ordered would interfere with delivery on an order which the War Production Board or Civilian Production Administration has directed him to fill for that material or for a product which he makes out of it.

(b) A person must not accept a rated order (except an AAA or RRR order) for delivery on a date which can be met only by using material which was specifically produced for delivery on another rated order, and which is completed or is in production and scheduled for completion within 15 days.

(c) If a person, when receiving a rated order bearing a specific delivery date, does not expect to be able to fill it by the time requested, he must not accept it for delivery at that time. He must either (1) reject the order, stating when he could fill it, or (2) accept it for delivery on the earliest date he expects to be able to deliver, informing the customer of that date. He may adopt either of these two courses, depending on his understanding of which his customer would prefer. He may not reject a low rated order just because he expects to receive conflicting higher rated orders in the future, nor because he would for any reason prefer to have higher ratings.

(d) If a person receives a rated order which is not required by § 944.8 to bear a specific delivery date and which he cannot fill promptly, he must accept it as long as he expects to be able to fill it within a reasonable time, unless he makes a consistent practice of not carrying a backlog and rejecting orders which cannot be promptly filled. He may treat different classes of customers differently in this respect, but only if there is a reasonable basis for the distinction. For example, he may make a regular practice of rejecting unfillable orders from all retailers but holding for backlog orders from all industrial customers.

(e) A rated order need not be (but may be) accepted in the following cases, but there must be no discrimination in such cases against rated orders, or between rated orders of different customers:

(1) If the person seeking to place the order is unwilling or unable to meet regularly established prices and terms of sale or payment. (When a person who has a rating asks a supplier to quote his regularly established prices and terms of sale or payment or the earliest date on which he could make delivery on that rating, the supplier must do so, except that if this would require detailed engineering or accounting work, he may give his best estimate without such work and state that it is not binding. However, the supplier need not quote if he is not required to accept the rated order and knows that he will not do so if he receives it. Any quotation as to delivery date to a person whose order has not been received will be subject to the effect on the supplier's deliveries of rated orders received by him after making the quotation and before he receives the firm order from the person making the inquiry.)

(For status of OPA ceiling prices under this section see Interpretation 2. For rule covering types of sales and types of purchases see Interpretation 3.)

(2) If the order is for the manufacture of a product or the performance of a service of a kind which the person to

whom the order is offered has not usually made or performed, and in addition if either (i) he cannot fill the order without substantially altering or adding to his facilities or (ii) the order can readily be performed by someone else who has usually accepted and performed such orders.

(3) If the order is for material which the person to whom the order is offered produces or acquires for his own use only, and he has not filled any orders for that material within the past two years, except on "special sales" as permitted in Priorities Regulation 13. If he has, but the rated order would take more than the excess over his own needs, he may not reject the rated order unless filling it would interfere with equal or higher rated orders already on hand, or orders which the War Production Board or Civilian Production Administration has directed him to fill, for the material or for a product which he makes out of it.

(4) If filling the order would stop or interrupt his production or operations during the next 40 days in a way which would cause a substantial loss of total production or a substantial delay in operations.

(For types of contracts which must be deferred see Interpretation 1b. For rule as to deferment of orders on steel, copper and aluminum producers, see Direction 11.)

(f) Any person who fails or refuses to accept an order bearing a preference rating shall, upon written request of the person placing the order, promptly give his reasons in writing for his failure or refusal.

(g) Some orders of the Civilian Production Administration provide special rules as to the acceptance and rejection of orders for particular materials. In such cases, the rules stated above in this section are inapplicable to the extent that they are inconsistent with the applicable order of the Civilian Production Administration. In addition, the Civilian Production Administration may specifically direct a person in writing to fill a particular purchase order or orders. In such cases he must do so without regard to any of the above rules in this § 944.2, except that he may insist upon compliance with regularly established prices and terms of payment.

§ 944.3 *Report to Civilian Production Administration of improperly rejected orders.* When a rated order is rejected in violation of this regulation, the person who wants to place it may file a report of the relevant facts with the Civilian Production Administration, which will take such action as it considers appropriate after requiring an explanation from the person rejecting the order.

§ 944.4 *Assignment of preference ratings.* Preference ratings may be assigned to contracts, orders or deliveries by means of preference rating certificates, or by rules, regulations or orders of the Civilian Production Administration assigning ratings to particular orders or deliveries or to specified classes of orders or deliveries. Such ratings may be assigned to accepted contracts or orders, and also to orders which have not been placed or accepted at the time the rating is applied for. Ratings are also assigned by certain governmental agencies, authorized by the Civilian Production Administration, to their own purchase orders or contracts. In some cases the Civilian Production Administration will raise or lower ratings already assigned and in that event the rules of Priorities Regulation 12 (§ 944.33) apply. Specific orders may also be issued as to particular deliveries or as to the use of particular facilities, without assigning ratings thereto.

§ 944.4a *Cancellation of preference ratings.* If a preference rating which has been assigned to a named person is revoked, he must immediately, in the case of each order to which he has applied the rating either cancel the order or inform his supplier that it is no longer to be treated as rated. If a regulation or order of the Civilian Production Administration which assigns a rating to a class or group of persons without naming them individually, is revoked they may not apply the rating to orders placed after the revocation. Orders to which they have already applied the rating for delivery within three months after the revocation remain validly rated, but, in the case of each order which they have placed for delivery after three months from that date, they must either cancel the order or withdraw the rating. If any person receives notice from his customer or otherwise that the customer's order is no longer rated or that the customer's order is cancelled, he must immediately withdraw any extensions of the rating which he has made to any order placed by him for more than $25 worth of material. The Civilian Production Administration may specify different rules for the treatment of outstanding ratings at the time it revokes them.

(For the rules about transferring preference ratings when contracts are assigned, see Interpretation 5.)

§ 944.5 *Sequence and description of preference ratings.* (a) Preference ratings in order of precedence are: (1) AAA and RRR which are of equal value; (2) MM; (3) HHH; (4) CC, HH and RR, which are of equal value. The conditions under which each of these ratings are generally assigned is given in paragraph (b) below.

(b) The above preference ratings are generally assigned as follows:

(1) The AAA rating may be assigned in emergencies under existing procedures until March 31, 1947; and the RRR rating may be assigned before or after March 31 in extreme emergencies and where a RR rating would be inadequate. Some of the AAA ratings outstanding at the end of March 1947 will expire at that time under the terms of Priorities Regulation 35.

(2) The MM rating has in the past been assigned by the Army and Navy and other military and governmental agencies in accordance with provisions of Directive 41 and other CPA Directives issued from time to time. These Directives have been revoked and no additional MM ratings will be assigned in the future, either by CPA or by other military and governmental agencies. Revocation of these Directives did not affect the validity of any ratings which were assigned under them before their revocation. However some of these ratings will expire at the end of March 1947, under the terms of Priorities Regulation 35.

(3) The CC rating may be assigned until March 31, 1947, as described in Priorities Regulation 28; and the RR rating may be assigned before or after the end of March as described in Supplement I to that regulation. That regulation and supplement describe the limited conditions under which the CPA may assign the CC or RR ratings. Many of the CC ratings outstanding at the end of March 1947 will expire at that time under the terms of Priorities Regulation 35.

(4) The HHH and HH ratings were assigned for housing under the rules explained in Priorities Regulation 33. These ratings are not affected in any way by Priorities Regulation 35.

(c) The rules for the extension of the above ratings are explained in Priorities Regulation 3.

§ 944.6 *Doubtful cases.* Whenever there is doubt as to the preference rating applicable to any order, the matter is to be referred to the Civilian Production Administration for determination, with a statement of all pertinent facts.

§ 944.7 *Sequence of filling rated orders.* (a) Every person who has rated orders on hand must schedule his operations, if possible, so as to fill each rated order by the required delivery or performance date (determined as explained in § 944.8). If this is not possible for any reason, he must give precedence to higher over lower rated orders and to all rated over unrated orders. However, material specifically produced for a rated order may not be used to fill a higher rated order (except AAA or RRR) subsequently received if the material is completed or is in production and scheduled for completion within 15 days. A low rated order bearing an earlier delivery or performance date must be filled before a higher rated order bearing a later delivery or performance date if it is possible to fill both of them on the required dates.

(b) As between conflicting orders which bear the same preference rating, precedence must be given to the order which was received first with the rating. As between conflicting orders received with the same preference rating on the same date, precedence must be given to the order which has the earlier required delivery or performance date.

(c) If a rated order or the rating applicable to an order is cancelled when the supplier has material in production to fill it, he need not immediately stop to put other rated orders into production if doing so would cause a substantial loss of total production. He may continue to process that material which he had put into production for the cancelled order to a stage of completion which would avoid a substantial loss of total production, but he may not incorporate any material which he needs to fill any rated order on hand. He may not, however, delay putting other rated orders into production for more than 15 days.

(For the effect of changes in customers orders, see Direction 1 to this regulation. For further explanations of paragraph (b) see Interpretation 1c. For an explanation of how to determine the date on which a purchase order is received, see Interpretation 12.)

§ 944.8 *Delivery or performance dates.* (a) Every rated order placed after March 18, 1944, must specify delivery or performance on a particular date or dates or within specified periods of not more than 31 days each, which in no case may be earlier than required by the person placing the order. Any order which fails to comply with this rule must be treated as an unrated order. The words "immediately" or "as soon as possible" or other words to that effect, are not sufficient for this purpose. There are three exceptions to this rule, where a rated order need not bear a required delivery or performance date as long as it is understood that delivery or performance is required as soon as practicable or customary: (1) Orders placed with or by persons who normally take physical delivery of the item ordered to hold it in stock for resale; (2) orders for not more than $100; (3) orders rated AAA or RRR.

(b) The required delivery or performance date, for purposes of determining the sequence of deliveries or performance pursuant to § 944.7, shall be the date on which delivery or performance is actually required. The person with whom the order is placed may assume that the required delivery or performance date is the date specified in the order or contract unless he knows either (1) that the date so specified was earlier than required at the time the order was placed or (2) that delivery or performance by the date originally specified is no longer required by reason of any change of circumstances. A delay in the scheduled receipt of any other material which the person placing the order requires prior to or concurrently with the material ordered, shall be deemed a change of circumstances within the meaning of the foregoing sentence.

(c) If after accepting a rated order which specifies the time of delivery, the person with whom it is placed finds that he cannot fill it on time or within 15 days following the specified time, owing to the receipt of higher rated orders or for other reasons, he must promptly notify the customer, telling him approximately when he expects to be able to fill the order. Inability to fill the order on time or within fifteen days following the specified time does not authorize a supplier to cancel the order.

§ 944.9 *Report to Civilian Production Administration of improper delay of orders.* When delivery or performance of a rated order is unreasonably or improperly delayed, the customer may file a report of the relevant facts with the Civilian Production Administration, which will take such action as it considers appropriate after requiring an explanation from the person with whom the order is placed.

§ 944.10 *Effect of other regulations and orders.* Specific allocations or other directions of the Civilian Production Administration for delivery of material or the use of facilities must be complied with regardless of ratings, unless otherwise specified. If restrictions under two or more regulations or orders of the Civilian Production Administration apply to the same subject matter, the most restrictive controls unless otherwise expressly provided. Rated orders are not exempt from restrictions on the amount of materials that may be made or delivered unless expressly so stated.

§ 944.10a *Effect of revocation of orders and regulations.* (a) When an order or regulation of the Civilian Production Administration is revoked, all published amendments, schedules, appendices, and directions to that order or regulation are revoked, unless otherwise stated in the instrument revoking the order or regulation.

(b) All directions, authorizations, production or delivery schedules and other instruments addressed to named persons pursuant to any order or regulation which was revoked before October 1, 1945, are revoked on October 1, 1945. Whenever an order or regulation of the CPA is revoked on or after October 1, 1945, all directions, authorizations, allocations, production or delivery schedules and other instruments addressed to named persons pursuant to that order or regulation are revoked, unless otherwise stated in the instrument of revocation. Any material which was obtained by means of any such revoked direction, authorization, allocation, etc., may be used or disposed of only as permitted under paragraph (b) of § 944.11.

(c) "Suspension orders" and "consent orders" issued on the basis of a violation of orders and regulations of the War Production Board or Civilian Production Administration remain in effect after revocation of such orders and regulations, unless otherwise provided. If you are subject to a suspension order or consent order which you think should be lifted or modified because of the lifting of the restriction on which the violation was based, you may address a request for relief to the Chief Compliance Commissioner, Civilian Production Administration, Washington 25, D. C.

§ 944.11 *Use or disposition of material acquired with priorities assistance.* (a) Any person who gets material with priorities assistance must, if possible, use or dispose of it (or of the product into which it has been incorporated) for the purpose for which the assistance was given. This restriction applies to material obtained by means of a preference rating (AAA, RRR, MM, HHH, CC, HH or RR) allocation, specific direction, or any other action of the War Production Board or Civilian Production Administration. Physical segregation is not required as long as the restrictions applicable to any specific lot of material or product are observed with respect to an equivalent amount of the same material or product. The above restriction does not apply in the following two cases, but the rules on further use or disposition in paragraph (b) below must be observed: (1) When a material, or a product into which it has been incorporated, can no longer be used for the purpose for which the priorities assistance was given (for example, when the priorities assistance was given to fill a particular contract or purchase order and the material or product does not meet the customer's specifications or the contract or purchase order is cancelled); (2) when the material was obtained by means of a rating in the AA series or a CMP allotment, or by means of any order, regulation, rating, allocation, specific direction or other action of the WPB or CPA which has been revoked or cancelled, unless otherwise stated in the instrument of revocation or in any other action of the CPA.

(b) A material or product subject to paragraph (a) (1) or (2) above may be used or disposed of only as follows:

(1) If the holder acquired or made the material or product for use and not for sale or resale and is not regularly engaged in the business of selling it, a proposed sale by him is a special sale covered by Priorities Regulation 13 and he may sell or transfer it only as provided in that regulation.

(2) If the proposed sale is not a special sale described by paragraph (b) (1), the holder may sell as long as he complies with all requirements of other applicable sections of this regulation and of other orders and regulations of the Civilian Production Administration. This is true of all such sales of any material including scrap.

(3) The holder may, within the limitations of paragraph (f) of Priorities Regulation 32 (inventory restriction on processing), use the material or product himself in any manner or for any purpose as long as he complies with all applicable CPA orders and regulations. If the intended use is prohibited or restricted, he must appeal or otherwise apply for permission under the applicable order or regulation.

§ 944.12 *Intra-company deliveries.* When any rule, regulation or order of the Civilian Production Administration prohibits or restricts deliveries of any material by any person, such prohibition or restriction shall, in the absence of a contrary direction, apply not only to deliveries to other persons, including affiliates and subsidiaries, but also to deliveries from one branch, division or section of a single enterprise to another branch, division or section of the same or any other enterprise under common ownership or control.

(For rule as to effect of inventory and small order provisions on separate operating units of same company see Interpretation 8.)

§ 944.13 *Scope of regulations and orders.* All regulations and orders of the Civilian Production Administration (including directions, directives and other instructions) apply to all subsequent

transactions even though they are covered by previous contracts. Regulations and orders apply to transactions in the territories or insular possessions of the United States unless the regulation or order specifically states that it is limited to the continental United States or to the 48 states and the District of Columbia. However, restrictions of Civilian Production Administration orders or regulations on the use of material or on the amount of inventory shall not apply when the material is used or the inventory is held directly by the Army or Navy outside the 48 states and the District of Columbia, unless otherwise specifically provided. Regulations and orders do not apply to transactions in the Philippine Islands unless they specifically state that they do. Exports and deliveries of material to be exported may be made regardless of any CPA order or regulation restricting inventories of material or uses thereof in manufacture or otherwise, or requiring certificates with respect to such inventories or uses, insofar as such inventories are maintained or such uses occur in the country to which such material is to be exported, but shall be subject to such restrictions with respect to inventories maintained or uses occurring within the United States prior to export.

(For applicability of certain restrictions in CPA orders to exports, see Interpretation 18.)

§ 944.13a *Defense against claims for damages.* No persons shall be held liable for damages or penalties for any default under any contract or order which shall result directly or indirectly from compliance with any rule, regulation or order of the Civilian Production Administration, notwithstanding that any such rule, regulation or order shall thereafter be declared by judicial or other competent authority to be invalid.

§ 944.14 *Inventory restrictions.* No person may deliver or receive into inventory more of any material than is permitted under Priorities Regulation 32. That regulation takes the place of the rules formerly in this section.

§ 944.14a *Delivery for unlawful purposes prohibited.* No person shall deliver any material which he knows or has reason to believe will be accepted, redelivered, held or used in violation of any order or regulation of the Civilian Production Administration.

§ 944.15 *Records.* Each person participating in any transaction to which any rule, regulation or order of the Civilian Production Administration applies shall keep and preserve for at least two years accurate and complete records of the details of each such transaction and of his inventories of the material involved. Such records shall include the dates of all contracts or purchase orders accepted, the delivery dates specified in such contracts or purchase orders, and in any preference rating certificates accompanying them, the dates of actual deliveries thereunder, description of the material covered by such contracts or purchase orders, description of deliveries by classes, types, quantities, weights and values, the parties involved in each transaction, the preference ratings, if any, assigned to deliveries under such contracts or purchase orders, details of rated orders (or other orders required by the Civilian Production Administration to be filled) either accepted or offered and rejected, and other pertinent information. Records kept by any person pursuant to this section shall be kept either separately from the other records of such person and chronologically according to daily deliveries by such person, or in such form that such a separate chronological record can be promptly compiled therefrom. Whenever a regulation or order requires a person to restrict his operations in proportion to his operations in a base period (for example, an order may forbid him to use more of a certain kind of material than he used in the fourth quarter of 1942) he must determine, as accurately as is reasonably possible, his base period operations and preserve a written record of any figures and work sheets showing how he made his calculations for inspection by Civilian Production Administration officials as long as the regulation or order remains in force and for two years after that. Whenever a person is restricted as to the quantity of material he may use in production or the amount he may produce, under quota restrictions, limitation orders, authorized production schedules, special directions or similar provisions, he must keep reasonably adequate records of the material consumed and of production to show whether he is complying with the restrictions. This record-keeping requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(Photographic copies of records may be kept. See Interpretation 6.)

§ 944.16 *Audit and inspection.* All records required to be kept by this regulation or by any rule, regulation or order of the Civilian Production Administration shall, upon request, be submitted to audit and inspection by its duly authorized representatives.

§ 944.17 *Reports.* Every person shall execute and file with the Civilian Production Administration such reports and questionnaires as it shall from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942. The rules on filing reports are explained in Priorities Regulation 8.

§ 944.18 *Violations.* Any person who violates any provision of this regulation or any other rule, regulation or order of the Civilian Production Administration, or who, by any statement or omission, wilfully falsifies any records which he is required to keep, or who otherwise wilfully furnishes false or misleading information to the Civilian Production Administration, and any person who obtains a delivery, an allocation of material or facilities, or a preference rating by means of a material and wilful, false or misleading statement, may be prohibited by the Civilian Production Administration from making or obtaining further deliveries of material or using facilities under priority or allocation control and may be deprived of further priorities assistance. The Civilian Production Administration may also take any other action deemed appropriate, including the making of a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U. S. C. sec. 80), or under the Second War Powers Act (Public No. 507, 77th Congress, March 27, 1942).

§ 944.19 *Appeals for relief in exceptional cases.* Any person who considers that compliance by himself or another with a rule or regulation or order of the Civilian Production Administration would work an exceptional and unreasonable hardship on him may appeal for relief. The rules for the filing and handling of appeals are given in Priorities Regulation 16.

§ 944.20 *Notification of customers.* Any person who is prohibited from or restricted in making deliveries of any material by the provisions of any rule, regulation or order of the Civilian Production Administration shall, as soon as practicable, notify each of his regular customers of the requirements of such rule, regulation or order, but the failure to give notice shall not excuse any customer from the obligation of complying with any requirements applicable to him.

Issued this 4th day of March 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

INTERPRETATION 1A: Revoked August 28, 1945.

INTERPRETATION 1B

TYPES OF EXISTING CONTRACTS WHICH MUST BE DEFERRED

Section 944.2 of Priorities Regulation 1, as amended, makes compulsory the acceptance and filling of rated orders for any material, "regardless of existing contracts and orders". The "existing contracts" referred to include not only ordinary purchase contracts but other arrangements achieving substantially the same results, though in form they may concern the use of production facilities rather than the material produced. Preference ratings are applicable to facilities as well as materials.

Examples of such "existing contracts" which must be subordinated to higher rated orders are (1) arrangements whereby a producer, regularly engaged in producing a given product for sale to others, leases a portion of his plant, or the whole of it for a relatively short period, as a going concern to one of his customers and operation is continued under the producer's management and with the producer's regular personnel; and (2) arrangements whereby such a producer, in lieu of buying raw materials and selling the product, accepts raw materials belonging to a customer for processing pursuant to a toll agreement or similar undertaking. If the deliveries to be made to such customer carry a preference rating, the sequence of deliveries as compared with deliveries to other persons placing orders with the producer is to be determined as provided in § 944.7 of Priorities Regulation No. 1. (Issued Mar. 18, 1944.)

INTERPRETATION 1C

SEQUENCE OF DELIVERIES AND PRODUCTION FOR RATED ORDERS

The provisions of § 944.7 (b) of Priorities Regulation No. 1, as amended, with respect to the sequence of deliveries bearing the same preference rating, are applicable only in cases where different deliveries bearing the same preference rating cannot be made on schedule. If material supply and available facilities permit deliveries bearing the same rating to be made on schedule, Regulation No. 1 does not have any particular effect on the sequence of production for such deliveries. Where it is necessary to choose between deliveries bearing the same preference ratings, delivery to the customer from whom the order was first received with the rating is to be preferred and production schedules must be adjusted accordingly. For example, suppose a rated order is received from one customer in January for August delivery and another order bearing the same rating is received from a second customer in June calling for July delivery. If both deliveries cannot be made on schedule, the second customer is not permitted to get the material away from the first customer. The producer must defer production on the second order to the extent necessary to make delivery on the first order on the August delivery date. If, on the other hand, both deliveries can be made on schedule, it is not necessary to produce or make delivery on the first customer's order ahead of that of the second. (Issued Mar. 18, 1944.)

INTERPRETATION 1D: Revoked June 28, 1945.

INTERPRETATION 1E

ARMY INCLUDES PANAMA CANAL—NAVY INCLUDES COAST GUARD

(a) The definition of defense orders formerly appearing in § 944.1 (b) has been deleted since a blanket rating of AA-5 is no longer assigned to such orders. However, any reference to the Army without any other definition in any order of the Civilian Production Administration also applies to the Panama Canal, and a reference to the Navy, to the Coast Guard. (Issued Oct. 1, 1945.)

INTERPRETATION 2

REGULARLY ESTABLISHED PRICES

(a) *Acceptance of orders at regularly established prices.* (1) An order bearing a preference rating may not be rejected on the ground that the price is below the regularly established price, if the purchaser offers the OPA ceiling price, if any.

(2) Section 944.2 of Priorities Regulation 1 makes the acceptance of rated orders mandatory except in the several situations specified in the section. The only exception dealing with price is contained in paragraph (e) (1) which states that a rated order need not be accepted "if the person seeking to place the order is unwilling or unable to meet regularly established prices and terms of sale or payment."

(3) "Regularly established prices" cannot be higher than OPA ceiling prices, if any. They may, however, be lower. (Issued Mar. 18, 1944.)

(4) However, when no OPA ceiling price is applicable "a regularly established price" is the price the seller, when the rated order was received, is offering the material for sale to the class of purchasers to which the person who placed the rated order belongs and for delivery at the time the rated order requests. As explained in § 944.2, there can be no discrimination in price against a rated order, or between rated orders of different customers of the same general class.

(b) *Effect of increase in price after a rated order is accepted.* (1) In establishing new price levels, there must be no discrimination against rated orders, or between the rated orders of customers in the same class.

(2) If, after a rated order is accepted the seller's regularly established price increases as to all customers in the class to which the person who placed the rated order belongs, or if the OPA ceiling price, if any, is increased, the seller must still treat such order as a rated order if the purchaser is willing to meet the increased price.

(3) A seller must not remove the rated order from his shipping schedule until he has given the buyer adequate notice of his intention to do so and the buyer has had adequate time (in any case not less than seven days) to agree to the new price.

(4) This interpretation is not intended to affect any questions of liability of the seller for failure to deliver at the earlier price. (Issued July 2, 1946.)

INTERPRETATION 3

REJECTION OF RATED ORDERS FOR FAILURE TO MEET ESTABLISHED PRICES AND TERMS

(a) Section 944.2 of Priorities Regulation 1 states that every order bearing a preference rating must be accepted and filled with certain exceptions listed in the section. One exception is where a buyer does not "meet regularly established prices and terms of sale or payment". This exception applies to a seller who receives a rated order for quantities which are less than the minimum which he regularly sells. For example, a manufacturer who has been selling only in carload lots may reject a rated order for a less than carload lot.

This exception applies similarly to a person who regularly sells only in multiples of a specified quantity and receives a rated order for a number which is not a multiple of that quantity. For example, a manufacturer who regularly sells his product only in standard shipping packages containing one dozen receives a rated order for 40. He may fill the whole order or he may fill it to the extent of 36 and reject it for 4.

A further problem arises when a manufacturer receives such an order with split ratings. For example, suppose the manufacturer who sells his product only in standard shipping packages of a dozen receives an order for 30 rated MM and 20 rated CC. In such a case the general rule is that amounts in excess of a multiple of the standard shipping package ordered at higher ratings may be included with amounts ordered at lower ratings if the manufacturer wishes to adhere to his standard shipping package and not fill the order as received. He may then, in the case supposed, treat the order as one for 24 items rated MM and 24 rated CC and reject it for 2 of the items. Of course, he may fill the order as placed if he prefers to do so; but, if he does not he must fill it as illustrated above.

(b) The exception also applies to the seller who regularly sells only to certain types of trade purchasers, such as wholesalers, jobbers or retailers. He may reject orders from other types of purchasers but only if it is practicable to obtain the merchandise in the required quantity through regular trade channels.

(c) The exception applies to a manufacturer who receives a rated order which, together with orders on hand, totals less than his minimum production run of a product which is mass produced and cannot be filled from inventory. It makes no difference that he has regularly sold in quantities as small as that ordered. For example, suppose a manufacturer's minimum production run is 1,000 units, but he has regularly sold in lots of 10 units. At a time when he has none of the particular product in inventory and no orders on hand, he receives a rated order for 600 units. He may reject the order. If, however, he has on hand a previously accepted order for 400 units, he would be required to accept the order for 600 units.

(d) It should be noted that paragraph (e) of § 944.2 in which the above exception appears includes the requirement that "there must be no discrimination in such case against rated orders, or between rated orders of different customers." This means, for example, that a seller who sells principally at wholesale but also at retail to one or more customers may not reject rated retail orders from other customers. However, if a manufacturer or wholesaler has an exclusive distributor, either for all sales or for a particular territory, he may reject orders from other purchasers provided the exclusive distributor is in a position to fill the orders promptly. (Issued Oct. 1, 1945.)

INTERPRETATION 4: Revoked October 1, 1945.

INTERPRETATION 5

EFFECT OF ASSIGNMENT OF A RATED ORDER OR CONTRACT ON SEQUENCE OF DELIVERY

When a rated contract is assigned, the rating remains applicable to the contract as assigned if, but only if, the assignee uses the material covered by the contract for substantially the same purpose for which the rated contract was placed.

Examples. (1) The Navy places a rated order with A and A extends the rating to B. Later the Navy and A cancel the contract and the Navy enters into a new contract with C for delivery of the same product at the same time and applies the same rating to it. A assigns to C his contract with B. The rating which A had extended to B remains valid as of the time it was extended by A, and B must honor it in making delivery to C.

(2) A steel mill places an order for a repair part rated CC. The steel mill finds that it does not need the part but another steel mill needs the same and asks the first mill to assign its contract for the part. The second mill could also apply a CC rating to the delivery. However, it prefers to use the first mill's rating so as to come ahead of the orders which have been placed since the first mill placed its order. The second mill may not make this use of the rating, since the rated order was placed for the repair of the first mill's facilities and the purpose of the order has thus been changed.

(3) The Civilian Production Administration assigns a rating on a Form WPB 541A to a textile manufacturer to buy some textile machinery. He places an order with a machinery manufacturer and applies the rating to the order. He decides he does not need the machinery but finds another textile producer who does need the machinery and is willing to purchase the same from him. He therefore assigns the contract for the machinery to the second textile producer. The rating does not apply to the delivery to the second producer since it was assigned by the Civilian Production Administration only for the purpose of filling a specific need shown by the first textile producer. (Issued Oct. 1, 1945.)

INTERPRETATION 6

MICROFILM RECORDS

Records required to be kept by § 944.15 of Priorities Regulation No. 1 or by any other order or regulation of the Civilian Production Administration may be kept in the form of microfilm or other photographic copies instead of the originals. (Issued Aug. 14, 1943.)

INTERPRETATION 7: Revoked August 28, 1945.

INTERPRETATION 8

EFFECT OF INVENTORY AND SMALL ORDER PROVISIONS ON SEPARATE OPERATING UNITS OF THE SAME COMPANY

(a) If an individual plant, branch store, division or other operating unit normally keeps separate inventory from the rest of the corporation or firm, inventory restrictions in Civilian Production Administration orders and regulations apply to it separately. Thus, although another unit may have exceeded an inventory limit, this does not prevent a unit which has not exceeded it from acquiring additional inventory within the limit.

(b) Likewise, if an order of the Civilian Production Administration provides an exemption for small purchases, an operating unit which normally buys separately need not consider purchases made by other units

in determining whether it comes within the exemption.

(c) It may happen that the same operating unit will be treated separately for purposes of inventory restrictions but not for purposes of small order exemptions. For example, if a distributor purchases centrally for direct shipment to several outlets which keep separate inventories, the outlets are treated separately for purposes of inventory restrictions but the central purchasing agency must include all its purchases in determining whether a transaction comes within a small order exemption.

(d) This interpretation applies only in cases where a contrary rule is not expressly stated in the applicable Civilian Production Administration order or regulation. Also it only applies where the regular business practice of the unit in question is to keep a separate inventory or to buy separately. It does not apply if the regular practice has been changed just for the purpose of coming within this interpretation. (Issued Nov. 22, 1944.)

INTERPRETATION 9: Revoked March 18, 1944.

INTERPRETATION 10

EFFECT OF CANCELLATION OF A PURCHASE ORDER ON DIRECTIVE REQUIRING ITS IMMEDIATE PRODUCTION

In many instances, the Civilian Production Administration has issued directives to producers and manufacturers requiring them to produce particular orders ahead of their normal place on the producers' or manufacturers' schedules. Typical of such directives are directives requiring them to produce certain orders by a given date, regardless of the effect of doing so on the production of other orders. If and when the particular orders are cancelled, the directives lose all effect. This is so since the reason for issuing the directives, namely, the urgent need for a particular product, no longer exists when the order for the product has been cancelled. (Issued Oct. 1, 1945.)

INTERPRETATION 11

PLACING AND ACCEPTANCE OF ORDERS FOR FUTURE DELIVERY CONDITIONED ON REMOVAL OF CPA RESTRICTIONS

(a) Some orders and regulations of the Civilian Production Administration forbid the placing or acceptance of purchase orders for certain materials or products unless the purchase orders bear specified preference ratings, or unless they are accompanied by special authorization or unless they meet some other condition. Such provisions do not, however, prohibit the placing or acceptance of a purchase order which by its express terms, is not to be filled until after removal of such restrictions by the Civilian Production Administration.

(b) A manufacturer may not, of course, schedule such orders for production or place material in production to fill such orders until after the applicable CPA restriction is removed. He may order materials needed to fill such orders, but his own orders must call for delivery at a future time when the material can be received under Priorities Regulation 32. Also, if he is ordering a material which is itself subject to a restriction on placing or accepting of orders, that purchase order must as well be conditioned on the removal of the restriction.

(d) [Deleted Nov. 13, 1944.]

(Issued Oct. 1, 1945.)

INTERPRETATION 12

DATE ON WHICH PURCHASE ORDER IS RECEIVED

(a) Section 944.7 (b) provides that between conflicting orders which bear the same preference rating, precedence must be given to the order which was received first with the rating. Some questions have arisen as how to fix the date when the order was "received", due to the fact that occasionally specifications are not sent to the manufacturer with the customer's order. The word "order" as used in § 944.7 (b) means a purchase order accompanied by specifications in sufficient detail to enable the manufacturer to put the product in production. Not until such specifications have been furnished is there an "order". The date on which such specifications are furnished to the manufacturer is the date on which the order is "received". This date, and not the date on which the order without specifications was first received by the manufacturer, controls the position the order takes in the manufacturer's schedule.

For example, where an engine manufacturer on February 1st receives a rated order for fifty engines for July delivery but the customer does not, until March 1st, furnish the specifications as to carburetors, pumps, or other equipment, necessary before the engines can be put into production, March 1st is the date the "order was received" for the purposes of § 944.7 of Priorities Regulation No. 1.

(b) With respect to unrated orders which are subsequently rated, the order is not "received" for the purposes of § 944.7 until the supplier receives the application or extension of the rating properly certified. The date of the rated order is not retroactive to the time the original unrated order was placed. Similarly, where an order originally rated in the AA series became unrated after September 30, 1945, the subsequent application or extension of a AAA, MM or CC rating to the order does not relate back to the time the order was originally rated. (Issued Dec. 11, 1945.)

INTERPRETATION 13

APPLICABILITY OF ORDERS AND REGULATIONS TO USED OR SECOND-HAND MATERIALS AND PRODUCTS

(a) Every order or regulation of the Civilian Production Administration applies to materials and products in used or second-hand form (other than scrap) to the same extent as to new items, unless the order or regulation or a published interpretation of it expressly states otherwise.

(b) [Deleted Oct. 1, 1945.]

(Issued Oct. 1, 1945.)

INTERPRETATION 14

SUMMARY OF CPA CONTROLS REGARDING IDLE OR EXCESS INVENTORIES

(a) *Purpose of this interpretation.* This interpretation summarizes some of the important rules on what to do when you have materials or products which are idle or excess in your inventory because of a termination or cut-back in your war contracts or other changes in your operations. These are not new rules on this subject, nor are they necessarily complete, but they are intended to be convenient references to rules which are now effective in CPA orders and regulations. As these orders and regulations are revised from time to time, you should be sure to look at the latest copies.

(b) *General rule.* The general rule is that if you got a material or product by using a preference rating, or other WPB or CPA priorities assistance, you must if possible use or dispose of it (or of the product into which it has been incorporated) for the purpose for which the assistance was given. This is the rule of § 944.11 (a) of Priorities Regulation 1, which also states the conditions under which physical segregation of inventory is not required. Two exceptions to this rule, i. e., when the material or product can no longer be used for the original purpose, or when the rating or other assistance has been revoked, are explained in paragraphs (a) (1) and (2) of § 944.11.

Disposition or Use of Excess

(c) *In general.* If you have a termination cut-back, or other reduction in your operations, it may be impossible to use the material or product for the purpose for which the priorities assistance was given. In this case, or if the rating or other assistance has been revoked, you may dispose of it as explained in paragraphs (b) (1) and (b) (2) of § 944.11 of PR-1, or you may use it as explained generally in paragraph (b) (3) of that section. These rules are summarized in paragraphs (d) and (e) below.

(d) *Disposition*—(1) *Special sales.* If you want to sell the excess material or product to someone else, and you acquired or made it for your own use and you do not sell it in the regular course of your business, you should look at Priorities Regulation 13 for the rules governing such "special sales". These include special sales as scrap (other than plant generated scrap). Also, all sales of surplus materials or products by Government agencies are special sales.

(2) *Other sales.* If the sale of the particular material or product, including scrap, is not a special sale, it is permitted as long as you comply with all requirements of CPA orders and regulations which apply to the material or product you are selling. For example, you are usually required to accept rated orders and observe the sequence of preference ratings; and if the material or product may be sold or scrapped only on specific CPA authorization as described in the applicable order or regulation, you must do what the order says.

(e) *Use—Must be in compliance with applicable CPA orders.* If you want to use the excess material or product, you must always comply with all applicable CPA orders and regulations governing its use, inventory, etc., and you may have to appeal if the intended use is not a permitted use. To find out what orders or regulations are applicable to the particular material or product, it may be helpful to look at the CPA publication, "Products and Priorities," or you can ask your nearest CPA field office.

(2) [Deleted Dec. 11, 1945.]

(3) [Deleted Oct. 1, 1945.]

(4) [Deleted Dec. 11, 1945.]

(f) [Deleted Oct. 1, 1945.]

(g) *Special provision for transfer among war contractors.* If you have a war contract which has been terminated or modified, and another contractor is producing similar products for the same procuring agency, he may be able to receive excess materials (from you, your suppliers, or the procuring agency) in excess of inventory limits. This is permitted when authorized by the procuring agency to the extent described in Direction 1 to Priorities Regulation 32. This direction covers both the inventory exceptions necessary to receive excess materials of this kind, and also the sale or exchange of the materials.

Bringing Inventory Back to Normal

(h) *Inventory limitations.* If the termination or cut-back results in your having a bigger inventory than you need, the mere possession of it is not prohibited as long as the particular material or product was properly acquired. This is explained in Interpretation 5 to Priorities Regulation 32. However, you may not receive further deliveries of the particular material or product held in excess, nor may you fabricate above permitted inventory levels, except as provided in the applicable regulations or orders. The general inventory rules are in Priorities Regulation 32, and specific inventory limits on particular materials or products or relating to particular classes of persons are indicated in Tables 1 and 2 of that regulation. In general, upon any reduction in operations, outstanding orders for the items which constitute an excessive inventory must be promptly adjusted, or, if necessary, cancelled. However, certain further deliveries may be received to the extent permitted by paragraph (h) of Priorities Regulation 32, and special items may be received as permitted by that paragraph and by Direction 3 to that regulation. A limited inventory exception in the case of items bought on special sales is provided in PR-13.

(i) *Cancelling ratings.* In cutting back or cancelling orders as described above you will probably have to cancel your ratings to the extent described in § 944.4a of PR-1. (Issued Dec. 11, 1945.)

INTERPRETATION 15: Revoked August 28, 1945.

INTERPRETATION 16

APPLICABILITY OF PRIORITY RULES TO SUPPLIERS OF COMPLETE PRODUCTS AND PARTS FOR THE COMPLETE PRODUCTS

(a) *Applicability of rules regarding acceptance of orders.* A person who supplies parts for a complete product, as well as the complete product itself, may not accept an order for the complete products calling for delivery on a date which would interfere with delivery of equal or higher rated orders for parts which he has already accepted. In other words, he must comply with the rules in § 944.2 of Priorities Regulation 1 in accepting orders for complete products and orders for parts only. Thus if he gets a rated order for complete products calling for delivery on June 1, 1945, and cannot fill this order without using parts which are required for delivery on an equal or higher rated parts order previously accepted, calling for delivery on June 1, 1945, he may not accept the order for the complete products. In such a case, he must either (1) reject the order, stating when he could fill it, or (2) accept it for delivery on the earliest date he expects to be able to deliver, informing the customer of that date.

INTERPRETATION 17: Revoked August 28, 1945.

INTERPRETATION 18

APPLICABILITY OF CERTAIN RESTRICTIONS IN CPA ORDERS TO EXPORTS

The last sentence of § 944.13 (formerly Priorities Regulation 15) does not in any way relax restrictions in limitation or conservation orders in so far as they apply to manufacture within the United States or to the maintenance of inventory within the United States. The only effect of the sentence is to lift such restrictions as may be based upon the size of an inventory maintained in a foreign country or on a use (including use for manufacture) which is to take place in a foreign country.

Of course, no orders of the Civilian Production Administration directly limit the size of inventory or the manner of use of an article in a foreign country. Nevertheless, there are some orders which, in the absence of this provision in § 944.13, might impose such limitations indirectly. Orders which provide that a person may not sell a particular material if he knows or has reason to believe that the purchaser will, upon receipt, have an inventory exceeding some stated amount or use the material for a particular purpose would, in the absence of this provision, prevent certain sales by subjecting sellers to possible liability even though the inventory existed or the use occurred in a foreign country. § 944.13 has the effect of relieving sellers of such liability in the limited situation described.

Furthermore, it is only restrictions which are expressed as based upon size of inventory or manner of use which are affected by this section. Where an order requires administrative action, such as an allocation or an express authorization, that requirement is not waived and must be met before the material can be delivered, acquired or used. (Issued Dec. 11, 1945.)

INTERPRETATION 19

PRESERVATION OF RECORDS AFTER REVOCATION OF APPLICABLE ORDERS

Section 944.15 of Priorities Regulation 1 requires the keeping and preservation for at least two years of certain records relating to transactions under CPA orders and regulations. This requirement does not lapse upon the expiration or revocation of the applicable order or regulation and the two year period must be counted from the date the transaction occurs. The reference in the section to rules, regulations or orders of the Civilian Production Administration includes reference to any regulations or orders of its predecessor, the War Production Board, whether or not they expired or were revoked before the establishment of the Civilian Production Administration. (Issued Jan. 17, 1946.)

DIRECTIONS TO PR 1

The following directions to PR 1 are still in effect (July 24, 1946):

1. Changes made by customers in orders placed with manufacturers.

2. Transfer of title in financing rated orders.

9. Use of ratings or authorizations for machine tools or other facilities when related military procurement programs or contracts are cancelled or cut back.

11. Special rules for placing and scheduling rated orders for steel, copper and aluminum.

12. Use by ship chandlers and other ship suppliers of materials obtained by means of ratings assigned on WPB-646.

13. Emergency suspension of outstanding ratings for iron and steel.

14. Steel drums for manufacturers of corn syrup for famine relief.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 3, as Amended March 4, 1947]

§ 944.23 *Priorities Regulation 3*—(a) *Purpose of this regulation.* This regulation states the rules for the use of preference ratings, what kind of purchase orders or services may be rated and how a rating may be put on an order. It also places restrictions on the use of ratings and includes lists of products for which ratings may not be used at all. In general this regulation should be consulted before using a rating whether it was gotten directly from the Civilian Production Administration or from a customer.

(b) *Definitions.* For the purposes of this regulation:

(1) "Person" and "material" mean the same thing they do in Priorities Regulation 1.

(2) "Assignment" of a preference rating. A preference rating is assigned to a person when the Civilian Production Administration or someone that it has authorized issues an order or preference rating certificate giving him the right to use the rating.

(3) "Application" of a preference rating. A preference rating is applied when the person to whom it is assigned uses the rating. A rating is applied also when any governmental agency which is authorized by the Civilian Production Administration rates an order for delivery of material directly to it.

(4) "Extension" of a preference rating. A preference rating is extended when it is used by the person to whom it is applied or extended by another person.

(c) *Use of ratings in general.* (1) When a regulation, preference rating order or preference rating certificate assigns a rating to any person, either by naming him or by describing the class of persons to which he belongs, that person may apply the rating to get delivery of material or the performance of certain services. Also, a person may under certain conditions extend a rating which has been applied or extended to his deliveries of material, but not one applied to services. More detailed rules as to how and when ratings may be applied or extended are set out below in this regulation.

(2) When a Civilian Production Administration order or certificate states the quantities and kinds of material or the particular services which are rated, the person to whom it is assigned may use the rating to get only that quantity and kind of material or that particular service named in the order or certificate. If the quantities of material are not stated in the order or certificate assigning the rating it may be applied only to get the minimum amount needed.

(3) No person may place rated orders for more material than he is authorized to rate even though he intends to cancel some of the orders or reduce the quantity of material ordered to the authorized amount before it is all delivered.

(d) *When AAA, RRR or MM ratings may be extended for material.* The following provisions of this paragraph (d) apply to all extensions of AAA, RRR or MM preference ratings to get deliveries of material, unless they are modified by or are inconsistent with the provisions of any particular order.

(1) [Deleted Oct. 1, 1945.]

(2) When a person has received a AAA, RRR or MM rated order for the delivery of material, he may extend the AAA, RRR, or MM rating to get the material which he will deliver on that order, or which will be physically incorporated in material which he will deliver, subject to applicable inventory restrictions of the Civilian Production Administration as explained in Priorities Regulation 32. If the material is to be processed, this includes the portion of it which would normally be consumed or converted into scrap or by-products in the course of processing.

(3) If a person has made delivery of material, or has incorporated it into other material which he has delivered on an AAA, RRR or MM rated order, he may extend the AAA, RRR or MM rating to replace it in his inventory. However, if after delivering the material he still has a practicable working minimum inventory he may not extend the AAA, RRR or MM rating to replace the material delivered; and if by making the delivery his inventory is reduced below this minimum, the AAA, RRR or MM rating may be extended to get only the amount necessary

to restore the inventory to a practicable working minimum. Any material ordered to replace in inventory must be substantially the same as the material which the person delivered or incorporated in the material which he delivered, except for minor variations in size, shape or design.

(4) A person to whom a rating of AAA, RRR or MM has been applied or extended to get material may not extend that AAA, RRR or MM rating to get any material for his own plant improvement expansion or construction, or to get machine tools or other items which he will carry as capital equipment, or to get business machines for his own use whether purchased or leased, or to get maintenance, repair or operating supplies for his own use.

(d-1) *CC and RR ratings may not ordinarily be extended.* CC and RR ratings may not be extended by a supplier to get production materials needed to make the item sold to his customer, or to replace in inventory materials used to make the item or to get containers or closures needed to pack the item. A distributor, warehouse, retailer, or other person who resells the item without further fabrication may extend the CC and RR rating where he does not have the item in inventory, but may not extend the rating to replace the item in inventory.

However, when a person has received a CC rated order for the delivery of textile fabric (cotton, rayon, or wool, or their blends), he may extend the CC rating to get the fabric which he will deliver on that order, or the unfinished fabric which he will deliver on it after finishing, subject to applicable inventory restrictions of the Civilian Production Administration as explained in Priorities Regulation 32. If the rating is extended for gray fabric to fill an order for finished fabric, it may include the portion of the gray fabric which would normally be consumed or converted into scrap or by-products in the course of finishing. If a person has made delivery of textile fabric, or has converted gray fabric into finished fabric which he has delivered on a CC rated order, he may extend the CC rating to replace it in his inventory: *Provided*, That if after delivering the fabric he still has a practicable working minimum inventory, he may not extend the CC rating to replace the fabric delivered; and if by making the delivery his inventory is reduced below this minimum, the CC rating may be extended to get only the amount necessary to restore the inventory to a practicable working minimum. Any fabric ordered to replace inventory must be made of the same textile fiber (or combination of such fibers), and of the same type of construction and approximate weight as the fabric which such person delivered.

(e) *Additional restrictions upon use of ratings for certain materials.* Because of special circumstances which exist with respect to certain materials and products, the use of preference ratings to get items on List A attached to this regulation is restricted as follows:

(1) *Items as to which preference ratings have no effect; List A.* Any item on List A may be produced or delivered without regard to preference ratings. No person shall apply or extend any rating to get any of these items and no person selling any such item shall require a rating as a condition of sale. Any rating purporting to be applied or extended to any such item shall be void and no person shall give any effect to it in filling an order.

(2) [Deleted Oct. 1, 1945.]

(3) [Deleted Oct. 1, 1945.]

(f) *Use of ratings for services*—(1) *Ratings may not be used for personal services.* Preference ratings may never be used to get labor or personal services as distinct from services performed in the course of a regular business involving the use of plant, machinery or equipment owned by the person furnishing the services. For example, ratings may be used to get a repair job done in a repair shop as explained below but may not be used to compel an individual employee to work on a repair job or to obtain the services of a consulting engineer.

(2) *Three cases where ratings may be used for services.* There are only three situations in which a preference rating may be used to get services, as distinct from the production or delivery of material:

(i) *A rating assigned for the purpose.* If the Civilian Production Administration assigns a rating to a named person to get specified services he may use the rating for that purpose.

(ii) *For processing.* When a person has a rating which he may use to get processed material, he may (unless prohibited by another regulation or order) furnish the unprocessed material to a processor and use the same rating to get it processed.

(iii) *For repairs.* Any rating which may be applied to the delivery of specific repair parts or materials may also be applied to the installation of the repair parts or materials or to the repair job alone if it is found that installing the parts or materials is not necessary. However, in the case of ordinary plumbing, heating, electrical, automotive or refrigeration repairs, a rating may not be applied to repair work even if the rating is expressly applicable to repair parts or materials. As used in this subparagraph "repair" means to fix a plant, machinery or equipment after it has broken down or when it is about to break down. "Repair" does not mean upkeep or maintenance service such as periodic inspection, cleaning, painting, lubricating, etc.

(3) *Ratings for services only may not be extended.* A person to whom a rating for services, as distinct from the production or delivery of material, has been applied or extended may not extend the rating for any purpose.

(g) *How to apply or extend a rating.* (1) When a person applies or extends a preference rating he must put the rating (and symbol, if appropriate) on the order together with a certification signed as prescribed in Priorities Regulation 7. He may use the standard certification set out in that regulation, or if he prefers the following:

CERTIFICATION

The undersigned purchaser hereby represents to the seller and to the Civilian Production Administration that he is entitled to apply or extend the preference ratings indicated opposite the items shown on this order and that such application or extension is in accordance with Priorities Regulation 3 as amended, with the terms of which the undersigned is familiar.

_____
(Name of Purchaser)

_____
(Address)

By _____
(Signature and Title of Duly Authorized Officer)

_____
(Date)

The person who receives the certification shall be entitled to rely on it as a representation of the buyer unless he knows or has reason to know that it is false.

(4) When a person applies or extends a rating he shall also include on his purchase order or contract any information which may be required by any applicable Civilian Production Administration order.

(5) Each person who applies or extends a rating must keep at his regular place of business all documents including purchase orders and preference rating orders and certificates which authorize him to apply or extend the rating. These documents, orders and certificates must be kept in such a way that they can be readily segregated and furnished to representatives of the Civilian Production Administration for inspection.

(6) When either certification authorized in this paragraph (g) is used it will not be necessary to use any other certification in order to apply or extend a preference rating, nor will it be necessary to furnish a copy of any preference rating order no matter what any regulation, preference rating order or preference rating certificate says unless it expressly states that this regulation does not apply.

(7) No person shall knowingly purport to apply or extend a preference rating to any order unless he is entitled to do so. No person shall apply or extend a rating for material or services after he has received the material or after the services have been performed, and any person who receives such a rating shall not extend it.

(h) *Provisions applicable to extensions; deferment and grouping.* No matter what any applicable preference rating order or certificate may say,

(1) No person may extend any rating to replace inventory after three months have passed from the time he could have first extended it;

(2) When a person has two or more ratings of the same grade which were assigned by different preference rating certificates or orders he may combine them and extend them to one delivery; and

(3) When a person has two or more ratings of different grades, or where they were assigned by the same or different certificates or orders, he may extend them to deliveries under one purchase order. However, the purchase order must show the amount of each material to which a particular grade of rating is extended. If the type and quantity of the material is such that the supplier can readily determine the exact effect of the extension of the rating on his production and delivery schedule from percentage figures alone, then the purchase order may show the amount of the material to which the particular grade of rating is extended on a percentage basis; otherwise, it must be shown as a separate item. In order to avoid production or delivery of material in quantities smaller than the minimum commercially practicable a person may combine ratings of different grades and extend the rating of the lowest grade to the total production or delivery.

(i) *Restrictions in other orders.* When any person applies or extends a rating he shall be subject to any applicable rule or restriction which may be set forth in the order of the Civilian Production Administration which assigns the rating or any other order which regulates transactions in the material or the facilities for which he is using the rating. This includes restrictions as to the kind and amount of material to which ratings may be applied or extended, requirements for written approval of any particular transaction, restrictions on certain uses of material or facilities and any other rules which may be applicable to the particular transaction. However, the rules of paragraph (g) (6) apply unless some other order or certificate expressly says that they do not.

Issued this 4th day of March 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

LIST A

The following items may be delivered without regard to any Civilian Production Administration preference ratings:

Automobiles, passenger.

Chemicals of the following types manufactured or produced for exclusive use in the petroleum industry.

a. Antioxidants (gum inhibitors) for motor fuels.

b. Chemical additives and compound bases for heavy duty gasoline engine, diesel engine and aviation engine oils.

c. Chemical additives and compound bases for hypoid gear oils.

d. Synthetic catalysts for oil cracking operation.

e. Synthetic catalysts for cumene and codimer manufacture.

f. Synthetic catalysts for petroleum isomerization operations.

g. Synthetic catalysts for petroleum sweetening operations.

Coal.

Coke.

Communications services.

Electric energy.

Gas manufactured combustible, of the type generally distributed by utilities.

Gas, natural.

Lead.

Petroleum, including only the following products:

(1) Liquefied petroleum gas: propane, propylene, butanes, butenes, or any combination or dilution thereof commonly known as liquefied petroleum gas.

(2) Aviation gasoline: any liquid fuel (including components thereof), except Diesel fuel, used for aircraft propulsion which meets current provisional or permanent United States Army or Navy specifications for aircraft fuels.

(3) Motor fuel: any liquid fuel (including components thereof) suitable for use in the propulsion of motor vehicles or motor boats.

(4) Naphtha: any liquid petroleum fraction or derivative commonly known as naphtha, including that cut of gasoline or kerosene classified as naphtha: *Provided*, That the term naphtha shall not include any toluene fraction of Kauri-butanol value of 85 Kauri-butanol number or higher, or any aromatic petroleum solvent, as defined in General Preference Order M-150, as amended.

(5) Insecticide base: any liquid petroleum fraction or derivative used as or suitable for use as a base or carrier for the active chemical ingredients of an insecticide, germicide or deodorant.

(6) Fuel oil: any liquid petroleum fraction or derivative commonly known as fuel oil, including grades No. 1, 2, 3, 4, 5, or 6, Bunker "C" fuel oil, Diesel fuel, kerosene, range oil, gas, oil and any other liquid petroleum product used for the same purpose as the above designated grades.

(7) Lubricating oil: any liquid petroleum fraction or derivative regardless of the extent processed, (1) which is used for or is suitable for lubrication, including, but not limited to, cutting, drawing, processing, soluble, transformer and white oils, and (2) which does not contain in excess of 50% by weight of additives or compounds.

(8) Lubricating grease: any lubricant manufactured from petroleum and a soap, organic salt or ester of any fatty oil or fatty acid.

(9) Asphalt: asphalt of petroleum origin and all asphaltic products of petroleum origin, including road oils.

(10) Micro-crystalline wax: any solid hydrocarbon mixture, commonly known as micro-crystalline wax (amorphous wax, petroleum wax) but not including paraffin wax defined as a solid hydro-carbon mixture having a melting point between 110° F. to 155° F. (ASTM-D-87) and a maximum kinematic viscosity of 5.74 centistokes at 210° F (ASTM-D445-42T), wholly derived by low temperature solidification and expression, or by solvent extraction, from that portion of crude petroleum known as paraffin distillate.

(11) Petrolatum: any semi-solid hydrocarbon mixture, plastic and unctuous, commonly known as petrolatum or petroleum jelly, regardless of the extent processed.

(12) Mineral oil polymers: any resinous product produced by the polymerization of mixtures of unsaturated hydrocarbons (either the solid resin or solvent extended product); but not including polystyrene, polyisobutylene, polyethylene, butadiene, or the copolymers of such materials.

Steam heating, central.

Ice.

Tobaccos.[1]

Vegetable, fish, marine animal and animal fats and oils, whether edible or inedible and including their by-products and residues (whether resulting from refining, distillation saponification, pressing or settling).[1]

Sulfated, sulfonated, and sulfurized fats and oils.

Tall oil.[1]

Wool grease.[1]

Soap (other than metallic).[1]

Fatty acids.[1]

Food for human or animal consumption.[1]

Glycerine.[1]

Water.

[1] Subject to War Food Order 71 (formerly FD Regulation No. 1) of the War Food Administration.

Low and high temperature fractional distillation equipment for gas and gasoline analysis.

Wood pulp.

LIST B: Deleted Oct. 1, 1945.

INTERPRETATION 1

Interpretation 1 of Priorities Regulation 3 [Revoked Nov. 17, 1943.]

INTERPRETATION 2

EFFECT OF LIST A ON UNFILLED ORDERS

The restrictions on the use of ratings for the items on List A apply to orders for such items which had been placed before the date the item was put on the list but were not yet filled. (Issued Oct. 1, 1945.)

INTERPRETATION 3: Revoked Oct. 1, 1945.

INTERPRETATION 4: Revoked Oct. 1, 1945.

INTERPRETATION 5

RESTRICTIONS OF OTHER ORDERS

(a) *Restrictions of other orders on use of ratings or delivery.* The provisions of paragraph (e) relate only to the items which appear on the list. When any other order of the Civilian Production Administration restricts the use of preference ratings to obtain any product or restricts delivery of a product in any way, those restrictions are applicable even though that product is not listed in Priorities Regulation 3 (§ 944.23).

(b) [Deleted Oct. 1, 1945.]

(Issued Oct. 1, 1945.)

INTERPRETATION 6

EFFECT OF PREFERENCE RATING CERTIFICATE REFERRING TO PRODUCT OF A PARTICULAR MANUFACTURER

(a) When a preference rating certificate in assigning a rating to a product describes the product by its trade name or by the manufacturer's name and catalogue number, the rating may ordinarily be used to get the product from any manufacturer if the model actually obtained is substantially identical in size, operation and function with that named in the certificate.

(b) The rule stated in the preceding paragraph is consistent with the statement in paragraph (c) (2) of Priorities Regulation 3 (§ 944.23), that a preference rating may be applied only to the specific quantities and kinds of material authorized. Ordinarily a reference in a preference rating certificate to a particular product of a particular manufacturer is no more than a shorthand way of describing the product. It is safe to assume, unless the certificate clearly states otherwise that what is being rated is a certain kind and size of product which may be obtained from any manufacturer who makes that kind and size. If it is intended to confine the rating to a particular product of a particular manufacturer, the certificate should say so explicitly. (Issued Sept. 8, 1943.)

INTERPRETATION 7: Revoked Oct. 1, 1945.

INTERPRETATION 8: Revoked Oct. 1, 1945.

INTERPRETATION 9: Revoked Oct. 1, 1945.

INTERPRETATION 10

USE OF RATING TO OBTAIN LEASED MACHINERY

(a) A preference rating which has been assigned for the delivery of an item of machinery or equipment may be used to lease the equipment as long as the following conditions are fulfilled:

(1) The lease must be a long-term semi-permanent arrangement where both parties contemplate the comparatively permanent installation of the machine or equipment. For instance, a rating could be used to obtain a machine under lease where the lease was for one year, with provision for renewal

at the end of each year, and both parties expected that the lease would be renewed from time to time. However, the rating could not be used to obtain a machine for a month's use.

(2) If the rating is limited by specific dollar amount it may be used only to lease machinery or equipment whose fair market value is no greater than the amount specified.

(b) If the instrument assigning the ratings specifies a lease rather than a purchase, it is not necessary to comply with the above conditions. (Issued Oct. 1, 1945.)

INTERPRETATION 11: Revoked Oct. 1, 1945.

INTERPRETATION 12

RECORDS OF EXPORTERS

Paragraph (g) (5) of Priorities Regulation No. 3 requires each person who applies or extends a rating to keep all documents including preference rating orders and certificates which authorize him to apply or extend the rating at his regular place of business. The Foreign Economic Administration and its predecessors, the Board of Economic Warfare and the Office of Economic Warfare, have assigned preference ratings to exporters for export by endorsing appropriate legends upon export licenses. The original of every export license, however, is required by other government regulations to be surrendered to export officials at the time of shipment. Consequently, persons who receive their assignments of preference ratings on export licenses are not in a position to retain the original of the export license and thus are not required to do so by paragraph (g) (5) except only in those cases where other government regulations do not require the surrender to the government of the documents referred to. However, such persons must keep any copies of the export licenses which are returned to them for their files. (Issued August 24, 1945.)

INTERPRETATION 13

TIME LIMIT ON USE OF RATINGS

(a) Preference ratings may not be extended to replace material in inventory after three months from the time delivery was made to the customer. This is the rule of paragraph (h) (1) of the regulation.

When a rating is being applied or when any rating is extended for some purpose other than to replace inventory, this may be done only within a reasonable time after the rating was received. Generally speaking, more than three months is deemed to be an unreasonable delay in the use of a rating. In a particular case there may be circumstances which make a reasonable time shorter or longer than three months. For example,

(1) [Deleted Oct. 1, 1945.]

(2) A rating assigned in connection with an export license may be applied as long as the license is valid and expires when the license expires or is revoked. (For explanation of this rule see Interpretation 2, Directive 27.)

(3) When a rating is applied to a long term contract (such as the construction of a ship) it may be extended for material needed to fill the contract, even though more than three months have elapsed.

(4) If the purpose for which the rating was assigned no longer exists, the rating may not be applied even though three months have not elapsed.

(5) When a rating is extended by a person to get material to deliver to his customer, or to incorporate in such material, the time within which it may be done will, in general, be controlled by the delivery date on his customer's order.

(b) The fact that a person has not been able to get his rated order accepted by a supplier does not lengthen the time within which he may apply or extend his rating. However, a rating properly applied or extended on an order served upon a supplier within the time limit of the above rules, but not accepted by him, remains valid with that supplier where the failure to accept the rated order was a violation of a CPA regulation or order. This does not permit the rating to be used on any other purchase orders not placed within the proper time limit.

(c) The periods of time stated in (a) above for the use of ratings do not mean that deliveries on rated orders must be made within those periods. The delivery dates which may be requested are controlled by § 944.8 of Priorities Regulation 1, and any other applicable limitations, such as those in Priorities Regulation 32 controlling inventories. The rules for scheduling and making deliveries on rated orders are in Priorities Regulation 1 and other applicable orders or regulations. All validly rated orders must be scheduled and filled under those rules, unless the orders or ratings are cancelled. (Issued Dec. 13, 1946.)

INTERPRETATION 14: Revoked Apr. 23, 1945.

INTERPRETATION 15

REFERENCES IN LIST A TO ORDERS WHICH HAVE BEEN REVOKED

In many items on List A of Priorities Regulation 3 reference is made to specific WPB orders or schedules for a definition of the specific items covered by the lists. Sometimes the order or schedule referred to is revoked without any change in the listing on List A. When one of these orders or schedules is revoked, the listing of the item on List A, nevertheless, remains in full force and effect, and the item as listed on List A has the same meaning as before the revocation of the order. (Issued Oct. 1, 1945.)

PART 944—REGULATIONS APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Reg. 35]

REVISED PRIORITIES RATING SYSTEM

Explanation and scope

(a) Explanation.
(b) Ratings valid after March 1947.
(1) Certain ratings remain valid.
(2) Ratings which expire (some may be re-rated).
(3) New RR and RRR ratings effective at once.
(c) General description of revised rating system.
(1) RRR for extreme emergencies only.
(2) RR for VEHP and V. A. construction program.
(3) RR equivalent to CC, and RRR to AAA.
(d) When and how certain old ratings may be converted to a new rating.
(1) Producers of building products listed in PR-28, Table 1.
(2) No AAA may be converted to RRR by holder.
(3) Other persons not authorized to re-rate.
(4) How to apply for and use a new rating to replace an old one.
(5) New ratings date back to former one.
(e) Transition period.
(1) CC and other ratings may still be issued through March.
(2) Extendibility not affected while ratings remain effective.
(3) All old ratings unaffected through March.
(4) Certain old ratings to be disregarded after March.
(5) Notice of expiration need not be given by customer.
(f) Reports.
List A—List of "Construction Items".
List B—"Steel Items".

§ 944.56 *Priorities Regulation 35*—(a) *Explanation.* In furtherance of the announced policy of restoring normal buyer-seller relations as soon as possible, the rating assistance which will be given after the end of March 1947 will be even more limited than that now provided. As explained in Supplement I of Priorities Regulation 28 (being issued simultaneously with this regulation), after that time priorities assistance will in general be given only in a very limited class of cases which support the objectives of the Veterans Emergency Housing Program.

Preference ratings, issued by CPA and by other government agencies, have assisted not only housing but top military programs and general industrial reconversion. After March 31, rating assistance will be given, in general, only in support of the housing program, and to aid the Veterans Administration Construction Program, and the ratings that were issued for other reasons will expire. This will be done with the minimum dislocation: for example, it will not be necessary to disturb the ratings outstanding for the purchase of building materials or building products on Schedule A or Priorities Regulation 33 since these ratings (mostly HH) are directly related to the housing program. However, the rating symbols AAA, MM, and CC have been used for other materials for both housing and other purposes. Where necessary in order to identify those ratings for other materials, which will be used and continue in effect in support of the housing program after the end of March, new symbols will be assigned.

This regulation explains which outstanding ratings remain valid after March and which ratings will expire at the end of March. It also explains the new rating symbols and their effect, and the mechanics of the transition for the few cases where the holder of an old rating may be permitted to change to the new.

This regulation applies to preference ratings only. It does not affect any other priorities or allocation instruments.

There will also be changes in other regulations and orders of the Civilian Production Administration. It may not be practical to make all such changes before this regulation is published, and if there is any inconsistency between this regulation and any other CPA regulation or order, this one controls unless the other expressly states the contrary.

(b) *Ratings valid after March, 1947.* (1) Valid HHH and HH ratings are not affected in any way by this regulation. Valid AAA, MM, and CC ratings issued for the purchase of any building materials or products listed in Schedule A of Priorities Regulation 33 are not revoked and remain in effect in accordance with the rules under which they were issued, except that they may not be used and will not be effective for the purchase of steel for delivery after March 31, 1947. A list of the materials and products, as listed in Schedule A of PR-33, referred to hereafter in this regulation as "construction items", is appended as List A for convenient reference, and the forms and shapes of steel are shown in List B.

(2) At the end of March 1947 all AAA, MM, and CC ratings for any material or product, other than a construction item, shall expire. However, certain of these may be re-rated with one of the new ratings under the procedures described in paragraph (d) below.

(3) The new RR and RRR ratings described in (c) below will be effective during March 1947 and thereafter, for any materials for which issued. The purposes for which they will be issued will of course be limited, as explained in this regulation and in Supplement I to Priorities Regulation 28.

(c) *General description of revised rating system.* AAA, MM, and CC ratings will not be issued after March 31, 1947, and except for those continued in effect under paragraph (b) (1) above for the purchase of construction items, will be replaced by the following:

(1) The new RRR rating, which may be assigned by CPA only in extreme emergencies, and where an RR rating would be inadequate.

(2) The new RR rating, which may be asigned by CPA after March 1, 1947, under the conditions stated in Supplement I to Priorities Regulation 28; or which in some cases may be converted from an old rating by the persons and under the conditions described in subparagraph (d) (1) below.

(3) The new RR rating is equivalent to CC, and the new RRR rating is equivalent to AAA, under the rules stated in Priorities Regulation 1, 3 and other general priorities regulations.

(d) *When and how certain old ratings may be converted to a new rating.* (1) Any producer who has been assigned and is entitled to use an AAA, MM or CC rating to get any item needed to maintain or increase his production of a critical building product listed in Table 1 of Priorities Regulation 28, may rate or re-rate to RR his purchase order for such item (except for steel) if still needed for this purpose. This must be done by furnishing the supplier the following statement, in time for him to receive it by the end of March, 1947: "Authorized RR rating under PR-35".

This statement must be made in addition to the certificate required by Priorities Regulation 3, and may not be waived by the seller. Persons giving the statement must use the material covered by it only as stated, and it will constitute a representation to the seller and to CPA that the buyer is entitled to rate or re-rate the purchase order to RR under the terms of this subparagraph (d) (1).

If the purchase order has already been placed, so that the statement cannot be put on it, the purchaser may give the statement to his supplier by letter or telegram, with the addition of sufficient information to clearly identify the previously placed order, and the exact materials covered by the statement.

A supplier who receives this statement may extend the RR rating only in accordance with the rules in Priorities Regulation 3 governing the extension of RR ratings.

(2) No AAA rating may be re-rated RRR by use of the statement described above. A person wishing an AAA rating to be re-rated RRR must apply to CPA.

(3) A person entitled to use an AAA, MM, and CC rating which will expire at the end of March, and who is not permitted to re-rate his order with the certificate described above, may apply to CPA for a new rating, if he can meet the conditions stated in Supplement I to PR-28.

(4) Applications to CPA for a new RR rating to replace a CC rating may be made on Form CPA-541-A by marking it "Re-rating Request PR-35", stating the previous case number and date of issuance of the old rating certificate. A request for re-rating of an MM or AAA preference rating may be made to CPA by letter or telegram, marked "Ref. FR-35", and identifying the previous case. In either instance explain fully why a re-rating is necessary in support of the housing program or the Veterans' Administration Construction Program. If a new rating is granted, it may be used by forwarding the rating certificate required by PR-3, to the supplier together with any additional information needed to enable the person receiving it to know exactly the items re-rated, the old and new rating, and the original purchase order referred to.

(5) Any rated order which is re-rated RR or RRR before April 1, 1947 shall be treated by the person with whom the order was placed as if it had carried the new rating at the time the original rated order was received by him. In view of the expiration of many ratings at the end of March, persons entitled to use an RR or RRR rating may be able to get earlier delivery after that time than possible before the expiration of the old ratings.

(e) *Transition period.* (1) Until March 31, 1947, CPA may continue to issue CC ratings under the conditions stated in PR-28. AAA ratings may continue to be assigned until that time under existing procedures. Beginning April 1, 1947, no new AAA, MM, or CC ratings will be issued by CPA for any purpose.

(2) Those ratings which remain in effect until the end of March may continue to be extended until that date, in accordance with Priorities Regulation 3 and other applicable rules.

(3) All orders rated AAA, MM, or CC which do not meet the conditions of (b) (1) above will become unrated at the end of March 1947, unless re-rated to RR or RRR during March. However, all outstanding ratings are unaffected during March, and suppliers must continue to accept and fill such orders in accordance with Priorities Regulation 1 and other applicable rules.

(4) Any unfilled purchase order with an AAA, MM, or CC rating for the delivery of any material except construction items, which is in the hands of a supplier and has not been re-rated RR or RRR by the end of March 1947, shall be treated by him as unrated after that date. This includes ratings on orders which were originally accepted and scheduled for delivery by the end of March, but which, due to circumstances beyond the supplier's control, are delayed beyond that date in delivery.

(5) It is not necessary for any person to cancel a rating which has been applied or extended to his purchase order if the rating expires at the end of March under the terms of this regulation.

(f) *Reports.* The reporting requirements of this regulation have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

Issued this 4th day of March 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

LIST A

CONSTRUCTION ITEMS

This lists the same materials and facilities in Schedule A to Priorities Regulation 33, paragraph (b), as amended from time to time. It is appended here for convenience only, and if there should be any inconsistency, Schedule A to PR-33 shall be controlling.

A. Lumber Materials

1. Flooring, hardwood (all grades).
2. Lumber, housing construction (softwood—flooring, ceiling, siding partition, casing, base, moulding stock, strips and boards, two-inch dimension, finish, lath and shop).
3. Millwork.
4. Plywood, construction (softwood) (Interior (moisture resistant): ¼" and ⅜" sanded or 5/16" and 7/16" unsanded wallboard; ¼" and ⅜" sanded or 5/16" and 7/16" unsanded sound one side plypanel; 5/16", ⅜", ½" and ⅝" sheathing; and Exterior; ¼" and ¾" sanded or 5/16" and 7/10" unsanded sound one side plypanel).

B. Electrical Wiring Materials

1. Cable, metallic or nonmetallic sheathed.
2. Lighting fixtures, not including portable lamps.
3. Raceways (including rigid and flexible conduit, thin-wall metallic tubing, surface metal raceways) and fittings.
4. Service entrance equipment (of the following kinds only): (a) Fuse cut-outs; (b) meter pans; (c) panel-boards; (d) service switches).
5. Wiring devices (of the following kinds only: (a) Sockets, lampholders, and lamp receptacles—medium screw base types; (b) convenience receptacles (outlets); (c) toggle switches; (d) wall and face plates; (e) outlet, switch and receptacle boxes—covers, hangers, supports, and clamps included; (f) box connectors for metallic or nonmetallic sheathed cable).

C. Hardware Materials

1. Builders hardware (of the following types only: (a) Butts, hinges, hasps; (b) door locks, lock trim; (c) sash, screen, and shelf hardware; (d) night latches, dead locks; (e) spring hinges; (f) sash balances, sash pulleys).
2. Nails (ferrous, of the following kinds only: Wire and cut nails 2d to 20d, inclusive; nails and brads smaller than 2d but suitable for roofing, siding, lath, or millwork). This does not include 2d to 10d cement and bright box nails.

D. Masonry Materials

1. Brick, common and face, clay.
2. Brick, sand lime.
3. Concrete block and brick.

4. Cement, portland (all types, including high early strength, limestone, slag, and sulfate resistant).
5. Tile, common and face, structural.

E. Plumbing and Heating Supplies

1. Bathtubs (steel, cast iron).
2. Boilers, low pressure, for heating and hot water.
3. Controls, temperature and combustion, for heating and hot water.
4. Pittings and trim (brass tubular goods included) for bathtubs, kitchen sinks, lavatories, and waterclosets.
5. Furnace pipes, fittings, and duct work.
6. Furnaces, floor, wall.
7. Furnaces, warm air (forced or gravity circulation types of the following kinds only: (a) Gas-fired—rated input 110,000 or less B. T. U. per hour; (b) oil-fired—rated output 100,000 or less B. T. U. per hour; (c) coal-fired—grate not larger than either 2.64 sq. ft. in area or 22" in diameter).
8. Kitchen sinks and undersink cabinets. (This includes sinks and sink-and-tray combinations, undersink cabinets with or without sinks, and any fixture containing a kitchen sink.)
9. Lavatories.
10. Oil burners, domestic.
11. Pipe, bituminized fibre, for drains and sewers.
12. Pipe, sewer, clay.
13. Pipe, soil, cast iron, and fittings for such pipe.
14. Pipe, steel and wrought iron, black and galvanized, sizes ⅜" to 4" inclusive, standard weight.
15. Pipe fittings, screwed (of the following kinds only: (a) Gray cast recessed drainage, 2" and under; (b) gray cast steam fittings, 3" and under (125 lbs. S. W. P.); (c) malleable fittings, including unions, 2" and under (150 lbs. S. W. P.)).
16. Pipe nipples, steel and wrought iron, black and galvanized, sizes ⅜" to 4" inclusive, in lengths 6" and less, made from standard weight pipe.
17. Radiation, convector and cast iron, including accompanying metal enclosures and grilles.
18. Range boilers.
19. Registers and grilles for heating systems.
20. Stokers, domestic.
21. Stoves and ranges for cooking and heating, including space heaters.
22. Tanks, septic.
23. Tanks, oil and water storage, capacity 550 gallons or less.
24. Tubing, copper—types K, L, M—sizes ⅜" to 3" inclusive.
25. Tubing, fittings (for copper tubing as defined above), pressure (solder and flare) and drainage (solder).
26. Water closets (1-piece combinations; and bowls and tanks, separately or in combination).
27. Water heaters.

F. Prefabricated Housing

1. Prefabricated houses, sections, and panels (as defined in Direction 8 to PR-33).

G. Structural Materials (Metal)

1. Doors and frames, hollow metal and kalamein.
2. Fabricated reinforcing rod and mesh.
3. Joists, bar, steel.
4. Structural shapes, steel and aluminum, fabricated or cut to length.
5. Window sash and frames, metal (of the following types only: casements; double hung windows; basement windows).

H. Wall and Roof Materials

1. Asbestos-cement flat sheets, ¼" thick or less. This does not include electrical and insulation grades.
2. Building board (products made from wood pulp, vegetable fibres, pressed paper stock, or multiple plies of fibred stock, produced for use in building construction, and commonly described as structural insulation board, sheathing, lath, tile board, plank, thin board or laminated fibre tile board). This does not include the following: acoustical tile, asbestos-cement faced insulation board, mineral surfaced insulation board, roof insulation, and products commonly described as "hard board".
3. Gypsum board (products made from gypsum and commonly described as wall board, wide board, laminated board). This does not include precast reinforced gypsum roof plank.
4. Gypsum lath (gypsum products especially made for use as a plaster base).
5. Lime, finishing.
6. Papers, building and sheathing (of the following kinds only: (a) Asphalt sheathing paper; (b) laminated papers, consisting of two or more plies of paper cemented together with asphalt; (c) metal foil, designed for building use and consisting of one or more layers of metal foil laminated with one or more layers of paper; (d) rosin-sized, red rosin, and house sheathing paper); (e) slaters felt weighing approximately 25 lbs. per 500 square-feet roll.
7. Plaster, hardwall (gypsum plaster-basic, ready-mixed and gauging-made for use in applying base or finish coats to lathed interior walls).
8. Plaster base (metal lath and accessories for metal lath).
9. Sheet, copper.
10. Sheet, flat galvanized steel, 23 gauge or lighter.
11. Shingles (asbestos-cement, asphalt, slate, wood).
12. Stucco mesh (woven or welded wire).

I. Miscellaneous Building Materials

1. Cabinets, metal, attachable or built-in types for kitchens or bathrooms.
2. Floor coverings (of the following types only: (a) Felt-base; (b) linoleum (up to battleship grade); (c) mastic; (d) asphalt tile; (e) rubber tile).
3. Gutters and downspouts.
4. Insect screen cloth, metal or plastic.
5. Lead, caulking.
6. Paints, house, exterior—ready mixed, paste, semi-paste, and lead-in-oil. This is limited to primers, under-coats, finish coats, and stucco and cement paints only. It does not include such paints as trim colors, porch and deck paints and exterior enamels. This is also limited to lead-in-oil in 12½-lb. and larger containers and to the other paints in 1-gal. and larger containers.
7. Weatherstripping, metal.

LIST B

FORMS AND SHAPES OF STEEL

Steel:
- Bars, Cold-Finished.
- Bars, Hot-Rolled or Forged.
- Ingots, Billets, Blooms, Slabs, Die Blocks, Tube Rounds, Sheet Bars, Tin Bar, and Skelp.
- Pipe, including Threaded Couplings of the type normally supplied for Threaded Pipe.
- Plates, all Plates (including Rolled Armored Plate in the form and shape to which it is rolled by the Steel Mill and prior to any subsequent fabrication), and including Nickel Clad and Stainless Clad.
- Rail and Track Accessories.
- Sheet and Strip.
- Steel Castings (rough as cast).
- Steel Forgings (rough as forged).
- Structural Shapes and Piling.

LIST B—Continued

FORMS AND SHAPES OF STEEL—continued

Steel—Continued.
- Tinplate, Terneplate, and Tin Mill Black Plate.
- Tubing.
- Wheels, Tires, and Axles.
- Wire Rods, Wire and Wire Products.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 28, Table I]

CRITICAL BUILDING PRODUCTS

The following table is issued pursuant to Priorities Regulation 28:

(a) *Introduction.* Priorities Regulation 28 provides for assistance to maintain or increase production of building materials or products which are determined to be in critical short supply.

This table lists the building products which the Civilian Production Administration has determined to be in such tight supply that they are serious threats to the Housing Program. Preference ratings assigned by CPA under this provision will, in general, be limited to assistance needed by producers or manufacturers to maintain or increase their production of the products listed. The extent of the rating assistance available is indicated in this Table.

(b) *General rules.* (1) Ratings may be assigned to a person producing an item listed in Column I to get maintenance, repair and operating supplies (MRO) which he needs for the production of that item.

(2) The list of building products in Column I includes only residential types of the items mentioned.

(3) No rating will be issued for steel for delivery after March 31, 1947.

(c) *Explanation of table.*

Column I—Critical Building Products. Column I lists the building materials or products determined critical for which ratings may be granted to maintain or increase production.

Column II—Production Materials. If the word "yes" appears in Column II ratings may be assigned to the person producing the item listed in Column I to get production materials needed to make that item. Where the applicant regularly sells materials as maintenance, repair or operating supplies for the items he makes, ratings may also be assigned to him for such supplies or for materials needed to make them.

Column III—Capital Equipment. (1) If the word "yes" appears in Column III, ratings may be assigned to the person producing the item listed in Column I to get capital equipment which will result in a substantial increase in production of that item or is needed to replace present operating equipment. Ratings, however, will not be assigned for the purchase of specialized machinery or equipment designed and made solely for the production of a critical building product listed in Column I.

(2) If the word "yes" is followed by "replacement only" ratings will be assigned only to replace non-repairable or obsolete capital equipment with new equipment of the same approximate rated capacity for the purpose of maintaining production, but not to provide for new or expanded production.

Critical building products (of residential types only)	Production materials	Capital equipment (except specialized machinery)
Asbestos-cement siding shingles and flat sheets (products made from asbestos fibres and cement).	No	Yes.
Asphalt and tarred roofing products (smooth surfaced roll roofing, mineral surfaced roll roofing, strip and individual asphalt shingles, mineral surfaced insulation board, laminated asphalt felt and mastic core type boards, saturated felts, dry roofing felts, and saturated or coated sheathing papers).	No	Yes.
Bathtubs	Yes	Yes.
Boilers, low pressure for residential heating.	Yes	Yes.[1]
Builders' hardware, of the following kinds only: (a) Butts, hinges and hasps; (b) Door locks and lock trim; (c) Sash, screen and shelf hardware; (d) Night latches and deadlocks; (e) Spring hinges; (f) Sash balances and sash pulleys.	Yes	Yes.[1]
Building board (board made from wood pulp, vegetable fibres, pressed paper stock, or multiple plies of fibred stock).	No	Yes.
Cast iron soil pipe and fittings	Yes	Yes.
Cast iron pressure pipe	Yes	Yes.[1]
Cement, portland	No	Yes.[1]
Clay sewer pipe and fittings	No	Yes.
Electric service equipment and branch circuit overload protective devices of the following kinds suitable for housing construction: (a) Service swatches—limited to 100 amperes capacity or less, (b) Meter mounting devices, such as meter pans, meter sockets, meter troughs and meter boxes, (c) Enclosures for branch circuit overload protective devices limited to 8 circuits or less.	Yes	Yes.[1]
Finishing Lime	No	Yes.
Furnace pipe-fittings and duct work	Yes	Yes.[1]
Furnaces, warm air, (including floor and wall furnaces) gas, oil or coal fired only.	Yes	Yes.[1]
Gypsum board and gypsum lath	No	Yes.
Insect screen cloth	Yes	Yes.[1]
Lavatories	Yes	Yes.
Logs	No	Yes.
Lumber, not further manufactured than by sawing, resawing, passing lengthwise through a standard planing machine, cross-cutting to length and working, but not including the production of any establishment known in the trade as a "distribution yard", engaged in either retail or wholesale business, even though it may process lumber on special orders from customers.	No	Yes.
Millwork	No	Yes.[1]
Plywood, softwood	No	Yes.
Radiation (Convector and cast iron) including enclosures and grilles for extended surface convector.	Yes	Yes.[1]
Registers and grilles for heating systems.	Yes	Yes.[1]
Veneer, softwood	No	Yes.
Water closet bowls and tanks	Yes	Yes.
Windows and frames, metal	Yes	Yes.
Wiring devices (electrical) of the following kinds only: (1) Sockets, lampholders, and lamp receptacles—medium screw base types—lighting fixtures and portable lamps not included. (A lampholder consists of a socket and a housing (generally one piece) which attaches directly to a ceiling or wall outlet, without intervening suspending or protruding devices. It may be designed so that shades and other similar appurtenances may be attached, but, in that event the appurtenances are not part of the lampholder itself), (2) Convenience receptacles (outlets), (3) Toggle switches—types designed specifically for tools and appliances not included, (4) Wall and face plates, (5) Outlet and switch (or receptacle) boxes, types suitable for residential use, including covers, hangers, supports and clamps. This only includes outlet boxes of 5-inch size or smaller, and switch (or receptacle) boxes commonly known as "gem" boxes, (6) Box connectors for residential-type metallic or non-metallic sheathed cable.	Yes	Yes.[2]

[1] Replacement only.
[2] Except phenolic resin molding compound; see Schedule 121 to Order M-300.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 28, Supp. I]

PRIORITIES ASSISTANCE AFTER MARCH 31, 1947

(a) *Purpose of this supplement.* This supplement describes the conditions under which RR preference ratings may be granted by the Civilian Production Administration. The issuance of CC ratings will be discontinued by the end of March 1947, as explained in Priorities Regulation 35 being issued simultaneously with this supplement.

In furtherance of the announced policy of restoring normal buyer-seller relations as soon as possible, the rating assistance which will be given after the end of March will be even more limited than that now provided for in Priorities Regulation 28.

After that time, such assistance will in general be given only in three classes of cases in support of the objectives of the Veterans Emergency Housing Program and to aid the Veterans Administration Construction Program, as indicated in paragraph (b) below.

(b) *Exceptional cases when RR ratings may be assigned.* (1) Where an item (other than those listed in (c) below) is required in connection with the Veterans Emergency Housing Program or Veterans Administration Construction Program and all of the conditions of paragraph (b) (2) below are met, RR ratings may be granted in the following cases (except that no rating will be issued under (i) or (ii) below for the purchase of specialized machinery, site preparation equipment, or for an item to be incorporated in construction at the site):

(i) To maintain or increase the production of a building product which is determined by CPA to be in critically short supply (such products will customarily be listed in Table I of Priorities Regulation 28); or

(ii) For capital equipment which is a bottleneck in the production or erection of new housing accommodations, or is a bottleneck in the erection of a Veterans Administration Construction Project; or

(iii) Where an item is needed to provide essential utility services to new housing accommodations, or to a Veterans Administration Construction Project.

(2) When effective assistance of other kinds is not practicable (CPA may locate sources able to ship without ratings), an RR rating may be granted for specific items and quantities of materials in the limited classes of cases described in paragraph (b) (1) above, upon determination in each instance that all the following conditions are met:

(i) The use of substitute and less scarce materials is not practicable;

(ii) Reasonable efforts have been made to get the required item without a rating; and

(iii) A rating is required to obtain the item by the latest date and in the minimum quantity practicable after taking into consideration material in inventory and material available without a rating.

(c) *Materials for which informal assistance, but not RR ratings, may be given.* No RR ratings will be assigned under the regulation for steel, pig iron, gypsum liner paper, or phenolic resin molding compounds.

CPA may be able to locate sources in a position to ship such materials without a rating for any applicant who meets the conditions in paragraph (b) above.

(d) *Applications and authorizations.* Applications for a rating under this supplement should be made in accordance with paragraph (c) of Priorities Regulation 28.

Where applications have been or are filed under Priorities Regulation 28, but meet the more restrictive conditions stated in this supplement, RR ratings may be issued beginning immediately, instead of CC ratings. Applications filed under Priorities Regulation 28, but not meeting the conditions stated in this supplement will be considered under that regulation, even though any CC rating which may be issued may expire at the end of March, as explained in Priorities Regulation 35. After March, no further CC ratings will be issued.

(e) *Existing CC ratings.* Nothing in this supplement affects the validity or duration of CC ratings granted before April 1, 1947. Rules concerning the termination of certain CC and other ratings at the end of March 1947 are stated in Priorities Regulation 35.

Issued this 4th day of March 1947.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1111]

FLOYD GEARHART

Floyd Gearhart, R. D. #3, Indiana, Pa., on or about October 1, 1946, without authorization of the Civilian Production Administration, began and thereafter carried on construction involving the building of a new commercial garage and service station building on North Fourth Street, Indiana, Pa., at an estimated cost of $7,000. This construction was carried on by Floyd Gearhart subsequent to his denial for permission to do the construction, and with full knowledge of the order, and he, therefore, must be considered guilty of wilfully violating Veterans' Housing Program Order No. 1. This violation has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1111 *Suspension Order No. S-1111.* (a) Neither Floyd Gearhart, his successors or assigns, nor any other person shall do any further construction on

his premises on North Fourth Street, Indiana, Pa., including completing or altering the structure, unless hereafter authorized in writing by the Civilian Production Administration, or any other duly authorized Governmental agency.

(b) Floyd Gearhart shall refer to this order in any application or appeal which he may file with the Civilian Production Administration for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Floyd Gearhart, his successors or assigns, from any restriction, prohibition, or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 4th day of March 1947.

PROPOSED RULE MAKING

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR, Part 516]

RECORD OF HOURS WORKED BY UNSUPERVISED EMPLOYEES ENGAGED IN PULPWOOD OPERATIONS

ADMINISTRATOR'S DETERMINATION REGARDING PROPOSED AMENDMENT

After due notice published in the FEDERAL REGISTER (11 F. R. 6145, 7779) public hearings were held on June 10, 1946 and on August 1, 1946, before William B. Grogan designated by me for the purpose of receiving evidence and hearing argument with respect to whether a proposed amendment to the record-keeping regulations, Part 516, of this Chapter, relating to recording of hours worked by unsupervised employees engaged in woods operations on pulpwood, published in the FEDERAL REGISTER on April 19, 1946 (11 F. R. 4343), should be adopted by the Administrator and, if not, whether any alternative amendment concerning the subject matter should be adopted. On November 7, 1946 the presiding officer made his report and recommended that the proposed amendment to the record-keeping regulations should not be adopted.

Notice of opportunity to all interested parties to file with the Administrator written statements in support of or in opposition to the report and recommendation of the presiding officer was published in the FEDERAL REGISTER on December 10, 1946 (11 F. R. 14212). The entire record, including the report and recommendation of the presiding officer, was made available for examination by interested parties. Pursuant to the notice, statements in support of and in opposition to the report and recommendation were filed with me, and made part of the record.

I have examined the entire record and on the basis of that record have concluded that the adoption of the proposed amendment may lead to confusion and misunderstanding as to its purpose and effect and result in hampering the enforcement of the act. I therefore hereby determine not to amend the record-keeping regulations as proposed.

Signed at New York, New York, this 27th day of February 1947.

L. METCALFE WALLING.
Administrator.

ERNST SPRICK

In re: Bank account and stock owned by Ernst Sprick, F-28-8528-E-1, F-28-8528-D-1.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Ernst Sprick, whose last known address is Stelle im Luneburgischen, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows:

a. That certain debt or other obligation of First State Bank, Healy, Kansas, arising out of a checking account, entitled H. S. Jennison, Agent for Ernst Sprick, a national of Germany, Stelle im Luneburgischen, Germanie, Blocked, and any and all rights to demand, enforce and collect the same, and

b. Eight (8) shares of $100.00 par value common capital stock of First State Bank, Healy, Kansas, a corporation organized under the laws of the State of Kansas, evidenced by certificate number 35, registered in the name of Ernst Sprick, a citizen and national of Germany together with all declared and unpaid dividends thereon,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

WALTER KAHMANN

In re: The undivided one-half interest of Walter Kahmann in, Patent Number 1,965,525.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding;

1. That Walter Kahmann, whose last known address is Wismar, Germany is a resident of Germany and a national of a foreign country (Germany);

2. That the property described in subparagraph 3 hereof is property of Walter Kahmann;

3. That the property described as follows: An undivided one-half interest which stands of record in the United States Patent Office in the name of Walter Kahmann in and to the following United States Letters Patent:

Patent Number, Date of Issue, Inventor and Title
1,965,525; 7-3-34; Ernst Karl Roscher, railway car for transporting passenger carrying automobiles and similar vehicles or articles;

including all accrued royalties and all damages and profits recoverable at law or in equity from any person, firm, corporation, or government for past infringement thereof to which the owner of such one-half interest is entitled,

is property of a national of a foreign country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The term "national" as used herein shall have the meaning prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C. on September 26, 1946.

GEORG HEIDEMANN AND MONTGOMERY WARD & CO., INC.

In re: Interests of Georg Heidemann in an agreement with Montgomery Ward & Company, Inc., dated March 18, 1937.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding;

1. That Georg Heidemann, whose last known address is Hoppegarten, near Berlin, Germany, is a resident of Germany and a national of a foreign country (Germany);

2. That the property described in subparagraph 3 hereof is property of Georg Heidemann;

3. That the property described as follows: All interests and rights (including all royalties and other monies payable or held with respect to such interests and rights and all damages for breach of the agreement hereinafter described, together with the right to sue therefor) created in Georg Heidemann by virtue of an agreement dated March 18, 1937 (including all modifications thereof and supplements thereto, if any) by and between Dr. Otto Bernhard, acting as agent and attorney-in-fact for Georg Heidemann, on the one hand, and Montgomery Ward & Co., Incorporated, on the other, which agreement relates, among other things, to United States Letters Patent Number 1,979,545.

is property payable or held with respect to patents or rights related thereto in which interests are held by, and such property itself constitutes interests held therein by a national of a foreign country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or

in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The term "national" as used herein shall have the meaning prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 26, 1946.

CIVIL AERONAUTICS BOARD

[Docket No. 2666]

UNITED AIR LINES, INC.

NOTICE OF HEARING

In re notice of intention of United Air Lines, Inc., to engage in air transportation to and from Twin Falls, Idaho, an intermediate point on Route No. 1 through the use of the Gooding Municipal Airport, filed with the Board by United Air Lines, Inc., pursuant to §§ 238.3 and 238.5 of the Economic Regulations of the Board. The Board (14 CFR, Supps., 238.3 and 238.5) pursuant to said §§ 238.3 and 238.5, served upon United an order to appear at a public hearing to show cause why the use of the Gooding Municipal Airport for the purpose of serving Twin Falls, Idaho, should not be disapproved. (Order Serial No. E-123, dated Nov. 21, 1946.)

Notice is hereby given that the said public hearing be and it is hereby assigned to be held on March 5, 1947, at 10 a. m. (eastern standard time) in the Foyer of the Auditorium, Commerce Building, 14th Street and Constitution Avenue NW., Washington, D. C., before Examiner F. A. Law, Jr.

Without limiting the scope of the issues presented by said proceeding, particular attention will be directed to the following matters and questions:

Whether service to Twin Falls, Idaho, through the use of the Gooding Municipal Airport, resulting in service to Gooding by United, would adversely effect the public interest?

Notice is further given that any person, other than parties and interveners of record as of February 28, 1947, desiring to be heard in this proceeding file with the Board on or before March 5, 1947, a statement setting forth the issues of fact or law he desires to controvert.

Dated at Washington, D. C., February 28, 1947.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-1312]

STANDARD GAS AND ELECTRIC CO.

SUPPLEMENTAL ORDER EXTENDING TIME FOR SALE OF SHARES OF COMMON STOCK

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 26th day of February 1947.

The Commission on December 12, 1946, having issued its order (Holding Company Act Release No. 7061) in the above matter permitting to become effective pursuant to Rule U-23, an amended declaration regarding the proposed sale pursuant to Rule U-50 by Standard Gas and Electric Company of 140,614 shares of common stock of Mountain States Power Company, without par value, owned by Standard Gas and Electric Company, which declaration contemplated that such sale would be consummated within 60 days from the effective date thereof, or on or prior to February 10, 1947, as required by Rule U-24;

Standard Gas and Electric Company having requested that the Commission issue a supplemental order extending for a period of an additional 30 days the time within which such sale may be made pursuant to such amended declaration:

A hearing having been held on February 18, 1947, with respect to said matter pursuant to an order dated February 11, 1947, issued by the Commission directing declarant to show cause why such extension should be granted; and declarant having represented that it proposes to receive bids for the purchase of said stock on March 10, 1947, and to deliver said stock to the successful bidder or bidders on March 17, 1947; and having requested that such extension of time be granted to March 18, 1947 within which to consummate said sale; and

The Commission having considered the record and deeming it appropriate and in the public interest and in the interest of investors and consumers that an extension of time to March 18, 1947, within which to sell said stock, should be granted;

It is hereby ordered, That the time within which the proposed sale by Standard Gas and Electric Company of the 140,614 shares of common stock of Mountain States Power Company, without par value, owned by Standard Gas, pursuant to the provisions of the order of the Commission dated December 12, 1946, be and the same is hereby extended to March 18, 1947, subject to all the terms and conditions prescribed by said order of the Commission dated December 12, 1946.

By the Commission.

DETROIT EDISON CO.

NOTICE OF FILING AND NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 26th day of February 1947.

Notice is hereby given that The Detroit Edison Company ("Detroit Edison"), a public-utility subsidiary of The United Light and Railways Company, a registered holding company, has filed a declaration pursuant to the Public Utility Holding Company Act of 1935 regarding the issuance to its common stockholders of a common stock dividend of ten (10) percent upon its presently outstanding common stock. Declarant designates sections 6 (a) and 7 of the act as being applicable to the proposed transaction.

All interested persons are referred to said declaration which is on file in the office of the Commission for a statement of the transaction therein proposed, which is summarized as follows:

Detroit Edison proposes to issue 636,130 shares of its presently authorized but unissued common stock, having a par value of $20 per share, as soon as practicable and to distribute such stock to its common stockholders in the ratio of one share for each ten shares held. Where the amount of stock issuable for such dividend would be less than one full share, the declarant proposes to issue scrip certificates in lieu thereof, such scrip certificates to be exchangeable for full shares during a period of two (2) years from a date thirty (30) days subsequent to the record date of the stock dividend. At the expiration of such period, the declarant will sell the number of shares of its common stock equal to the amount of scrip certificates then outstanding and thereafter for an additional period of four (4) years, the declarant will pay to each bearer of scrip certificates, upon surrender thereof, his proportion of the net proceeds of such sale.

The declarant proposes to transfer from its earned surplus account to its capital stock account an amount of $12,722,600, representing the par value of the shares to be issued. As of December 31, 1946, this entry would have had the effect of reducing declarant's earned surplus from $32,223,898.95 to $19,501,298.95.

The purpose of the transaction is stated to be a permanent capitalization of a portion of the earned surplus of the declarant heretofore permanently invested in its business. The Michigan Public Service Commission, the state commission of the State in which Detroit Edison is doing business, has issued an order permitting the proposed stock issuance.

It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that a hearing be held with respect to the matters set forth in said declaration and that said declaration should not be permitted to become effective except pursuant to further order of this Commission:

It is ordered, That a hearing on said declaration pursuant to the applicable provisions of the act and the rules and regulations thereunder be held on March 12, 1947 at 10:00 a. m., e. s. t., at the offices of this Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room in which such hearing shall be held. Any person desiring to be heard or otherwise wishing to participate in this proceeding shall file with the Secretary of the Commission on or before March 10, 1947 a written request relative thereto as provided by Rule XVII of the commission's rules of practice.

It is further ordered, That Allen MacCullen or any other officer or officers of this Commission designated by it for that purpose shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Public Utilities Division of the Commission having advised the Commission that it has made a preliminary examination of the declaration and that, upon the basis thereof, the following matters and questions are presented for consideration, without prejudice to its specifying additional matters and questions upon further examination:

1. Whether the proposed common stock dividend meets the applicable standards of sections 7 and 12 (c) of the act.

2. Whether the terms and conditions of the proposed common stock issue are detrimental to the public interest or the interest of investors or consumers.

3. Whether the terms and conditions of the proposed issuance of scrip are fair and reasonable and in the public interest and in the interest of investors and consumers, and whether the proposed exchange offer and payment for scrip meet the applicable standards of section 12 (c) of the act.

4. Whether the fees and expenses to be paid in connection with the proposed transaction are for necessary services and are reasonable in amount.

5. Whether the proposed accounting treatment of the transaction is proper and in conformity with sound accounting principles.

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

It is further ordered, That the Secretary of the Commission shall serve by registered mail a copy of this order on the declarant, The United Light and Railways Company, the Michigan Public Service Commission and the City of Detroit; and that notice of said hearing be given to all other persons by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935; and that further notice be given to all persons by publication of this order in the FEDERAL REGISTER.

By the Commission.

NORTH AMERICAN CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE AND GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 26th day of February 1947.

The North American Company, a registered holding company, having filed a declaration and application, and amendments thereto, pursuant to sections 12 (c) and 12 (d) of the Public Utility Holding Company Act of 1935 and Rules U-42, U-44 and U-50 promulgated thereunder with respect to the sale of its holdings of 41,000 shares of the capital stock of The St. Louis County Gas Company (being all of such stock issued and outstanding) to Laclede Gas Light Company, a non-affiliate, for a cash consideration of $11,250,000, subject to certain adjustments, and the use of the entire proceeds of this sale for the prepayment, without premium, of a portion of The North American Company's Bank Loan Notes of Series G presently outstanding in the principal amount of $26,375,000, in accordance with the terms of such Notes and for the consideration specifically designated therein; and

The North American Company having requested that the sale of the aforesaid shares of capital stock be exempt from the competitive bidding requirements of Rule U-50, and that said declaration and application be permitted to become effective and granted forthwith; and

The North American Company having requested that this Commission find that the sale of the 41,000 shares of capital stock of The St. Louis County Gas Company is necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935 and make the specifications and itemizations necessary in order that the provisions of Supplement R of Chapter I and section 1808 (f) of Chapter 1I of the Internal Revenue Code, as amended, shall be applicable; and

A public hearing having been held upon such matters after appropriate notice, and the Commission having considered the record and having made and filed its findings and opinion herein;

It is ordered, That said declaration of The North American Company, as amended, be, and the same is hereby, permitted to become effective forthwith, and that the request for exemption for the sale of 41,000 shares of capital stock of The St. Louis County Gas Company from the competitive bidding requirements of Rule U-50 be, and the same is hereby, granted, subject, however, to compliance with the terms and conditions prescribed in Rule U-24 of the general rules and regulations promulgated under the act.

It is further ordered, And the Commission finds that the proposed sale and transfer by The North American Company of the 41,000 shares of capital stock of The St. Louis County Gas Company (represented by certificates numbers 15, 16, 21, 35, 44, 47, 49, 50, 65, A-10, A-11, A-12, A-13, A-16, A-17, A-18, A-20 and A-21) authorized and permitted by this order is in accordance with and in obedience to the order of this Commission dated April 7, 1945, and that said proposed sale by The North American Company is necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935.

By the Commission.

FLORIDA POWER & LIGHT CO. AND AMERICAN POWER & LIGHT CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 26th day of February A. D. 1947.

American Power & Light Company ("American"), a registered holding company subsidiary of Electric Bond and Share Company, also a registered holding company, and American's electric utility subsidiary, Florida Power & Light Company ("Florida") having filed a joint declaration and amendment thereto pursuant to sections 6 (a) (2), 7 and 12 (c) of the Public Utility Holding Company Act of 1935 with respect to the following transactions:

Florida proposes to amend its charter in the following respects; (a) to change its presently outstanding 2,500,000 shares of common stock without nominal or par value, all of which are owned by American, to 2,000,000 shares of common stock without nominal or par value, but without any change in the aggregate stated value, said 2,000,000 shares to be issued to American in exchange for its presently held shares of Florida; (b) to increase its authorized capital stock to 20,000,000 shares without nominal or par value; (c) to provide for preemptive rights to stockholders with respect to any offering of common stock, or security convertible into common stock, for money, other than with respect to a public offering of such shares; (d) to provide that the consideration received by the company from the issuance and sale of any additional shares of common stock without par value, shall be entered in the capital stock account; (e) to provide for cumulative voting for the holders of shares of common stock; (f) to delete all references to preferred stock in the present charter; (g) to increase the number of directors from 5 to 9; (h) to provide that certificates of stock of the corporation may be signed by certain designated officers.

The declaration having been filed on January 24, 1947, the amendment thereto having been filed on February 7, 1947, notice of said filing, as amended, having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said declaration, as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to the declaration, as amended, that the applicable provisions of the act and the rules thereunder are satisfied, that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration, as amended, be permitted to become effective, and deeming it appropriate to grant the request of declarant that the order become effective at the earliest practicable date:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of said act, and subject to the terms and conditions prescribed in Rule U-24, that said declaration be, and the same hereby is, permitted to become effective forthwith.

By the Commission.

COMMONWEALTH AND SOUTHERN CORP. (DEL.)

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 26th day of February 1947.

Notice is hereby given that a declaration-application has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by The Commonwealth & Southern Corporation ("Commonwealth"), a registered holding company. Applicant designates sections 11 and 12 (c) of the act and Rule U-46 as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than March 10, 1947 at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be given on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said declaration-application proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, such declaration-application as filed or as amended, may be permitted to become effective or may be granted as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transaction as provided in Rule U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pa.

All interested persons are referred to said declaration-application, which is on file in the office of the Commission, for a statement of the transaction therein proposed which is summarized below:

Commonwealth proposes, subject to the approval of the Commission, to pay a dividend of $3 per share or an aggregate of $4,323,741 on the outstanding shares of its preferred stock. The dividend was declared on February 21, 1947 and is payable on the 28th day after the date of the order of this Commission permitting such payment of such dividend to stockholders of record at the close of business on the 14th day after the date of such order. The Commission action requested in the pending application is similar in substance to the Commission action requested in three applications approved by the Commission in 1943, four applications approved in 1944, four applications approved in 1945, and four approved in 1946, covering proposed distributions to preferred stockholders.

The applicant requests that the Commission's order be issued herein on or before March 11, 1947 and become effective forthwith so that Commonwealth may pay the proposed dividend not later than April 8, 1947.

By the Commission.

KENTUCKY UTILITIES CO.

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 26th day of February 1947.

Kentucky Utilities Company ("Kentucky"), a holding company and a public utility subsidiary of The Middle West Corporation, a registered holding company, having filed an application and amendments thereto pursuant to the Public Utility Holding Company Act of 1935, paticularly section 6 (b) thereof, with respect to the following transactions:

Kentucky proposes to issue and sell to eleven specified banks its unsecured 2½% Serial Notes in various principal amounts, aggregating $5,500,000 principal amount, said notes to be payable in equal semi-annual installments beginning May 1, 1947 with a final payment on November 1, 1956. Each of said banks has represented that its purchase of such notes will be for investment and not for resale or distribution. Expenses in connection with the proposed issuance, to be paid by Kentucky, are estimated at $3,000. The net proceeds, together with other funds as required, will be used to redeem all of Kentucky's outstanding 4½% sinking fund mortgage bonds, aggregating $5,406,000 in principal amount and maturing February 1, 1955. The redemption price will be at 102% of principal amount as provided by the terms of the said sinking fund mortgage bonds.

Said application having been filed on January 20, 1947, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act and the Commission not having received a request for hearing with respect to said application, as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding that the Public Service Commission of Kentucky and the Railroad and Public Utilities Commission of Tennessee have each, by appropriate order, approved the issuance of securities by Kentucky, as described above; and the Commission further finding with respect to the application, as amended, that the applicable requirements of the act, particularly section 6 (b) thereof, are met, and that it is appropriate in the public interest and in the interests of investors and consumers that said application, as amended, be granted, and deeming it appropriate to grant the request of applicant that the order become effective at an early date;

It is hereby ordered, Effective forthwith, pursuant to Rule U-23 and the applicable provisions of the act, and subject to the terms and conditions prescribed in Rule U-24, that the said application, as amended, be, and the same hereby is, granted.

By the Commission.

TITLE 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

Subchapter B—Immigration Regulations

ENDORSEMENT OF PASSPORTS

FEBRUARY 17, 1947.

The following amendments to Title 8, Chapter I, Code of Federal Regulations, are hereby prescribed:

PART 108—RECORDING OF ARRIVALS, DEPARTURES, AND REGISTRATIONS

1. Paragraph (a) of § 108.3 *Immigrants; Forms 257a, 257b and 257d; action at time of entry* (11 F. R. 9982) is amended by deleting the last two sentences, which read: "When an alien admitted on presentation of Forms 257a, 257b, and 257d is in possession of a passport as that term is defined in § 176.101 (e) of this chapter, the admitting immigrant inspector shall place an endorsement in such passport showing the date and place of admission, status and section of law under which admitted, date to which admitted, visa application number, and bond if exacted. In classes of cases where fixing a period of time of admission is prohibited by regulations, the term 'duration of existing status' shall be used."

2. The following section is added:

§ 108.9 *Endorsement of passports.* (a) When an alien admitted temporarily to the United States is issued a Form 257a or Form I-94 or when an alien is admitted permanently on presentation of a Form 256a or a permit to reenter the United States, the admitting immigrant inspector shall stamp any passport presented by the alien (as the term passport is defined in § 176.101 (e) of this chapter) to show the word "Admitted" and the date and place of admission: *Provided*, That the provisions of Part 125 of this chapter shall be followed as to the endorsement of passports presented by aliens admitted as students under the provisions of subsection (e) of section 4 of the Immigration Act of 1924 (43 Stat. 155; 8 U. PART 97—RULES OF PRACTICE GOVERNING SAFETY CASES ARISING UNDER SECTIONS 602 AND 609 OF THE CIVIL AERONAUTICS ACT OF 1938, AS AMENDED, AND PETITIONS FOR WAIVERS OF CIVIL AIR REGULATIONS

WITHDRAWAL OF COMPLAINT

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 17th day of February 1947.

Effective March 1, 1947, Part 97 of the Civil Air Regulations is amended by adding thereto immediately following § 97.18 a new section numbered § 97.18a as follows:

§ 97.18a *Withdrawal of complaint.* A complaint may be withdrawn by the Administrator of Civil Aeronautics, as plaintiff, at any time prior to the issuance of an initial decision in the proceeding as provided for in §§ 97.22 and 97.23, by filing with the Board an original and two copies of a formal Notice of Withdrawal of Complaint stating the reasons for such action, together with a signed statement that a copy thereof has been mailed to the defendant, and the proceeding shall thereupon be deemed terminated without further action of the Board. (Secs. 205 (a), 1001, 1002, 52 Stat. 984, 1017, 1018, secs. 3, 12, Pub. Law 404, 79th Cong., 60 Stat. 238, 244; 49 U. S. C. 425 (a), 641, 642)

PART 525—NOTICE OF CONSTRUCTION OR ALTERATION OF STRUCTURES ON OR NEAR CIVIL AIRWAYS

CONSTRUCTION OF LANDING AREAS

In accordance with the provisions of section 4 of the Administrative Procedure Act (Pub. Law 404, 79th Cong.) and pursuant to the authority vested in me by the Civil Aeronautics Act of 1938, as amended, particularly sections 308 and 1101 of said act (52 Stat. 986, 1026, 54 Stat. 1233; 49 U. S. C. 458, 671), I hereby amend Part 525 of the Regulations of the Administrator of Civil Aeronautics by adding the following new § 525.10, to become effective upon the 31st day after publication hereof in the FEDERAL REGISTER:

§ 525.10 *Construction of landing areas.* Any person who engages in the construction of a landing area, as defined in § 525.3, any boundary of which will be within 5 miles of the nearest boundary of an existing landing area shall give notice thereof to the Administrator of Civil Aeronautics.

Basis and purpose. The construction of a landing area within 5 miles of an existing landing area may constitute a hazard to the navigation of aircraft in air commerce, unless proper notice of such construction is given to all airmen and the traffic pattern for such landing area is coordinated with that of the existing landing area. To accomplish such notice and coordination, the Administrator of Civil Aeronautics must be notified of the construction of any landing area and any boundary of which will be located within 5 miles of an existing landing area.

(52 Stat. 986, 1026, 54 Stat. 1233; 49 U. S. C. 458, 671)

Chapter I—Federal Trade Commission

[Docket No. 5462]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

CALIFORNIA MARINE CURING & PACKING CO. ET AL.

§ 3.45 (e) *Discriminating in price—Indirect discrimination—Brokerage payments.* In connection with the sale and distribution of sardines, tonno, mackerel, tuna, and other sea-food products in commerce, paying or granting, directly or indirectly, to any buyer, anything of value as a commission or brokerage, or any compensation, allowance, or discount

in lieu thereof, upon purchases made for such buyer's own account; prohibited. (Sec. 2 (c), 48 Stat. 1527; 15 U. S. C., 13 (c)) [Cease and desist order, California Marine Curing & Packing Co. et al., Docket 5462, February 13, 1947]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 13th day of February A. D. 1947.

In the Matter of California Marine Curing & Packing Co., a Corporation; and Max Joseph Gorby, Individually and as President and Director, Jack Gorby, Individually and as Vice President and Director, and Anna Gorby, Individually and as Secretary-Treasurer and Director, of California Marine Curing & Packing Co.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and answer of the respondents, which answer admits all the material allegations of fact set forth in said complaint and waives all intervening procedure and further hearings as to said facts, and the Commission having made its findings as to the facts and its conclusion that said respondents have violated the provisions of subsection (c) of section 2 of an act of Congress entitled, "An Act to supplement existing laws against unlawful restraints and monopolies, and for other purposes," approved October 15, 1914 (the Clayton Act), as amended by an act of Congress approved June 19, 1936 (Robinson-Patman Act):

It is ordered, That the corporate respondent, California Marine Curing & Packing Co., a corporation, and its officers, and the individual respondents, Max Joseph Gorby, Jack Gorby, and Anna Gorby, individually and as officers and directors of the corporate respondent, and their respective agents, representatives, and employees, directly or through any corporate or other device in connection with the sale and distribution of sardines, tonno, mackerel, tuna, and other sea-food products in commerce as "commerce" is defined in the aforesaid Clayton Act, do forthwith cease and desist from:

Paying or granting, directly or indirectly, to any buyer, anything of value as a commission or brokerage, or any compensation, allowance, or discount in lieu thereof, upon purchases made for such buyer's own account.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

TITLE 36—PARKS AND FORESTS

Chapter I—National Park Service, Department of the Interior

PART 2—GENERAL RULES AND REGULATIONS

IMPOUNDING OF ANIMALS

Part 2 is amended by adding a new § 2.64, reading as follows:

§ 2.64 *Impounding of animals.* (a) Livestock and dogs trespassing on any lands of the United States in a National Park Service area may be impounded by the superintendent or custodian in charge and shall be disposed of in accordance with state statutes insofar as the same may be applicable. In the absence of applicable state statutes the animals shall be disposed of in accordance with this section.

(b) If the owner is known, prompt written notice of the impounding will be served upon him, and in the event of his failure to remove the impounded animal within five (5) days from delivery of such notice, it will be sold or otherwise disposed of as hereinafter prescribed.

(c) If the owner is unknown, no sale or other disposition of the animal shall be made until at least fifteen (15) days have elapsed from the date that a notice of the impounding is first published in a newspaper of general circulation in the county in which the trespass occurs and posted at the county courthouse.

(d) Regional directors, superintendents, and custodians are hereby authorized to order the publication of such notices in newspapers by direct transmittal to the publisher of the standard form of advertising order approved by the Comptroller General.

(e) The notice shall state when and where the animal was impounded; shall describe it by brand or earmark, or both, or, in the absence of such distinguishing marks, by such other means as are necessary reasonably to identify such animal; shall specify the time and place it will be offered at public sale to the highest bidder in default of redemption by the owner on or before that date; and shall reserve the right of the official conducting the sale to reject any and all bids so received.

(f) Prior to such sale, the owner may redeem the animal by submitting proof of ownership and paying all expenses of the United States for capturing, advertising, pasturing, feeding, and impounding, and the amount of damage to any National Park Service property injured or destroyed by or through such trespass. Upon the sale of any animal in accordance with this regulation, the regional director, superintendent, or custodian shall issue a certificate of sale.

(g) If an animal impounded under this section is offered at public sale and no bid is received or if the highest bid received is in an amount less than the amount of the claim of the United States or of the officer's appraised value of the animal, whichever is the lesser amount, such animal may, in the discretion of the superintendent or custodian be sold at private sale for the highest amount obtainable, or be condemned and destroyed or converted to the use of the United States if of value for that purpose.

(h) In determining the claim of the Government in all livestock trespasses on National Park Service areas, the value of forage consumed shall be computed at the daily, weekly, monthly, or yearly commercial rates prevailing in the locality for the class of livestock found in trespass. In addition, the claim shall include damages to National Park Service property injured or destroyed by trespassing livestock and dogs, the expenses incurred in impounding, sale, or other disposition of such animals, and the pro rata salary of Service employees for the time spent and the expenses incurred in and about the investigations, reports, and settlement or prosecution of the case.

(i) When the amount received in the sale of the animal either at auction or private sale, or when the appraised value of the animal in case it is converted to the use of the Government, is insufficient to meet the amount of the Government's claim, or when it is necessary to destroy the impounded animal without benefit to the Government, the facts shall be fully reported to the Director for appropriate action to obtain full satisfaction of the Government's claim. (Secs. 1 and 3, 39 Stat. 535, 16 U. S. C. 1, 3)

Issued this 21st day of February 1947.

(f) *Spec. 17E, or 17H.* Metal drums (single-trip).

17. Superseding and amending paragraph (d), section 187 (*Packing peroxide of sodium*), order August 16, 1940, to read as follows:

(d) *Spec. 17E, 17H, or 37D.* Metal drums (single-trip).

18. Superseding and amending paragraph (d), section 188 (*Packing phosphoric anhydride*), order August 16, 1940, to read as follows:

(d) *Spec. 17E, 17H, or 37D.* Metal drums (single-trip).

19. Superseding and amending paragraph (d), section 204 (*Packing sodium hydrosulfite*), order August 16, 1940, to read as follows:

(d) *Spec. 17E, 17H, 37D, 37E, or 37F.* Metal drums (single-trip).

20. Superseding and amending paragraph (a) (1), section 206 (*Packing sodium or potassium, metallic, etc.*), order November 4, 1946, to read as follows:

(a) (1) Sodium or potassium, metallic, lithium hydride, lithium silicon, must be packed in specification containers as follows:

21. Superseding and amending paragraph (a) (4), section 206 (*Packing sodium of potassium, metallic, etc.*), order August 16, 1940, to read as follows:

(a) (4) *Spec. 17E, 17H, or 37D.* Metal drums (single-trip) authorized only for sodium which must be fused solid in the container.

22. Superseding and amending paragraph (b) (4), section 207 (*Packing sulfide of sodium or sulfide of potassium, fused or concentrated, when ground*), order August 16, 1940, to read as follows:

(b) (4) *Spec. 17E, 17H, 37D, 37E, 37F, or 37G.* Metal drums (single-trip).

23. Superseding and amending paragraph (c), section 213A (*Packing zinc ammonium nitrite*), order August 16, 1940, to read as follows:

(c) *Spec. 17E, 17H, or 37D.* Metal drums (single-trip). Gross weight not over 300 pounds.

24. Superseding and amending paragraph (b), section 242 (*Packing bottles containing acid or other corrosive liquids, etc.*), order August 16, 1940, to read as follows:

(b) When bottles containing acid or other corrosive liquids are cushioned by incombustible absorbent material and securely packed in tightly closed metal containers, except hydrofluoric acid which must be packed in a container other than a metal container, they may be packed with other articles. This exception does not apply to nitric or perchloric acids, or hydrogen peroxide exceeding 52 percent strength by weight, which must not be packed in the same outside container with any other article under any circumstances.

25. Amending section 245, order August 16, 1940, as follows (add):

(u) Hydrogen peroxide over 52 percent strength by weight.

26. Superseding and amending paragraph (d), section 247 (*Packing acetyl chloride, antimony pentachloride, benzoyl chloride, etc.*), order August 16, 1940, to read as follows:

(d) *Spec. 1A, 1C, or 1D.* Glass carboys in boxes or kegs (not permitted for tin tetrachloride, anhydrous).

27. Superseding and amending paragraph (b), section 248 (*Packing acid sludge, sludge acid, spent sulfuric acid, or spent mixed acid*), order August 16, 1940, to read as follows:

(b) *Spec. 1A, or 1D.* Boxed carboys. (For spent sulfuric acid only.)

28. Amending section 249, order August 16, 1940, as follows: (*Alkaline corrosive liquids, n. o. s., etc.*) (add):

(d) (1) *Spec. 17E, or 17H.* Metal drums (single trip). Authorized only for liquid boiler compounds or liquid water treatment compounds.

29. Superseding and amending paragraph (c), section 254A (*Packing chromic acid solution*), order March 31, 1941, to read as follows:

(c) *Spec. 17E, or 17H.* Metal drums (single-trip) not over 5 gallons capacity.

30. Amending section 255 (*Packing dimethyl sulfate*), order August 16, 1940, as follows (add):

(e) *Spec. 103A.* Tank cars.

31. Superseding and amending paragraph (c) section 260A (*Packing ethyl chloroformate and methyl chloroformate*), order April 19, 1946, to read as follows:

(c) *Spec. 1A.* Boxed carboys. Glass bottles having nominal capacity of 3 gallons also authorized when packed and tested in accordance with requirements of Spec. 1A; necks must be protected during shipment.

32. Superseding and amending paragraph (b) section 262 (*Packing hydrobromic acid*), order August 16, 1940, to read as follows:

(b) *Spec. 1A, 1C, or 1D.* Carboys in boxes, barrels or kegs.

33. Superseding and amending paragraph (c) (2), section 265 (*Packing hydrofluosilicic acid*), order August 16, 1940, to read as follows:

(c) (2) *Spec. 1A, 1C, or 1D.* Carboys, boxed or in kegs, for which the use of rubber stoppers and gaskets is also authorized.

34. Superseding and amending all of section 266 (*Packing hydrogen peroxide, etc.*), orders August 16, 1940, November 8, 1941, October 28, 1942, and January 23, 1946, to read as follows:

266 (a) (1) Hydrogen peroxide containing over 52 percent H_2O_2 strength by weight must be packed in specification containers as follows:

(a) (2) *Spec. 15A, 15B, 15C, 16A, or 19A.* Wooden boxes with inside containers consisting of glass bottles not over 1 quart capacity each; bottles must have vented closure and must be packed in a metal container vented at bottom packed in another metal container vented at top; cushioning material shall be used between glass bottle and inner container and between inner and outer metal containers; cushioning material shall be vermiculite or equivalent in an amount at least 10 times the volume of the hydrogen peroxide shipped and shall be wet with at least 10 percent water by volume to which has been added a stabilizing agent.

(a) (3) *Spec. 42D.* Aluminum drums with vented closure in top head; not over 30 gallons capacity; side openings not permitted. Closure must be sealed to prevent removal in transit and top head plainly marked "Keep This End Up" or "Keep Plug Up To Prevent Spillage". For shipments other than carload or truckload lots loaded by consignor and unloaded by consignee drums must be of design and venting arrangement approved by the Bureau of Explosives.

(b) (1) Hydrogen peroxide containing not over 52 percent H_2O_2 strength by weight may also be packed in specification containers as follows:

(b) (2) *Spec. 15A, 15B, 15C, 16A, or 19A.* Wooden boxes with glass or earthenware inside containers of not more than 1 gallon capacity each. Inside containers must be well cushioned. All material used for cushioning must be incombustible mineral matter, such as whiting, mineral wool, infusorial earth, asbestos, or sifted ashes. Cushioning of inside containers in outside wooden boxes by means of elastic packing, such as wooden strips or large corks fastened securely in position, is authorized if the completed package will pass the swing test prescribed for boxed carboys in spec. 1A.

(b) (3) *Spec. 34B.* Aluminum carboys.

(b) (4) *Spec. 42D.* Aluminum drums with vented closure in top head; not over 30 gallons capacity. Closure must be sealed to prevent removal in transit and top head plainly marked "Keep This End Up" or "Keep Plug Up To Prevent Spillage." Aluminum drums already in service for the transportation of this material, manufactured prior to April 24, 1934, and of at least equal strength and efficiency thereto, may be continued in use until further order of the Commission.

(b) (5) *Spec. 42E.* Aluminum drums (single-trip).

(c) (1) Hydrogen peroxide containing over 8 percent H_2O_2 strength by weight and not exceeding 37 percent may also be packed in specification containers as follows:

(c) (2) *Spec. 1A.* Glass carboys. The cushioning must be incombustible mineral material, elastic wooden-strip packing, or large elastic cushions such as corks fastened securely in position. The use of hay, excelsior, ground cork, or similar material, whether treated or untreated, is prohibited. The carboy stoppers must be vented so as to prevent accumulation of internal pressure; use of cork gasket impregnated with paraffin is authorized.

(c) (3) *Spec. 1X.* Boxed carboys of 5 to 6 gallon capacity; single-trip for export only. For shipment via common carriers by water to noncontiguous territories or possessions of the United States and foreign countries; shipments from inland points in the United States which are consigned to such destinations are authorized to be transported to ship side by rail freight in carload lots only and by motor vehicle in truckload lots only.

(c) (4) *Spec. 1D.* Boxed glass carboys of not over 6.5 gallons nominal capacity. Means shall be provided so that accumulated pressure in bottle shall not exceed 10 pounds per square inch gauge at 130° F., or shall vent at a pressure not to exceed 10 pounds per square inch gauge. The cushioning must be incombustible mineral material, elastic wood-strip packing, or large elastic cushions such as corks fastened securely in position. The use of hay, excelsior, ground cork, or similar material, whether treated or untreated, is prohibited.

(d) (1) Hydrogen peroxide containing over 8 percent H_2O_2 strength by weight and not exceeding 10 percent may also be packed in specification containers as follows:

(d) (2) *Spec. 10A.* Wooden barrels, paraffin-lined.

(e) (1) Hydrogen peroxide not exceeding 52 percent H_2O_2 strength by weight not subject to these regulations when shipped in tank cars or tank motor vehicles.

(e) (2) Hydrogen peroxide exceeding 52 percent H_2O_2 strength by weight may also be shipped in tank cars or tank motor vehicles subject to these regulations provided that such shipments are for ultimate use by the War or Navy Departments of the United States Government. Tank cars and tank motor vehicles must be of design and venting arrangement approved by the Bureau of Explosives.

35. Amending section 267 (*Packing mixed acid (nitric and sulfuric acid) nitrating acid*), order August 16, 1940, as follows (add):

(a) (6) (b) *Spec. 1D.* Boxed glass carboys of not over 6.5 gallons nominal capacity; authorized only for mixed nitric and sulfuric acid, containing not over 17 percent nitric acid and containing at least 33 percent water; means shall be provided so that accumulated pressure in bottle shall not exceed 10 pounds per square inch gauge at 103° F., or shall vent at a pressure not to exceed 10 pounds per square inch gauge. Cushioning must be incombustible mineral material, elastic wood-strip packing, or large elastic cushions such as cork, fastened securely in position. The use of hay, excelsior, ground cork, or similar material, whether treated or untreated, is prohibited.

36. Superseding and amending paragraph (c), section 269 (*Packing perchloric acid, etc.*), order August 16, 1940, to read as follows:

(c) *Spec. 1A, 1C, or 1D.* Carboys, boxed or in kegs.

37. Superseding and amending paragraph (d) (1), section 302 (*Refrigerating machines, etc.*), order January 23, 1946, to read as follows:

(d) (1) Refrigerating machines of the self-contained type containing not over 50 pounds of gas, refrigerating machines of the remote-control type consisting of separate units shipped separately and each containing not over 25 pounds weight of gas, or other similar apparatus assembled for shipment containing not over 15 pounds weight of gas or liquid for their operation, under the following conditions:

38. Superseding and amending paragraph (n) (2), section 303 (*Liquefied petroleum gas*), order December 31, 1946, to read as follows:

(n) (2) *Spec. 3, 3A, 3B, 3E, 4, 4A, 4B, 4B240X, 4B240FLW, 25, 26, or 38.* Cylinders authorized under sec. 303 (p) (2) to 303 (p) (6) may be used.

NOTE: Because of the present emergency and until further order of the Commission, non-ICC specification containers used for liquefied petroleum gases prior to June 15, 1943, under laws, rules, or regulations of the States in which they are located, and so long as they are maintained in safe transportation condition, are authorized for use in the transportation of those gases by common, contract, or private carrier by motor vehicle, in intrastate commerce only, within those States. All other requirements of the Commission for such transportation must be complied with. This authority does not apply to cargo tanks of tank motor vehicles.

39. Amending paragraph (p), section 303 (*Qualification and maintenance of cylinders*), order August 16, 1940, as follows (add):

(p) (1) (k) For ICC–40 cylinders the service pressure is 200 pounds.

40. Amending paragraph (p) (14), section 303 order August 16, 1940, to read as follows (add):

(p) (14) (n) Cylinders made in compliance with specification ICC–4B used exclusively in non-corrosive gas service and protected externally by suitable corrosion resisting coatings, (such as galvanizing, painting, etc.), may be retested decennially instead of quinquennially, or, such cylinders may be subjected to an internal hydrostatic presure equal to at least 2 times the marked service pressure without determination of expansions (see note), but this type of test must be repeated quinquennially after expiration of the first ten-year period. When subjected to this latter test cylinders must be carefully examined under test pressure and removed from service if leaks or other harmful defects exist. All tests must be supplemented by a very careful examination of the cylinder at each filling, and must be rejected if evidence is found of bad dents, corroded areas, a leak or other conditions that indicate possible weakness which would render the cylinder unfit for service.

NOTE: Cylinders tested by the modified hydrostatic method shall be marked after each retest with the date of test as otherwise required but followed by the symbol S; for example, 8–46S indicating retest by the modified method in August, 1946.

41. Amending paragraph (q) (1) table, section 303 (*Compressed gases in tank cars and motor vehicles*), order August 16, 1940, as follows (add):

Name of gas	Maximum permitted filling density (see note 1)	Required type of tank car, note 2
Argon	Note 5	ICC–107A.
Nitrosyl chloride	124	ICC–105A300W. Note 17.

NOTE 17: Before an ICC–105A300W tank car may be used for the transportation of nitrosyl chloride, the following requirements must be met: Tanks must be made of or clad with a metal not subject to rapid deterioration by the lading; all appurtenances, such as manhole covers, venting, loading and discharge valves, safety valves, check valves, and eduction pipes, must be made of metal not subject to rapid deterioration by the lading; cork must be used as an insulating material.

42. Superseding and amending paragraph (q) (1) note 16, section 303 (*Compressed gases in tank cars and motor vehicles*), order August 22, 1945, to read as follows:

NOTE 16: All parts of valves and safety devices in contact with contents of tank must be of a metal or other material suitably treated if necessary, which will not cause formation of any acetylides.

43. Superseding and amending paragraph (q) (1) note 7, section 303 (*Compressed gases in tank cars and motor vehicles*), order November 4, 1946, to read as follows:

NOTE 7: Before any ICC–107A tank car may be used for shipments of hydrogen or nonliquefied hydrocarbon gas the following requirements must be met: Each tank must be equipped with one or more safety devices of approved type and discharge area, the discharge outlet of each safety device must be connected to a manifold having an unobstructed discharge area of at least one and one-half times the total discharge area of the safety devices connected to the manifold; all manifolds must be connected to a single common header having an unobstructed discharge outlet pointing upward and extending above top of the car; the header and the header outlet must each have an unobstructed discharge area at least equal to the total discharge area of the manifolds connected to the header; the header outlet must be equipped with an approved ignition device which will instantly ignite any hydrogen or nonliquefied hydrocarbon gas discharged through the safety devices.

44. Amending section 354 (*Arsenical compounds n. o. s., arsenate of lead, calcium arsenate, etc.*), order August 16, 1940, as follows (add):

(e) (1) Arsenical compounds n. o. s. containing not more than 6 percent arsenic of which not more than 0.25 percent is water soluble must be packed in specification containers as follows:

(e) (2) As prescribed in sections 354 (b), (c), or (d).

(e) (3) *Spec. 44B.* Paper bags with two added inside thicknesses of No. 1 Kraft paper, one sheet having a Mullen test of 50 and the other sheet having a Mullen test of 40. Net weight not over 50 pounds each.

(f) Multi-wall paper bags having combined strength of 360 pounds, Mullen or Cady test, or equivalent, are authorized, upon demonstration and proof of satisfactory tests to representative of the Bureau of Explosives. Bags so approved must be marked "ICC–44BX."

45. Superseding and amending paragraph (f), section 356 (*Packing carbolic acid (phenol), not liquid*), order August 16, 1940, to read as follows:

(f) *Spec. 17E, or 17H.* Metal drums (single-trip). Net weight not over 450 pounds.

46. Superseding and amending paragraph (c) (1), section 361 (*Packing poisonous solids as defined in section 350, etc.*), order August 16, 1940, to read as follows:

(c) (1) *Spec. 17E, 17H, or 37D.* Metal drums (single-trip). Gross weight not over 300 pounds.

APPENDIX TO PART 3—SHIPPING CONTAINER SPECIFICATIONS

1. Superseding and amending paragraph 4, Spec. 1A (*Capacity and marking of carboys*), order August 16, 1940, to read as follows:

4. *Capacity and marking of carboy.* Containers 5 to 13 gallons are classed as carboys; glass bottles having nominal capacity of 3 gallons also authorized when boxed in accordance with the requirements for carboys having 5 gallon capacity. Must be permanently marked to indicate maker and year of manufacture; mark of maker to be registered with the Bureau of Explosives.

2. Amending Spec. 3B, order August 16, 1940, as follows (add):

23. Acceptance not authorized under paragraph 23.

3. Amending Spec. 3BN, order August 16, 1940, as follows (add):

23. Acceptance not authorized under paragraph 23.

4. Amending Spec. 3C, order August 16, 1940, as follows (add):

23. Acceptance not authorized under paragraph 23.

5. Amending Spec. 3D, order August 16, 1940, as follows (add):

23. Acceptance not authorized under paragraph 23.

6. Amending Spec. 3E, order August 16, 1940, as follows (add):

23. Acceptance not authorized under paragraph 23.

7. Amending Spec. 4, order August 16, 1940, as follows (add):

23. Acceptance not authorized under paragraph 23.

8. Amending Spec. 4A, order August 16, 1940, as follows (add):

23. Acceptance not authorized under paragraph 23.

9. Amending Spec. 4C, order August 16, 1940, as follows (add):

23. Acceptance not authorized under paragraph 23.

10. Superseding and amending paragraph 2, Spec. 5A (*Rated capacity*), order August 16, 1940, to read as follows:

2. *Rated capacity as marked, see paragraph 11 (c).* Actual capacity of straight-sided containers shall be not less than rated (marked) capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 1 quart, except that for containers over 30 gallons marked capacity actual capacity shall be not less than rated capacity plus 2 percent, nor greater than rated capacity plus 2 percent plus 1 gallon; actual capacity of bilge-type containers must be not less than rated capacity, nor greater than rated capacity plus 2 percent plus 1 gallon.

11. Superseding and amending paragraph 9 (b), Spec. 5A (*Closures*), order August 16, 1940, to read as follows:

(b) *Closing part (plug, cap, plate, etc.) must be of metal as thick as prescribed for head of container; this not required for containers of 12 gallons or less when the opening to be closed is not over 2.3 inches in diameter. If unthreaded cap is used it must be provided with outside sealing devices which cannot be removed without destroying the cap or sealing device.

12. Superseding and amending paragraph 14, Spec. 5A (*Leakage test*), order August 16, 1940, to read as follows:

14. *Leakage test.* Each container shall be tested, with seams under water or covered with soapsuds or heavy oil, by interior air pressure of at least 15 pounds per square inch. Equally efficient means of testing are authorized upon demonstration and proof of satisfactory tests to representative of Bureau of Explosives. Leakers shall be rejected or repaired and retested.

13. Superseding and amending paragraph 14, Spec. 5 (*Leakage test*), order April 13, 1943, to read as follows:

14. *Leakage test.* Each container shall be tested, with seams under water or covered with soapsuds or heavy oil, by interior air pressure of at least 15 pounds per square inch. Equally efficient means of testing are authorized upon demonstration and proof of satisfactory tests to representative of Bureau of Explosives. Leakers shall be rejected or repaired and retested. Removable head containers not required to be tested with heads in place except that samples taken at random and closed as for use, of each type and size, must be tested at start of production and repeated every four months. Samples so tested must be retained until further tests are made.

14. Superseding and amending paragraph 14, Spec. 5B (*Leakage test*), order April 13, 1943, to read as follows:

14. *Leakage test.* Each container shall be tested, with seams under water or covered with soapsuds or heavy oil, by interior air pressure of at least 15 pounds per square inch. Equally efficient means of testing are authorized upon demonstration and proof of satisfactory tests to representative of Bureau of Explosives. Leakers shall be rejected or repaired and retested. Removable head containers not required to be tested with heads in place except that samples taken at random and closed as for use, of each type and size, must be tested at start of production and repeated every four months. Samples so tested must be retained until further tests are made.

*This does not apply to cap seal over a closure which complies with all requirements.

15. Superseding and amending paragraph 14, Spec. 5D (*Leakage test*), order January 23, 1946, to read as follows:

14. *Leakage test.* Each container shall be tested, with seams under water or covered with soapsuds or heavy oil, by interior air pressure of at least 15 pounds per square inch. Equally efficient means of testing are authorized upon demonstration and proof of satisfactory tests to representative of Bureau of Explosives. Leakers shall be rejected or repaired and retested. Removal head containers not required to be tested with heads in place except that samples taken at random and closed as for use, of each type and size, must be tested at start of production and repeated every four months. Samples so tested must be retained until further tests are made.

16. Superseding and amending paragraph 14, Spec. 5F (*Leakage test*), order August 16, 1940, to read as follows:

14. *Leakage test.* Each container shall be tested, with seams under water or covered with soapsuds or heavy oil, by interior air pressure of at least 100 pounds per square inch. Equally efficient means of testing are authorized upon demonstration and proof of satisfactory tests to representative of Bureau of Explosives. Leakers shall be rejected or repaired and retested.

17. Superseding and amending paragraph 14, Spec. 5L (*Leakage test*), order July 14, 1942, to read as follows:

14. *Leakage test.* Each container shall be tested, with seams under water or covered with soapsuds or heavy oil, by interior air pressure of at least 5 pounds per square inch. Equally efficient means of testing are authorized upon demonstration and proof of satisfactory tests to representative of Bureau of Explosives. Leakers shall be rejected or repaired and retested.

18. Superseding and amending paragraph 14, Spec. 6A (*Leakage test*), order April 13, 1943, to read as follows:

14. *Leakage test.* Each container shall be tested, with seams under water or covered with soapsuds or heavy oil, by interior air pressure of at least 15 pounds per square inch. Equally efficient means of testing are authorized upon demonstration and proof of satisfactory tests to representative of Bureau of Explosives. Leakers shall be rejected or repaired and retested. Removable head containers not required to be tested with heads in place except that samples taken at random and closed as for use, of each type and size, must be tested at start of production and repeated every four months. Samples so tested must be retained until further tests are made.

19. Superseding and amending paragraph 14, Spec. 6B (*Leakage test*), order April 13, 1943, to read as follows:

14. *Leakage test.* Each container shall be tested, with seams under water or covered with soapsuds or heavy oil, by interior air pressure of at least 15 pounds per square inch. Equally efficient means of testing are authorized upon demonstration and proof of satisfactory tests to representative of Bureau of Explosives. Leakers shall be rejected or repaired and retested. Removable head containers not required to be tested with heads in place except that samples taken at random and closed as for use, of each type and size, must be tested at start of production and repeated every four months. Samples so tested must be retained until further tests are made.

20. Superseding and amending paragraph 14, Spec. 6C (*Leakage test*), order April 13, 1943, to read as follows:

14. *Leakage test.* Each container shall be tested, with seams under water or covered with soapsuds or heavy oil, by interior air pressure of at least 15 pounds per square inch. Equally efficient means of testing are authorized upon demonstration and proof of satisfactory tests to representative of Bureau of Explosives. Leakers shall be rejected or repaired and retested. Removable head containers not required to be tested with heads in place except that samples taken at random and closed as for use, of each type and size, must be tested at start of production and repeated every four months. Samples so tested must be retained until further tests are made.

21. Superseding and amending paragraph 4, Spec. 15D (*Handles*), order April 19, 1946, to read as follows:

4. *Handles.* Containers may be provided with suitable handles at discretion of shipper. Handles must be of dimensions specified herein, consisting of horizontal strips or cleats extending across top of each side or each end; handles which do not project 3 inches beyond the vertical edges of the container must be mounted to leave at least 7/16 inch open space between handle and box, or be at least ¾ inch thick, or be of cross section at least equal to cleats required for single-cleated boxes of corresponding size and gross weight. Extension of cleats or side boards is acceptable for projecting handles.

Authorized gross weight, maximum (pounds):	*Handles, minimum cross section (inches)*
100	½ x 1¾
150	½ x 2⅜
200	⅝ x 2½
300	⅝ x 3½
400	13/16 x 3½

22. Superseding and amending paragraph 6 (b), Spec. 16B (*Handles*), order August 16, 1940, to read as follows:

6. (b) *Handles.* Containers may be provided with suitable handles at discre-

tion of shipper. When used, they must be securely fastened along tops of sides under wires and project 3 inches or be mounted on end cleats; extensions of side boards acceptable; dimensions as follows:

Authorized gross weight, not over (pounds):	*Handles minimum cross section** *(inches)*
150	½ x 2½
200	⅝ x 2½
315	⅝ x 3½
400	13/16 x 3½

*Also ridge reinforcing battens when prescribed.

23. Superseding and amending paragraph 14, Spec. 17C (*Leakage test*), order April 13, 1943, to read as follows:

14. *Leakage test.* Each container shall be tested, with seams under water or covered with soapsuds or heavy oil, by interior air pressure of at least 15 pounds per square inch. Equally efficient means of testing are authorized upon demonstration and proof of satisfactory tests to representatives of Bureau of Explosives. Leakers shall be rejected or repaired and retested. Removal head containers not required to be tested with heads in place except that samples taken at random and closed as for use, of each type and size, must be tested at start of production and repeated every four months. Samples so tested must be retained until further tests are made.

24. Superseding and amending Spec. 17E, order August 16, 1940, to read as follows:

(Cancel): Removal head containers which will pass all required tests are authorized.
(Add): Removable head containers not authorized.

25. Superseding and amending part of paragraph 7, Spec. 17E (*Parts and dimensions*), order August 16, 1940, to read as follows:

(Cancel): *20 gauge authorized for containers not of the full open head type.
(Add): *20 gauge authorized.

26. Superseding and amending paragraph 9 (c), Spec. 17E (*Closures*), order August 16, 1940, to read as follows:

(c) For closure with threaded plug or cap, the seat (flange, etc.) for plug, or cap, must have 3 or more complete threads; two drainage holes of not over 5/16 inch diameter are allowed. Plug, or cap, must have sufficient length of thread to engage 3 threads when screwed home with gasket in place. *Provided*, That for containers having a capacity of 12 gallons and less the seat (flange, etc.) for plug, or cap, must have two or more complete threads and plug, or cap, must have sufficient length of thread to engage two threads when screwed home with gasket in place.

27. Superseding and amending paragraph 14, Spec. 17E (*Leakage test*), order April 13, 1943, to read as follows:

14. *Leakage test.* Each container shall be tested, with seams under water or covered with soapsuds or heavy oil, by interior air pressure of at least 7 pounds per square inch for containers over 12 gallons capacity and at least 5 pounds for others. Equally efficient means of testing are authorized upon demonstration and proof of satisfactory tests to representative of Bureau of Explosives. Leakers shall be rejected or repaired and retested.

28. Amending order August 16, 1940, as follows (add):

SPECIFICATION 17H—STEEL DRUMS

Single Trip Container (Removable Head)

Containers must comply with specification 5A except as follows (paragraph references are to specification 5A):

5. (b) and (c) and 6. These paragraphs do not apply.

7. *Parts and dimensions.* As follows:

Marked capacity not over (gallons)	Type of container	Minimum thickness in the black (gage U. S. standard)			Rolling hoops		
						Minimum	
		Body sheet	Bottom head sheet	Removable head sheet	Type	Size (gage or inch)	Weight (pounds per foot)
5	St. side	24	24	20	None	----------	----------
30	----do	18	18	18	(1)	----------	----------
55	----do	18	18	*14	(1)	----------	----------

[1] Rolled or swedged in hoops.
[2] Each drum must have three rolled or swedged in hoops, one to be placed in the body near the top curl.
*16 gage authorized provided there are one or more additional hoops in the body near top curl, and provided there are one or more corrugations in the cover near the periphery.

8. *Convex heads.* Convex (crowned) heads, not extending beyond level of chime, required for drums of 25 gallons capacity or over; minimum convexity of ⅜ inch required.

9. (a) *Closures.* Adequate to prevent leakage; gaskets required.

9. (b) Drums over 5 gallons capacity must be closed by means of 12 gage bolted ring with drop forged lugs, one of which is threaded, and having ⅝ inch bolt and nut. 5 gallon drums must be of lug type closure with cover having at least 16 lugs. Equally efficient types of closures are authorized upon demonstration and proof of satisfactory tests to representative of Bureau of Explosives.

9. (c) For closure with threaded plug or cap, the seat (flange, etc.) for plug, or cap, must have 3 or more complete threads; two drainage holes of not over 5/16 inch diameter are allowed. Plug, or cap, must have sufficient length of thread to engage 3 threads when screwed home with gasket in place. *Provided*, That for containers having a capacity of 12 gallons and less the seat (flange, etc.) for plug, or cap, must have two or more complete threads and plug, or cap, must have sufficient length of thread to engage two threads when screwed home with gasket in place.

9. (d) and (e) These paragraphs do not apply.

11. (a) *ICC–17H.* This mark shall be understood to certify that the container complies with all specification requirements. The letter STC; located just below or above the ICC mark to indicate "single trip container."

13. (a) Test by dropping, filled with water to 98 percent capacity, from height of 4 feet onto solid concrete so as to strike diagonally on chime, or when without chime seam, to strike on other circumferential seam; also additional drop test on any other parts which might be considered weaker than the chime. Closing devices and other parts projecting beyond chime or rolling hoops must also be capable of withstanding this test.

13. (b) Hydrostatic pressure test of 15 pounds per square inch sustained for 5 minutes.

14. *Leakage test.* Each container shall be tested, with seams under water or covered with soapsuds or heavy oil, by interior air pressure of at least 7 pounds per square inch for containers over 12 gallons capacity and at least 5 pounds for others. Equally efficient means of testing are authorized upon demonstration and proof of satisfactory tests to representative of Bureau of Explosives. Leakers shall be rejected or repaired and retested. Containers not required to be tested with heads in place except that samples taken at random and closed as for use, of each type and size, must be tested at start of production and repeated every four months. Samples so tested must be retained until further tests are made.

29. Superseding and amending paragraph 13, Spec. 17X (*Leakage test*), order March 31, 1941, to read as follows:

13. *Leakage test.* Each container shall be tested, with seams under water or covered with soapsuds or heavy oil, by interior air pressure of at least 7 pounds per square inch. Equally efficient means of testing are authorized upon demonstration and proof of satisfactory tests to representative of Bureau of Explosives. Leakers shall be rejected or repaired and retested.

30. Superseding and amending paragraph 12, Spec. 42B (*Leakage test*), order August 16, 1940, to read as follows:

12. *Leakage test.* Each container shall be tested, with seams under water or covered with soapsuds or heavy oil, by interior air pressure of at least 15 pounds per square inch. Equally efficient means of testing are authorized upon demonstration and proof of satisfactory tests to representative of Bureau of Explosives. Leakers shall be rejected or repaired and retested.

31. Superseding and amending paragraph 12, Spec. 42D (*Leakage test*), order August 16, 1940, to read as follows:

12. *Leakage test.* Each container shall be tested, with seams under water or covered with soapsuds or heavy oil, by interior air pressure of at least 10 pounds per square inch. Equally efficient means of testing are authorized upon demonstration and proof of satisfactory tests to representative of Bureau of Explosives. Leakers shall be rejected or repaired and retested.

32. Amending order August 16, 1940, as follows (Add):

SPECIFICATION 42E—ALUMINUM DRUMS

Single-trip container

Container must comply with Specification 42B except as follows (paragraph references are to specification 42B):

2. Rated capacity as marked, see paragraph 9. 55 gallons; actual capacity shall be rated capacity plus at least 2 percent.

3. *Composition.* Body and heads of aluminum alloy 52S. Plastic closure plugs authorized if suitably resistant to action of lading.

6. (a) *Parts and dimensions.* To be of 14 B & S gauge (.064").

6. (b) Rolled or swedged in rolling hoops required.

7. (a) *Closures.* Of screw-thread type or secured by screw-thread device; openings over 2.3 inches not authorized; suitable gaskets required; head openings only permitted. Vented closing devices of type approved by the Bureau of Explosives are authorized when specified by the purchaser.

8. *Head rings.* Must be of 14 B&S gauge (.064") tack-welded to each head.

9. (a) *ICC–42E.* This mark shall be understood to certify that the container complies with all specification requirements. The letters STC; located just below or above the ICC mark to indicate "single-trip container".

10. *Size of marking (minimum).* 1 inch high.

12. *Leakage test.* Each container shall be tested, with seams under water or covered with soapsuds or heavy oil, by interior air pressure of at least 10 pounds per square inch. Leakers shall be rejected or repaired and retested.

33. Superseding and amending paragraph 16 (g), Spec. 105A300 (*Marking*), order August 16, 1940, to read as follows:

(g) Water capacity of the tank in pounds stamped plainly and permanently in letters and figures at least ⅜ inch high into the metal of the tank immediately below the mark specified in paragraphs 16 (c) and 16 (d). This mark must also be stenciled on the jacket immediately below the dome platform and either directly behind or within 3 feet of the right or left side of ladder, or ladders if there is a ladder on each side of the tank, in letters and figures at least 2 inches high as follows: "Water capacity—000000 pounds."

[S. O. 689]

PART 97—ROUTING OF TRAFFIC

RETURNING EMPTY REFRIGERATOR CARS THROUGH CHICAGO, ILL.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 28th day of February A. D. 1947.

It appearing, that the Belt Railway Company of Chicago and the Indiana Harbor Belt Railroad Company in return movement are engaging in the practice of returning the identical empty refrigerator car to the railroad from which it was received under load with perishable traffic, thus causing additional switching resulting in delay to the movement of such empty refrigerator cars; in the opinion of the Commission an emergency requiring immediate action exists in the Chicago Switching District, it is ordered, that:

§ 97.689 *Returning empty refrigerator cars through Chicago, Ill.* (a) The Belt Railway Company of Chicago and the Indiana Harbor Belt Railroad Company shall transport, move, or switch, and deliver an equal number of return empty refrigerator cars to each line haul railroad as were received from each line haul railroad in loaded movement as ordered by this Commission's Refrigerator Car Agent C. W. Taylor, 59 East Van Buren Street, Chicago, Illinois, regardless of ownership or markings of particular cars, and without regard to the railroad from which such empty cars were received in loaded movement.

(b) *Application.* The provisions of this section shall apply to interstate and foreign commerce.

(c) *Rules, regulations and practices suspended.* The operation of all rules, regulations, and practices insofar as they conflict with the provisions of this section, is hereby suspended.

(d) *Effective date.* This section shall become effective at 12:01 a. m., March 1, 1947.

(e) *Expiration date.* This section shall expire at 11:59 p. m., June 30, 1947, unless otherwise modified, changed, suspended or annulled by order of this Commission.

It is further ordered, that a copy of this order and direction shall be served upon the Belt Railway Company of Chicago and the Indiana Harbor Belt Railroad Company, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

[Dissolution Order 51]

KANEMATSU TRADING CORP.

Whereas, by Vesting Order Number 189, dated September 28, 1942 (7 F. R. 8815, October 30, 1942), there were vested all of the issued and outstanding shares of the capital stock of Kanematsu Trading Corporation, a New York corporation; and

Whereas, Kanematsu Trading Corporation has been substantially liquidated under the supervision of the undersigned;

Now, under the authority of the Trading with the Enemy Act, as amended, and Executive Orders 9095, as amended, and 9788, and pursuant to law, the undersigned, after investigation:

1. Finding that the claims of all known creditors have been paid except possible claims for taxes and fees owed by or accruing against the corporation, and except such claim, if any, as the Attorney General of the United States may have for monies advanced or services rendered to or on behalf of the corporation; and

2. Having determined that it is in the national interest of the United States that said corporation be dissolved, and that its assets be distributed, and a certificate of dissolution having been issued by the Secretary of State of the State of New York:

hereby orders that the officers and directors of Kanematsu Trading Corporation (to wit, Francis J. Carmody, President and Director, Robert Kramer, Secretary and Director, and Martin S. Watts, Treasurer and Director, and their successors, or any of them), continue the proceedings for the dissolution of Kanematsu Trading Corporation; and further orders, that the said officers and directors wind up the affairs of the corporation and distribute the assets thereof coming into their possession as follows:

(a) They shall first pay the current expenses and reasonable and necessary charges of winding up the affairs of said corporation and the dissolution thereof; and

(b) They shall then pay all known Federal, state, and local taxes and fees owed by or accruing against the said corporation; and

(c) They shall then pay over, transfer, assign and deliver to the Attorney General of the United States, all of the funds and property, if any, remaining in their hands after the payments as aforesaid, the same to be applied by him, first in satisfaction of such claim, if any, as he may have for monies advanced or services rendered to or on behalf of the corporation, and second, as a liquidating distribution of assets to the Attorney General of the United States as holder of all the issued and outstanding stock of the corporation; and
